## Comptroller Holds Tie Bids Must Be Decided By Lot; Bars Reclamation Bureau Procedure

Tie bids must be awarded by drawing lots, the comptroller general has advised Secretary of the Interior Harold Ickes. He directs that this procedure be followed in the future by the U. S. Bureau of Reclamation, where it has been recently the policy to award the contract to the bidder whose shipping point is farthest from the destination in the case of identical proposals.

Bidders in the vicinity have protested to the comptroller general that this policy deprived them of all business from the bureau.

If there is suspected a collusion among bidders or a violation of anti-trust laws there are statutes under which the government may proceed, but the awarding agency may not penalize bidders at its own discretion, the comptroller's opinion holds.

Following is the text of his opinion to the Secretary of the Interior:

"Consideration has been given to your report of Oct. 31 and Nov. 21, 1936, concerning a complaint of the Rocky Mountain Architects and Builders Service, Denver, Colo. and subsequent complaint of the Colorado Fuel and Iron Corporation, of the same city, against the procedure followed by the Denver office of the bureau of reclamation in making awards of contracts where the bids are equal in amount and there is no other determining consideration in the matter. It appears from your report that the practice has been followed of awarding the contract in such cases to bidders farthest removed from the site, and the Denver concerns have complained with respect thereto that such procedure operated to deprive them of any of the contracts.

"While there has been noted your statement that, due to the 'persistent failure and refusal of bidders to submit bids on a competitive basis', there had been adopted the procedure of awarding the contract to that bidder farthest removed from the point where the material was required f.o.b. Government destination, section 3709, Revised Statutes, requires contracts to be awarded to the lowest responsible bidder, and if there be received bids, all in identical amounts and no particular advantage to the United States in selecting any one of the bids, there should be followed the procedure

## THREE CONTRACTS ON MARKET FOR AIR CORPS DEPOT

\$7,000,000 Construction Fund  
To Be Obligated  
In 1937

Three contracts for construction on the Army Air Corps Supply Depot at Sacramento are on the market, preliminary to early advertising of work for which \$7,000,000 has been appropriated. Major A. W. Parker, constructing quartermaster, is releasing contracts as rapidly as specifications are delivered to him from headquarters of the quartermaster general in Washington, D. C.

It is understood the Army intends to obligate virtually the entire appropriation this year, dividing it in about forty-five contracts. Two major buildings, the engineering shops and the supply warehouse, must be started at an early date in order to complete them within the period allotted for constructing the depot.

Contracts now advertised are the field grading, involving moving about 930,000 cubic yards of material, for bids January 15; 10,943 feet of railroad to be laid, bids January 19; elevated steel tanks of 300,000-gallon capacity, bids January 20.

Contract for drilling two wells has been awarded to Fred H. Eaton, Woodland. A contract has been let also to J. H. Baxter Co., San Francisco, at \$6,993 for furnishing railroad ties. Bids have been received for the first buildings, the quartermaster's warehouse, maintenance building and garage, and an award to Meyer Construction

(Continued on Page 4)

## STATE GRANTED \$7,704,000 FOR HIGHWAY WORK

1937 Construction Appropriation  
From Government  
Apportioned

California will receive \$7,704,520 in Federal grants for highway construction during the fiscal year starting July 1, 1937, from the apportionment of the appropriation authorized by the last Congress. Allocation of funds to the states was announced yesterday by Secretary of Agriculture Henry A. Wallace.

The allotment to California is divided as follows: Regular Federal-aid, \$4,858,200; Secondary or feeder roads, \$971,644; Grade crossing elimination, \$1,874,656. The same appropriation has been authorized for the 1938-39 fiscal year.

Funds for regular Federal-aid routes already have been budgeted in the State Highway Commission's program for the 1937-39 biennium. They are included in the total of approximately \$26,000,000 set aside for new construction. The allotments for feeder roads and grade separations will not be programmed until Federal regulations to govern their expenditure are received from the Secretary of Agriculture.

The allotment to the state of Nevada is \$2,769,063. It is distributed as follows: Regular Federal-aid, \$1,632,385; Secondary roads, \$326,477; Grade separations \$250,000.

Arizona was allotted a total of \$2,510,536, and Oregon, \$3,099,219.

## ILLNESS FATAL TO ALFRED T. HOWE

Alfred T. Howe, general contractor of Santa Rosa, died in a Berkeley hospital Tuesday, having been ill for about two months. Mr. Howe was at his construction camp on a state highway job in Mendocino county when he was stricken early in November.

He is survived by his widow, Mrs. Bertha Howe, a son, Alfred, and a daughter, Mary Lee. The family home is at 111 Sanford St., Santa Rosa.

## PLANS READY FOR TERMINAL OF SANTA FE

Railway Will Offer Contract  
On Two-Story Building  
In San Francisco

Contract for construction of the new Santa Fe bus and rail terminal in San Francisco will be let shortly after the first of the year, it was reported yesterday with the announcement that plans for the structure have been completed. The building site has been cleared under a separate contract. It fronts on Fourth Street, between Market and Mission, formerly being occupied by the historic Argonaut Hotel.

Investment in the site and the new building it is said will approximate \$500,000.

The building will be erected to a height of two stories at present. Plans for a larger structure will not be completed until the full effect of traffic shifts due to the bay bridge and the projected rapid transit system are known, Santa Fe officials said.

The building is to be of steel and concrete. Facings on Fourth St. and Pioneer Place will be of colored terra cotta, ornamented with white metal.

The main entrance will be on Fourth Street. The first floor area will be approximately 29,000 sq. ft. containing waiting rooms, ticket booths and the bus loading platform. The second floor is designed for offices and baggage handling quarters. A full basement will serve as a private garage for the company and will house the heating plant and other mechanical facilities.

Plans for the terminal were prepared by the company's engineering department in Los Angeles under direction of M. C. Blanchard, chief engineer, and H. L. Gilman, architect. It is understood the job will be offered to a selected list of general contractors for figures.

## MARTINEZ CARPENTERS RECEIVE \$9.00 SCALE

Carpenters' Local 2046 of Martinez announces a wage scale effective January 1 of \$1.12 1/2 per hour for work started after the first of the year. The new rate will not affect jobs under construction prior to January 1. The rate will apply on an eight-hour day, 40-hour week. Straight time is to be paid from 8 A. M. to 5 P. M., for the first five days of the week, time and one-half for the first four hours after 5 P. M., and double time thereafter. Saturday and Sunday work is to be paid for at double time.

### OFFICES MOVED

Cement Gun Construction Company of California is now located at 16 California Street, San Francisco.

## EASTBAY SEWER EXTENSION COST OVER \$3,830,000

Frickstad Estimates Construction Necessary on Western Waterfront

Construction of a disposal system to eliminate discharge of raw sewage on the west Oakland waterfront will cost \$3,830,000, according to a preliminary report filed with the city council by City Engineer Walter N. Frickstad. The estimates cover units necessary for the western outfall system, but a study is being made also of a plant for the treatment of sewage now discharged into the tidal canal and San Leandro Bay on which estimates have not been completed.

Mr. Frickstad's recommendations are summarized as follows:

Unit 1: A pumping plant for storm and sanitary sewage in the vicinity of 22nd and Peralta Sts., together with pressure discharge lines for storm water to the outer harbor and for sanitary sewage to a submerged outlet in deep water in the vicinity of the Key Route ferry slips. All the present sewage outlets would be brought together to go through this pumping plant. Total estimated cost, \$2,850,000.

Unit 2: The sewage of the Estuary is also considered in the report, although Estuary sewage is not believed to be connected with Bay Bridge odors. Frickstad recommends the construction of an interceptor along the Estuary west of 23rd Avenue, a pumping plant and a connection to the 22nd and Peralta Street outlet already described. Cost estimated at \$980,000.

Unit 3: An interceptor to protect the tidal canal and San Leandro Bay with the necessary pumping treatment plant. Designs in sufficient detail to warrant an estimate have not been made.

## Bids January 14 For Constructing Two Reno Bridges

Bids for construction of two bridges over the Truckee River in the city of Reno will be received January 14 by the Nevada State Highway Department at Carson City, it was announced yesterday. The two structures, with approaches, will cost about \$150,000.

One span is to cross the river at Sierra Street, the other at Lake Street.

The Sierra Street bridge will require 1206 cubic yards of concrete; 116,000 pounds reinforcing steel, and 270,000 lbs. of structural steel. The Lake Street Bridge will require 1232 cubic yards of concrete; 172,000 pounds reinforcing steel, and 18,000 pounds structural steel. Lighting equipment is included in the general contract for each bridge.

## VACANCY RATIO DROPS TO 3% IN MANY CITIES

FHA Survey Indicates Housing Shortage Reaching An Acute Stage

Fresh evidence of the strong demand for homes that has led to the widespread revival of residential building activity in 1936 is shown in local reports of residential vacancies compiled and analyzed by the division of economics and statistics of the Federal Housing Administration, according to Stewart McDonald, federal housing administrator.

Out of 19 cities in ten states which have conducted surveys in 1936 thirteen showed that less than 2 per cent of one-family homes were vacant. Of the 20 cities reporting vacancies in all types of residential structures in 1936, 16 reported vacancies of three per cent or less. Such figures, Mr. McDonald said, indicate difficulty in obtaining satisfactory housing and go far to explain the fact that during the first nine months of 1936 more houses were built, as shown by building permit statistics, than during the corresponding period of the three years 1932, 1933 and 1934 combined. The accumulated deficit of housing construction resulting from the depression is rapidly being translated into terms of effective demand, with consequent improvement in the entire home real estate market.

(Continued from Page 3)

Co., San Francisco, on their low bid of \$88,612, is expected shortly, of awarding the contract by lot. This office has held that, in view of the element of time involved in the shipping to destination, the administrative contracting officer may award the contract to a bidder in the locality where the work is to be performed or the material is to be used so as to effect any possible saving in time.

"If there has been a combination in violation of the anti-trust laws to throttle or impede competition through the naming of identical-bid prices by all of the bidders, there is an established procedure for proceeding against such bidders in combination to restrict competition. That procedure does not include the awarding of contracts to the bidder whose cost of performance would be the greatest, in an attempt to accomplish the correction of any such combination.

"Hereafter if the time element is not important and identical bids are submitted—both as to quality and price—there should be followed the procedure of awarding the contract by lot, which will operate to prevent the complaints in this case from the Rocky Mountain Architects and Builders Service and from the Colorado Fuel and Iron Corporation."

**PANAMA CANAL ZONE.**—Until January 11, 10:30 a.m., bids will be received by H. A. A. Smith, General Purchasing Officer, The Panama Canal, Washington, D. C., under Schedule No. 3211, for furnishing miscellaneous supplies and equipment, including: Sensitive Drill Presses, Wire Rope, Boiler Tubes, Cast-Iron Pipe Fittings, Twist Drills, Hand Taps, Files, Wrenches (Socket, Structural and Tap), Scythe Blades and Sheaths, Hand Shovels, Glass, Custom-er Stands, Cocoa-fiber Mats, Leather Belting, Harness Leather, Strap Leather, Curtain Fasteners, Anthracite Coal, Magnesia-asbestos Plaster, Insulating Switch Oil, Electric Detonators, and Photo Dryer Outfit and Heater.

Specifications obtainable from the above office and from the Assistant Purchasing Agent, The Panama Canal, Fort Mason, San Francisco.

**PANAMA CANAL ZONE.**—Until January 12, 10:30 a.m., bids will be received by H. A. A. Smith, General Purchasing Officer, The Panama Canal, Washington, D. C., under Schedule No. 3213, for furnishing 20,000 bbls. of portland cement.

Specifications obtainable from the above office and from the Assistant Purchasing Agent, The Panama Canal, Fort Mason, San Francisco.

## RECLAMATION BUREAU

**CASPER-ALCOVA PROJECT,** Wyoming.—Until January 15, 2 p.m., bids will be received by the Bureau of Reclamation, Denver, under Spec. No. 853-D, for furnishing and delivering f.o.b. cars at the shipping point and/or Casper, Wyoming, one portable oil purifier with a capacity of 300 gals. per hour; and one filter-paper drying oven for installation in the Seminoe power plant, Casper-Alcova project, Wyoming. All apparatus will be installed by the Government.

Specifications obtainable from the above office without charge to prospective bona fide bidders; to others, \$0.25, not returnable.

**SALT RIVER PROJECT,** Arizona.—Until January 15, 2 p.m., bids will be received by the Bureau of Reclamation, Denver, under Spec. No. 853-D, for furnishing and delivering f.o.b. cars at the shipping point and/or Phoenix, two 72-inch diam. welded plate-steel outlet pipes for installation in the outlet works at the Bartlett Dam, Salt River Project, Arizona.

The materials will be installed by the Government.

Specifications obtainable from the above office without charge to prospective bona fide bidders; to others, \$0.50, not returnable.

**SALT RIVER PROJECT,** Arizona.—Until January 18, 2 p.m., bids will be received by the Bureau of Reclamation, Denver, under Spec. No. 854-D, for furnishing and delivering f.o.b. cars at the shipping point and/or Phoenix, three 6-ft. by 7-ft. 6-in. high-pressure gate assemblies for installation in the slide-gate outlets at

the Bartlett Dam, Salt River Project, Arizona. The gate assemblies will be installed by the Government.

Specifications obtainable from the above office without charge to prospective bona fide bidders; to others, \$1.75, not returnable.

**BOISE PROJECT,** Idaho.—Until January 14, 2 p.m., bids will be received by the Bureau of Reclamation, Denver, under Spec. No. 853-D, for furnishing and delivering f.o.b. cars at the shipping point and/or Emmett, Idaho, structural steel for the railroad bridge at Station 5 plus 32.61 of the Black Canyon Canal, Payette division, Boise Project, Ida. All of the materials will be installed by the Government.

Specifications obtainable from the above office without charge to prospective bona fide bidders; to others, \$0.50, not returnable.

## WAR DEPARTMENT

**SACRAMENTO.**—Until January 5, 3 p.m., bids will be received by the U. S. Engineer Office, Lieut. Col. L. B. Chambers, District Engineer, U. S. Engineer Office, 298 Post Office Bldg., Sacramento, under Bid No. 1105-37-139, for furnishing 5,000 ft. standard hoisting rope of uncoated plain steel; 6 strands, 47 wires to the strand; independent wire rope core.

Delivery f.o.b. Sacramento.

Specifications obtainable from the above office.

**FORT MASON.**—Until January 6, 10 a.m., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot Fort Mason, under Bid No. 928-37-211, for furnishing fuses, storage batteries, truck parts, hose assemblies, bicycle parts, motorcycle parts, electrical materials, etc.

Materials are for shipment to the Hawaiian Quartermaster Depot, Honolulu.

Specifications obtainable from the above office.

## U. S. FOREST SERVICE

**GOVERNMENT ISLAND.**—Until January 6, 2 p.m., bids will be received by Frank Haynie, Supply Officer, Forest Service Supply Depot, Government Island, Oakland, as follows:

**BID NO. 4182**—25 mi. No. 12 AWG copper-covered steel telephone line wire; f.o.b. Russellville, Arkansas.

**BID NO. 4183**—598 pcs. corrugated steel sheets and 70 ft. ridge roll; f.o.b. bidder's shipping point and/or Placerville.

Specifications obtainable from the above office.

**GOVERNMENT ISLAND.**—Bids will be received by H. R. Marsh, Acting Supply Officer, Forest Service Supply Depot, Government Island, Oakland, as follows:

January 7, 2 P. M.  
**BID NO. 4185**—Gasoline pump and storage units, f.o.b. bidder's shipping point and/or various shipping points.

January 12, 2 P. M.  
**BID NO. 4187**—Ripper boom and detachable points, shovel adapters, and tools, etc.; f.o.b. bidder's shipping point and/or Government Island.

Specifications obtainable from the above office.

## 21— BRIDGES

### BIDS OPENED

PACIFIC CO., Wash.—Teufel & Carlson, Skinner Bldg., Seattle, at \$230,884, submitted low bid to L. V. Marrow, Director of Highways, Olympia, for the construction of a vertical lift steel bridge with treated pile and timber approach on about 0.2 mile of State Road No. 12, Naselle River Bridge, Pacific County.

Complete total bids follow:  
Teufel & Carlson, Seattle.....\$220,884  
Ralph A. Bell, Portland.....242,821  
Mirene Co., Portland.....244,441  
MacRae Bros., Seattle.....254,797  
M. P. Butler, Seattle.....282,513  
Bids held under advisement.

### BIDS WANTED

STATE OF WASHINGTON—Until January 12, 10 a. m., bids will be received by L. V. Marrow, Director of Highways, Olympia, for bridge construction as follows:

Benton and Franklin Counties—Re-decting and painting the existing bridge between Kennewick and Pasco on State Road No. 3, involving about 629 cu. y. of concrete, 415,000 lbs. of structural carbon steel, 201,500 lbs. of steel reinforcing bars, 3 MFMB of untreated timber and lumber, and other items.

Walla Walla County—Widening six bridges on State Road No. 3, Walla Walla to Wallula, involving about 733 cu. y. of concrete, 106,000 lbs. of steel reinforcing bars, 3,040 linear feet of precast concrete piling, and other items.

Plans and specifications obtainable from the above office upon deposit of \$2 per set.

### BIDS WANTED

WASHO CO., Nevada.—Until Jan. 14, 2 p. m., bids will be received by the Nevada State Highway Directors, Robert A. Allen, State Highway Engineer, Heroes Memorial Bldg., Carson City, for the construction of the Sierra Street Bridge across the Truckee River in the City of Reno. The work involves:

- (1) 2,000 cu. roadway excav.
- (2) 2,300 cu. struct. excav.
- (3) 0.025 mi. finishing roadway;
- (4) 945 cu. Class 'A' concrete;
- (5) 261 cu. Class D concrete;
- (6) 554 lf. concrete railing;
- (7) 115,000 lbs. reinforcing steel;
- (8) 270,000 lbs. structural steel;
- (9) 4 lf. 18-in. CMP;
- (10) 250 lbs. steel castings;
- (11) Lump sum, remove dam;
- (12) Lump sum, lighting equipment.

Plans and specifications obtainable from the above office upon deposit of \$5, of which amount \$2.50 will be returnable; and on file at the office of the Bureau of Public Roads, Federal Office Bldg., San Francisco.

### BIDS WANTED

WASHO CO., Nevada.—Until Jan. 14, 2:30 p. m., bids will be received by the Nevada State Highway Directors, Robert A. Allen, State Highway Engineer, Heroes Memorial Bldg., Carson City, for the construction of the Lake St. Bridge across the Truckee River in the City of Reno.

- The work involves:
- (1) 2,090 cu. roadway excav.
  - (2) 1,200 cu. structure excav.
  - (3) 0.029 mi. finish roadway;
  - (4) 610 cu. Class A concrete;
  - (5) 622 cu. Class D concrete;
  - (6) 328 lf. concrete railing;
  - (7) 172,000 lbs. reinforcing steel;
  - (8) 18,000 lbs. structural steel;
  - (9) Lump sum, lighting equipment;
  - (10) Lump sum, move buildings.

Plans and specifications obtainable from the above office upon deposit of \$5, of which amount \$2.50 will be returnable; and on file at the office of the Bureau of Public Roads, Federal Office Bldg., San Francisco.

Mills Const. Co.....4,235  
Barrett & Hillip.....4,265  
Frank J. Reilly Co.....4,351  
The bid of Healy-Tibbitts Constr. Co. was not accompanied by a check, so was not declared.

## 22— DREDGING HARBOR WORKS, EXCAVATION

### CONTRACT AWARDED

EUGENE, Oregon.—R. J. Hillstrom, Marshfield, at \$10,960 awarded contract by the Public Works Officer, Puget Sound Navy Yard, under Spec. No. 8346, for the construction of a retaining wall and groin at the Naval Radio Station, Eugene.

### BID OPENING POSTPONED

NAPA CO., Calif.—Until January 12, 3 p. m., date postponed from December 28, previously reported, bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House,

San Francisco, under Bid No. 863-37-85, for dredging and disposing of about 171,141 cu. y. of material in Napa River.

The work has been divided into four sections, as follows:

**Section "A"**—Dredging the channel in Napa River, from a point about 200 ft. northerly from Buoy 3, near Goodluck Point, upstream for a distance of about 1,000 ft., 100 ft. wide on the bottom, to a depth of 10 feet at mean lower low water (mud);

**Section "B"**—Dredging an area about 1,050 ft. long and of a maximum width of about 150 ft. on the bottom, located in and adjoining the channel in Napa River, at Horse-shoe Bend, to a depth of 10 ft. at mean lower low water (mud and gravel);

**Section "C"**—Dredging an area about 1,220 ft. long and of a maximum width of about 200 ft. on the bottom located in and adjoining the channel in Napa River, at Carr Bend, to a depth of 10 ft. at mean lower low water (mud, clay and gravel);

**Section "D"**—Dredging the channel in Napa River, from a point about 1,000 ft. downstream from the Napa Tannery Wharf upstream for a distance of about 630 ft. to the Third St. Bridge, 75 feet wide on the bottom to a depth of 10 ft. at mean lower low water, with a widening for a length of about 900 ft. from the bend opposite the said Tannery Wharf to and around Jack's Bend, so as to make a total channel width of from 150 feet to 250 feet on the bottom in said section, 10 ft. deep at mean lower low water; (chan-nel: mud, gravel, and trash; and widening: clay, gravel, loam, and trash).

Plans and specifications obtainable from the above office.

#### BIDS OPENED

**YERBA BUENA SHOALS**—Martin Murphy, 1441 Marin Ave., Berkeley, at \$11 per cu. y., total \$770, submitted the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, San Francisco, under Bid No. 863-37-108, for the excavation of a test pit on Yerba Buena Fairsite, in vicinity about 55 cu. y. of excavation at Milton A. Purdy, Oakland, at \$3.75 per cu. y., total \$2,956.25, submitted the only other bid.

#### CONTRACT AWARDED

**SAN FRANCISCO**—Duncanson-Hanson Co., 1404 de Young St., at \$3,718, awarded contract by the Department of Public Works, City Hall, under Spec. No. 18,989, for the construction of timber dolphins at the Third Street Bridge over Islais Creek Water Way.

#### 24—STREET LIGHTING

##### NEW BIDS WANTED

**SAN FRANCISCO**—Until January 7, 3 p.m., new bids will be received by the Public Utilities Commission, Room 287, City Hall, under Electrical Power Bureau Contract No. 18, for the construction of a street lighting system on Anza St., from Parker Ave. to Arguello Blvd. The work involves:

- (1) 9 electroliths, complete;
- (2) 1,050 ft. 1½-in. primary cable;
- (3) 3,000 ft. primary cable;
- (4) 4 pull boxes.

All bids received December 10 have been rejected. Lowest bid was submitted by the Electric Power Bureau at \$2,425.

Plans and specifications obtainable at Room 605, 425 Mason St., upon deposit of \$10.

#### 25—MACHINERY AND EQUIPMENT

##### BIDS OPENED

**LOS ANGELES**—Bids for furnish-ing transformer radiators were opened by D. P. Nicklin, purchasing agent of the Los Angeles Water and Power Bureau, room 740, 207 S. Broadway, December 25.

The items were:

- (1a) 108 transformer radiators, f.o.b. cars bidders' shipping point;
- (1b) 108 transformer radiators, f.o.b. cars or trucks, 1620 N. Main St.
- (1 Alt. Aa) 108 transformer radiators with blowers, etc. f.o.b. cars bidders' shipping point;
- (1 Alt. Ab) 108 transformer radiators with blowers, etc. f.o.b. 1630 N. Main St.

- (1 Alt. Ba) transformer radiators best suited on bidder's option, f.o.b. cars bidder's shipping point;
- (1 Alt. Bb) transformer radiators best suited on bidder's option, f.o.b. cars or trucks, 1620 N. Main St.

The bids were:

- (1a) Pennsylvania Transformer Co., \$20,498; (1b) \$21,421; (1 Alt. Aa) \$19,960; (1 Alt. Ab) \$20,700; (1 Alt. Ba) \$18,100; (1 Alt. Bb) \$19,600; (1 Alt. C) suggested by bidder \$18,200 and \$19,000. Shipping point, No. Side Pittsburgh Pa. Shipping point, \$19,720 lbs. net, \$3,000 lbs. test, \$5,900 lbs. test, \$5,500 lbs. test. Terms net 30.
- Moloney Electric Co., (1a) \$16,775; (1b) \$16,950; (1 Alt. Aa) \$21,375; (1 Alt. Ab) \$22,200; (1 Alt. Ba) \$22,575; (1 Alt. Bb) \$24,095. Shipping point, St. Louis, Mo. Shipping point, \$15,900 lbs. net, \$2,700 lbs. test, \$1,500 lbs. test. Terms net.

##### BIDS OPENED

**SACRAMENTO**—P. A. Hart, Broderick, at \$1,560, submitted the only bid received by the U. S. Engineer Office, Lieut.-Col. L. B. Chambers, District Engineer, Sacramento, under Bid No. 1105-37-112, for the rental of a tow boat, as follows:

- (1) Operated by the contractor at \$1,560; four shift basis, 20 hrs. \$1,110.
- (2) Operated by the contractor on an hourly basis, 40 hours, \$120.

##### BIDS OPENED

**YAKIMA**—PROVOST WOOD, P.O. Box 10, Yakima, submitted the Bid for Reclamation Work on House Diver, under Bid No. 577-D, for furnishing (1) one 5085-D, rated 275 and (2) one 27,000 lb. crane, 27 ft. high, for installation on the House Diver, at the Kachess Dam, Yakima Project, Wash.

Lakeside Bridge & Iron Works, Milwaukee, at \$2,775; (2) \$2,110; (3) and (4) \$4,790; (5) \$2,110; (6) \$2,110 net, (7) \$1,747; (8) \$2,110; (9) \$2,110 net.

Pekrul Iron Works, Detroit, at \$1,535; (2) \$1,535; (3) \$2,110; (4) \$2,110.

Commercial Boiler Works, Seattle, at \$1,535; (2) \$2,270; (3) \$2,270; (4) \$2,270; (5) \$2,270; (6) \$2,270; (7) \$2,270; (8) \$2,270; (9) \$2,270; (10) \$2,270; (11) \$2,270; (12) \$2,270; (13) \$2,270; (14) \$2,270; (15) \$2,270; (16) \$2,270; (17) \$2,270; (18) \$2,270; (19) \$2,270; (20) \$2,270; (21) \$2,270; (22) \$2,270; (23) \$2,270; (24) \$2,270; (25) \$2,270; (26) \$2,270; (27) \$2,270; (28) \$2,270; (29) \$2,270; (30) \$2,270; (31) \$2,270; (32) \$2,270; (33) \$2,270; (34) \$2,270; (35) \$2,270; (36) \$2,270; (37) \$2,270; (38) \$2,270; (39) \$2,270; (40) \$2,270; (41) \$2,270; (42) \$2,270; (43) \$2,270; (44) \$2,270; (45) \$2,270; (46) \$2,270; (47) \$2,270; (48) \$2,270; (49) \$2,270; (50) \$2,270; (51) \$2,270; (52) \$2,270; (53) \$2,270; (54) \$2,270; (55) \$2,270; (56) \$2,270; (57) \$2,270; (58) \$2,270; (59) \$2,270; (60) \$2,270; (61) \$2,270; (62) \$2,270; (63) \$2,270; (64) \$2,270; (65) \$2,270; (66) \$2,270; (67) \$2,270; (68) \$2,270; (69) \$2,270; (70) \$2,270; (71) \$2,270; (72) \$2,270; (73) \$2,270; (74) \$2,270; (75) \$2,270; (76) \$2,270; (77) \$2,270; (78) \$2,270; (79) \$2,270; (80) \$2,270; (81) \$2,270; (82) \$2,270; (83) \$2,270; (84) \$2,270; (85) \$2,270; (86) \$2,270; (87) \$2,270; (88) \$2,270; (89) \$2,270; (90) \$2,270; (91) \$2,270; (92) \$2,270; (93) \$2,270; (94) \$2,270; (95) \$2,270; (96) \$2,270; (97) \$2,270; (98) \$2,270; (99) \$2,270; (100) \$2,270.

Boyle Pipe & Welding, Seattle, at \$1,535; (2) \$2,270; (3) \$2,270; (4) \$2,270; (5) \$2,270; (6) \$2,270; (7) \$2,270; (8) \$2,270; (9) \$2,270; (10) \$2,270; (11) \$2,270; (12) \$2,270; (13) \$2,270; (14) \$2,270; (15) \$2,270; (16) \$2,270; (17) \$2,270; (18) \$2,270; (19) \$2,270; (20) \$2,270; (21) \$2,270; (22) \$2,270; (23) \$2,270; (24) \$2,270; (25) \$2,270; (26) \$2,270; (27) \$2,270; (28) \$2,270; (29) \$2,270; (30) \$2,270; (31) \$2,270; (32) \$2,270; (33) \$2,270; (34) \$2,270; (35) \$2,270; (36) \$2,270; (37) \$2,270; (38) \$2,270; (39) \$2,270; (40) \$2,270; (41) \$2,270; (42) \$2,270; (43) \$2,270; (44) \$2,270; (45) \$2,270; (46) \$2,270; (47) \$2,270; (48) \$2,270; (49) \$2,270; (50) \$2,270; (51) \$2,270; (52) \$2,270; (53) \$2,270; (54) \$2,270; (55) \$2,270; (56) \$2,270; (57) \$2,270; (58) \$2,270; (59) \$2,270; (60) \$2,270; (61) \$2,270; (62) \$2,270; (63) \$2,270; (64) \$2,270; (65) \$2,270; (66) \$2,270; (67) \$2,270; (68) \$2,270; (69) \$2,270; (70) \$2,270; (71) \$2,270; (72) \$2,270; (73) \$2,270; (74) \$2,270; (75) \$2,270; (76) \$2,270; (77) \$2,270; (78) \$2,270; (79) \$2,270; (80) \$2,270; (81) \$2,270; (82) \$2,270; (83) \$2,270; (84) \$2,270; (85) \$2,270; (86) \$2,270; (87) \$2,270; (88) \$2,270; (89) \$2,270; (90) \$2,270; (91) \$2,270; (92) \$2,270; (93) \$2,270; (94) \$2,270; (95) \$2,270; (96) \$2,270; (97) \$2,270; (98) \$2,270; (99) \$2,270; (100) \$2,270.

##### BIDS OPENED

**SACRAMENTO**—Following bids received by the U. S. Engineer Office, Lieut.-Col. L. B. Chambers, District Engineer, Sacramento, under Bid No. 1105-37-114, for the rental of air compressors, as follows:

- (1) Furnishing and operating one portable air compressor, for use at the Narrows Dam site; 900 hrs.
- (2) Furnishing and operating one portable air compressor, for use at the North Fork Dam site; 400 hours.

Western Machinery Co.—(1) Narrows Dam Site: Equipment with electric starter; (a) 200 hrs. and over per month, \$1.53 per hour; (b) 160 to 199 hours, \$1.90; (c) 140 to 159 hours, \$2.00; (d) 120 to 139 hours, \$2.55; (e) 100 to 119 hours, \$3.04. Equipment without electric starter: (a) \$1.24; (b) \$1.55; (c) \$1.77; (d) \$2.15; (e) \$2.48. (2) North Fork Dam Site: Equipment with electric starter: (a) \$1.50; (b) \$2.25; (c) \$2.57; (d) \$3.00; (e) \$3.50. Equipment without electric starter: (a) \$1.24; (b) \$1.55; (c) \$1.77; (d) \$2.15; (e) \$2.48. F.o.b. Auburn and Smartsville.

W. E. Cowen, San Francisco—(1) operator for 194 hours, \$200; compressor, \$250 per month; (2) compressor, \$225 per month; delivery 1 lb. Marysville and Auburn.

Leitch & Co., San Francisco—(1) \$225 per hour, 1 lb. Marysville; (2) \$247; f.o.b. Auburn.

A. Baker, Sacramento—(1) \$1.50, 1 lb. Marysville; no bid on item (2).

Louis Rosenberg, S. F.—(1) \$3.40, 1 lb. Marysville; no bid on item (2).

W. S. Machinery Co., Sacramento—(1) \$1.85, 1 lb. Marysville; (2) \$1.85, 1 lb. Auburn.

S. M. Bates Co., Oakland—(1) \$1.76; (2) \$1.84; 1 lb. Marysville and Auburn.

R. McGowan, Inc., S. F.—(1) \$1.90, 1 lb. Marysville; no bid on item (2).

W. H. Hart & Son, Inc., Sacramento—(1) \$1.85; (2) \$1.85.

##### BIDS OPENED

**SACRAMENTO**. Bids for furnishing and operating one dragline excavator with truck, grading and miscellaneous work at various places along the Colusa River from Colusa to the mouth. Bids were opened by the District Engineer's office, Lieut.-Col. L. B. Chambers, District Engineer, Sacramento, under Bid No. 1105-37-150.

The bids were as follows:

(1) Rate per hour for the dragline bucket is actually work excavating material estimated at 300 hours.

(2) Rate per hour for the dragline bucket is held idle for work estimated at 250 hours.

(3) Rate per hour for the dragline from job to job, estimated at 300 hours.

(4) Cost of delivering the dragline to the U. S. at Wilson's Slough, and removal therefrom by the contractor upon termination of the contract.

Complete bids follow:  
 E. C. Costa, Crocker (1) \$3; (2) \$5;  
 (3) \$5; (4) no bid; equipment  
 having a 60-ft. boom, 125-hp. motor  
 and 1½-yd. bucket.  
 Ajax Dredging Co., San Francisco—  
 (1) \$5; (2) \$3.50; (3) \$5; (4) no  
 bid.

**BIDS OPENED**

**LOS ANGELES**—Bids for furnish-  
 ing an electric mine hoist for use at  
 the Cabazon shaft of the San Jacinto  
 Tunnel of the Colorado River Aqueduct,  
 were opened by the Metropolitan  
 Water District, Los Angeles, Decem-  
 ber 28, under Spec. No. 182. The  
 bids were:

Nordberg Mfg. Co., 846 Subway  
 Terminal Bldg., Los Angeles, \$40,710.  
 f.o.b. cars, Milwaukee, Wis.; use tax,  
 \$1221.30; shipping weight, 210,000 lbs.;  
 erecting engineer, \$15 day.

Ottumwa Iron Works, Ottumwa,  
 Iowa, \$37,500, f.o.b. cars Ottumwa,  
 Iowa; no use tax; discount 1% of 1%,  
 10 days; shipping weight, 255,000 lbs.;  
 erecting engineer, \$16 day.

Allis-Chalmers Mfg. Co., 458 South  
 Spring St., Los Angeles—\$50,515, f.o.b.  
 cars, Milwaukee, Wis.; use tax, \$1-  
 515.45; shipping weight, 208,500 lbs.;  
 erecting engineer, \$20 day.

**BIDS OPENED**

**SAN FRANCISCO**—Sam Bates Co.,  
 1925 Dennison, Oakland, at \$82 per  
 month, submitted low bid to the  
 Procurement Office, Treasury Dept.,  
 Room 514, 49 Fourth St., San Fran-  
 cisco, under Bid No. 3061, for the  
 rental of concrete hoisting equip-  
 ment, including 20-hp. single-drum  
 gas hoist with 4-cylinder water-  
 cooled engine capable of lifting 2750  
 lbs., hoist tower, bucket, etc., f.o.b.  
 Park Meadows, 34th and Lincoln  
 Sts., San Francisco, for use on WPA  
 projects.

Complete bids follow:  
 Sam Bates Co., Oakland—\$82 per mo.,  
 net.

Adam Arras, San Francisco—\$99.50,  
 net.  
 Edward R. Bacon Co., San Francisco  
 —\$127.50, net.

Contractors Machinery Exchange,  
 Oakland—\$127.50, net.  
 A. L. Young Machinery Co., Inc., San  
 Francisco—\$320, net.

**BIDS OPENED**

**SAN FRANCISCO**—Adam Arras,  
 4005 18th St., San Francisco, at \$4.94  
 per month, submitted low bid to the  
 Procurement Office, Treasury Dept.,  
 Room 514, 49 Fourth St., San Fran-  
 cisco, under Bid No. 3062, for the  
 rental of four concrete cars, 6 cu. ft.  
 capacity with pneumatic-tired wheels  
 with Elmken bearings, f.o.b. Park  
 Meadows, 34th and Lincoln Sts., San  
 Francisco, for use on WPA projects.

Complete bids follow:  
 Adam Arras, S. F.—\$4, net.  
 Edward R. Bacon, S. F.—\$7.50, net.  
 Contractors Machinery Exchange,  
 Oakland—\$9, net.  
 Harron, Rickard & McCone, S. F.—  
 \$9.95, net.

M. B. McGowan, Inc., S. F.—\$10.00,  
 net.

**BIDS OPENED**

**SAN FRANCISCO, Calif.**—Crowley  
 Launch & Turgoat Co., Pier 14, at  
 \$15 per hour, submitted the only bid  
 received by the U. S. Engineer Of-  
 fice, Lieut.-Col. J. A. Dorst, District  
 Engineer, Custom House, under Bid  
 No. 568-37-109, for the lease of one  
 diesel or gasoline engine powered  
 by full crew, for use in transport-  
 ing passengers between Pier 34,  
 San Francisco, and Government pipe-  
 line dredges on Yerba Buena Shoals  
 Project. The boat shall have a ca-  
 pacity of 125 passengers.

**BIDS OPENED**

**DEL NORTE CO., Calif.**—Follow-  
 ing bids received by the Procurement

Office, Treasury Department, Room  
 514, 49 Fourth St., under Bid No.  
 3064, for the rental of one 60-80-hp.  
 tractor with bulldozer, crawler type,  
 f.o.b. Resighini Road, near Klamath,  
 Del Norte County:

W. E. Gilmore & Son—\$6 per hour;  
 net.

Paul Teibb—\$6 per hour; discount,  
 3% 20 days; 2% 30 days.

**29—STREETS AND HIGH-  
 WAYS**

**LOW BIDDERS**

**COCHISE COUNTY, Ariz.**—Phoen-  
 ix-Tempe Stone Co., P. O. Box 1665  
 Phoenix, at \$26,028 submitted low bid  
 to the Arizona State Highway Com-  
 mission, Phoenix, for highway con-  
 struction on the Benson-Douglas  
 Highway (Bisbee streets) RA 11-B  
 (1937) AFE 8003. The work, which  
 is located within the city limits of  
 Bisbee consists of resurfacing and  
 widening about one-third of a mile  
 of existing pavement with cut-back  
 asphaltic plant mix, and is to be  
 completed on or before April 30.

The work involves:  
 425 cu. yd. roadway excav.;  
 315 cu. yd. structural excav.;  
 126 cu. yd. class A concrete;  
 12,500 lbs. reinf. steel;

One lump sum bulkhead hand  
 rail;

3,500 sq. ft. concrete sidewalk;  
 925 ft. single curb;  
 755 ft. single curb;  
 755 l.f. special road guard;  
 1,000 lin. ft. treated timber header  
 boards;  
 1,570 sq. yds. grading for oil cake;  
 1,400 tons plant mix;  
 90 tons plant mix seal coat;

**SAN FRANCISCO—RICHARDSON AVENUE—(City)**

**SAN FRANCISCO**—A. G. Raich,  
 DeHaro St., at \$45,799.35 submit-  
 ted low bid to the Department of  
 Public Works, City Hall, under Spec.  
 No. 18,994, for the construction of  
 Richardson Ave. from Broderick St.  
 to Lyon St.

Total bids follow:  
 The work involves:  
 (1) 6000 cu. yd. excavation;  
 (2) 69,600 sq. ft. asphalt-concrete  
 pavement (8x1½x14-in.);  
 (3) 10,700 sq. ft. 8-in. concrete pave-  
 ment;  
 (4) 30,200 sq. ft. asphalt-concrete  
 pavement (6x2-in.);  
 (5) 2,355 l.f. white concrete curb (un-  
 armored);  
 (6) 1,444 l.f. 12-in. V.C. pipe sewer;  
 (7) 245 l.f. 10-in. V.C. pipe culvert;  
 (8) 125 l.f. 6-in. V.C. pipe side sewer;  
 (9) 19 each, 12x6-in. V.C.P. Y or T  
 branches;  
 (10) 9 each, brick manholes;  
 (11) 7 each, brick catchbasins;  
 (12) 1 only, low-pressure hydrant  
 (relocated);

64 tons cut-back asphalt.  
 Lewis Bros. Contractors, Phoenix,  
 submitted the second low bid at \$27-  
 158.

**CONTRACT AWARDED**

**SAN JOSE, Santa Clara Co., Calif.**—  
 Union Paving Co., 618 Call Bldg.,  
 San Francisco, at \$61,500.59, award-  
 ed contract by the San Jose City  
 Council, John J. Lynch, City Clerk,  
 for the paving and resurfacing of  
 Fourth Street, between Rosa and  
 Reed Streets.

**CONTRACTS AWARDED**

**LOS ANGELES, Calif.**—Contracts  
 for resurfacing trenches on various  
 pipe line unit under Spec. X-78,  
 were awarded by the Los Angeles  
 Water and Power Commission, Dec.  
 22 as follows:

P. J. Akmadzich, (1) \$14,527.10,  
 L. A. Paving Co., (2) (3) and (4)  
 \$133,502.18,  
 Griffith Co., (5) to (8) inclusive,  
 \$16,214.25.

**NOTICE TO BIDDERS**

**IMPERIAL CO., Calif.**—A repre-  
 sentative of the District Office will  
 accompany prospective bidders over  
 the proposed project in Imperial Co.,  
 between Calexico and 3.1 miles east-  
 erty, road XI-Imp-202-C, Clx.C. for  
 which bids are to be received in Los  
 Angeles on January 14, 1937.

Said representative will meet prospective  
 bidders at Beanza Hotel, Calexico,  
 on Monday, January 4 and  
 II, at 2:00 p.m.

Prospective bidders are urged to  
 cooperate with the District Office  
 and arrange to make their field in-  
 spection on the above dates.

- (13) Lump sum, high pressure hydrant (relocated);
  - (14) 1,550 l.f. combined curb and 1-ft. gutter (white);
  - (15) 43 tons asphaltic concrete binder;
  - (16) 62 tons asphaltic concrete wearing surface;
  - (17) Lump sum, electrical work;
  - (18) 18,000 sq. ft. concrete sidewalk (two course);
  - (19) 3,000 l.f. painting 4-in. traffic lines;
  - (20) 2,500 l.f. painting 8-in. traffic lines;
  - (21) 10 arterial stop signs (reflector type);
  - (22) 24 3-in. red warning reflectors.

**NOTICE TO BIDDERS**

**STATE OF CALIFORNIA.—C. H. Purcell, State Highway Engineer, has announced the cost of blue line prints for the state highway work now advertised.**

A blue line print of the sheet of the plans, showing the general location of the work, will be furnished free with the special provisions. Blue prints of the layout and the bridge detail sheet will be furnished at cost and become the property of the purchaser.

The following table shows the cost of such blue line prints for the work now advertised, bids to be opened in Sacramento on January 13 and in Los Angeles on January 14:

1-Hum-1-J—Bet. Trinidad and McNeill's Ranch; bids open Jan. 13; PLANS (No. of Sheets), 9; cost, 90¢; CROSS-SECTIONS (No. of Sheets), 40; cost, \$4.00; total, \$4.90.

XI-Imp-202-CX-C.—Bet. Calexico and Mt. Sater; bids open Jan. 14; PLANS (No. of Sheets), 15; cost, \$1.50; CROSS-SECTIONS (No. of Sheets), 52; cost, \$5.20; total, \$6.70.

Checks for the above should be made payable to the Department of Public Works, Division of Highways, and should accompany the order to this office.

Requests for the above plans, specifications and proposal form must be addressed to the office of the State Highway Engineer, P.O. Box 1499, Sacramento, Calif.

**CONTRACT AWARDED**

**ALAMEDA CONTR. COSTA Cos., Calif.—Heafey-Moore Co., 344 High St., Oakland, at \$208,713, awarded contract by the Board of Directors of Joint Highway District No. 13, under Schedule "G," for the completion of the approach to the Broadway Low Level Tunnel.**

Wallace B. Boggs, chief engineer.

**BIDS WANTED**

**PACIFIC CO., Wash.—Until January 12, 10 a.m., bids will be received by L. V. Morrow, Director of Highways, Olympia, for paving with portland cement concrete on about 8.7 mi. of State Road No. 12, Globe to Cramer's Crossing, involving about 18,230 c.y. of excavation, 61,364 sq. yds. of portland cement concrete pavement, 50 tons of Type I-1 asphaltic concrete, 501 linear feet of pipe culverts, and other items.**

Plans and specifications obtainable from the above office upon deposit of \$2 per set.

**CONTRACTS AWARDED**

**STATE OF WASHINGTON.—Bids for highway construction were opened by L. V. Morrow, Director of Highways, Olympia, and contracts awarded as follows:**

**Thurston County—Clearing, grading, and draining about 12 mi. of State Road 1, Olympia South, involving about 8 a. clearing; 135,570 c.y. excav.; 2,130 c.y. sawdust and slab excavation; 12 c.y. concrete; 755 c.y. crushed stone surfacing; 662 ft. cast-iron pipe; 3,077 ft. pipe culvert, etc.**

**Awarded: Northwest Constr. Co., Inc., 3850 Sixth Ave. N.W., Seattle—\$42,248.12.**

**Grays Harbor County—Clearing, grading, draining, surfacing with crushed stone, and construction of four reinforced concrete bridges on about 0.6 mi. of State Road 9, Oakville to Elma, involving about 2 a. clearing; 17,830 c.y. excav.; 4,100 c.y. selected roadway borrow; 1190 c.y. selected stone surfacing; 1650 c.y. concrete; 362,500 lbs. steel reinforcing bars; 900 ft. structural steel; 536 ft. pre-cast concrete piling; 60 ft. pipe culvert, etc.**

**Awarded: Olympic Pipeline Driving Co., 1208 Franklin St., Port Townsend—\$89,995.45.**

**Adams and Lincoln Counties—Manufacturing and stockpiling mineral**

**aggregates and constructing bituminous macadam Class D penetration type surfacing on about 23.1 miles of State Road 11, Sprague to Ritzville, involving about 3900 c.y. crushed stone surfacing for shoulders; 29,550 c.y. mineral aggregates for bituminous macadam; 2170 tons bituminous cement, etc.**

**Awarded: G. D. Lyons & Co. and J. C. Compton, 225 Hutton Bldg., Spokane—\$128,949.50.**

**Pacific County—Clearing, grading, draining and paving with portland cement concrete and asphalt concrete Type I-1 on about 13 mi. of State Road 12, South Bend East, involving about 6030 c.y. excav.; 9550 c.y. ballast; 380 c.v. crushed stone surfacing;**

**and 9355 sq. yds. cement concrete, and 2250 tons asphaltic concrete pavement, 1367 ft. pipe culvert, etc.**

**Awarded: Goetz & Brennan, 914 Seaboard Bldg., Seattle—\$72,485.23.**

**CONTRACT AWARDED**

**SAN FRANCISCO.—Thomas Gallagher, 913 28th St., at \$1,050 awarded contract by the Department of Public Works, City Hall, under Spec. No. 18,950 for the improvement of sidewalks on the northerly half of Balboa Street between Third Ave. and 12 ft. east, and in 45 other locations, involving approximately 5,600 sq. ft. of 1-course concrete sidewalk.**

**RAILROAD SIPHONS—BOULDER CANYON—(Govt.)**

**ALL-AMERICAN CANAL.—Lewis-Chambers Constr. Co., 801 Baronne Bldg., New Orleans, La., at \$106,528.50, submitted the lowest of sixteen bids received by the Bureau of Reclamation, Yuma, R. B. Williams, Consulting Engineer, under Spec. No. 713, for the construction of railroad and highway siphons on the All-American Canal, Stations 3579, 3683, 3710, and 3772, All-American Canal System, Boulder Canyon Project. The work is located near Calxico. The work involves:**

**SCHEDULE NO. 1**

Calxico-Yuma Highway Siphon. Station 3575 plus 33.54

- (1) 8500 c.y. excav. for structure;
- (2) 5100 c.y. backfill about struct.;
- (3) 4200 c.y. puddling or tamping backfill about structure;
- (4) 975 c.y. concrete in floor slabs of transitions;
- (5) 195 c.y. concrete in floor slabs of transitions;
- (6) 170,500 lbs. placing reinf. bars;
- (7) 250 sq. yds. dry rock paving;
- (8) 123 lf. installing rubber seals;
- (9) 345 sq. ft. installing molded elastic joint material.

**SCHEDULE NO. 2**

Imperial Ave. Siphon, Station 3683 plus 73

- (10) 9000 c.y. excav. for structure;
- (11) 5300 c.y. backfill about struct.;
- (12) 3500 c.y. puddling or tamping backfill about structure;
- (13) 904 c.y. concrete in structure;
- (14) 180 c.y. concrete in floor slabs of transitions;

- (15) 172,450 lbs. placing reinf. bars;
- (16) 250 sq. yds. dry rock paving;
- (17) 144 lf. installing rubber seals;
- (18) 345 sq. ft. installing molded elastic joint material.

**SCHEDULE NO. 3**

Railroad and Highway Siphon, Station 3710 plus 33

- (19) 10,600 cu. yds. excav. for struct.;
- (20) 7300 cu. yds. backfill about structure;
- (21) 5500 cu. yds. puddling or tamping backfill about structure;
- (22) 1755 cu. yds. concrete in struct.;
- (23) 180 cu. yds. concrete in floor slabs of transitions;
- (24) 383,450 lbs. placing reinf. bars;
- (25) 250 sq. yds. dry rock paving;
- (26) 144 lf. installing rubber seals;
- (27) 345 sq. ft. installing molded elastic joint material.

**SCHEDULE NO. 4**

Calxico-Seeley Highway Siphon, Station 3772 plus 20

- (28) 9300 c.y. excav. for structure;
- (29) 6300 c.y. backfill about struct.;
- (30) 4500 c.y. puddling or tamping backfill about structure;
- (31) 1053 c.y. concrete in structure;
- (32) 180 c.y. concrete in floor slabs of transitions;
- (33) 292,000 lbs. placing reinf. bars;
- (34) 250 sq. yds. dry rock paving;
- (35) 144 lf. installing rubber seals;
- (36) 345 sq. ft. installing molded elastic joint material.

The four low bids follow:

	(1)	(2)	(3)	(4)	Total
A. Lewis-Chambers Constr. Co.	\$22,787.00	\$21,512.50	\$37,026.50	\$24,902.50	\$106,528.50
B. Hoeland Engr. & Constr. Co.	23,843.00	22,862.20	39,228.20	25,935.00	111,892.40
C. Sharp & Fellows Constr. Co.	24,153.60	23,114.70	28,509.30	26,171.30	111,948.50
D. Gogo & Rados	26,286.80	24,993.40	29,123.40	28,328.90	118,732.50

The unit bids were:

	(A)	(B)	(C)	(D)
(1)	\$ 20	8.30	\$ 40	\$ 50
(2)	.40	.25	.28	.40
(3)	.40	.15	.35	1.00
(4)	11.00	14.00	15.50	17.00
(5)	11.00	8.50	9.50	10.00
(6)	.02	0.04	.01	.01
(7)	3.50	5.00	4.00	4.00
(8)	.50	.50	.20	.20
(9)	.50	.20	.40	.10

The prices on each of the other schedules were identical with the prices for Schedule 1.

## 30—RESERVOIRS &amp; DAMS

## PLANNED

**SANTA CRUZ COUNTY, Calif.—**The San Jose Y. M. C. A. plans to improve the buildings, erect a foot-bridge and small dam on their new camp site on the San Lorenzo River near Boulder Creek. Estimated cost \$6,000.

Mitael H. Antonacci, San Jose, engineer.

## PLANNED

**LOS ANGELES—**The Los Angeles county board of supervisors Dec. 22 adopted a report submitted by C. H. Howell, Chief Engineer, Los Angeles county flood control district, and Alfred Jones, County Surveyor, and authorized copies sent to the cities of Arcadia and Sierra Madre for approval of flood control work in Sierra Madre-Arcadia Drainage District.

The project, total cost estimate, \$5,182,300, consists of the construction of reinforced concrete rectangular open channel along Arcadia Wash from Rio Hondo to point 2000 feet north of Huntington Drive; concrete closed conduit along Baldwin Ave. from Santa Anita Stables to East Ave., a concrete closed conduit along Lima St. from the A. T. & S. F. R.R. to Carter Ave.; a concrete open channel from the A. T. & S. F. R.R. downstream to Santa Anita Stables; concrete open channel along the East branch of Arcadia Wash, 4 small debris basins controlling the mountain watershed area discharging into this storm drain system; a covered storm drain along Baldwin Ave from Huntington Drive to Eaton Wash; a covered storm drain along Sierra Madre Ave. and Encinitas Ave. from Sierra Madre Blvd. to Eaton Wash; a debris basin at a site approximately 1500 ft. north of Sierra Madre Blvd. along the extension of Sierra Madre Villa Ave. and approximately 4000 ft. of concrete channel from this debris basin to Eaton Wash, together with laterals. The project might be constructed in units when funds are available in the following order:

## UNIT NO. 1

Arcadia Channel from Rio Hondo to the Pacific Electric Railway, 500 ft. south of Huntington Drive, involving 16,000 lf. of channel. The estimated cost is \$863,100. The work involves:

22,400 c.y. reinf. concrete;  
296,000 c.y. excavation;  
6,000 sq. ft. pavement resurf.;  
15,000 sq. ft. bridges;

## UNIT NO. 2

Upper Baldwin Ave. and Lima St. drains from their junction with Arcadia Channel up to and including their appurtenant debris basins. The estimated cost is \$1,077,700. The work involves:

117,600 c.y. excav.;  
81,600 sq. ft. pavement resurf.;  
61,900 sq. ft. same;  
71,400 sq. ft. same;  
1,500 lf. 45-in. reinf. concr. pipe;  
1,500 lf. 48-in. same;  
1,100 lf. 51-in. same;  
2,600 lf. 54-in. same;  
1,400 lf. 57-in. same;  
2,050 lf. 63-in. same;  
1,800 lf. 69-in. same;  
123 catch basins;  
82 manholes;

## UNIT NO. 3

East Branch system from Arcadia Wash to Grand View Ave. The estimated cost is \$384,800. The work involves:

8,500 c.y. reinf. concrete;  
66,700 c.y. excavation;  
25,000 sq. ft. pavement resurf.;  
17,300 sq. ft. same;  
3,600 sq. ft. bridges;  
950 lf. 20-in. diam. reinf. concr. pipe;  
1,000 lf. 42-in. same;

## LOS ANGELES CO.—1.6 MI. GRADE &amp; SURF.—(State)

LOS ANGELES CO., Calif.—J. E. Haddock, Ltd., 357 N. Chester Ave., Pasadena, at \$91,764.60, as previously reported, submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for about 1.6 miles grading and surfacing with portland cement concrete in Los Angeles County between Playa St. and Washington Blvd.

The work involves:

- (1) 85 sta. clear and grub right of way;
- (2) 660 M. gals. water;
- (3) 850 c.y. remove concrete;
- (4) 17,400 c.y. rdwy. excav., unclass.
- (5) 1,400 c.y. struc. excav.;
- (6) 80,000 sta. yds. overhaul;
- (7) 11,000 c.y. imported subgrade material;
- (8) 24,000 sq. yds. preparing subgrade;
- (9) 80 tons Grade E asphaltic cement (membrane seal);
- (10) 85 sta. finishing rdwy.;
- (11) 3,100 sq. yds. asphaltic paint binder;
- (12) 8 tons liquid asph. MC-2 (prime coat);
- (13) 198 tons liquid asphalt MC-4 or 5 (plant mix surface);
- (14) 2100 tons mineral aggregate (do)
- (15) 30 tons liquid asph. SC-2 (prime coat);
- (16) 360 tons liquid asphalt SC-2 (road mix surf. treatment);
- (17) 30,000 sq. yds. preparing, mixing and shaping shoulders;
- (18) 23,500 lbs. bar reinf. steel (pave. and struc.);

- (19) 6,500 lbs. misc. iron and steel;
- (20) 14,000 lbs. steel (rail assemblies)
- (21) 4,630 c.y. Class A portland cement concrete (pave.);
- (22) 9,600 each pavement dowels;
- (23) 12 sections Type C pave. crossing devices;
- (24) 130 c.y. Class A portland cement concrete (struc.);
- (25) 180 lf. 15-in. standard reinforced concrete pipe;
- (26) 210 lf. 18-in. do;
- (27) 130 lf. 24-in. do;
- (28) 56 lf. 30-in. do;
- (29) 24 lf. 42-in. do;
- (30) 120 lf. metal pipe, remove and salvage;
- (31) 1,370 c.y. Class A portland cement concrete (curbs, gutters, and sidewalks);
- (32) 900 lf. curb armor;
- (33) 30 lf. laminated guard railing;
- (34) 14 each manholes adjusted to grade;
- (35) 12 each electroliters, moved and reset.

Total bids follow:

- (A) J. E. Haddock, Pasadena, \$91,764.50.  
(B) Matich Bros., Elsinore, \$92,199.  
(C) Oswald Bros., Los Angeles, \$98,758.00.  
(D) Griffith Co., Los Angeles, \$99,993.20.  
(E) P. J. Akmadzich, Los Angeles, \$100,898.50.  
(F) Geo. E. Curtis Paving Co., Los Angeles, \$103,462.00.  
(G) C. O. Sparks and Mundo Engr. Co., Los Angeles, \$107,518.00.

Unit bids follow:

2,350 lf. 69-in. same;  
108 catch basins;  
14 manholes.  
Debris basin, 175,000 c.y.  
Channels:  
4,300 c.y. reinf. concrete;  
18,800 c.y. excavation.

**BIDS OPENED**

**BONNEVILLE DAM, Oregon**—Following bids received by the U. S. Engineer Office, Second Portland District, 627 Pittcock Block, Portland, under Bid No. 694-37-191, for furnishing 40 sections of structural steel frames for use on the Bonneville main dam fishway collecting system at Bonneville, under the following alternatives:

Alternate "A": Equipment f.o.b. cars at factory shipping point for shipment on Government bills of lading; 14 frames to be delivered within 60 calendar days, and the balance within 80 calendar days.

Alternate "B": Equipment f.o.b. cars at North Bonneville, Washington; 14 frames to be delivered within 70 calendar days, and the balance within 90 calendar days. General Iron & Steel Works, Portland—(B) \$32,550.

Star Iron & Steel Co., Tacoma—(A) \$34,840; f.o.b. Tacoma; (B) \$35,520.

King Bros., Portland—(A) \$26,700, f.o.b. Portland; (B) no bid; discount, 2% 10 days.

Commercial Iron Works, Portland—(A) no bid; (B) \$43,264.

Judson Pacific Co., San Francisco—(A) \$47,850, f.o.b. San Francisco or Oakland; (B) no bid.

Consolidated Steel Corp., Los Angeles—(A) \$62,970, f.o.b. Los Angeles; (B) \$68,470.

Lieut.-Col. C. F. Williams, District Engineer.

**32—SEWERS & SEWAGE DISPOSAL PLANTS**

**CONTRACT AWARDED**

**SAN JOSE, Santa Clara Co., Calif.**—Gladding Bros. Mfg. Co., 3rd and Keyes, San Jose, at \$59,559.22, submitted low bid and awarded contract by the San Jose City Council, John J. Lynch, City Clerk, City Hall, for furnishing sanitary vitrified clay sewer pipe and vitrified clay outfall sewer pipe, required for construction of extensions to the San Jose sanitary sewer and collection system. The construction is being done by day labor as a WPA project. Total cost of the work is estimated at \$645,922.

The pipe to be furnished includes: (1) 76.136 lf. 6-in. vitrified clay pipe; (2) 27,703 lf. 8-in. do.; (3) 14,189 lf. 10-in. do.; (4) 5,029 lf. 12-in. do.; (5) 4,824 lf. 15-in. do.; (6) 2,567 lf. 18-in. do.; (7) 12,830 lf. 21-in. do.

Total bids follow:

(A) Gladding Bros. Mfg. Co., San Jose, \$59,559.22  
(B) Gladding McBea & Co., San Francisco 62,303.43

**WASCO—SEWAGE SYSTEM—(District)**

WASCO, Kern Co., Calif.—W. J. Tobin, 3701 Balfour Ave., Oakland, at \$102,666.72, awarded contract by the Wasco Public Utility District, Dec. 28, for the construction of a sewer system and outfall for Wasco and vicinity. The award was made subject to PWA approval.

The work involves:

- (1) 20,367 ft. 6-in. vitrified clay pipe sewer, standard strength, including bends;
- (2) 35,620 ft. 8-in. vitrified clay pipe sewer, standard strength;
- (3) 14,453 ft. 10-in. vitrified clay pipe sewer, standard strength;
- (4) 1550 ft. 10-in. vitrified clay pipe sewer, extra strength;
- (5) 1962 ft. 12-in. vitrified clay pipe sewer, standard strength;
- (6) 650 ft. 12-in. vitrified clay pipe sewer, extra strength;
- (7) 11,003 ft. 15-in. vitrified clay pipe sewer, standard strength;
- (8) 4287 ft. 15-in. vitrified clay pipe

- sewer, extra strength;
- (9) 1111 8x6 wye branches, including caps;
- (10) 263 10x6 wye branches, including caps;
- (11) 78 12x6 wye branches, including caps;
- (12) 51 15x6 wye branches, including caps;
- (13) 185 manholes;
- (14) 11 drop manholes;
- (15) 29 flushing manholes;
- (16) 3 lamp holes;
- (17) 1355 ft. 3/4-in. galvanized iron pipe for 20 connections;
- (18) 2287 lin. ft. cutting and replacing pavement on 7th St., from Broadway to Palm Ave.;
- (19) Cutting and replacing pavement consisting mostly of oil and dust, with curb over balance of sewers where any pavement exists.

Total bids follow:

- (A) W. J. Tobin, Oakland—\$102,666.72.
- (B) Oakland Sewer Construction Co.,

Oakland—\$105,557.29.

- (C) A & B Construction Co., Hynes—\$106,492.17.
- (D) Stroud - Seabrook, Bakersfield—\$115,500.95.
- (E) J. C. Hickey, Alhambra—\$120,370.88.
- (F) V C K Construction Co., Los Angeles—\$121,061.64.
- (G) Claude Fisher Co., Los Angeles—\$127,403.41.
- (H) Fredrickson & Watson and Fredrickson Bros., Oakland—\$131,038.84.
- (I) J. L. Kruly, Los Angeles—\$131,776.15.
- (J) John Jurkovich, Fresno—\$137,414.20.
- (K) S. B. Bechtel, Oakland—\$147,115.20.
- (L) Sanitary Construction & Engineering Co., Long Beach—\$159,254.03.
- (M) Engineer's estimate—\$110,167.80.

KOEBIG & KOEBIG, Rowan Building, Los Angeles, Engineers.

and Currie Engr. Co., San Bernardino. All bids received Dec. 14 were rejected by the city council Dec. 15. The plant is designed to serve a population of about 25,000 and consists of two concrete circular Imhoff tanks and a separate sludge digestion tank. The City has about \$304,000 available, of which \$132,000 is a PWA allocation, the balance to be provided by the city.

R. L. Patterson, City Engineer, reports revised quantities as follows:

- (1) Sewage Pumping Sta. No. 1 and appurtenances as shown on Plan No. 401, Sheets 29 to 31 inc.;
- (2) Sewage Pumping Sta. No. 2 and appurtenances as shown on Plan No. 401, Sheets 26 to 28 inc.;
- (3) Sewage Pumping Sta. No. 3 and appurtenances as shown on Plan No. 401, Sheets 22 to 25 inc.;
- (4) Sewage Pumping Sta. No. 4 and appurtenances as shown on Plan No. 401, Sheets 32 and 33 inc.;
- (5) Cast iron Pipe Siphon No. 1, consisting of one 12-in. pipe, as shown on Plan No. 401, Sheet 20;
- (6) 6,680 lf. 30-in. vit. clay pipe sanitary sewer;
  - (7) 2,580 lf. 27-in. do;
  - (8) 3,160 lf. 24-in. do;
  - (9) 7,870 lf. 21-in. do;
  - (10) 4,310 lf. 18-in. do;
  - (11) 240 lf. 12-in. do;
  - (12) 3,810 lf. 10-in. do;
  - (13) 4,030 lf. 8-in. do;
- (14) 1,100 lf. 14-in. Class 250 cast iron pipe, flexible joints, discharge line from disposal plant, inc. fittings;
- (15) 1,160 lf. 14-in. Class 150 cast iron pipe, B. & S. sanitary sewer, inc. fittings;
- (16) 820 lf. 12-in. Class 150 cast iron pipe, B. & S. sewer force main, inc. fittings;
- (17) 4,010 lf. 10-inch Class 150 cast iron pipe sanitary sewer, including fittings;
- (18) 10-in. Class 150 cast iron pipe sewer, highway crossing at Sta. 59 plus 75 sheet 10 of Plan No. 401;
- (19) 8-in. do at Sta. 19 plus 00, sheet 8, and Sta. 74 plus 25, sheet 10 of Plan No. 401;
- (20) 204 lf. 8-in. Class 150 cast iron pipe sewer force main, including fittings, sheet 14 of Plan No. 401;
- (21) reinf. cement concrete box sanitary sewers, Sta. 165 plus 02, sheet 14, and Sta. 73 plus 29, sheet 10 of Plan No. 401;
- (22) 50 c.y. Class E cement concrete pipe envelope;
- (23) 98 brick manholes;
- (24) 1 brick (bu tank, inc. 3/4-inch water service connection);
- (25) 18,000 c.y. rdwy. embankment;
- (26) 94 lf. 24-in. corr. iron culvert pipe;
- (27) 40 lf. 36-in. reinf. cement concrete culvert;
- (28) 1500 lf. 2-in. galv. iron water pipe, inc. fittings;
- (29) 2,400 tons furnishing and placing crushed rock for sewer foundation;
- (30) 160 ft. vit. clay pipe sewer chimney;
- (31) sewage disposal plant and appurtenances thereto, complete as shown on Plan No. 401, sheets 34 to 38 inc.

**33— WATER WORKS**

**LOW BIDDER**

KING CO., Wash.—Pacific Waterworks Supply Co., Atlantic Street, Seattle, at \$71,135, submitted low bid to the Board of Commissioners of King County and to the State Supervisor of Purchasing for furnishing approximately 107,360 ft. of wrapped sheet steel pipe, 400 ft. of galvanized wrought steel pipe, together with miscellaneous valves, valves,

boxes, and fittings, for delivery at job site in Gunther's Highland View Tract, Burien, King County.  
Farker & Hill, Smith Tower, Seattle, consulting engineers.

**BIDS OPENED**

LOS ANGELES—Bids for the installation of the San Pedro Terminal Island Water Supply Line, PWA Docket No. 1929-R, Unit No. 89-A, Specification No. X-76, were opened by D. P. Nicklin, purchasing agent of the Los Angeles Water and Power Bureau, room 740, 267 S. Broadway, December 23.

The items are:

- (a) 418 tons at a price per ton for the delivery of approx. 4400 ft. of 20-in. and 400 ft. of 12-in. cast-iron pipe, cast-iron pipe fittings, gate valves, from the dept's San Pedro Pipe Yard, located at 950 W. First St., San Pedro, to trench side;
  - (b1) 400 ft. excav. of trench for 20-in. main, price per ft.;
  - (b2) 400 ft. excav. of trench for 12-in. main, price per ft.;
  - (c1) 4210 ft. placing 20-in. pipe in trench, fitting up and caulking joints, installing gate valves, etc., per ft.;
  - (d1) 380 ft. placing 12-in. pipe in trench, etc., price per ft.;
  - (d2) 190 ft. installing 20-in. cast-iron pipe with 30-in. steel pipe, under R.R. and R.R. tracks, per ft.;
  - (d3) 20 ft. installing 12-in. pipe in 20-in. pipe under R.R., etc., price per ft.;
  - (e) 1465 ft. removing and transporting existing 10-in. and 8-in. cast-iron pipe from trench to dept's San Pedro Pipe Yard located at 950 W. First St., San Pedro, per foot;
  - (f) 4800 ft. backfilling and disposing of surplus excavated material on graded streets and easements, per lin. ft.
- The bids were:
- (A) Macco-Robertson, Ltd., 815 Paramount Boulevard, Clearwater—\$9,741.85
  - (B) J. C. Hickey, Alhambra—\$15,968.85
  - (C) C. R. Butterfield, San Pedro—\$18,309.83

The unit bids were:

**BIDS WANTED**

MULTNOMAH CO., Oregon.—Until January 13, 4 p. m., bids will be received by the Maplewood Water District, H. E. Reynolds, Secretary, 628 Railway Exchange Bldg., Portland, and will be opened at 8 p. m. at the Sunday School Bldg., Maplewood, for the construction of water system improvements consisting of approximately 10,550 ft. of 8-in. and 1400 ft. of 6-in. water mains, with necessary appurtenances.

Alternate bids are requested on cast iron and steel pipe.

Plans and specifications obtainable from the office of C. E. Carter, engineer, 823 Spalding Bldg., Portland, upon deposit of \$15.

**BIDS WANTED**

SAN FRANCISCO—Until January 5, 3 p. m., informal bids will be received by the Public Utilities Commission, Room 287, City Hall, under S.F.W.D. Contract No. 135, for the laying of 6-in. and 8-in. cast-iron pipe lines in Thirty-third and Forty-fifth Avenues and Alameda Blvd.

The work involves:

- (1) 775 lf. excav. and backfill of 6-in.

and 8-in. pipe, trench 17 in. wide by 36 in. deep;

- (2) 15 c.y. additional excav.;
- (3) 60 sq. ft. additional pavement removal and replacement;
- (4) Installation of pipe:
  - (a) 405 lf. 6-in. bell and spigot cast-iron pipe;
  - (b) 370 lf. 8-in. do.;
- (5) 2,200 lbs. installing of fittings, gate valves, etc.;
- (6) 125 lf. making joints for pipe and fittings;
- (7) Repavement:
  - (a) 632 sq. ft.;
  - (b) 580 sq. ft. sidewalk;
- (8) Installation of 13 3/4-in. screw tops;
- (9) Installation of 75 ft. of 3/4-in. sewer pipe.

Plans and specifications obtainable from the office of N. A. Eckart, Room 605, 425 Mason St., upon deposit of \$5.00.

**CONTRACT AWARDED**

SAN JOAQUIN COUNTY, Calif.—L. Uhels, Box 181, Ripon, at \$29,077.50 awarded contract by the Public Utilities Commission, City Hall, under Hetch Hetchy Water Supply Contract No. 163, for the construction of the Tesla Portal Chlorinating Plant in the Coast Range Division of the Hetch Hetchy Aqueduct.

The following sub-contractors have been awarded:

- Electric, Plumbing & P.mps—Hansen's, 609 10th St., Modesto.
- Millwerk—Electric Planing Mill, 545 South Monroe St., Stockton.
- Painting—John E. Becker, 17 West Poplar, Stockton.

**34— PARKS AND PLAY-GROUNDS**

**BIDS WANTED**

REDDING, Shasta Co., Cal.—Until Jan. 19, 1937, 10 A. M., bids will be received by the Procurement Division, Public Bldgs. Branch, Washington, D. C., for seeding and planting the grounds of the U. S. P. O. at Redding.

Specifications may be obtained at the above office and from the Custodian of the building at Redding.

**BIDS OPENED**

KINGMAN, Arizona.—City Wide Lawn Service, 815 W. Hyde Park Blvd., Inglewood, Calif., at \$347, submitted low bid to the Procurement Division, Public Buildings Branch, Washington, D. C., for seeding and planting the grounds of the U. S. Post Office at Kingman.

Complete bids follow:  
City Wide Lawn Service, Inglewood, Calif., \$347

Norman Bros., Inglewood, Cal., 463 Norman Nursery, Phoenix, Ariz., 475

**35— TUNNELS**

**BIDS OPENED**

YERBA BUENA SHOALS—Milton A. Purdy, 2275 100th Ave., Oakland, at \$3,072, submitted the only bid received by the U. S. Engineer Office, Lieut. Col. J. A. Dorst, District Engineer, San Francisco, under Bid No. 568-37-107, for seven core borings on Yerba Buena Fairlane

Unit bids follow:

- (1) 38 lf. overburden drilling, \$4 per total, \$152.
- (2) 292 lf. core drilling, \$10 per lf.; total, \$2,920

**CONTRACT AWARDED**

ALAMEDA—CENTRA COSTA Cos., Calif.—Alta Electric & Mechanical Co., 467 O'Farrell St., San Francisco, at \$269,800, awarded contract by the Board of Directors of Joint Highway District No. 13, under Schedule "25," for the completion of ventilation, mechanical and electrical equipment in the Broadway Low Level Tunnel. Wallace B. Borgs, chief engineer.

## San Francisco Building Total Highest In Five Years; December Permits Set Record

Building in San Francisco during 1936 reached the highest level since 1931 and in Oakland since 1930, the year-end tabulation of permit valuations for the two cities reveals.

December proved the record month of the year for San Francisco. It included an award for \$1,180,000 on Exposition construction and the largest single private contract of the year, the \$500,000 Western Furniture Exchange. The total of \$3,081,759 is the highest in any month since March, 1930.

Residential work in San Francisco, as represented by permits for frame construction, was valued at \$738,140 in December, the highest figure for this type of work in December of any recent years. The year was marked by a revival in single-family dwelling construction that brings this class of work to a level with pre-depression years. The total of 1838 permits for work to cost \$8,610,169 compared with 1961 permits issued in 1931 for work to cost \$8,328,777. Residential awards in 1931 exceeded those in 1930 by more than a million dollars, although the total volume of permits in the preceding year was higher.

The Oakland total of \$8,688,815 exceeds 1935 by about \$2,000,000. It is the best annual figure since 1930 when permits were valued at \$9,284,000. The December total of \$9,284,000 was \$487,856, considerably lower than the monthly average for the last half of the year, Bldg. Inspector E. U. Roussell reported.

Classified totals for San Francisco permits in December and the corresponding month of last year are reported by S. J. Rosenblum, chief of the Central Permit Bureau, as follows:

Class.	Dec., 1936		Dec., 1935	
	No. P'mts	Est. Cost	No. P'mts	Est. Cost
A	1	\$ 200,000	1	\$ 200,000
B	2	851,000		
C	13	51,500	11	16,550
Frames	149	738,140	95	416,716
Alter.	435	259,575	320	207,090
Public			5	345,623
1939 Exp.	1	1,181,544		
<b>Total</b>	<b>600</b>	<b>\$3,081,759</b>	<b>432</b>	<b>\$1,186,081</b>

## Lumber Buying Continues Heavy Despite Strike

Orders taken by 202 mills in Washington and Oregon during the week ended December 26 totalled 88,943,096 board feet, an unusual volume for this season, according to the West Coast Lumbermen's Association. As has been the case in the past month most of the new business was for shipment by rail. Rail orders totalled 58,772,441 ft. Domestic cargo orders to California and Atlantic Coast totalled 22,245,787 feet. This business is sold for delivery subject to strike conditions.

One shipment in domestic cargo for government transport totalling 1,356,618 feet originated on Puget Sound. This is the only water shipment reported to the association since the last week in October.

For four consecutive weeks the volume of rail trade orders coming to the industry during the month of December has been greater than at any time since 1929. At the same time, straight cargo mills or mills normally shipping most of their production by water are either closed or operating on reduced schedules limited to such local and rail delivery business as they can handle. At these plants and dependent logging camps the association estimates an unemployment, either totally or partially, due to the marine shutdown of at least 17,500 people, 12,500 of whom are entirely out of work and 5,000 on short work weeks. Lumber payroll losses directly due to the strike for the nine weeks to January 2 are estimated at approximately \$3,150,000.

The total loss in water production and shipments due to the strike is estimated by the associa-

## FHA PREDICTS HOME BUILDING INCREASE IN '37

### New Year To Eclipse Record Of Past Twelve Months, Anglim Says

The 1937 home building program in Northern California will be the most pretentious undertaken here in more than a decade, according to Federal Housing Administration predictions, based on a survey recently completed in the 46 counties comprising this district.

Residential construction last year was declared the largest in five years for many communities, while some established a ten-year home building record.

"The Northern California district office insured four times as many mortgages in 1936 as during the previous year, when this form of home financing first was made available," declared Clifford C. Anglim, district director.

"Of a total of 13,500 applications for insured mortgages, amounting to \$57,600,000, accepted for appraisal in this district, 11,206 totalling \$47,587,881, were accepted during the past year. This is in addition to approximately \$50,000,000 of loans insured under the modernization credit plan.

"Thus in two years' time, this office has done a business of more than 100 million dollars. Much of this has gone toward payrolls in the form of architectural and other professional fees and into wages paid building trades craftsmen. Contractors estimate that construction exclusively financed under government insured loans have provided no less than 20,250,000 man-hours of work for men actually employed on the job."

In California, which led the nation in construction of new homes the past year, the Federal Housing Administration is reported to have accepted for appraisal 27,633 applications for insured mortgages amounting to \$116,250,181.

The national totals to December 12, were reported to be 145,059 mortgages accepted for insurance, aggregating \$585,459,946.

Construction at approximately 360,000,000 board feet.

## Plans Ready Soon For Major Units In \$7,000,000 Sacramento Army Base

Allocation of a \$7,000,000 fund for construction of the Army Air Corps supply depot and repair base at Sacramento is shown in a report issued by the construction division of the Quartermaster General's office in Washington, D. C., where plans are being prepared.

For the main building, flight test and inspection hangar, repair dock and equipment repair building the estimated cost is \$2,220,000. Plans for the main building are 80 per cent complete; hangar, 65 per cent; equipment repair building, 40 per cent.

Plans for the depot supply building, to cost \$1,072,000, are 30 per cent complete.

Status of other units is as follows: Engine test stands, \$150,000, plans 30 per cent complete; Headquarters, \$80,000, plans 90 per cent complete; Hospital, \$93,468, plans 65 per cent complete; Fire and Guard House, \$43,974, plans 90 per cent complete; Reclamation building, \$37,000, plans 70 per cent complete; Chemical Storage building, \$14,000, plans 85 per cent complete; Paint and Dope storage building, \$80,000, plans 65 per cent complete; Oil reclamation building, \$19,000, plans 70 per cent complete; Mild explosives building, \$4860, plans 90 per cent complete; Quartermaster gasoline station, \$3500, plans 75 per cent complete.

Estimates for other units are as follows: Field officers' quarters, \$86,658; Commissioner officers' quarters, \$99,600; Non-commissioned officers' quarters, single, \$22,038; Bachelor officers' quarters, \$62,432; Incinerator building, \$9,960; Air Corps Gasoline system, \$20,000; Night lighting, \$15,000; Grading and seeding field, \$146,564; Paving, runways, taxiways, roads and walks, \$490,000; Railroad spur \$34,635; Compass swinging base, \$2400; Barracks, Post

Exchange and Gymnasium, \$185,000; N.C.O. quarters (six double) \$83,952; Gas system, \$31,533 Fire alarm system, \$14,150; Flag pole, \$730; Fencing, \$11,612; Water storage reservoirs, \$19,180; Water distributing system, \$90,000; Sewerage system, including disposal plant, \$75,000; Electric distributing system, including sub-stations and transformer house, \$125,000; Grading and drainage building area, \$60,000; Signal corps installation, including radio towers and erection, \$87,500; Bachelor quarters and mess kitchen equipment, \$2000; Cold storage, \$3,000; Gas and oil storage tanks, pumps and piping, \$6510.

For purchase of land and removal of power lines there is allocated \$162,735; construction personnel, blue printing and advertising, \$373,253; shop equipment, \$718,522.

Major Arthur W. Parker is constructing quartermaster in charge of the depot work. His headquarters are in the Old Post Office Terminal Building, Sacramento. Bids will be received there.

## \$1,000,000 JOBS IN SIX-MONTH CITY PROGRAM

### Ocean Avenue Reconstruction Heads List of Local Public Work

Reconstruction of Ocean Avenue from San Jose to Nineteenth Aves. estimated to cost \$100,000, will be the leading road construction project in the municipal public works program for the next six months which may start construction on projects costing in excess of \$1,000,000, according to Assistant Director Sid J. Hester of the San Francisco Department of Public Works.

The gross amount to be spent on public works started during the next six months depends to a large extent on the success of a PWA application for a 45 per cent grant for a school construction program costing \$1,501,365, now in Washington, Hester stated. At the time the application was being prepared the school board had on hand \$223,000 reserve money from last year's budget, \$675,000 included in the new budget for buildings and improvements, and \$150,000 available from the 1933 school bond issue and Federal grants based on that issue. Of this amount some has already been expended and a certain amount pledged on projects now in the course of construction or about to be started.

Regardless of the success of the PWA application the board will probably spend in excess of half a million dollars on new school projects, principally the proposed San Francisco Junior College and the Lowell High School gymnasium.

The Ocean Avenue reconstruction job will consist of repairing, widening in places, and resurfacing Ocean Avenue from San Jose to Nineteenth Avenues. In addition the board has more than \$150,000 which will be allocated to various street improvements not yet decided upon. The principal proposed construction job is the widening and resurfacing of Fourth Street from Market Street to the Embarcadero, a similar project to those in the recently completed PWA street program.

Bids will be called within the next few weeks on five contracts aggregating \$138,500 to extend the auxiliary water supply system for fire protection. Funds for the projects have been allocated from the remainder of the \$2,000,000 high pressure bond issue of 1933.

Nearly all municipal public works projects during the next six months will be released through the Department of Public Works. The Public Utilities Commission has planned no large construction jobs during that period. The pro-

October, 1936, compared with 787 new orders taken during October, 1935, the Bureau of Census reports.

## \$4,645,000 ASKED FOR CONSTRUCT'N OF DEBRIS DAM

### U. S. Engineers Plan To Initiate Work On Reservoirs This Year

Appropriation of \$4,645,000 to start construction of four debris storage dams on sites in the Sierra foothills where hydraulic mining could be undertaken profitably is recommended by Major General Markham, chief of U. S. Engineers in his report to Congress on proposed rivers and harbors improvement. The funds would be obligated in the next fiscal year, with an additional appropriation required in 1938 to complete the project, estimated at \$6,945,000.

Work to be done next year on the Upper Narrows Dam on the Yuba River would require \$2,000,000, the engineers estimate. For construction of the Dog Bar Dam on the Bear River and incidental work, \$1,130,000 is requested. An additional \$690,000 is to be spent on the lower Ruck-A-Chucky Dam on the middle fork of the American River. A fourth dam is proposed at the North Fork site on the American River.

Engineers from the Sacramento district office are proceeding with site investigations this winter under a \$100,000 allocation from last year's appropriation.

Construction of the dams is advocated by mining interests of Nevada and Placer counties, who have contracted to amortize the cost over a period of twenty years by pro rata debris yardage stored. Completion of the dams would restore a phase of gold mining activity that has been dormant for half a century.

For other new construction in the Sacramento area the engineers advise appropriation of \$814,500 to be supplemented by state funds for flood control levee extensions to cost \$1,211,000. Levees are to be improved along the Sacramento and Feather rivers and the Yolo-By-Pass.

During October, 1936, shipments of steel office furniture amounted to \$1,776,784; steel shelving, \$435,211; steel lockers, \$419,864, and fireproof safes, \$234,096, according to the report of the Bureau of Census.

Manufacturers received new orders for 1,200 steel boilers during

## STATE TO HAVE \$33,269,000 FUND FOR HIGHWAYS

### Special Federal Grants Supplement Regular Program In 1938-1939

Expenditure of \$27,576,900 on major project construction is proposed by the California State Highway Commission during the 1937-39 biennial period commencing July 1. This is the sum estimated to be available for new work on the state highway system after maintenance charges, subventions to cities and miscellaneous items are deducted from the state gasoline tax and motor vehicle fee revenue. Of the total, \$9,500,000 is contributed by the Federal government from regular Federal-aid appropriations.

The program does not include a special apportionment to the state of Federal money to be expended on grade separation structures and for improvement of secondary or feeder routes. California will receive \$1,874,656 for grade separations in 1937 and 1938, or a total of \$3,749,312 in the biennial period; for feeder roads \$971,644 each, a total of \$1,943,288.

Adding these two special funds to the state's major project program gives a total of \$33,269,500 anticipated for contract work during the twenty-four months commencing July 1 and ending June 30, 1939. Spread over the two-year period it is the equivalent of about \$1,400,000 a month for new construction.

The forty-five Northern counties of the state will receive \$14,816,000 of the regular program total; thirteen Southern counties, \$12,760,000, the total apportionment being determined by state law. The details of the special Federal funds will not be known until rules and regulations for their allocation are received from the Secretary of Agriculture.

Seventy-three projects are listed for construction in Northern California and ninety-five in Southern California. The largest heavy grading job to be undertaken in the north is the reconstruction of the Altamont pass section of the San Francisco-Los Angeles valley route. The commission has set aside \$800,000 to be expended in grading and surfacing nine miles of this route in Alameda County between Greenville and Mountain House. For the grading and paving of 3.2 miles on Foothill Boulevard in Alameda Co., between San Leandro and Castro Valley, \$300,000 is allotted.

A total of \$1,092,000 is provided to continue reconstruction of the coast route in Santa Clara, San Benito and Monterey Counties. Four projects are listed, \$392,000 for grading, paving and bridges on 9.3 miles from Coyote to Paradise Valley in Santa Clara County; \$242,000 for a bridge and grading and paving 1.9 miles between Pajaro River and Sargent Crossing in Santa Clara and San Benito

## Berkeley Plant Awarded Gates At Imperial Dam

Secretary of the Interior Harold L. Ickes announces the award of contracts for manufacture and delivery of radial gates for the headworks of the Gila Valley Canal and for the sluiceway and channels of the desilting works at Imperial Dam, being constructed by the Bureau of Reclamation in the Colorado River near Yuma, Arizona.

The Pacific Iron and Steel Co., Ltd., of Los Angeles, was awarded the contract for manufacture and delivery of nine 35 x 14 feet radial gates for the headworks of the Gila Valley Canal at Imperial Dam the canal which will serve the Gila Valley project in Arizona, on its bid of \$21,116.72.

The same company was also awarded the contract for manufacturing and delivering twelve 16 x 7 feet radial gates for the sluiceway of the desilting works on its bid of \$9,291.04.

The Berkeley Steel Construction Company, Inc., of Berkeley, was awarded the contract for manufacture and delivery of fourteen 21 x 17 feet radial gates for the by-pass and influent channels of the desilting works on its bid of \$19,862.48.

The successful bids were the lowest on these items of nine proposals received by the Bureau of Reclamation at its Denver office October 22, 1936.

Counties; \$415,000 for a bridge over Salinas River and grading and paving one mile at Soledad; \$43,000 for a grade change in Monterey County.

In Santa Barbara County \$622,000 is to be expended on three contracts on the coast road.

The Redwood Highway will receive \$1,295,000 for ten projects in Mendocino, Humboldt and Del Norte Counties.

Of the total of \$3,592,000 allocated to counties in District IV the largest share will be spent in Santa Clara, a total of \$1,217,000; Santa Cruz will receive \$983,000; Alameda, \$800,000; Contra Costa, \$470,000; Marin, \$20,000. The Contra Costa allotment is for grading, surfacing and a grade separation structure on 10.3 miles on the Muir road.

An item of \$600,000 also is included in the program for operation, insurance and maintenance of the San Francisco - Oakland Bay Bridge.

## BUILDERS REPORT \$1,622,862,000 WORK IN 1935

### Federal Business Census Shows 409,000 Employed In Construction

Seventy-five thousand and forty-seven contracting establishments performed \$1,622,862,000 worth of construction in the United States during 1935. William L. Austin, director of the Bureau of the Census, reveals in the first report of the Census of Construction, a part of the current Census of Business.

Establishments covered include general contractors, operative builders and special trade contractors. General contractors and operative builders did 58.2 per cent of the total and special trade contractors 41.8 per cent.

Detailed data furnished by 69,838 reporting establishments showed work performed valued at \$1,457,710,000. These contractors had an average of 409,137 employes during 1935 and disbursed in salaries and wages \$470,275,000. Data submitted by a smaller group of reporting establishments, 46,423 of them, revealed that expenditures for materials amounted to 42 per cent of the total value of work performed. Work performed by this group amounted to \$1,330,835,000.

Of the total work reported 55.1 per cent was privat construction and 44.9 per cent public construction. Of the work performed, 72.2 per cent was new construction and additions and 27.8 per cent was for remodeling, repairs and maintenance. In the case of special trade contractors 50.7 per cent of their work was in remodeling and repairs.

The volume just issued is the first of a series to summarize data for the construction industry as reported in the Census. The facts were collected during the first half of 1936 by a canvass of contracting establishments in every state, city and county in the United States. Construction reports were prepared under supervision of Geo. J. Lawrence.

The following tabulation shows the number of reporting establishments in the western states and the value of work performed:

	No. of Establish- ments	Value of work performed (add 000)
<b>Mountain States</b>	2,243	54,971
Arizona	204	5,373
Colorado	564	13,713
Idaho	296	8,891
Montana	287	7,657
Nevada	61	2,106
New Mexico	114	3,660
Utah	430	10,391
Wyoming	287	3,180
<b>Pacific States</b>	6,648	198,409
California	4,932	138,291
Oregon	654	24,329
Washington	1,060	35,879

# Uniform Clause For Building Condemnation To Be Studied By Standard Code Committee

By GEORGE N. THOMPSON

Chief, Building Codes Section, National Bureau of Standards

One of the subjects that will probably engage the attention of the building code correlating committee of the American Standards Association is how to deal with buildings that have become unsafe because of age or condition of use. Certainly if any feature of a building code is justifiable, it is the provision for protecting building occupants and the public from the consequences of deterioration and neglect. The principle is well established that public authority can protect citizens in such cases. The course of action varies to some extent in various jurisdictions but the underlying principles are the same.

The problem of how to get rid of old dilapidated buildings has always been difficult. It has become acute in recent years when the public has grown sensitive to frequent charges that municipal authorities are tolerating the existence of many substandard structures. Such structures undoubtedly do exist in considerable numbers. When they are erected they met the standards of their time, but progressive deterioration and changing currents of city life have made them unfit for normal use today. In many instances they are actually unsafe. So the question is presented how municipal authorities can deal with them without causing injustice to their owners.

The buildings fall into several classes, depending on their physical condition.

There are those that are aesthetically repellent and shabby, harboring an undesirable class of tenants although in the main still sound structurally.

There are those that are deficient in strength and fire resistance for their present occupancy but not sufficiently so to arouse any great degree of public indignation over their condition.

There are those that have traveled well along the road toward complete physical degeneration, with sagging beams, leaning walls, rain-soaked ceilings, and other manifestations of deterioration and neglect.

Finally, there are those that are obviously dangerous to their occupants and to passers-by.

## Need Replanning

All these structures are the victims of forces that operate silently but continuously in the direction of change.

The ravages of time are to be expected, but the tendency of cities to empty at their centers and increase in population at their peripheries has only recently been acknowledged. The consequence of this movement is to leave a large number of buildings, particularly dwellings, at the center without a use or useful only for some entirely different purpose than that

for which they were originally designed. Replanning of whole areas with wholesale destruction of existing buildings appears to be the only remedy in such cases. This, however, is beyond the scope of our discussion which is concerned with measures that can be taken with single buildings.

Authority is present in most municipal building codes to deal with unsafe buildings, but the procedure is hedged about with so many restrictions that it has not been extensively employed. It has sometimes been supplemented by more informal measures as in the case of one southern city. Here, it is said, the building official strolling by some old shack remarks casually to a group of colored idlers that he doesn't like the looks of the building and would be glad to see it gone. Whereupon mysterious but discreet sounds are heard in the night and when dawn breaks no trace of the offending structure is to be found. Obviously, such a method has very definite limitations.

The legal authority bestowed on the local building officials is of two kinds, one consisting of summary action in emergencies where collapse is imminent and the situation obviously cannot wait for refinements of procedure. Here the official can step in, rope off the area, shore up or demolish the structure, or take any other action that appears justified under the circumstances. Of course, such situations are infrequent.

The other case involves a situation where a building is reported to be potentially dangerous and on inspection is found in fact to be so. If the circumstances appear to warrant it, the official can order the building vacated. He can call upon the owner to make suitable repairs or remove the structure. If the owner neglects to act, or refuses, the official can step in, arrange to have the necessary work done and send the bill to the owner, this bill thereupon becoming a lien upon the property.

The owner can avail himself of several steps to safeguard his interests. He can appear at a hearing and dispute the official's contention. Frequently there is provision for a board of survey which determines whether the building actually is in the condition that the official claims it is. On this board the owner may have representation. In all cases, of course, he has recourse to the courts if he is dissatisfied with the treatment accorded him.

Often the vacating of a building effects strong pressure on an owner even though he may succeed in delaying actual repairs. The loss of rents and in reputation of the building is a penalty in itself and

## CONTRACTORS LIABLE FOR MARIN LICENSE

Notice is given San Francisco contractors planning to engage in work in Marin County that they are liable for a \$25 annual license fee by a bulletin from Geo. Murray, city tax collector of San Rafael. The license may be used for work in San Rafael, San Anselmo, Fairfax, Larkspur and Corte Madera.

an incentive to take prompt remedial measures.

Some recent building codes have gone beyond earlier practice in an apparent attempt to make action easier in border-line cases. For instance, the recently adopted code of Detroit has this to say:

"Whenever a building shall become vacant and abandoned, and the doors and windows, or a substantial part of them, shall have been removed or opened, leaving the interior of the building exposed to the elements and accessible to entrance by trespassers, such building shall be deemed dangerous and unsafe.

The building code of Denver, Colorado, also recently adopted, contains an extensive list of conditions deemed to make a building dangerous, including such items as defective flues, cracked foundations, crumbling plaster, and broken windows or doors admitting strong winds and rains.

These two codes cite physical conditions which are a considerable extension of the theory that structural integrity governs the determination of whether a building is dangerous or not. Their emphasis on general dilapidation and openness to the weather no doubt results from many experiences with structures where such conditions have been involved.

## Serious Injury Possible

It is becoming generally admitted that to leave a building abandoned to inroads of adventurous children and vandals all too often results in serious personal injury. Numerous instances have been authenticated where children have been injured in buildings progressively weakened by pilfering of interior finish and structural members. Fires have been set in such buildings, endangering adjoining property. These structures also all too frequently provide havens for gambling and gang activities. Whether these conditions will be regarded by the courts as sufficiently serious to justify requiring demolition is more or less an open question.

Vigorous application of legal authority is said to have resulted in the elimination of over 1800 substandard housing units in Milwaukee in a period of six years. Here a general rule has been suggested that where the costs of repairs of dilapidated and unsanitary buildings exceed 50 per cent of the entire replacement cost of the building, exclusive of good masonry foundations, the buildings should be razed.

Bids Opened  
COURT HOUSE AND JAIL  
Cost, \$192,000  
SANTA CRUZ, Santa Cruz Co., Cal.  
Front Street.  
Three-story and basement reinforced concrete, fireproof court house and jail (concrete floors, metal sash and plaster partitions, linoleum floor covering, steam heat; jail, 30 cells; office bldg., 120x35 feet).  
Owner—County of Santa Cruz.  
Architect—Albert F. Roller, Crocker First National Bank Bldg., San Francisco.  
Structural Engineer — H. J. Brunner, Sharon Building, San Francisco.  
A grant of \$85,310 has been approved by the PWA.  
Recommendation was made that contract be awarded Barrett & Hilp, 918 Harrison St., San Francisco, on a main bid of \$12,461, including Alternates 5, 6 and 7, and referred to PWA.  
Bids were taken with the following alternate:

- (1) Changing tread in main stairs, including platforms, in cast terrace instead of marble;
- (2) If basement floor slabs are 6-in. instead of 8-in. slabs;
- (3) If Venetian blinds are installed instead of window shades;
- (4) If kitchen floor (No. 317) has ceramic tile floor instead of 6-in. plain quarry tile;
- (5) If exterior walls on 1st and 2nd floors are arranged with wireways and removable front;
- (6) If steel, both solid plate & grille work, in cells and dry room is made of tool proof instead of open hearths;
- (7) If all cell doors are sliding instead of hinge and locking.

JANUARY 14, 10 A. M.

BID NO. 3120—900 sacks portland cement; f.o.b. Irrigation District Warehouse, Oakland.

Specifications obtainable from the above office.

## RECLAMATION BUREAU

**ALL-AMERICAN CANAL.**—Until January 28, 2 P. M., bids will be received by the Bureau of Reclamation, Denver, under Spec. No. 718, for furnishing and delivering fob cars at the shipping point and/or railroad destination, structural steel and steel castings for the highway bridge at stations 1655 plus 49.3 and 1939 plus 30.2, All-American Canal, Boulder Canyon Project. The materials will be installed by the Government.

Specifications obtainable from the above office without charge to prospective bona fide bidders; to others, \$2.00, not returnable.

**ALL-AMERICAN CANAL.**—Until January 27, 2 P. M., bids will be received by the Bureau of Reclamation, Denver, under Spec. No. 869-D, for furnishing and delivering fob cars at the shipping point and/or Yuma, Ariz., electrical control apparatus consisting of one 7-panel main control board and auxiliary equipment; three master-control cubicles; one 2300-volt switchboard, consisting of seven cubicle-type control units for the Imperial Dam and desludging Works, All-American Canal System, Boulder Canyon Project. The apparatus will be installed by the Government.

Specifications obtainable from the above office without charge to prospective bona fide bidders; to others, \$1.00, not returnable.

**BOULDER CANYON.**—Until Jan. 21, 2 P. M., bids will be received by the Bureau of Reclamation, Denver, under Spec. No. 867-D, for furnishing and delivering fob cars at the shipping point and/or Boulder City, three or four 1,667-kva, 60-cycle, single-phase oil-insulated, self-cooled, 16,500-74-ampere air-transformer type of load-ratio-control type, 1 24,500-volt, 600-ampere, triple-pole, single-throw, outdoor-type, gang-operated, air-break switch, and 1 outdoor-type metering instrument with accessories, for the Boulder power plant, Boulder Canyon project.

Specifications obtainable from the

above office without charge to prospective bona fide bidders; to others, \$0.25, not returnable.

**SALT RIVER PROJECT, Ariz.**—Until January 22, 2 P. M., bids will be received by the Bureau of Reclamation, Denver, under Spec. No. 868-D, for furnishing and delivering fob cars at the shipping point and/or Phoenix, one emergency bulkhead gate, gate guides, gate-slot cover, and appurtenances for the emergency bulkhead gate; trash-rack sections; guides and appurtenant parts for the needle valve outlets; and trash racks and appurtenant parts for the slide gate outlets, Bartlett Dam, Salt River Project, Ariz. All of the materials will be installed by the Government.

Specifications obtainable from the above office without charge to prospective bona fide bidders; to others, \$1.50, not returnable.

**UPPER SNAKE RIVER PROJ., Idaho.**—Until Jan. 23, 2 P. M., bids will be received by the Bureau of Reclamation, Denver, under Spec. No. 870-D, for furnishing and delivering fob cars at the shipping point and/or Chester, Idaho, four radial gates and four radial-gate hoists for installation in the headworks structures and in the combination check, turnout, and wasteway structures of Cross Cut Canal, Upper Snake River Proj., Idaho. The radial gates and hoists will be installed by the Government.

Specifications obtainable from the above office without charge to prospective bona fide bidders; to others, \$2.50, not returnable.

## DEPT. OF THE INTERIOR

**SEATTLE, Washington.**—Until January 18, bids will be received by the Purchasing Agent, Alaska Railroad, Interior Department, Federal Office Bldg., Seattle, under Proposal No. 0230, for furnishing steel for eight 80-ft spans, through steel plate girders with all upper corners square, including floor beams, stringers, etc.; 3 roller nests, 1 roller base, anchor bolts, hook bolts, machine bolts, and washers for two spans of same kind.

Specifications obtainable from the above office.

## CANAL ZONE

**PANAMA CANAL ZONE.**—Until January 15, 10:30 A. M., bids will be received by T. A. Smith, General Purchasing Officer, The Panama Canal, Washington, D. C., under Sched. No. 3215, for furnishing two caisson pumping units, motor driven, vertical complete with suspension frame for pumping out caissons.

Alternate bids will be received for three pumps, the same as above.

Specifications obtainable from the above office and from the Assistant Purchasing Agent, The Panama Canal, Fort Mason, San Francisco.

## SAN FRANCISCO CITY

**SAN FRANCISCO.**—Until Jan. 15, 3 P. M., bids will be received by T. A. Brooks, Purchaser of Supplies, Room 270, City Hall, under Bid No. 1721, for furnishing approximately 9,300 cu. yd. plant-mixed concrete, Class B and E, for WPA projects.

Specifications obtainable from the above office.

## 21— BRIDGES

### BIDS WANTED

**ALL-AMERICAN CANAL, Arizona-Calif.**—Until Jan. 28, 10 A. M., bids will be received by the Bureau of Reclamation, Federal Bldg., Yuma F. B. Williams, Construction Engineer, under Spec. No. 717, for the construction of highway bridges, All-American Canal, Sta. 1635 to 1930, All-American Canal System, Boulder Canyon Project, Ariz.-Calif.-Nev.

The work is located near Yuma, and the principal items of work involved are:

- (1) 29,200 c.y. excav. for canal;
- (2) 12,700 c.y. of excav. for struc.;
- (3) 11,000 c.y. of backfill;
- (4) 2,850 c.y. of concrete;
- (5) 300 c.y. of riprap;
- (6) placing 360,000 lbs. of reinf. bars;
- (7) erecting 1,056,000 lbs. of structural steel, and
- (8) erecting 15.0 M. FBM timber.

Work shall be commenced within 30 calendar days and completed within 350 calendar days after receipt of notice to proceed.

Specifications obtainable from the Bureau of Reclamation at Yuma, Denver, or Washington, D. C., without charge to prospective bidders; to others, \$2.00, not returnable.

### AWARD APPROVED

**SUTTER CO., Calif.**—Award of a contract by the Sutter County Board of Supervisors to C. W. Caletti & Co., P.O. Box 243, San Rafael, at \$131,614, for the reconstruction and repair of the Nicolaus Bridge across the Feather River, has been approved by the PWA.

## 25—MACHINERY AND EQUIPMENT

### CONTRACTS AWARDED

**ALL-AMERICAN CANAL**—Contracts for furnishing radial gates for installation in the Gila Valley Canal Headworks for sluice way and the by-pass and influent channels at the Imperial Dam, All-American Canal System, have been awarded by the Bureau of Reclamation, Denver, under Spec. No. 846-D, as follows:

Pacific Iron & Steel Co., Los Angeles: (1) nine 25-ft. 8-in. x 14-ft. 6-in. radial gates, \$21,116; (2) twelve 16x7-ft. radial gates, \$9,291.

Berkeley Steel Const. Co., Berkeley: (3) fourteen 21-ft. x 17-ft. 6-in. radial gate \$19,562.

### BIDS OPENED

**BOULDER CITY, Nev.**—Following bids received by the Bureau of Reclamation, Denver, under Spec. No. 558-D, for furnishing two flowmeters for measuring the flow of water through 115,000-h.p. hydraulic tur-

bines for installation in the Boulder Power Plant:

Bailey Meter Co., Cleveland: \$1,540, net; fob Cleveland.

Simplex Valve & Meter Co., Philadelphia: \$1,660, alt., \$1,410; discount 1%; fob Boulder City.

Leeds & Northrup Co., Philadelphia: \$2,030, net; fob Philadelphia.

### PURCHASES AUTHORIZED

**SAN JOSE, Santa Clara Co., Calif.**—City Manager C. Goodwin has been authorized by the City Council to purchase an air compressor for the City of San Jose Street Department. Estimated cost, \$1,500.

### BIDS OPENED

**LOS ANGELES**—Joshua Hendy Iron Works, 206 Sansome St., San Francisco, submitted the low bid at \$19,685, to the Metropolitan Water District of Southern California, January 5, for furnishing three 6½x10-ft. motor operated, regulating slide gates for the Copper Basin reservoir outlet of the Colorado River Aqueduct under Specification No. 187. The bids were:

Joshua Hendy Iron Works, \$19,685; f.o.b. Sunnyvale; shipping weight, 145,000 lbs.; weight of heaviest part, 10,500 lbs. Terms, net.

Consolidated Steel Corp. Ltd., \$22,931; f.o.b. 5700 S. Eastern Ave., Los Angeles; shipping weight, 140,000 lbs.; shipping weight of heaviest part, 10,500 lbs. Terms, net.

Keystone Engineering Co., \$29,842; f.o.b. Los Angeles; shipping weight, 145,000 lbs.; shipping weight of heaviest part, 11,000 lbs. Terms, net.

Madsen Iron Works, \$33,000; f.o.b. Huntington Park; shipping weight, 149,000 lbs.; shipping weight of heaviest part, 11,000 lbs. Terms, net.

## 29—STREETS AND HIGHWAYS

### CONTRACT AWARDED

**YAVAPAI & COCONINO COUNTIES, Arizona**—Lee Moor Contracting Co., 807 Bassett Tower, El Paso, at \$47,381.80, awarded contract by the Bureau of Public Roads, C. H. Sweetser, District Engineer, New Post Office Bldg., Phoenix, for 1,872 miles of grading on Section K of Route 7, the Oak Creek National Forest Highway, Coconino National Forest, Yavapai and Coconino Counties, Arizona.

Complete bids published December 11.

### NO BIDS RECEIVED

**TULARE CO., Calif.**—No bids were received by the Bureau of Public Roads, C. H. Sweetser, District Engineer, Federal Office Bldg., San Francisco, for bituminous surface treat-

ment on 10,585 miles of Section D, Route 1, the Generals Highway, Sequoia National Park, Tulare Co.

### PLANNED

**VALLEJO, Solano Co., Calif.**—City has available \$100,000 for street improvements to be contracted early in 1937. City Engineer T. D. Kilkenny is preparing specifications for repaving about 17 blocks on various streets.

### CONTRACT AWARDED

**LOS ANGELES, Cal.**—Los Angeles Paving Co., 3700 S. Soto St., Los Angeles, at \$16,800.69 awarded contract by the Los Angeles board of public works for grading, paving and otherwise improving Sepulveda Blvd. between Roscoe Blvd. and 1800 feet southerly of Roscoe Blvd., a cash contract. The bids were opened December 16.

### BIDS WANTED

**WASHOE CO., Nevada**—Until January 15, 2 p.m., bids will be received by the Reno City Council, J. B. Reese, City Clerk, City Hall, for the construction of approaches for the Lake St. Bridge across the Truckee River in the City of Reno.

The work involves:

- (1) 59 lf. remove culvert pipe;
- (2) 430 lf. remove curb;
- (3) 1,010 sq. yds. remove paving;
- (4) 280 c.y. roadway excav.;
- (5) 500 c.y. set-back borrow;
- (6) 3,493 c.y. imported borrow;
- (7) 250 c.y. structure excav.;
- (8) 2,515 sq. yds. subgrade for pavement;
- (9) 0.090 mile finish roadway;
- (10) 220 tons asphaltic concrete base;
- (11) 230 tons asphaltic concrete surface;
- (12) 350 c.y. Class A concrete;
- (13) 20,000 lbs. reinforcing steel;
- (14) 60 lf. part circle corrugated metal pipe (19½-in.);
- (15) 15 c.y. hand-laid riprap;
- (16) Lump sum, move oil tank;
- (17) 1,500 lbs. castings;
- (18) Lump sum, miscellaneous items.

**NOTE:** It is the intent of the City to use a hot plant-mixed asphaltic concrete for paving the roadway on the approaches providing a hot-mix plant is available at the time the asphaltic concrete is needed. To provide against the possibility that the plant, which is now available, may not be available when the asphaltic concrete is needed, the City has set up specifications for cold-mixed asphaltic concrete and is calling for alternatives on cold-mixed asphaltic concrete which may be accepted in case sufficient funds are not available for the hot plant-mixed asphaltic concrete or in case the plant for mixing is not available:

- (a) 690 tons, furnishing, mixing and laying cold-mixed asphaltic concrete (exclusive of furnishing the asphalt);
- (b) 65 tons, mixing emulsified asphalt.

Bids for the construction of the Lake Street Bridge, a reinforced concrete structure 0.03 mile in length, will be opened by the Nevada State Highway Directors, Carson City, January 14, 2:30 p.m.

Plans and specifications for the approach construction are obtainable from the office of City Engineer Charles L. Hill, upon deposit of \$10.

### PLANNED

**SAN MATEO COUNTY, Cal.**—Parrott Investment Co., 155 Montgomery St., San Francisco, has applied to the city of San Mateo for reclassi-

## CAPITAL CITY TITLE COMPANY

J. C. PALEN.

Manager

914 Seventh Street  
Sacramento :: California

fication of 5.69 acres comprising the Alfred H. Payson estate at El Camino Real and Fifth Ave. to permit construction of commercial buildings. It is reported the owners will spend about \$30,000 for extension of San Mateo Drive and Fourth Avenue to give access to building sites.

**BIDS WANTED**

**WASHOE CO., Nevada.**—Until January 15, 2 p.m., bids will be received by the Reno City Council, J. B. Reese, City Clerk, City Hall, for the construction of approaches to retaining wall for Sierra Street Bridge and removal of dam in the Truckee River, in the City of Reno.

The work involves:

- (1) 2,361 sq. yds. remove paving;
- (2) 1,012 c.y. roadway excavation;
- (3) 1,408 c.y. select borrow;
- (4) 2,314 c.y. imported borrow;
- (5) 2,300 c.y. structure excav.;
- (6) 5,485 sq. yds. subgrade for pavement;
- (7) 0.285 miles finish roadway;
- (8) 230 tons crushed gravel or stone surface;
- (9) 910 tons asphaltic concrete base;
- (10) 415 tons asphaltic concrete surface;
- (11) 950 cu. Class A concrete;
- (12) 417 lf. concrete railing;
- (13) 67,000 lbs. reinforcing steel;
- (14) 196 lf. 12-in. CMP (dipped);
- (15) 76 lf. 18-in. CMP (dipped);
- (16) 2,650 lbs. castings;
- (17) Lump sum, miscellaneous items.

**NOTE:** It is the intent of the City to use a hot plant-mixed asphaltic concrete for paving the roadway on the approaches providing a hot-mix plant is available at the time the asphaltic concrete is needed. To provide against the possibility that the plant, which is now available, may not be available when the asphaltic concrete is needed, the City has set up specifications for cold-mixed asphaltic concrete and is calling for alternates on cold-mixed asphaltic concrete which may be accepted in case sufficient funds are not available for the hot plant-mixed asphaltic concrete or in case the plant for mixing is not available:

- (a) 1,240 tons, furnishing, mixing and laying cold-mixed asphaltic concrete (exclusive of furnishing the asphalt);
- (b) 118 tons, mixing emulsified asphalt.

Bids for the construction of the Sierra Street Bridge across the Truckee River, a concrete and steel structure 0.025 mile in length, will be opened by the Nevada State Highway Directors, Carson City, January 14, 2 p.m.

Plans and specifications for the approach construction are obtainable from the office of City Engineer Charles L. Hill, City Hall, upon deposit of \$10.

**BID CALL CANCELLED**

**SACRAMENTO.**—Major Arthur W. Parker, Constructing Quartermaster, Old Post Office Terminal Bldg., Sacramento, has announced the cancellation of a call for bids, to have been opened January 15, under Bid No. 6870-37-8, for grading the landing field on the site of the Army Air Corps Supply Depot, near North Sacramento.

Plans and specifications will be revised and a new call for bids issued.

**Contract Awarded**

**SAN FRANCISCO.**—A. G. Ralsch, 1 DeHaro St., San Francisco, at \$45,799.35, awarded contract by the Department of Public Works, City Hall, under Spec. No. 18,994, for the construction of Richardson Ave., from Broderick St. to Lyon St.

**LOW BIDDER**

**YUMA CO., Ariz.**—N. G. Hill & Co., Phoenix, at \$7,942, submitted the low bid to the Arizona State Highway Commission, Phoenix, for highway construction on the Yuma-Phoenix Highway, F.A. 55, 3rd Reop. (1957); A. E. E. 8013. The work, which is located near Stoval approximately half way between Yuma and Gila Bend, consists of widening and resurfacing one and two-thirds miles of the present road, and is to be completed on or before April 30, 1957.

The principal items and approximate quantities are:

- 9,350 c.y. roadway excav.;
  - 29,100 cu. yd. imported borrow;
  - 9,350 cu. yd. select material;
  - 960 M. gal. sprinkling;
  - 390 hours rolling;
  - 2,800 tons cutback mix (plant or road);
  - 157 tons cutback asphalt;
  - 440 tons screenings (2 types);
  - 1,900 tons salvaging and relaying oil cake;
  - 106 tons salvaging and stockpiling oil cake.
- Lee Moor Contracting Co. submitted the second low bid at \$31,079.

**REDWOOD CITY—WHARF & TRANSIT SHED—(City)**

**REDWOOD CITY, San Mateo Co., Calif.**—Healy-Tibbitts Const. Co., 64 Pine St., San Francisco, at \$93,472 submitted low bid to the Redwood City City Council, E. E. Myers, City Clerk, City Hall, for the construction of a 450-foot timber wharf, on creosoted piles, with an area of 36,614 sq. ft., and construction of a timber transit shed, 100x120 ft., with corrugated iron sides and composition roof to be built upon the wharf, the substructure to be an integral part of the wharf and having an asphaltic wearing surface floor.

The transit shed will have a capacity of 250 tons per day. An asphaltic wearing surface 2-in. thick will cover the wharf area, and approach ramps 20-ft. wide will be constructed at each end.

Bids were taken as follows:

(A) 1,000 lf. creosoted piles, 35 to 49 ft. long;	(B) 9,000 cu. yd. 50 to 64 ft.;	(C) 12,000 cu. yd. 65 to 74 ft.;
(1A) \$55	(1B) \$53	(1C) \$100
(2A) .75	(2B) .63	(2C) 1.15

A grant of \$73,850 was recently allotted by the PWA. Plans prepared by Edward Von Geldern, Second and C Streets, Yuba City, Civil Engineer. C. W. Lanzendorf, County Engineer.

**NEW BIDS WANTED**

**COCONINO CO., Ariz.**—Until Jan. 21, 2 P. M., bids will be received by the Bureau of Public Roads, C. H. Sweetser, District Engineer, Federal Office Bldg., Civic Center, San Francisco, for furnishing the following asphaltic road materials, for use on Grand Canyon Route 8, Grand Canyon National Park, Coconino Co.:  
 (1) 60 tons Type SC-2;  
 (2) 98 tons Type RC-4;  
 (3) 306 tons Type 90-95;  
 (4) 140 tons emulsified asphalt.

Specifications obtainable from the above office.

All bids received December 22 have been rejected.

**BIDS WANTED**

**SACRAMENTO CO., Calif.**—Until January 25, 10 a. m., bids will be received by the Sacramento County Board of Supervisors, T. F. Patterson, County Clerk, Room 201, Court House, Sacramento, for furnishing 2,200 tons of asphaltic plant mix, f.o.b. county trucks at Walnut Grove, for use on the Walnut Grove-Locke road.

The work will be done by county forces.

Specifications obtainable from the office of County Engineer E. A. Fairbairn.

**BIDS WANTED**

**SAN FRANCISCO.**—The Department of Public Works, S. J. Hester, Chief Deputy Director, plans to improve (expediency) Williams Avenue between Third Street and Newhall Street, including the intervening intersections and including the concrete work in the intersection of Williams Ave. and Third St., under Spec. No. 18,959. Estimated cost, \$24,960.

The work involves:

- (1) Grading (excav.);
- (2) Grading (embankment);
- (3) 12-in. VCP sewer, in place;
- (4) 6-in. VCP side sewer, in place;
- (5) 8-in. VCP side sewer, in place;
- (6) 12-in. x 6-in. Y branches, in place;
- (7) 12-in. x 8-in. Y branches, in place;
- (8) Brick manholes, complete;
- (9) Brick catchbasins, reset or reconstructed;
- (10) Brick catchbasins, complete;
- (11) 10-in. VCP culvert, in place;
- (12) Two-course concrete sidewalk;
- (13) Armored concrete curb;
- (14) Unarmored concrete taper curb;
- (15) Black base pavement, consisting of a 4-in. asphaltic concrete base course and a 2-in. asphaltic concrete wearing surface;
- (16) Asphaltic concrete wearing surface, removed and replaced;

- (17) Asphaltic concrete pavement;
- (18) Asphalt-concrete pavement, consisting of a 6-in. Class F concrete base and a 2-in. asphaltic concrete wearing surface;
- (19) 4-in. painted white lacquer traffic lines;
- (20) Street sign reset;
- (21) 9-unit warning reflectors, in place;
- (22) Standard wood fence.

**BIDS WANTED**

**PINAL CO., Ariz.**—Until Jan. 15, 2 P. M., bids will be received by the Arizona State Highway Commission, T. S. O'Connell, State Highway Engineer, Phoenix, for construction of the Mesa-Superior Highway, F.A. 7, 2nd Reop. (1937) APE 8011. The work, which is to begin about 3.9 miles northwest of Florence Junction and is to extend southeasterly to Florence Junction over a recently constructed new alignment, consists of furnishing and placing aggregate base course and 90-95 road oil plant mix, and is to be completed on or before May 31, 1937. The approximate quantities and principal items are:  
 27,000 tons aggregate base course (CIP);

121 tons cutback asph. (MC-1);  
 5,100 tons plant mix;  
 278 tons road oil (90-95);  
 3.9 miles placing plant mix;  
 629 tons screenings;  
 100 M. gals. sprinkling;  
 100 hours rolling;  
 600 tons stockpiling plant mix.  
 Plans and specifications obtainable from the above office.

**30—RESERVOIRS & DAMS****BIDS WANTED**

**SEATTLE, Wash.**—Until January 14, 10 a. m., bids will be received by the Seattle Board of Public Works, G. W. Roberge, Secretary, Room 511, County City Bldg., Seattle, for the clearing of the Ruby Basin.

Bids will be taken as follows:  
 Proposal No. 1, comprising Schedules Nos. 1 to 5, inclusive.  
 Proposal No. 2, complete Schedule No. 6.

The work will involve clearing of about 2,100 acres of land, divided into five sections varying from 140 to 500 acres. Estimated cost, \$300,000.

The damsite is located in the valley of Skagit River, about 150 miles northeast of Seattle. The Ruby Dam, which will be 290 feet in length and constructed to elevation 1390, is estimated to cost \$1,350,000. It will involve 425,000 c.y. mass concrete, two cofferdams, 100,000 c.y. loose and solid

rock excavation, unlined diversion tunnel, necessary diversion control gates, etc. The project will also include a transmission line to cost \$2,000,000 and a substation to cost \$845,000.

Lynch Bros., Seattle, have been awarded a contract for diamond drilling, the first unit of the project.

A grant of \$3,000,000 was recently allotted by the PWA.  
 Plans and specifications for the clearing of the site may be obtained at Room 216, City Light Bldg., upon deposit of \$10.

**BIDS WANTED**

**BONNEVILLE, Ore.**—Until Jan. 12 3 P. M., bids will be received by the U. S. Engineer Office, Second Portland Dist., 627 Pittcock Block, Portland, Lieut. Col. C. F. Williams, District Engineer, under Bid No. 694-37-225, for constructing a concrete filler block and a timber and steel cofferdam in temporary navigation recess in Monolith No. 27 at the east end of he ship lock at Bonneville.

The work involves:

- (1) 2,400 c.y. Class B concrete;
  - (2) 22,000 lbs. reinforcing steel;
  - (3) 11 MFBM lumber, in place;
  - (4) 1,500 lbs. anchor bolts and embedded parts, placing only;
  - (5) 2,500 lbs. anchor bolts, furnishing and placing;
  - (6) 250 l.f. drilling 1½- and 1¼-in. anchor bolt holes;
  - (7) 120 l.f. drilling 3-in. anchor bolt holes;
  - (8) 850 l.f. copper water stops;
  - (9) 48,500 lbs. stru. steel in place;
  - (10) 1,200 l.f. 4-inch fiber conduit, placing only;
  - (11) lump sum, remove timber manger gates, sills and operating equip.
- Plans and specifications obtainable from the above office.

**CONTRACT AWARDED**

**BONNEVILLE DAM, Ore.**—General-Sheila Co., Bonneville, at \$12,056 awarded contract by the U. S. Engineer Office, Second Portland District, Lieut.-Col. C. F. Williams, District Engineer, Pittcock Block, Portland, for the construction of three reinforced concrete guide piers for the upper guide wall of the navigation locks, Bonneville Project.

**32—SEWERS & SEWAGE DISPOSAL PLANTS****BONDS WOTED**

**CHOWCHILLA, Madera Co., Calif.**  
 —A bond issue of \$20,000 to defray the city's share of a \$57,000 sewer project was unanimously approved at a special election December 28. The

**ALL-AMERICAN CANAL—R. R. & HIGHWAY SIPHONS—(Govt.)**

**ALL-AMERICAN CANAL.**—Lewis-Chambers Constr. Co., 801 Baronne Bldg., New Orleans, at \$106,528.50, as previously reported, submitted low bid to the Bureau of Reclamation, Yuma, R. B. Williams. Construction

Engineer, under Spec. No. 713, for the construction of a railroad and highway siphons on the All-American Canal, Stations 3579, 3683, 3710, and 3772, All-American Canal System, Boulder Canyon Project, near Calexico.

Quantities and unit prices of the four low bidders were published December 31.

Following is a complete list of the total bids:

	(1)	(2)	(3)	(4)	Total
(A) Lewis-Chambers Constr. Co., New Orleans	\$22,787.00	\$21,812.50	\$37,026.50	\$24,902.50	\$106,528.50

(P) Frank Duran, San Diego			61,815.50		

Complete tabulation of unit bids is on file at the office of Daily Pacific Builder.

ond issue is contingent on granting of additional funds by the PWA. Frank Ady, Mayor.

**BIDS OPENED**

SAN RAFAEL, Marin Co., Calif.—J. J. Ongaro, 50 Winship Ave., San Anselmo, submitted low bid to the San Rafael City Council, Eugene W. Smith, City Clerk, for construction of a gravity sewer along a portion of the north side of the San Rafael-San Quentin Road.

The work involves:

- (1) 600 lf. 6-in. cast-iron pipe;
- (2) 2 each, manholes, complete in place.

Complete bids follow:

- J. J. Ongaro, San Anselmo—(1) \$170 per lf.; (2) \$65, each.
- Martin Murphy, Berkeley—(1) \$189 per lf.; (2) \$70, each.

**AWARD APPROVED**

PARLIER, Fresno Co., Calif.—The PWA has approved the award of a contract by the Parlier City Council to Harvey E. Conner, 1222 Whipple Ave., Redwood City, at \$37,400 (concrete pipe) for the construction of a sewage disposal system, including an Imhoff tank and treatment works and sanitary sewer system with outfall line.

Dan W. Chamberlin, 1213 Broadway, Fresno, engineer.

**PLANNED**

LODI, San Joaquin Co., Calif.—Harry N. Jenks, 2701 Avenue, Berkeley consulting engineer, will conduct tests at the Lodi sewage disposal plant preliminary to recommending improvements to cost approximately \$15,000. C. O. Henning, city engineer.

**BIDS WANTED**

RIVERSIDE COUNTY, Cal.—Until Jan. 22, 10 A. M., bids will be received by the Metropolitan Water District, 306 W 3rd St., Los Angeles, for construction of a sewer system connecting Mountain pumping plant, approximately 10 miles north of Desert Center, Riverside County. The work comprises the furnishing and installing of vitrified clay sewer pipe cast iron soil pipe, fittings and construction of a septic tank and manholes. Spec. No. 185. Certified or cashier's check, \$350, must accompany bid. Plans and specifications may be obtained from Room 1007, 306 W 3rd St., Los Angeles, upon payment of \$2 per set, not returnable.

**33— WATER WORKS**

**CONTRACT AWARDED**

CALDWELL, Idaho.—Layne & Bowler, 900 Santa Fe, Los Angeles, at \$19,379 (second low bidder), awarded contract by the Pioneer Irrigation District, Caldwell, M. DeCoursey, president, for furnishing and installing 16 deep well turbine pumps and motors, complete.

Bids were opened October 19. Palmer Supply Co., Seattle, at \$19,379, submitted the low bid.

R. M. Ednie, Napa, consulting engineer.

**BIDS OPENED**

LOS ANGELES—Rohi-Connelly Co., 431 Valley Blvd., submitted the apparent low bid to D. P. Nicklin, purchasing agent of the Los Angeles Water & Power Bureau, room 740, 207 S. Broadway, January 4, for constructing a 20-in. cast-iron water supply line under main ship channel, San Pedro. PWA Docket No. 1929-R, Unit No. 89-B. Spec. No. X-83. The items are:

- (a) 175 tons transporting pipe from Rohl's San Pedro yard, per ton;
- (b) 108 lf. furnish and install 30-in. I D corr. galv. steel pipe with

air vents under S P R R tracks, per ft;

- (c) 11 c y. concrete anchor block on 20-in. C I pipe, per yd.;
- (d) 496 lf. driving 14 crososted piles, per ft;
- (e) Lump sum, for re-inf. concr. pile caps, pipe supports, and tiestruts;
- (f) 96 lf. 20-in. flanged end C I pipe from end of anchor block;
- (g) 54 lf. furnish material and sink a 7-ft. diam. sheet pile caisson, per ft.;
- (h) 50 lf. install inside caisson 20-in. flanged end C I pipe incl. installation of 90-degree bends and 14-in. section flange;

- (i) 10 c y. furnish all material and place concrete at subgrade inside the 7-ft. inside diam. caisson;
- (j) 47 lf. furnish and install inside the caisson and outside the 20-in. C I pipe 36-in. 24-ga. steel pipe;
- (k) 1424 lf. excav. trench for 20-in. pipe from caisson to end of contract on east shore of the main ship channel;
- (l) 20 c y. furnish and place rock blanket for approx. 16 ft. east of caisson;

(m1) Furnish and place crushed rock if required, under 200 yds.;

(m2) Furnish and place crushed rock if required, 200 to 400 yds.;

(m3) Furnish and place crushed rock if required, over 400 yds.;

- (n) 1424 lf. install 20-in. C I pipe across main ship channel from the caisson to the end of the contract on the east shore of the channel;

- (o) 1424 lf. backfill over 20-in. cast-iron pipe across channel from the caisson to the end of the contract on the east shore of the channel;

- (p) 100 c y. replace rock riprap and place additional rock riprap, if required;

- (q) discount if allowed to work each labor classification 40 hours per week.

The bidders were:

- (1) Rohi-Connelly Co.—\$56,851.70 (less item m).
- (2) Hull, Smale & Robinson, Inc.—\$58,692.70 (less item m).

The bids were:

**BIDS OPENED**

SAN FRANCISCO—W. J. Tobin, 566 Howard St., San Francisco, at \$73,95, submitted low bid to the Public Utilities Commission, City Hall, under S.F.W.D. Contract No. 135, for the laying of 6-in. and 8-in. cast-iron pipe lines in Thirty-third and Forty-fifth Avenues and Alameda Blvd.

The work involves:

- (1) 775 lf. excav. and backfill of 6-in. and 8-in. pipe, trench 17 in. wide by 36 in. deep;
- (2) 15 c y. additional excav.;
- (3) 60 sq. ft. additional pavement removed and replacement;
- (4) Installation of pipe:
  - (a) 405 lf. 6-in. bell and spigot cast-iron pipe;
  - (b) 370 lf. 8-in. do.;

- (5) 2,200 lbs. installing of fittings, gate valves, etc.;
- (6) 125 lf. making joints for pipe and fittings;
- (7) Repairment:
  - (a) 632 sq. ft.;
  - (b) 580 sq. ft. sidewalk;
- (8) Installation of 1¾-inch screw tops;
- (9) Installation of 75 feet of ¾-inch sewer pipe.

Total bids follow:

- (A) W. J. Tobin.....\$735.95
- (B) P. L. Burr.....\$220.90
- (C) E. J. Treacy.....\$52.65

Unit bids follow:

## STATE ASKED TO CONSTRUCT BRIDGE ROAD

**Funston Approach To Gate  
Span Through the Presidio  
May Cost \$1,500,000**

Plans for financing the Funston Avenue approach to the Golden Gate Bridge within the Presidio by which the state will pay two-thirds the cost of construction and San Francisco one-third, are expected to receive approval of the State Highway Commission today in Sacramento.

District Engineer Jno. H. Skeggs will recommend the project, it is understood.

The plan by which San Francisco will pay one-third the cost of construction originated at an informal meeting between city and Division of Highway officials held in Sacramento recently. Since state officials helped decide upon the plan it is believed that it will be approved by the commission today.

At present, Casey states, there are nine proposed plans for the approach. The two receiving immediate consideration are estimated to cost \$1,600,000 and \$1,100,000. The length of approach which must be built to conform with certain Army regulations will determine the final cost.

If present plans go through, the state will allocate \$5000 for a survey of the approach. Following approval, the temporary roads will be constructed. The question as to who will build these roads is as yet undecided, according to Casey, who suggested that the WPA might aid in the work.

The city's share of the cost of the approach, amounting to approximately \$500,000, will come from either the one-quarter cent gas tax fund for construction of state highway routes through cities, or from the second quarter cent gas tax fund. The former plan is favored by officials of the Department of Public Works. An agreement is expected to be reached by which the city will pay its share of the construction costs over a four-year period, approximately \$125,000 per year, so that the present street construction program will not be disrupted.

## PRESIDENT ASKS WORKS DEPARTMENT

Creation of a single Public Works Department as one of 12 major administrative divisions of the federal government was recommended to congress this week by President Roosevelt, in his message asking sweeping reorganization of federal agencies.

Under this department all government agencies concerned with major construction jobs, except those which are the normal work of such other divisions as the U. S. Army Engineers, would operate. Function of the department, according to the report of the President's committee, would be to advise on public works, design, construct and maintain large scale public works, and allot federal funds for construction.

## S. F. COLLEGE WORK PLANNED COSTING \$2,115,000

**Legislators Seek Appropriation  
For Replacements and  
Additions**

Funds for a group of modern buildings at the San Francisco State College are to be sought in an appropriation measure presented to the state legislature by the San Francisco assembly delegation. A special appropriation of \$2,380,000 is requested. Of this amount \$2,115,000 is for new buildings.

The appropriation would be divided as follows:

Main College Hall .....	\$900,000
Auditorium .....	325,000
Gymnasium .....	340,000
Library .....	500,000
Athletic Field and Im-	
provements .....	195,000
Minor Construction .....	50,000
Land Purchase and Im-	
provements .....	70,000

Assemblymen declared the existing state school plant in San Francisco is overcrowded, its buildings are obsolete and it lacks essential facilities.

## ASK NEW BIDS FOR BROADWAY TUNNEL WORK

**Highway District Sets Jan. 27  
As Date For Completion  
Proposals**

New bids for completion of the Broadway low - level tunnel had been invited today by directors of Joint Highway District No. 13, to be opened in Oakland January 27.

Bids on the two contracts received December 9 and aggregating some \$544,000 were rejected by the district.

The larger of the two contracts is the principal job remaining to be let on the tunnel job, and includes completion of air ducts, paving and other work in the portion of the tunnel already excavated. Last month Fred J. Early, Jr., San Francisco, was low bidder for the job at \$498,862.

A second contract calls for completion of ventilating buildings, including portions of electrical equipment. K. E. Parker Co., San Francisco, was low bidder in December on this job, with a figure of \$45,892.

### Other Work Let

The contract for completion of the tunnel excavation already has been awarded to Geo. Pollock and R. G. Clifford, and the contractors are at work on the project at the present time. Contract price for the excavation completion is \$731,100.

Other tunnel completion contracts, let after Six Companies of California abandoned the project, include: Alta Electric & Mechanical Co., San Francisco, completion of ventilating, mechanical and electrical equipment, \$269,800; Heafey-Moore Co., Oakland, completion of approaches, \$209,713; and R. G. Clifford, completion of grouting in tunnels around concrete already installed in the tunnel, \$29,750.

Work on the Redwood City harbor was underway this week as Healy-Fibbitts Construction Company, contractor for the job, started pile-driving operations. The project is financed jointly by the city, PWA and War Department funds.

## Friant Dam Prevailing Wage Scale Announced By Department of Labor

With a \$15,000,000 appropriation for the Central Valley Project recommended last week by President Roosevelt, the big reclamation job today moved another step closer to construction as the Department of Labor announced prevailing wage scales to apply on Friant Dam, diversion works for the Madera and Friant-Kern canals and possibly the government camp at Friant Dam site.

"We can advertise for bids on the dam as soon as water right negotiations are completed," Acting Commissioner of Reclamation John C. Page is quoted as saying.

Single classifications for carpenters and riggers are established, with rates set at 1.06¼ per hour for carpenters and \$1.50 per hour for riggers.

Rates in three of the wage brackets are reported to be in conflict with union demands, but the labor department added to its announcement the notation that they are subject to revision upwards upon completion of negotiations with labor representatives.

In his announcement Page declared the scales are not applicable to either of the canals proper. Following are the hourly rates, according to press advices from Washington:

Bricklayers and stone masons; operators of highline cableway cranes, derricks, mucking machines, pile drivers and power shovels and other excavating equipment with shovel-type controls; plasterers; riggers; structural steel erectors; hook-tenders; signman—\$1.50 an hour.

Blacksmiths, \$1.10; carpenters, \$1.06¼; cement finishers, \$1.10; electricians, \$1.25; linemen, \$1.12¼; linemen (cable splicers), \$1.25; electricians' apprentices—initial rate—\$4 per day; glaziers, \$1.06¼; latners, \$1.25; machinists, \$1.00; compressor plant operators, \$1.25; concrete plant operators, \$1.10; core drill operators, \$1; drangle (except with shovel type controls) \$1.25; blade grader (five ft) work \$1; grader elevating, \$1; hoist (two or more drums) \$1.25; machine drill-steel dresser, \$1.10; roller (fin-othor work) 90 cents; tractor (50 h.p. and over), \$1; transit mix operator and driver, 93 cents; trenching machine operators, \$1.37½.

### Apprentice Scale Set

Ornamental iron workers, \$1.25; painter, \$1; pipefitter, \$1.33½; plumbers and steamfitters, \$1.21-3.7; roofers \$1; sheet metal workers \$1.21-3.7; structural iron workers' apprentices, \$1; reinforced ironworkers' apprentices, 83½ cents; ornamental ironworkers' apprentices, 83½ cents; tile setters, \$1.25.

Welders (this work performed by craft performing operation to which welding is incidental and the individual craft wage applies).

Concrete vibrator operators, \$1.00; concrete workers, 77 cents; bricklayers' tenders, 87½ cents; jackhammerman, 75 cents; motorman, underground, \$1.25; miner, machine man, timberman, 75 cents; oilers and firemen, 82 cents; oil distributor bootman, 75 cents; churn drill (solid bit) operator, 75 cents; concrete mixer, 93 cents; crusher plant, \$1.25; dunkey locomotive, \$1.25; grader, rough work (towing or motor), 75 cents; pipe-layer (where cement or caulking is not used. This classification does not include laying of culverts), 82

## CREDIT COUNCIL MEMBERS OPPOSE RETURN OF NRA

### Uncertain of Robinson-Patman Effect On Industry Operations

Opposition to the return of the NRA system to their particular line of business is expressed by 83 per cent of the members of the economic credit council of the National Association of Credit Men in a survey just completed. The council is composed of approximately two hundred members from all sections of the country, these members representing firms in the banking, manufacturing and wholesaling fields.

In response to another question in the survey asking them what they believe or know is the reaction to the NRA's possible return in their line of business on the part of other business men in their line, 15.5 per cent reply that they believe there is a generally favorable reaction by other business men in their line. But the overwhelming majority, 84.5 per cent, report a generally unfavorable reaction to recent reports about the possible return of the code system for American business.

An indication of the uncertainty which surrounds the operations of the Robinson-Patman Act and its potential effect upon their business activities is available from the returns to the question: "Will the Robinson-Patman Act affect your firm favorably?"

Thirty per cent of the members reporting believe it will. Thirty-three per cent feel it will affect their business operations unfavorably. Thirty-seven per cent replied, in effect, that they don't know as yet.

Both the banking and the commercial members of the council note a rise in bank credit extensions during the past two years. But there is a rather close division of opinion among the banking members of the council as to whether the validity of loan applications during the past two years has justified bank credit expansion to the amount deemed desirable by some commentators.

Eighty-five per cent of those answering expect an average improvement of 15 per cent in business conditions during 1937, while the remainder expect the 1936 level to be held during the new year. None anticipate poorer business conditions during the months ahead.

In the matter of inventories, 74 per cent of the credit executives report that they found inventories during 1936 to have been maintained at an average 14 per cent higher than in 1935. As to their own firm's inventories, 81 per cent said their inventory averaged 20 per cent higher in 1936 than over the six-year depression period.

## BIG OAK FLAT TUNNEL BIDS TOP ESTIMATE

### Sam Orino, Bonneville Contractor, Submits Low Proposal At \$375,687

Sam Orino, Bonneville, Oregon, yesterday submitted a bid to District Engineer C. H. Sweetser of the U. S. Bureau of Public Roads in San Francisco at \$364,530 for constructing a tunnel on Big Oak Flat road on the rim of Yosemite Valley. The bid is approximately \$28,000 lower than that offered by Shofner and Gordon and Hinman Bros. of Los Angeles when the job was advertised originally a month ago. The same firm yesterday bid \$375,687.

Contractors' estimates remain considerably above that of the engineer at \$272,100. The low bidder's figure on tunnel excavation is \$150 per lineal foot, compared with an estimate of \$110. Bureau forces recently completed excavation of two short tunnels near the site of the work proposed, which is reportedly the basis on which the estimate has been made. Other bids offered on the contract yesterday were by Colonial Construction Company, Spokane, \$378,741; and Case Construction Company, Alhambra, \$449,980.

The new tunnel will open a shorter route built to modern highway standards to replace the present Big Oak Flat road.

## ELKO VOTES STREET, WATERWORKS BONDS

Elko citizens last week approved two bond issues totaling \$50,000, to finance improvements to the city water and street systems. The street bond issue amounts to \$35,000 and that for waterworks improvements \$25,000. Voting at the election was light, a majority of almost five to one favoring both issues.

cents; powderman, 75 cents; rodmen, reinforced steel workers, \$1.25; tractor driver (less than 50-h.p.), 68 cts.; truck driver, four cubic yards water capacity), 68 cents; pitman (power shovels), 60 cents; bridge laborer, 69 cents; underground laborer, 65 cents; common laborer, 60 cents; teamster, 60 cents; plaster tender, \$1.10; flagman, 60 cents; spray gun operator (concrete curing), 75 cents. and sloper, 75 cents.

## FUNDS ASKED

LOS ANGELES.—Board of Army Engineers has recommended to Congress appropriation of \$1,375,000 to complete construction of the Los Angeles-Long Beach harbor breakwater and for dredging in the harbor.

## APPROPRIATION RECOMMENDED

LOS ANGELES.—The Board of Army Engineers has recommended to Congress appropriation of \$1,375,000 to complete construction of the Los Angeles-Long Beach harbor breakwater and for dredging in the harbor.

## BIDS OPENED

NAPA CO., Calif.—Franks Contr. Co., 260 California St., at \$0.40 per c.y., total \$68,456.40 submitted the only bid received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, Custom House, San Francisco, under Bid No. 868-37-83, for dredging and disposing of about 171,141 c.v. of material in Napa River.

The work has been divided into four sections, as follows:

Section "A"—Dredging the channel in Napa River, from a point about 200 ft. northerly from Buoy 3, for a distance of about 1,800 ft., 100 ft. wide on the bottom, to a depth of 10 feet at mean lower low water (mud);

Section "B"—Dredging an area about 1,050 ft. long and of a maximum width of about 150 ft. on the bottom, located in and adjoining the channel in Napa River, at Horse-

shoe Bend, to a depth of 10 ft. at mean lower low water (mud and gravel);

Section "C"—Dredging an area about 1,220 ft. long and of a maximum width of about 290 ft. on the bottom located in and adjoining the channel in Napa River, at Carr Bend, to a depth of 10 ft. at mean lower low water (mud, clay and gravel);

Section "D"—Dredging the channel in Napa River, from a point about 1,000 ft. downstream from the Napa Tannery Wharf upstream for a distance of about 620 ft. to the Third St. Bridge, 75 feet wide on the bottom to a depth of 10 ft. at mean lower low water, with a widening for a length of about 900 ft. from the bend opposite the said Tannery Wharf to and around Jack's Bend, so as to make a total channel width of from 150 feet to 250 feet on the bottom in said section, 10 ft. deep at mean lower low water; (channel: mud, gravel, and trash; widening: clay, gravel, loam, and trash).

The company submitted an alternate bid of \$0.358 per c.y., if allowed to dispose of dirt in their own way. Engineer's estimate, \$0.228, total \$35,360.

## 23— CANALS

OAKLAND, Alameda Co., Calif.—Until February 2, 1 p.m., bids will be received by the Oakland City Council, W. W. Chappell, City Clerk, City Hall, for the installation of an ornamental electric street lighting system on Third Ave. in East 18th St., between Third Ave. and Park Blvd., and in Park Blvd., between East 18th St. and East 21st Street.

The work will involve the installation of 27 ornamental, single lighting standards, together with foundations, lighting units, lamps, wire, conduit, cable, appurtenances and appliances. Plans and specifications obtainable from the office of City Engineer M. Auerbach upon deposit of \$5.

## BIDS WANTED

SAN FRANCISCO.—Until Jan. 21, 3 P. M., bids will be received by the Public Utilities Commission, Room 287, City Hall, under Electric Power Bureau Contract No. 22, for constructing a street lighting system on San Jose Avenue from Sickles

Avenue to the County Line.

Plans and specifications obtainable at Room 605, San Francisco Water Department Bldg., 425 Mason St., upon deposit of \$10.00.

Paul J. Ost, electrical engineer.

## 25—MACHINERY AND EQUIPMENT

## BIDS OPENED

FORT PECK, Montana.—Following bids received by the U. S. Engineer Office, 707 Postal Telegraph Bldg., Kansas City, Mo., under Bid No. 425-37-5, for furnishing operating equipment for Fort Peck Dam spillway gates, as follows:

(1) Mechanical operating machinery for sixteen spillway gates, complete in place;  
(2) Electrical equipment for spillway substitution, complete in place;  
(3) Electrical equipment for spillway gate operating machinery, complete in place.

Complete bids follow:  
McKiernan-Terry Corp., 15 Park Row, New York City.—(1) \$432,721; (2) \$10,300; (3) \$112,300; total, \$555,321. Bid based on condition that additional time will be allowed if acceptance of bid is beyond January 15, 1937.

Darvo Corp., Neville Island Station, Pittsburgh.—(1) \$439,600; (2) \$6,975; (3) \$115,250; total, \$561,825.

Koppers Co., Bartlett Hayward Division, Baltimore, Md.—(1) \$580,000; (2) \$117,000; (3) \$92,000; total, \$689,000.

Lakeaide Bridge & Steel Co., Milwaukee.—(1) \$655,050; (2) \$11,900; (3) \$131,500; total, \$798,450.

NePage, McKenny Co., 804 6th Ave. South, Seattle.—(1) no bid; (2) \$8,000; (3) \$95,500.

## CONTRACT AWARDED

LOS ANGELES.—Joshua Hendy Iron Works, 206 Sansome St., San Francisco, at \$19,685, awarded contract by the Metropolitan Water Dis-

Capital City  
Title Company

J. C. PALEN,

Manager

914 Seventh Street  
Sacramento : California

trict, for furnishing three 6½x10-ft. motor-operated, 7 ft. 11 in. g. slide gates for the Coppe Basin reservoir outlet on the Colorado River Aqueduct. Spec. No. 187.

#### BIDS OPENED

**SAN FRANCISCO.**—Following bids received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, Customhouse, under Bid No. 868-87-122, for removing from railway cars on siding in the vicinity of either Ocean View siding, San Francisco, or Daly City, and transporting and delivering to Port Funston, the component parts of two 16-in. guns and their carriages:

**28—FIRE EQUIPMENT**

**BIDS OPENED**

**FAIRFAX**, Marin Co., Calif.—Following bids received by the Fairfax City Council, L. A. Grosbauer, City Clerk, for furnishing a new fire engine equipped with either a 500-g.p.m. or a 100-g.p.m. capacity pump: \$1,900 P.M.

**Mack International Co.**, \$5,550.  
S. S. and W. W. Hirsch, \$5,278.84; alternate bid for Seagrave centrifugal pumper, \$4,878.45

**P. E. Van Pelt**, equipment on Ford V-8 chassis, \$3,991.33; equipment on International truck chassis, \$4,292; equipment only, \$3,060.  
100 G.P.M.

**Mack International Co.**, \$4,750.  
S. S. and W. W. Hirsch, \$4,250.  
P. E. Van Pelt, deduct \$736 from any quotation on 500-g.p.m.

**29—STREETS AND HIGHWAYS**

**BIDS WANTED**

**SAN MATEO COUNTY**, Cal.—Until January 21, 3 P. M., bids will be received by the Public Utilities Commission, Room 287, City Hall, San Francisco, under S. F. W. D. Spec. No. 136, for the construction of improvements at the Pulgas Outfall, the westerly terminus of the Hetch Hetchy Aqueduct, about five miles west of Redwood City in San Mateo County.

The work consists of excavation and grading; paving roadways and footwalks; construction of a reinforced concrete pool, approximately 40 ft. wide and 120 ft. long; construction of a reinforced concrete pump building, approximately 10 ft. by 10 ft. in plan; construction of a reinforced concrete weir with appurtenant works; installation of an automatic pumping unit and pressure system, and installation of piping for a water system.

The work involves:

- (1) 2,500 c.y. grading for landscaping, parking area road roads;
- (2) 125 c.y. excavation and backfill for structures and small pipe trenches;
- (3) 110 c.y. concrete work;
- (4) 11,000 lbs. furnishing and placing reinforcing bars;
- (5) 60,000 sq. ft. paving parking area and roads;
- (6) 3,000 sq. ft. surf. foot-walks;
- (7) Lump sum, installing weir plate and miscellaneous fittings;
- (8) Lump sum, furnishing and installing pumping unit and water pressure system;
- (9) 1,000 lf. furnishing and installing 1½-in. standard galvanized wrought steel pipe;
- (10) 350 lf. furnishing and installing 2-in. do.;
- (11) 106 lf. furnishing and installing 2½-in. do.;
- (12) 50 lf. furnishing and installing 3-in. do.;
- (13) 250 lbs. furnishing and installing stand. galv. malleable iron pipe fittings;
- (14) One 3-in. gate valves, furnishing and installing;
- (15) 8 each, furnishing and installing 2-in. gate valves and check valves;
- (16) 12 each, furnishing and installing 1-in. garden hose valves;
- (17) Lump sum, constructing reinforced concrete pump building.

Plans and specifications obtainable at Room 606, San Francisco Water Department, E. St., 855 Mason Street, San Francisco, upon deposit of \$10. N. A. Eckart, general manager and chief engineer.

**BIDS WANTED**

**LOS ANGELES**.—Until Jan. 25, 2 p.m., bids will be received by the Metropolitan Water District, 306 W. 3rd St., Los Angeles, for furnishing, operating, and maintaining road-building equipment and constructing and repairing roads, in accordance with Spec. No. E-300. The site of the work is along the District's 230 kv. transmission line between Boulder Dam and the four District pumping plants known as Gene, Iron Mountain, Eagle Mountain and Hayfield. The work to be contracted for comprises the construction and repair of roads and the furnishing of road-building equipment, accessories, repairs, fuel oil, lubricating oil, operators, helpers, and other necessary labor, and all transportation, required in connection with the operating and maintaining of equipment herein specified.

Each proposal must be accompanied by a certified or cashier's check for \$1000.

**BIDS WANTED**

**SAN FRANCISCO**.—Until January 27, 2:30 P. M. bids will be received by the Department of Public Works, Room 251, City Hall, under Spec. No. 18,969, for the improvement of Bemis Street between Castro and Maites Streets. Estimated cost, \$5,580.

The work involves:

- (1) 4,500 c.y. grading (excavation);
  - (2) 1,620 c.y. grading (embankment);
  - (3) 7 brick manholes, complete;
  - (4) 21 lf. 12-in. VCP sewer, in place;
  - (5) 823 lf. 8-in. VCP sewer, in place;
  - (6) 4 brick catchbasins;
  - (7) 80 lf. 10-in. VCP culvert, in place
  - (8) 36 8½-in. wye branches, in place.
- Plans and specifications obtainable from the office of City Engineer J. Casey, Room 351, City Hall, upon deposit of \$500.

**HUMBOLDT CO.—2.3 MI. GRADE & SURFACE—(State)**

**HUMBOLDT COUNTY**, Cal.—Poulos & McEwen, 2522 17th St., Sacramento, at 104,326.60 submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, Public Works Building, Sacramento, for grading and surfacing with roadmix surfacing about 2.3 miles between Trinidad and McNeil Ranch, Humboldt County.

The work involves:

- (1) 18 acres clear and grub;
- (2) 515 M. gals. water;
- (3) 98,500 c.y. roadway excav. without classification;
- (4) 183,000 sta. yds. overhaul;
- (5) 1,500 c.y. struct. excav.;
- (6) 950 c.y. ditch and channel excavation;
- (7) 20,500 tons imported borrow;
- (8) 123 sta. finishing roadway;
- (9) 6,200 tons mineral aggregate (road-mix surf.);
- (10) 440 tons liq. asphalt, SC-4 (road-mix surf.);
- (11) 90 tons liq. asphalt, SC-1A (prime coat);
- (12) 45 tons liq. asphalt, 90-95 (seal coat);
- (13) 530 tons screenings (seal coat);
- (14) 47 c.y. Class A portland cement concrete (structures);
- (15) 3,000 lbs. bar (remf. steel);
- (16) 400 lf. 8-in. CMP;
- (17) 700 lf. 18-in. CMP;
- (18) 178 lf. 48-in. CMP, 8-gauge;
- (19) 198 lf. 60-in. CMP, 8-gauge;
- (20) 21 each, headwalls remove and dispose of;

- (21) 3,000 lf. 8-in. perf. metal pipe underdrains;
- (22) 4 each, perf. metal junction pipes;
- (23) 1,750 cu. rock filling material;
- (24) 3,900 c.y. quarry rock filling material;
- (25) 783 lf. exist. pipe culverts, remove, clean and salvage;
- (26) 6 each, spillway assemblies;
- (27) 30 each, culvert markers;
- (28) 5 each, guide posts;
- (29) 14 miles new property fence;
- (30) 6 each, drive gates;
- (31) 0.07 mile property fences, remove and reset;
- (32) 50 each monuments, complete in place.

Total bids follow:

**CONTRACT AWARDED**

**MOHAVE CO., ARIZ.**—Lee Moor Contracting Co., Bazaar Tower Bldg., El Paso, Texas, awarded the contract by the Arizona State Highway Commission, Phoenix, Arizona, Jan. 5th, at \$132,968 (alternate bid, \$130,348), for highway construction on the Kingman-Boulder Dam Highway, F. A. 123 (1937); A.F.E. The work, which is to begin about 16 miles northwest of Kingman and extend northwesterly about 10 miles, consists of grading, draining, and the furnishing and placing aggregate base course and asphaltic surface treatment, and is to be completed on or before October 15, 1937.

The principal items and approximate quantities are:

- 41,500 c.y. roadway excavation;
- 22,500 c.y. drainage excavation;
- 12,800 l.f. grader ditches;
- 2,800 c.y. structural excavation;
- 28,300 c.y. borrow;
- 29,700 sta. yds. overhaul;
- 200 c.y. mile haul;
- 34,500 c.y. imported borrow;
- 27,800 tons aggregate base course;
- 6,500 c.y. stripping pits;
- 369 M. gals. sprinkling;
- 1,100 hours rolling;
- 1,690 c.y. concrete;
- 163,100 lbs. reinf. steel;
- 3,948 l.f. CMP (6 sizes);
- 104,400 l.f. line fence;
- 134,100 gals. SC-2 road oil;
- 1,800 tons cover coat (conc. sand);
- 53 MBM treated timber;
- 3 MBM untreated timber;
- 48 each placing piles in framed bents.

**ALT. ITEM:** 60 MBM redwood timber.  
Pearson and Dickerson, Prescott, submitted the second low bid at \$134,481 (no alternate bid).

**BIDS WANTED**

**MARIPOSA CO., Arizona.**—Until January 20, 2 p.m., bids will be received by T. S. O'Connell, State Highway Engineer, Phoenix, for construction of the Ajo-Gila Bend Highway, W.F.S.S. 120, AFE 616.

The work, which is to begin at the Maricopa County line about 9 miles north of Ajo and is to extend northerly a distance of about 7.3 miles, consists of grading, draining and the furnishing and placing of aggregate base course and asphaltic surface treatment, and is to be completed on or before September 30, 1937. The principal items and approximate quantities are:

- 9,500 c.y. roadway excav.;
- 11,700 c.y. drainage excav.;
- 15,500 l.f. grader ditches;
- 600 c.y. structural excav.;
- 64,400 c.y. imported borrow (CIP);
- 19,300 tons aggregate base course (CIP);
- 2,500 c.y. stripping pits;
- 150 M. gals. sprinkling;
- 900 hours rolling;
- 567 c.y. Class A concrete;
- 72,100 lbs. reinforcing steel;
- 940 l.f. C. M. pipe (4 sizes);
- 600 l.f. rail bank protection;
- 800 l.f. grading and constructing roads to section;
- 94,600 gal. SC-2 road oil;
- 1,290 tons cover coat (concrete sand);
- 817 l.f. steel piles (H-column);
- 31 each driving piles (steel H-column).

Plans may be obtained at the office of the State Highway Engineer, T. S. O'Connell, 17th Ave. and Jackson St. Certified or cashier's check for 5% must accompany each proposal.

**LOW BIDDERS**

**IMPERIAL CO., Calif.**—G. W. Ellis, 8240 Lankershim Blvd., North Hollywood, at \$78,029, submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles,

for about 10.1 miles grading and surfacing with plant-mixed surfacing in Imperial County, between Sandia and Alamo River.

The three low bids follow:  
G. W. Ellis, North Hollywood.....\$78,029  
Oswald Bros., Los Angeles..... 84,637  
R. E. Hazard & Sons, San Diego..... 88,640

**CONTRACT AWARDED**

**COCONINO CO., Ariz.**—G. C. Clay Gates, Thermopolis, Wyo., at \$18,122.40, awarded contract by the Bureau of Public Roads, 247 New Post Office Bldg., Phoenix, for placing metal plate guard rail on Sections A, B, C, D and E, of the Cameron-Desert View Approach Road to Grand National Park, Coconino Co., requiring 16,780 l.f. metal plate guard rail.

**CONTRACT AWARDED**

**YUMA CO., Arizona.**—N. G. Hill & Co., Phoenix, at \$27,943, awarded contract by the Arizona State Highway Commission, Phoenix, for highway construction on the Yuma-Phoenix Highway. The work is located near Stoval, approximately halfway between Yuma and Gila Bend, and consists of widening and resurfacing 1.66 miles of the present road.

**SANTA CRUZ CO.—ZAYANTE CREEK BRIDGE—(Cnty.)**

**SANTA CRUZ COUNTY, Calif.**—Earl W. Heple, 494 Dolans Avenue, San Jose, at \$15,335 submitted low bid and awarded contract by Santa Cruz County Board of Supervisors, H. E. Miller, Clerk, Court House, Santa Cruz, for the construction of a reinforced concrete bridge, 108 feet long with a 24-foot roadbed, across Zayante Creek, near Felton Railroad Station, San Lorenzo Road District.

The work involves:

- (1) 300 c.y. struct. excav. unclass.;
- (2) 362 c.y. class A concrete;
- (3) 22 c.y. class S concrete in railing;
- (4) 62,000 lbs. reinforcing steel;

**BIDS REJECTED**

**SAN FRANCISCO.**—The Department of Public Works, City Hall, has rejected the only bid received under Spec. No. 18,795, that of E. J. Treacy, at \$1,798.66, for the improvement of the southerly intersection of Barneveld Ave. and Rickard St. and improvement of Rickard St. between Barneveld Ave. and San Bruno Ave.

**BIDS WANTED**

**ALAMEDA COUNTY, Calif.**—Until January 22, 3 P. M., bids will be received by the Public Utilities Commission, Room 287, City Hall, San Francisco, under S. F. W. D. Spec. No. 134, for paving roadways at Sunol Water Temple in Alameda County.

The work involves:

- (1) 7,700 sq. yds. preparing sub-grade
- (2) 8,500 sq. yds. paving with ¾-in. emulsified asphalt wearing surface.

Plans and specifications obtainable at Room 605, San Francisco Water Department Bldg., 425 Mason Street, San Francisco, upon deposit of \$500.

N. A. Eckart, general manager and chief engineer.

**SANTA CRUZ CO.—ZAYANTE CREEK BRIDGE—(Cnty.)**

- (5) 900 l.f. Redwood timber piles, delivered;
- (6) 26 piles, driven;
- (7) Removal of old structure.

Total bids follow:

- (A) Earl W. Heple, San Jose, \$15,335.00
- (B) Sam Sciarino, Sa Jose, \$15,711.50
- (C) Granite Const. Co., Watsonville, \$16,475.50
- (D) Acme Const. Co., Oakland, \$16,923.00
- (E) W. J. Tobin, Oakland, \$17,470.
- (F) F. O. Hohnett, Campbell, \$17,642.
- (G) Bargarini & Orselli, Berkeley, \$19,230.00
- (H) A. Soda & Son, Oakland, \$20,094.00

Unit bids follow:

- (A) 621 c.y. Class A cement stone masonry;
- (7) 702 c.y. hand-laid rock embank.
- (8) 2,167 l.f. tunnel excavation;
- (9) 170 l.f. adit excavation;
- (10) 180 c.y. chamber excavation;
- (11) Timbering (force account).

- (A) Sam Orino, Bonnevill, \$364,530.
- (B) Shofner & Gordon and Hinman Bros. Const. Co., L. A., \$375,687.
- (C) Colonial Const. Co., Spokane, \$378,741.75.
- (D) Case Const. Co., Alhambra, \$449,980.45.
- (E) Engineer's estimate, \$272,100.50.

Unit bids follow:

**30—RESERVOIRS & DAMS****BIDS OPENED**

**WHITE SALMON, Wash.**—Soule & Walters, Elma, Wash., at \$15,964.87 on treated wood pipe, and at \$16,188.87 and \$17,728.87 on alternate steel pipe, submitted low bid to the White Salmon Town Council for the construction of a 590,000-gal. reinforced concrete reservoir and connecting pipelines and an overflow line.

**Benjamin F. Sheldon, Ontario,** at \$18,669.50 on treated wood, and at \$20,082.60 for steel pipe, submitted second low bid. **Eugene Reudy Co., Portland,** at \$19,026 on wood, and at \$22,116.90 for steel, submitted third low bid.

**Beasley & Stoehr, 431 Railway Exchange Bldg., Portland, engineers.**

The reservoir will be part of a new water system to cost approximately \$100,000, which will include laying of approximately eight miles of 12-inch supply lines, an intake dam, and crossing at the White Salmon River, and connecting and overflow lines.

**CONTRACT AWARDED**

**LOS ANGELES.**—Marko Matlick, 1209 Colorado Blvd., Los Angeles, at \$11,849, awarded contract by the Los Angeles Water and Power Commission, for the installation of Fletcher Drive Pumping Plant Inlet and outlet mains under PWA Docket No. 1929-F, Units 51 and 52, Spec. No. X-82.

**BIDS WANTED**

**SAN FRANCISCO.**—Until Jan. 20, 2:30 P. M., bids will be received by the Department of Public Works, Room 251, City Hall, under Spec. No. 19,008 for the improvement of Mendell St. between Innes and Jerrold Avenues. Est. cost, \$6,077.50.

The work involves:

(1) 10,300 cu. y. grading and excava.; (2) 7,500 sq. ft. 4-in. waterbound macadam pavement.

Plans and specifications obtainable from the office of City Engineer John Casey, Room 351, City Hall, upon deposit of \$10.00.

**32—SEWERS & SEWAGE DISPOSAL PLANTS****PLANNED**

**BAKERSFIELD, Kern Co., Calif.**—City Engineer Joe Holfelder has estimated the cost of installing storm drains at \$61,275.

**TO PREPARE PLANS**

**BAKERSFIELD, Kern Co., Calif.**—City Engineer Joe Holfelder has been instructed by the City Council to prepare plans and specifications for a new sewage disposal plant. About six months will be necessary to complete the plans.

**CONTRACT AWARDED**

**WICKENBURG, Arizona.**—Arizona Concrete Co., Phoenix, submitted the low bid and was awarded the contract by the town of Wickenburg, at \$45,692.55, for construction of sewerage works.

The other bids were:  
**Phoenix-Tempe Stone Co.,** \$52,044.01  
**Tiffany Const. Co.,** \$59,907.86

**CONTRACT AWARDED**

**NEWPORT BEACH, Orange Co., Calif.**—Drainage Constr. Co., 3096 Cedar St., Lynwood, at \$327,743, submitted low bid and awarded contract (subject to PWA approval) by the Newport Beach City Council, for constructing a vitrified clay sewage collection system, sewage pumping stations, and a disposal plant.

Plans prepared by City Engineer R. L. Patterson and the Currie Engr. Co., San Bernardino.

The three low bids were:

**Drainage Constr. Co.,**  
**Lynwood** ..... \$327,743  
**Los Angeles Decomposed**  
**Granite Co., L. A.** ..... 342,813  
**Gogo & Rados, Los Angeles**..... 356,004

**BONDS VOTED**

**ELKO, Nev.**—Bonds in the amount of \$35,000 were voted at a special election here to finance miscellaneous city street improvements. The bonds are to be advertised for sale immediately.

**33—WATER WORKS****CONTRACT AWARDED**

**LOS ANGELES.**—Bennett & Taylor, 1041 Venice Blvd., Los Angeles, at \$13,571, awarded contract by the Los Angeles Water and Power Commission, for the construction of the York Blvd. pumping station under Specification No. X-60.

**BIDS REJECTED**

**LOS ANGELES.**—The Los Angeles Water and Power Commission rejected all bids for the installation of a 20-inch cast-iron water supply line under the main ship channel at San Pedro under Spec. No. X-53.

**BONDS VOTED**

**ELKO, Nev.**—Bonds in the amount of \$25,000 were approved at a special election here, to finance improvements to the municipal water system. Bonds will be advertised for sale immediately.

**34—PARKS AND PLAY-GROUNDS****BID OPENED**

**SAN GABRIEL, Los Angeles Co., Calif.**—Peterson Bros., Inglewood, at \$996, submitted only bid to the Procurement Division, Public Buildings Branch, Washington, D. C., for seeding, planting, etc., of the grounds of the U. S. Post Office at San Gabriel.

**BIDS WANTED**

**WOODLAND, Yolo Co., Calif.**—Until Jan. 29, 10 a. m., bids will be received by the Procurement Division, Public Buildings Branch, Washington, D. C., for seeding and planting the grounds of the U. S. Post Office at Woodland.

Specifications may be obtained from the above office and from the Custodian of the Building, at Woodland.

**AWARD RECOMMENDED**

**SALINAS, Monterey Co., Calif.**—P. T. Wallstrum, Watsonville, at \$4,690, submitted the only bid received by the construction of fencing, sidewalks, sprinkler system, and lawn at the site of the Washington School.

**Charles E. Butner, Glickburg Bldg., Salinas, architect.**

The School Board has recommended to the PWA that the contract be awarded Mr. Wallstrum.

**BID OPENED**

**RENO, Nevada.**—J. P. Schopper & Sons, 45 Part Street, Reno, at \$1250, submitted only bid to the Procurement Division, Public Buildings Br., Washington, D. C., for seeding and planting the grounds of the U. S. Post Office at Reno.

**BIDS WANTED**

**HILASTER, San Benito Co., Cal.**—Until Feb. 2, 10 a. m., bids will be received by the Procurement Division, Public Buildings Branch, Washington, D. C., for insect screens in the U. S. Post Office at Hillister.

Specifications may be obtained

**35—TUNNELS****BIDS OPENED**

**YERBA BUENA ISLAND, Cal.**—M. B. McGowan, Inc., 74 New Montgomery St., San Francisco, at \$6.85 per l.f. submitted low bid to the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, under Bid No. 568-37-130, for making approximately seven core borings on Yerba Buena Island at the reservoir site about 200 ft. west of the large rectangular concrete Naval reservoir on the top of the island.

The work involves:

- (1) 38 l.f. overburden drilling;
  - (2) 292 l.f. core drilling.
- Complete bids follow:  
**M. B. McGowan, Inc., San Francisco:** (1) \$6.85; (2) \$6.85.  
**Milton A. Purdy, Oakland:** (1) \$7.75; (2) \$7.75.  
**J. G. Gratton, San Francisco:** (1) \$8.90; (2) \$8.90.

**BIDS OPENED**

**SAN FRANCISCO.**—J. G. Gratton, 1995 Oak St., San Francisco, at \$3.00 per l.f. submitted low bid to the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 568-37-127, for two core borings at Fort Funston Reservation.

Bids were taken as follows:  
(1) 290 l.f. core boring test holes;  
(2) 80 l.f. core boring, taking undisturbed samples.

Complete bids follow:  
**J. G. Gratton, San Francisco:** (1) \$3.00; (2) \$3.00.  
**J. B. Rogers Co., San Francisco:** (1) \$4.00; (2) \$4.00.  
**John Graves, Oakland:** (1) \$5.50; (2) \$5.50.

**BIDS WANTED**

**ALAMEDA-CONTRA COSTA Cos.,** Directors of Joint Highway District No. 13, Supervisors' Rooms, New Calif., until January 27, 11 a. m., new bids will be received by the Board of Court House, Oakland, under Schedule "C," for the completion of air ducts, paving, etc., of the Broadway Low Level Tunnel, and including all work not included in Schedule "A."

**Fred J. Early, Jr., 369 Pine St., San Francisco,** at \$498,862.50, submitted the lowest bid at the previous opening on December 9.

Plans and specifications obtainable from the office of Chief Engineer Wallace E. Boggs, 1448 Webster St., Oakland, upon deposit of \$50. of which \$40 will be returnable.

## NEVADA ROAD PROGRAM SET AT \$5,000,000

### Allen Announces Tentative Schedule Of Projects For the Next 12 Months

The Nevada state highway department has completed a tentative program for 1937 calling for expenditure of \$5,018,118, according to State Highway Engineer R. A. Allen. Expenditure of \$330,000 allotted the state by the federal government for secondary or feeder roads it not included in the total.

Following is a summary of the program as outlined by Allen:

New construction, gravel surface, 54.84 miles.....	\$ 388,135
Reconstruction, gravel surface, 10.11 miles.....	150,000
Reconstruction, roadmix surface, 26.62 miles.....	868,500
Reconstruction, plant mix surface, 78.26 miles.....	1,876,255
Reconstruction, retread, 1.8 miles.....	50,000
Roadmix surface, 188.22 mi.	478,690
Crossing signals.....	10,000
Crossing structures.....	265,000
Roadside improvements.....	37,285
Rural planning.....	28,285
General maintenance.....	706,535
Specific maintenance.....	110,000
Maintenance administration.....	49,450
<b>TOTAL.....</b>	<b>\$5,018,118</b>

### Funds for Counties

Total expenditures in each county were announced as follows:

Churchill.....	\$605,167
Clark.....	558,829
Douglas.....	96,615
Elko.....	846,890
Esmeralda.....	130,672
Eureka.....	118,860
Humboldt.....	397,838
Lander.....	39,884
Lincoln.....	575,582
Lyon.....	45,822
Mineral.....	37,627
Nye.....	392,865

White Pine.....	367,212

## DISTRICT SEEKS PIPELINE BIDS

Bids for construction of pipe lines and appurtenant works for the Upper Feeder of the Colorado River Aqueduct distribution system were invited last week by the Metropolitan Water District. They will be opened February 11 in the district's Los Angeles office.

Work includes construction of about 1210 feet of 9-ft. 8-inch diameter and 551 feet of 7-ft. cast in place concrete pipelines. Work is divided under three schedules: Schedule 8-C, across San Gabriel Canyon just below Morris Dam; Schedule 9-C, across Monrovia Canyon in Monrovia; and Schedule 12-C, across Eagle Rock Canyon, north of Eagle Rock.

## Engineers License Board to Discuss Registration Law

The purpose, function and operation of the state civil engineers' registration law and land surveyors' license law will be discussed by members of the State Board of Registration for Civil Engineers at a meeting of the Structural Engineers' Association of Northern California, to be held at the Engineers' Club, Feb. 3.

Speakers will be President H. D. Dewell of the board; Vice-president Ralph J. Reed, and Asa G. Proctor. They will be assisted by H. M. Jones, secretary and Pecos H. Calahan, assistant-secretary.

Invitations to attend the symposium have been extended to members of the five engineering societies, corporation engineers and professors and students of the two nearby universities. Publicity Chairman William H. Pupert announces.

Following assembly, dinner will be held at 6 P. M. and the meeting at 7. Those intending to attend either the meeting or dinner are asked to notify Alfred P. Fisher, secretary-treasurer of the S.E.A.N.C.

## 7 MILLIONS ASKED FOR CALIF. JOBS

### Army Recommends Flood, Debris Control Projects On Sacramento

Expenditures aggregating approximately \$7,000,000 for work on California projects has been recommended by the U. S. Engineers as among those on which funds may profitably be spent during the fiscal year 1937-38.

Principal California projects recommended are: Sacramento river debris control, \$1,645,000; Sacramento river flood control, \$814,000; and Los Angeles and Long Beach harbor, \$1,375,000. Following are lists of the larger projects recommended:

<b>Flood Control</b>	
Mississippi River and tributaries.....	\$ 55,000,000
Emergency Work on Mississippi Tributaries.....	300,000
Sacramento River.....	814,000

## GATE BRIDGE WORK RESUMES AFTER STORMS

**Lighthouse To Be Placed On South Fender; Paving Will Start Soon**

Work on the Golden Gate bridge again is progressing on schedule following unavoidable delay because of last week's storm conditions, according to the weekly progress report of Chief Engineer Joseph B. Strauss, on file today for the board of directors of the Golden Gate Bridge and Highway District.

Preparatory to completing the remainder of the Bethlehem Steel Company contract, the elevator from the south pier to the bridge deck level has been removed and structural steel is being erected in the space it has occupied. Riveting on the suspended structure also is at a point where the end is in sight.

Plans for the lighthouse structure, to be located on the south fender of the bridge, have been completed by the chief engineer and will be submitted to the board of directors at this week's meeting for final approval. Plans call for a structure 35 feet in height, upon which will be mounted the historic Fort Scott light that for years has served to guide mariners into the harbor.

### First On Bridge

At present the light is located on the tower structure where a temporary standard for its support was erected when construction reached the point where it was obscured in its original position. The light in its final location will be the first major lighthouse ever to be erected upon a bridge structure, according to span officials.

Before the end of the week, unless unforeseen conditions arise, the paving of the main span will be commenced at its center, where the form panels and reinforcing steel already are in place.

It is planned to pave from the center of the span, back to the towers on each side and, according to the engineer, the work, once under way, will proceed with great rapidity.

### Cable Wrapping

Cable wrapping operations are continuing in the second stage, the wrapping machines having completed the so-called "first pass" and having been back-tracked to wrap portions of the cables left exposed.

On the big arch over Fort Scott final steel was being placed this week at the floor level, while the concrete roof slab of the Marin anchorage, which will serve as the bridge deck, was being poured at the anchorage housing. Erection of the steel frame for the toll area structures was well under way.

## S. F. Inspectors Are Reassigned To Eight Districts

Reassignment of building inspectors to eight new districts in San Francisco has been announced by Superintendent Erle L. Cope of the Bureau of Building Inspection.

The reassignment was held up until inspectors could be appointed from the new eligible list for building inspectors and the city divided into districts which would enable the department to render the most efficient service to builders, Superintendent Cope stated.

Following is a list of the eight districts and inspectors appointed to each: Frank L. Schultz, district bounded by Pacific Avenue, Lyon Street and Waterfront; Lester C. Bush, Pacific Avenue, Van Ness Avenue, Eleventh and Howard Streets; James E. Donovan, Lincoln Way, Frederick, Du Boce and Market Streets, Van Ness, Pacific and Lyon; Bennett H. Bowley, Lincoln Way, Fifteenth Avenue, Junipero Serra Boulevard and County line.

### Engineer Inspectors

David L. Stewart, Fifteenth Avenue, Junipero Boulevard and County line. Mission, Monterey Boulevard and line drawn from Monterey and Ridgewood to southeast corner of Golden Gate Park; Andrew B. McKinne, Mission, Van Ness, Eleventh, Market, DuBoce, Frederick and border of Stewart's district; and William C. Hume, Howard, Van Ness and Waterfront; and Cornelius F. Dempsey, Mission, Army and Waterfront.

Other members of the Department of Building Inspection are: George S. Hill and John G. Little, structural engineering inspectors; George W. Marsh, Henry E. Shields and George L. Buckingham, special inspectors.

## CELOTEX ADDS TWO PRODUCTS TO LIST

The Celotex Corporation has become exclusive sales agents for Therman structural insulation and Absorbex acoustical corrective, having concluded negotiations to this effect with the Northwest Magnesite Co., it is announced.

Factories are located at Chewelah, Wash., where timber and refractory cement contained in the products are obtained, according to Sales Manager Harold Knapp. R. E. Bennett, formerly in charge of the Therman division of Northwest Magnesite Co., is working on distribution arrangements for the Celotex Corp., the announcement stated.

### OPENS OFFICES

Architect John D. Wagnert announces the opening of offices at 1700 Financial Center Building, Oakland. The telephone number is GLencourt 8094.

## U. S. PERMIT TOTAL BEST IN 6 YEARS

**December Building Reverses Usual Seasonal Trend, the Bradstreet Survey Shows**

Reversing the usual "slightly downward" seasonal trend in December, building permits issued in 215 cities of the United States last month showed a gain of 10.7 per cent over November and reached the highest December total in six years, according to the report of Dun & Bradstreet, Inc.

The permit total last month for cities reporting was \$83,562,063, as compared with \$62,992,039 in December, 1935, and \$75,506,623 in November, 1936. The December total was 32.7 per cent above that for the corresponding month in 1935.

New York City with a total of \$16,363,201 for December showed a drop of 8.1 per cent from November but an increase of 15.2 per cent above December, 1935.

At the 214 outside cities, building permits for December amounted to \$67,198,862, a gain of 16.5 per cent over the preceding month and 37.8 per cent above the same month a year ago.

### Largest Since '31

Although still below the records of former so-called prosperous years, the building industry has made considerable progress in the past three years. The volume of building permits at 215 cities for the full 12-month period of 1936 rose to \$980,501,615. This was the largest since 1931 when permits totalled \$1,158,963,273. The latest figure showed a gain of 64.3 per cent over the 1935 aggregate of \$596,686,708, and was more than three times the 1933 total of \$313,676,276. Increases over a year ago were reported by every geographical section of the country.

The building permit totals for the 215 cities for the twelve months of each of the past ten years, follow:

	Compared Previous Year
1936	+64.3
1935	+7.3
1934	+11.1
1933	-21.4
1932	-65.5
1931	-30.7
1930	-42.6
1929	-11.5
1928	-8.4
1927	-

## REILLY WILL FILL VACANCY ON BOARD

George R. Reilly, secretary-manager of the San Francisco Laundry Owner's Association, last week was named by Mayor Angelo Rossi to fill the vacancy on the board of supervisors created by the departure of Congressman Franck R. Havenner. The Congressman's term as supervisor would have expired in a year.

**APPROPRIATELY RECOMMENDED**

**LOS ANGELES, Calif.—**President  
 Roosevelt has recommended to Con-  
 gress an increase of \$1,030,000 in  
 the cost of the proposed U. S. Post  
 Office and Courthouse to be built in  
 Los Angeles. He informed Congress  
 that the original cost limit, \$6,250,-  
 000, was insufficient to cover the  
 cost of the structure and asked that  
 the appropriation be raised to \$7,-  
 280,000. It has not been determined  
 whether or not an award of con-  
 tract will be made on bids sub-  
 mitted October 22, at which time the  
 Geo. A. Fuller Co., Munsey Build-  
 ing, Washington, D. C., submitted  
 the low proposal. Robert E. McKee  
 submitted the only other bid.

 (2) Acetylene, per 100 cu ft. 11;  
 (3) Hydrogen, per 100 cu ft. 11;  
 Stuart Oxygen Co., 211 Bay St., San Francisco: (1) \$1.10; (2) \$2.40; (3) \$1.44.

Air Reduction Sales Corp.: (1) \$1.17; (2) \$2.46; (3) \$1.54.

Linde Air Products Co.: (1) \$1.30; (2) \$2.55; (3) no bid.

Ohio Chemical Co.: (1) \$1.40; (2) \$3.60; (3) no bid.

**BIDS OPENED**

**SAN FRANCISCO.**—Identical bids at \$24.64 were received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, under Bid No. 865-37-137, for furnishing 108 pieces of seamless steel pipe, fob Fr Funston.

The bidders were: United Pipe & Supply Co., Tav-Holbrook Co., Crane Co., Pacific Pipe Co., Duncannon Metals & Supply Co., Dunham, Carrigan & Haven Co., Standard Supply Co., Walworth-California, Co., General Machinery & Supply Co., Gilmore Steel & Supply Co. and P. E. O'Hair & Co.

**BIDS OPENED**

**PYRAMID LAKE PROJECT** Nevada  
 Bids for furnishing one metal slide gate, 26-in. high 48-in. wide, complete with bolst for Pyramid Lake Project, Nevada, were opened by the U. S. Indian Irrigation Service, Los Angeles, under Invt. No. 0367. The bids were:  
 B. J. Priestley Mfg. Co., Salt Lake City—\$87.50 fob. Denver (telegraphic bid).

California Corrugated Culvert Co., Berkeley—\$141.36 fob. West Berke-

**CONTRACT AWARDED**

**EUREKA, Humboldt Co., Calif.**—California Corrugated Culvert Co., 5th and Parker Sts., Berkeley, was awarded contract by the U. S. Indian Irrigation Service, Los Angeles, at \$1283.23 fob West Berkeley, for furnishing welded steel slip joint drive end pipe under Inv. No. 0364 for Eureka.

**BIDS OPENED**

**COVINA, Los Angeles Co., Cal.**—Identical bids at \$1.15 per foot, laid in trench, were received by the Covina City Council for furnishing 4,000 ft. 12-in. I. D. 10-gauge, blue annealed steel pipe, joints welded. The bidders were: Western Pipe & Steel Co., Consolidated Steel Corp., American Pipe & Steel Co., West Coast Pipe & Steel Co., Southern Pipe and Casing Co. (all straight weld, pipe in 24-foot sections, and California Corrugated Culvert Co., spiral seam, pipe in 40-ft. lengths.

**BIDS OPENED**

**LOS ANGELES.**—Six bids were submitted to the Los Angeles county supervisors for furnishing 20,000 bbls. portland cement to be used in the construction of the spillway at San Gabriel Dam No. 1, fob. district freight yard at Azusa, County Flood Control District.

Blue Diamond Corp., Ltd.—\$2,716 barrel; total, \$71,148; discount, 20c bbl.; net total, \$65,148; freight rate, 4c wtt.

Other bids were identical with the above with the exceptions noted below:

Monolith Portland Cement Co. — Freight rate, 3½c wtt.

California Portland Cement Co. — Freight rate, 3½c wtt.

Riverside Cement Co. — Freight rate, 3½c wtt.

Southwestern Portland Cement Co. — Freight rate, 5½c wtt., or 20.9c bbl.

Graham Bros., Inc.—Freight rate, 4c bbl.

**BIDS OPENED**

**LOS ANGELES.**—Six bids were submitted to the Los Angeles county supervisors January 19 for furnishing 12,000 bbls. portland cement to be used in the construction of the outlet works at San Gabriel Dam No. 1, County Flood Control District. The bidders were:

Riverside Cement Co.—\$2.32 bbl.; total, \$27,840; discount, 20c bbl.; net total, \$25,540. Bid based on freight rate of 3½c wtt.

Other bids were identical with above with the exceptions noted below:

Southwestern Portland Cement Co. — Freight rate, 5½c wtt., or 20.9c bbl.

California Portland Cement Co.— Freight rate, 3½c wtt.

Monolith Portland Cement Co. — Freight rate, 3½c wtt.

Blue Diamond Corp., Ltd.—Freight rate, 4c wtt.

Graham Bros., Inc.—Freight rate, 4c wtt.

**CONTRACT AWARDED**

**ALHAMBRA, Los Angeles Co., Cal.**—American Pipe and Steel Corp. 250 Date Ave., Alhambra, submitted low bid and awarded contract by the Alhambra City Council at \$15,718.41 for furnishing 4900 ft. 16-in. steel pipe to be used to carry water from Keweenaw canyon. The other bids were: Southern Pipe & Casing Co., \$15,812.41.  
 Laev Mfg. Co., \$15,994.08.  
 Western Pipe & Steel Co., \$16,097.29

Consolidated Steel Corp., \$16,268.11

Southwest Welding & Mfg. Co. \$16,405.55

## 21— BRIDGES

### LOW BIDDERS

WASHOE CO., Nev.—Silver State Const. Co., Inc., Fallon, at \$49,378 submitted low bid to the Nevada State Highway Directors, Robert A. Allen, State Highway Engineer, Carson City, for the construction of the Lake Street Bridge across Truckee River in Reno.

Total bids follow:

Silver State Const. Co., Inc., Fallon	\$49,378.00
I. Christensen, Reno	50,293.50
Gibbons & Reed, Salt Lake City	55,518.50
Dodge Constr. Co., Fallon	65,042.00
Engineer's Estimate	51,433.00
J. F. Knapp, Oakland	52,595.50

Bids held under advisement.  
Unit bids will be given shortly.

### LOW BIDDERS

WASHOE CO., Nev.—J. F. Knapp Co., 1401 Park Ave., Oakland, at \$66,182 submitted low bid to the Nevada State Highway Directors, Robert A. Allen, State Highway Engineer, Carson City, for the construction of the Sierra Street Bridge across Truckee River in Reno.

The three low bids follow:

J. F. Knapp, Oakland	\$66,182.00
I. Christensen, Reno	70,523.00
Gibbons & Reed Co., Salt Lake City	75,491.00
Dodge Constr. Co., Fallon	80,843.00
Engineer's Estimate	70,041.00

Bids held under advisement.  
Unit bids will be given shortly.

### BIDS REJECTED

PACIFIC CO., Wash.—L. V. Murrow, Director of Highways, Olympia, has announced the rejection of all bids received December 22, for construction of a vertical lift steel bridge with treated pile and timber approach on about 0.2 mile of State Road No. 12, Naselle River Bridge, Pacific County.

Teufel & Carlson, Skinner Bldg., Seattle, at \$220,884, submitted the lowest bid.

### BIDS OPENED

SAN FRANCISCO—Following bids received by F. F. Moran, Assistant Procurement Officer, Forest Service, Phelan Bldg., under Bid No. 979, for furnishing one 100-ft. continuous beam, structural steel span for the Bull Creek Bridge, f.o.b. bidder's shipping point and/or Merced:

Minneapolis Moline Power & Implement Co.—\$1,241, 23,000 lbs.; f.o.b. Minneapolis.
Judson Pacific Co.—\$1,239, 25,000 lbs.; f.o.b. Berkeley.
Schrader Iron Works—\$1,330, 23,000 lbs.; f.o.b. San Francisco.
Bethlehem Steel Co.—\$1,375, 23,490 lbs.; f.o.b. Alameda.

Herrick Iron Works—\$1,140, 24,500 lbs.; f.o.b. Oakland.

Golden Gate Iron Works—\$1,125, 23,000 lbs.; f.o.b. San Francisco; discount,  $\frac{1}{2}$  of 1%, 10 days.

Independent Iron Works—\$1,179, f.o.b. Oakland; \$1,204, f.o.b. Merced; 25,000 lbs.; discount,  $\frac{1}{2}$  of 1%, 10 days.

### BIDS OPENED

SAN FRANCISCO—Following bids received by P. C. Brown, Procurement Officer, Forest Service, Phelan Bldg., under Bid No. 976, for furnishing (1) structural Douglas fir lumber for Balch Road Bridge No. 1, and (2) structural Douglas fir lumber for Balch Road Bridge No. 2, f.o.b. bidder's shipping point and/or Fresno:

E. K. Wood Lumber Co.—(1) \$470.76, f.o.b. Cottage Grove, weight 52,931 lbs., discount 2% 20 days; (2) \$549.63, f.o.b. Cottage Grove, weight 61,836 lbs., discount 1% 20 days; delivery in 30 days.

Loop Lumber Co.—(1) \$443.75, wt. 50,000 lbs.; (2) \$529, weight 62,400 lbs.; f.o.b. Toledo; discount, 2% 30 days; delivery in 30 days.

McCormick Supply Co.—(1) \$893.33; (2) \$932.33; f.o.b. Coquille; 12,000 lbs.; delivery 30 days.

James L. Hall Co.—(1) \$599.47, 2% 20 days; (2) \$690.12, 1% 30 days; combined weight, 125,000 lbs.; f.o.b. Portland; delivery in 6 days.

### CONTRACTS AWARDED

STATE OF WASHINGTON.—Bids for bridge construction were opened by L. V. Murrow, Director of Highways, Olympia, January 12, and contracts awarded as follows:

Benton & Franklin Counties—Re-decking and painting the existing bridge between Kennewick and Pasco on State Road No. 3, involving about 620 cu. yd. of concrete, 445,000 lbs. of structural carbon steel, 201,500 lbs. of steel reinforcing bars, 3 MFMB of untreated timber and lumber and other items.

Awarded: Parker - Schram Concrete Couch Bldg., Portland, \$72,732. Walla Walla County—Widening six bridges on State Road No. 3, Walla Walla to Wallula, involving about 733 cu. yd. of concrete, 106,000 pounds of steel reinforcing bars, 3,040 lin. ft. of precast concrete piling and other items.

Awarded: Henry Hagman, Cashmere, \$53,542.

### BIDS WANTED

MODESTO, Stanislaus Co., Calif.—Until January 27, 7:30 p.m., bids will be received by the Modesto City Council, H. C. Gragg, City Clerk, 717 10th St., for the reconstruction for a reinforced concrete bridge on Col-

lege Ave. across the Modesto Irrigation District Lateral No. 4. Estimated cost, \$3,700.

Plans and specifications obtainable from the office of the City Engineer upon deposit of \$10.

### CONTRACT AWARDED

WASHOE CO., Nev.—J. F. Knapp Co., 1401 Park Ave., Oakland, at \$66,182, awarded contract by the Nevada State Highway Directors, Robert A. Allen, State Highway Engineer, Carson City, for the construction of the Sierra Street Bridge across Truckee River in Reno.

Complete total bids follow:

J. F. Knapp, Oakland	\$66,182.00
I. Christensen, Reno	70,523.00
Gibbons & Reed Co., Salt Lake City	75,491.00
Dodge Constr. Co., Fallon	80,843.00
Engineer's Estimate	70,041.00

Unit bids will be published shortly.

### CONTRACT AWARDED

WASHOE CO., Nev.—Silver State Const. Co., Inc., Fallon, at \$49,378, awarded contract by the Nevada State Highway Directors, Robert A. Allen, State Highway Engineer, Carson City, for the construction of the Lake Street Bridge across Truckee River in Reno.

Complete total bids follow:

Silver State Const. Co., Inc., Fallon	\$49,378.00
I. Christensen, Reno	50,293.50
Gibbons & Reed, Salt Lake City	55,518.50
Dodge Constr. Co., Fallon	65,042.00
J. F. Knapp, Oakland	52,595.50
Engineer's Estimate	51,433.00

Unit bids will be published shortly.

### BIDS WANTED

LOS ANGELES, Cal.—Until Jan. 25, 3 p.m., bids will be received by the U. S. Engineer, 751 S. Figueroa St., Los Angeles, for furnishing approximately 215,000 lbs. of fabricated steel and other metal work incidental to the steel framework in the floor system of the Brand Blvd. bridge (west unit). Prices are to be quoted shipping on government bills of lading at contractor's expense and shipping at contractor's expense. Bid bond, 10% must accompany bid. Circ. Prop. No. 249. 21

### CONTRACT AWARDED

COLUSA CO., Calif.—Golden Gate Iron Works, 1541 Howard St., San Francisco, at \$270, submitted low bid and awarded contract by F. F. Moran, Assistant Procurement Officer, Forest Service, Phelan Bldg., San Francisco, under Bid No. 982, for furnishing one structural steel, 30-ft. beam span, for the Bartlett Creek Bridge.

Complete bids follow:

Golden Gate Iron Works—\$270, f.o.b. S. F.; weight, 5600 lbs.
Judson Pacific Co.—\$250, f.o.b. S. F.; weight, 6000 lbs.
California Steel Products Co.—\$327, f.o.b. S. F.; weight, 5500 lbs.
Schrader Iron Works, Inc.—\$340, f.o.b. S. F.; weight, 6400 lbs.
Minneapolis Moline Power & Implement Co.—\$400, f.o.b. Minneapolis; weight, 6000 lbs.

### BIDS WANTED

KERN COUNTY, Calif.—Until January 25, 2 p.m., bids will be received by F. F. Moran, Assistant Procurement Officer, Forest Service, 1022 Phelan Bldg., San Francisco, under Bid No. 983, for furnishing structural Douglas fir lumber for Kern River Bridge. \* follows:

Capital City  
Title Company

JAMES E. BANCROFT

Manager

14 Seventh Street

Sacramento : California

89,358 bd. ft. for main span, and 18,603 bd. ft. for approach span. Delivery f.o.b. bidder's shipping point and/or Bakerfield.

Specifications obtainable from the above office.

## 22—DREDGING HARBOR WORKS, EXCAVATION

### BIDS OPENED

**BERKELEY, Cal.**—Roberts Island Dredging & Improvement Co. 508 1/2 St., Antioch, at \$11 per hour, submitted low bid to the Procurement Office, Treasury Department, Room 514, 49 Fourth St., San Francisco, under Bid No. 3128, for the rental of one clamshell dredger, delivered afloat at Berkeley Yacht Harbor, for use on WPA project.

Franks Contr. Co., San Francisco, at \$16.50 per hour submitted only other bid.

### PLANNED

**WASHINGTON, D. C.**—The U. S. Army Engineer Chief, Major Gen. Edward Markham, has recommended that \$1,500,000 be expended for the construction of two initial units in a chain of commercial seaplane harbors in the Pacific Ocean. He recommends \$1,000,000 to be expended for the development of such a harbor at Wake Island and \$500,000 at Midway Island. They will be dredged from 20 to 22 feet, with suitable breakwaters.

### BIDS WANTED

**ALAMEDA, Alameda Co., Calif.**—Bids are being received by the Bureau of Yards & Docks, Navy Dept., Washington, D. C., under Spec. No. 8414, for dredging at the Naval Air Station, Alameda. Estimated cost, \$1,000,000.

Plans and specifications obtainable from the above office and will be available from the office of the Commandant, 12th Naval District, Federal Office Bldg., San Francisco.

## 23—CANALS

### BIDS WANTED

**ALL-AMERICAN CANAL.**—Until February 15, 10 A. M., bids will be received by the Bureau of Reclamation, Federal Bldg., Yuma, R. B. Williams, Construction Engineer, under Spec. No. 708, for the construction of drops and power plant substructures at drops Nos. 2, 3, 4 and 5, All-American Canal System, Boulder Canyon Project.

The work is located near Yuma, Ariz. and Calexico, Calif., and the principal items of work involved are:

- (1) 149,860 c.y. excavation;
- (2) 90,660 c.y. backfill;
- (3) 39,160 c.v. concrete;
- (4) 4,960 sq. yds. dry-rock paving;
- (5) 3,340 c.y. reverse filters;
- (6) Placing 4,462,000 lbs. reinf. bars;
- (7) Placing 29,275 lf. metal joint seals;
- (8) Placing 16,400 sq. ft. welded elastic joint filler;
- (9) Laying 1,596 lf. 8-in. and 15-in. sewer pipe;
- (10) Driving 2,148,000 lbs. steel sheet piling;
- (11) Fabricating and driving 165 M. F. B. M. timber sheet piling;
- (12) Driving 114,000 lf. timber foundation piles;
- (13) Installing 228,400 lbs. radial gates and hoists;
- (14) Installing 200,000 pounds metal-work;
- (15) Installing 4400 lbs. ground wires
- (16) Installing 3,800 lf. elec. metal conduit;
- (17) Installing 350 lbs. elec. conductors.

The work shall be commenced within 30 calendar days and com-

pleted within 660 calendar days after date of receipt of notice to proceed.

Plans and specifications obtainable from the Bureau of Reclamation at Yuma, Denver, or Washington, D. C. without charge to prospective bidders; to others, \$3.05, not returnable.

## 25—MACHINERY AND EQUIPMENT

### BIDS OPENED

**ALCATRAZ ISLAND.**—Charles M. Bailey Co., 667 Folsom St., at \$58.95 on Item 1, and the Ross Heater & Mfg. Co., Inc., 625 Market St., at \$50 on Item 2, submitted low bids to the Bureau of Prisons, J. A. Johnston, Warden, Alcatraz Penitentiary, under Bid No. 862, for furnishing one multicolor type oil heater and one thermostatic temperature regulator, f.o.b. Dock No. 1, Fort Mason.

Complete bids follow:  
 Charles M. Bailey Co.—(1) \$58.95; (2) \$55.15.  
 Ross Heater & Mfg. Co.—(1) \$173.50; (2) \$50.

Fulton Sipbon Co.—(1) no bid; (2) \$37.50.

Whitlock Coil Pipe Co.—(1) \$226.60; (2) \$57.50.

Bethlehem Shipbuilding Corp.—(1) \$200; (2) no bid.

### BIDS OPENED

**CASPER-ALCOVA PROJECT, Wyo.**—Following bids received by the Bureau of Reclamation, Denver, under Spec. No. 553-D, for furnishing (1) one portable oil purifier, and (2) one filter paper drying oven, for installation in the Seminoe power plant, Casper-Alcova Project, Wyoming:

Goulds Pumps, Inc., Seneca Falls, N. Y.—(1) \$2,300, f.o.b. Seneca Falls; (2) \$125, f.o.b. Pittsfield, Mass.

DeLaval Separator Co., Chicago—(1) \$2,490, alternate \$2,350, both f.o.b. Poughkeepsie, N. Y.; (2) \$125, f.o.b. Pittsfield.

Westinghouse Elec. & Mfg. Co., Denver—(1) \$2,665, f.o.b. Philadelphia; (2) \$100, f.o.b. Pittsfield.

### BIDS OPENED

**SAN FRANCISCO.**—Following bids received by T. A. Brooks, Purchaser of Supplies, City Hall, under Bid No. 1723, for furnishing two sets of steam turbine driven centrifugal boiler feed pumps for the San Francisco Hospital:

Merrill Co., \$903.20 each; total, \$1,806.40; delivery in 7 weeks; net.  
 Woodin & Little, \$939 each; total, \$1,879; delivery, 45 days; 1% 30 days.  
 Geo. E. Sweet Co., \$990 each; total, \$1,980; delivery, 30 days; net.

Wesco Pump Sales Co., \$1100 each; total, \$2,200; delivery, 35 days; net.

De Laval Steam Turbine Co., \$1172 each; total, \$2,346; delivery, 70 days; net.

United Iron Works, \$1,187 each; total, \$2,374; delivery, 30 days; net.  
 Byron Jackson Co., \$1,358; total, \$2,716; delivery, 30 days; net.

Allis Chalmers Mfg. Co., \$1,356 each; total, \$2,712; delivery, 60 days; net.

Washington Pump & Machinery Co., \$1,558 each; delivery, 25 days; net.

### BIDS OPENED

**SALT RIVER PROJECT, Arizona.**—Following bids received by the Bureau of Reclamation, Denver, under Spec. No. 563-D, for furnishing two 72-inch diam welded steel outlet pipes for installation in the outlet works at the Bartlett Dam, Salt River Project, Arizona.

Consolidated Steel Corp., Ltd., Los Angeles—\$9,732, f.o.b. Los Angeles; net.

Chicago Bridge & Iron Co., Chicago—\$7,350, f.o.b. Birmingham; net.  
 Lacy Mfg. Co., Los Angeles—\$8,700, f.o.b. Los Angeles; net.

Berkeley Steel Constr. Co., Inc., Berkeley—\$10,092, f.o.b. Berkeley; discount, 1/2%.

Koppers Co. (Western Gas Division), Fort Wayne, Ind.—\$11,235, f.o.b. destination; net.

Southwest Welding & Mfg. Co., Inc., Alhambra—\$8,362, f.o.b. Alhambra; discount, 1% 30 days.

John W. Beam, Denver—\$7,725, f.o.b. Chicago; discount, 1/4%.

Alco Products, Inc., New York—\$7,300, f.o.b. Dunkirk, N. Y.; net.

Emaco Derrick & Equipment Co., Los Angeles—\$9,560, f.o.b. Los Angeles; net.

### BIDS OPENED

**SAN FRANCISCO.**—Following bids received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, Custom House, under Bid No. 868-37-136, for furnishing one distant mechanical control type, 18-inch searchlight, fob Pier 27, San Francisco Waterfront:

Graybar Electric Co., \$225; delivery in 15 days.

Carlisle & Finch, Cincinnati: \$228; delivery in 21 days.

Guglielmo Lighting Fixture Co.: \$337.50; delivery in one day.

Sperry Gyroscope Co.: \$340; delivery in one day.

Marine Electric Co. \$340; no delivery time stated.

Bids held under advisement.

### BIDS OPENED

**SAN FRANCISCO.**—The following bids received by the Procurement Office, Treasury Dept., Room 514, 49 Fourth St., San Francisco, under Bid No. 3159, for the rental of one 35- to 45-h.p. diesel-driven tractor, crawler type, with bulldozer and scraper, for use on WPA projects, fob Zoological Gardens.

A. S. Willit, 225 Thornton St., San Francisco, \$4.23 per hour; net.

S. F. Grading Co., San Francisco: \$4.75; net.

T. H. Farish, San Francisco: \$4.50; net.

W. A. Trimble, San Francisco, \$4.50; net.

W. E. Gilmore & Son, \$4.75; net.  
 Guerin Bros., San Francisco \$4.90; net.

C. Mankel, Sacramento \$5.25; discount, 1/2% 20 days.

E. Consani, San Francisco: \$5.25; discount, 2% 30 days.

Cornet Tractor: \$5.35; discount, 2% 20 days.

Bay Equipment Co., San Francisco \$5.50; net.

Paul Tehl, San Francisco: \$6.20; discount, 3% 20 days, 2% 30 days.

Thomas Bros., Berkeley: \$7.25; discount, 1/2% 20 days.

### BIDS OPENED

**DINUBA, Tulare Co., Calif.**—Following bids received by the Procurement Office, Treasury Dept., Room 514, 49 Fourth St., San Francisco, under Bid No. 3156, for the rental of one sheen's foot tamper roller for use on WPA projects, fob Tulare Co. Road Yard, Dinuba:

Eaton & Smith, San Francisco: \$70 per month; net.

Guerin Bros., San Francisco \$90; net.  
 Rexroth & Rexroth, Bakerfield: \$95; net.  
 Pombro Bros., San Francisco: \$170; net.

### BIDS OPENED

**SAN FRANCISCO.**—DeWalt Machinery Co., 1061 Folsom St., at \$40 per month, submitted low bid to the Procurement Office, Treasury Dept.

Room 514, 49 Fourth St., under Bid No. 3158, for the rental of one direct drive saw for use on WPA projects, fob Zoological Gardens, Sunset Blvd. near Skyline, San Francisco.

Harron, Rickard & McConne, at \$75 per month, submitted the only other bid.

#### BIDS OPENED

SAN JOSE, Santa Clara Co., Cal.—Following bids received by the Procurement Office, Treasury Department, Room 514, 49 Fourth St., San Francisco, under Bid No. 3185, for the rental of one air compressor, complete with electric power unit and air receiver, for use on WPA project, fob Old Post Office Bldg., San Jose:

Chas. L. Nilson, \$78 per month; net.

Bay Equipment Co., San Francisco; \$100 per month; net.

William J. Schiller, \$25 per day; net.

W. H. Cowan, \$27.90 per day; net.

#### BIDS OPENED

HAYWARD, Alameda Co., Calif.—Following bids received by the Procurement Office, Treasury Department, Room 514, 49 Fourth St., San Francisco, under Bid No. 3126, for the rental of one crawler type tractor, with bulldozer, fob Palomares Road, 1.5 miles south of Stonybrook School, 6 miles east of Hayward, for use on WPA projects:

C. L. Jordan, San Francisco, \$3.35, net.

Independent Const. Co., Oakland, \$3.45, net.

E. H. Baker, Santa Rosa, \$3.50; discount, 2% 30 days.

Lee J. Immel, Berkeley, \$3.67, net. Cornell Tractor Co., \$3.85; 2% 30 days.

A. L. Green, Oakland, \$3.95, net.

C. Mankel, Sacramento, \$4.23; 1/2% 20 days.

Bay Equipment Co., San Francisco \$4.50; net.

Arriss-Knapp Co., \$4.60, net.

L. C. Karstedt, Watsonville, \$5.00, net.

R. A. Farish, San Francisco, \$5.25, net.

#### BIDS OPENED

BERKELEY, Alameda Co., Calif.—East Bay Transit Co., 2129 Grove St., Oakland, at \$11 per day, net, submitted the only bid received by the Procurement Office, Treasury Department, Room 514, 49 Fourth St., San Francisco, under Bid No. 3127, for the rental of one motor passenger bus, fob Vassar and Spruce Sts., Berkeley, for use on WPA projects.

#### BIDS OPENED

SAN FRANCISCO.—Lee J. Immel, 1031 Evelyn St., Berkeley, at \$3.43 per hour, submitted low bid to the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, Custom House, under Bid No. 968-37-133, for the rental of one road roller, with operator, for 200 hours, fob. Fort Funston.

Complete bids follow:  
Lee J. Immel, Berkeley, \$3.43  
Guerin Bros., S. F., 3.75  
Bay Equipment Co., S. F., 4.00  
Chas. Harney, S. F., 4.75

#### CONTRACTS AWARDED

SAN FRANCISCO.—The following contracts awarded by T. A. Brooks, Purchaser of Supplies, City Hall, under Bid No. 1657, for power tool equipment for the School Department:

Pratt & Whitney Division of Niles-Bement-Pond Co.: (1) one No. 5 hydraulic type nx24-in. surface grinding machine, \$2,315; (2) one 12x30-in. precision toolmaker's lathe, \$3,080.

Moore Machinery Co.: one 12x30-in. precision tool room lathe, \$2,822

#### BIDS OPENED

HUMBOLDT CO., Calif.—Following bids received by the Procurement Office, Treasury Department, Room 514, 49 Fourth St., San Francisco, under Bid No. 3207, for the rental of one 40 to 60-hp. crawler type tractor, equipped with angle dozer, for use on WPA project, fob. Kneeland-lqua Road, approximately 25 miles east of Eureka:

Wm. Hess, Weott—\$5.25 per hour; discount 10%, 20 days; 2% 30 days.

#### 26—RAILROADS

##### BIDS OPENED

SAN DIEGO, Calif.—Western Steel & Equipment Corp., Portland, submitted the low bid to the U. S. Engineer, 751 S. Figueroa St., for a complete narrow gauge railroad track system for San Diego. The items are:

- 20,322 lbs. steel castings;
- 26,480 lbs. rail 24-lb. yd. ASCE section;
- 32,100 lbs. cross ties;
- 3,100 lbs. appurtenances.

F.o.b. cars, bidders' assembling plant. Circ. Prop. No. 24.

The complete bids were:

Western Steel & Equipment Corp., Portland, Ore.—(1) \$0.175; (2) \$0.073; (3) \$0.0725; (4) \$0.125; total, \$6754.14.

Columbia Steel Co., San Francisco—Lump sum bid \$9144, f.o.b. Johnstown, Penn. 26

##### AWARD RECOMMENDED

SACRAMENTO.—Forsythe Worden & Co., 264 Sybil Ave., San Leandro, at \$23,995, submitted low bid and recommended for award of contract by Major Arthur W. Parker, Constructing Quartermaster, Sacramento Air Depot, under Bid No. 6870-37-10, for the construction of standard gauge railroad trackage and turnouts at the new Army Air Corps Supply Depot, near North Sacramento.

The work involves:

- (1) Lump sum, work complete, 10,493 ft. of standard gauge railroad track, including eight No. 9 turnouts;

(2a) Installing track per foot for Railroad ties and 80-lb rail will be furnished by the Government.

Complete bids follow:

Forsythe Worden & Co., San Leandro—(1) \$23,995; (2a) \$1.55; begin work in 20 days and complete in 90 days.

Shannahan Bros., Inc., Los Angeles —(1) \$25,290; (2a) \$2.41; begin in 7 days and finish in 70 days.

Peter J. McHugh, San Francisco—(1) \$26,890; (2a) \$1.82; begin in 10 days, complete in 120 days.

A. D. Schader, San Francisco—(1) \$26,297; (2a) \$2.495; begin in 5 days and complete in 69 days.

P. L. Burr, San Francisco—(1) \$30,890; (2a) \$2.35; begin in 10 days and finish in 90 days.

A. Telcher & Son, Inc., Sacramento —(1) \$39,406; (2a) \$3.30; begin in 21 days and complete in 100 days.

\* Bid modified by telegram.

#### 28—FIRE EQUIPMENT

##### CONTRACT AWARDED

FAIRFAX, Marin Co., Calif.—P. E. Van Pelt, Oakland, at \$3,991.33, was awarded contract by the Fairfax City Council for furnishing a new fire engine, 500 g.p.m., 150-gal. booster tank, mounted on Ford V-8 chassis.

#### 29—STREETS AND HIGHWAYS

##### CONTRACT AWARDED

LOS ANGELES CO., Cal.—A. S. Vinnell Co., 969 Amalia Ave., Los Angeles, at \$98,545.50 awarded contract by the State Division of Highways, C. H. Purcell, State Highway Engineer, Sacramento, for about 2.1 miles grading and surfacing with plant-mixed surfacing in Los Angeles County between Azusa Ave. and San Gabriel River Bridge.

##### CONTRACT AWARDED

HUMBOLDT CO., Calif.—Poulo & McEwen, 2522 17th St., Sacramento, at \$104,316.60, awarded contract by the State Division of Highways, C. H. Purcell, State Highway Engineer, Sacramento, for grading and surfacing with roadmix surfacing about 2.3 miles between Trinidad and McNeill Ranch, Humboldt County.

##### BIDS WANTED

LAS VEGAS, Nevada.—Until January 30, 10 a. m., bids will be received by the board of city commissioners, Las Vegas, Nev., for constructing oil-bound gravel pavement and concrete curbs and gutters upon certain city streets. Specifications are available from Viola Burns, city clerk, upon payment of \$15.

##### CONTRACT AWARDED

COCHISE CO., Ariz.—Phoenix-Tempe Stone Co., P. O. Box 1645, Phoenix, at \$26,028, awarded contract by the Arizona State Highway Commission, Phoenix, for highway construction on the Benson-Douglas Highway (Bisbee streets), RA 11-B (1937) AFE 8063. The work, which is located within the city limits of Bisbee, consists of resurfacing and widening about one-third of a mile of existing pavement with cutback asphaltic plant mix, and is to be completed on or before April 30.

##### BIDS WANTED

STANISLAUS, Calaveras, Amador and Tuolumne Cos., Cal.—Until Feb. 3, 1:30 P. M., bids will be received by the State Division of Highways, R. E. Pierce, District Engineer, 1200 North Center St., Stockton, for applying diesel oil to roadside vegetation for a distance of about 176 roadside miles in Calaveras, Stanislaus, Tuolumne and Amador Counties, at various locations.

The work will require 1,250 barrels of diesel oil in place.

Specifications obtainable from the above office.

##### BIDS WANTED

MERCED, Mariposa, Stanislaus, San Joaquin, Calaveras, Amador and Tuolumne Cos., Cal.—Until Feb. 1st, 1:30 P. M., bids will be received by the State Division of Highways, R. E. Pierce, District Engineer, 1200 N. Center St., Stockton, for applying diesel oil to roadside vegetation for a distance of about 263 roadside miles at various locations in Merced, Mariposa, Stanislaus, San Joaquin, Calaveras, Amador and Tuolumne counties.

The work involves 2,120 barrels of diesel oil.

Specifications obtainable from the above office.

##### BIDS WANTED

BAKERSFIELD, Kern Co., Cal.—Until January 18, 5 P. M. (to be opened at 8 P. M.) bids will be received by the Bakersfield City Council, N. Van Riper, City Clerk, City Hall, for the resurfacing of 19th St. and Chester Ave., Bakersfield.

Plans and specifications obtainable from the above office.

UNIT BID LISTING

IMPERIAL COUNTY, Cal.—R. E. Hagar & Son, P. O. Box 1438, San Diego, at \$79,966.70, as previously reported, submitted the low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for grading and surfacing with gravel base and plant-mixed surfacing about 3.1 mi. and constructing two timber bridges between Calexico and 3.1 miles east-erly in Imperial County.

The work involves:

- (1) Clear and grub right-of-way;
- (2) 1,375 M. gals. water;
- (3) 20 cu. yds. remove concrete;
- (4) 31,600 c.y. roadway excavation, without classification;
- (5) 3,850 c.y. struct. excav.;
- (6) 10,000 c.y. imported borrow;
- (7) 105,500 sta. yds. overhaul;
- (8) 163 sta. finishing roadway;
- (9) 8,300 tons gravel base;
- (10) 8,070 tons mineral aggregate (plant-mix surf.);
- (11) 405 tons liquid asphalt, MC-5 or MC-extra heavy;
- (12) 76 tons liq. asphalt, MC-2 (prima coat);
- (13) 32,400 lbs. bar reinf. steel;
- (14) 325 c.y. Class A portland cement concrete (structures);
- (15) 25 M. ft.b.m. Redwood timber, dense, select, all-heart, struct. grade;
- (16) 6 M. ft.b.m. Redwood timber, select, all-heart, struct. grade;
- (17) 1,759 lf. furnish treated Douglas fir piles, including test piles;
- (18) 55 each, driving Douglas fir piles, including test piles;
- (19) 204 lf. 18-in. CMP;
- (20) 448 lf. 18-in. CMP siphons;
- (21) 332 lf. 24-in. CMP siphons;
- (22) 152 lf. 30-in. CMP siphons;
- (23) 66 lf. 36-in. CMP siphons;
- (24) 84 lf. 42-in. CMP siphons;
- (25) 100 lf. 60-in. CMP siphons;
- (26) 45 each, concrete pipe joints;
- (27) 75 lf. remove pipe culverts;
- (28) 32 each, culvert markers;
- (29) 3.25 miles new property fence;
- (30) 15 each, drive gates;
- (31) 10 mile existing fences, move and reset;
- (32) 21 each, monuments.

NOTE: The State will furnish corrugated metal pipe as more expeditiously set forth in the special provisions.

Total bids follow:  
(A) E. Hazard & Son, San Diego, \$79,966.70.  
(B) Oswald Bros., Los Angeles, \$83,916.85.

NEWPORT BEACH—SEWAGE SYSTEM—(City)

NEWPORT BEACH, Orange Co., Calif.—Drainage Constr. Co., 3696 Cedar St., Lywood, at \$327,743, as bid and recommended for award of contract by the Newport Beach City Council for construction of a vitrified clay sewage collection system, sewage pumping stations, and a disposal plant.

Plans prepared by City Engineer R. L. Patterson and the Currie Engr. Co., San Bernardino.

The plant is designed to serve a population of about 25,000 and consists of two concrete circular Imhoff tanks and a separate sludge digestion tank. The City has about \$304,000 available, of which \$152,000 is a PWA allocation, the balance bonds voted by the city.

The work involves:

- (1) Sewage Pumping Sta. No. 1 and appurtenances as shown on Plan No. 401, Sheets 29 to 31 inc.;
- (2) Sewage Pumping Sta. No. 2 and appurtenances as shown on Plan No. 401, Sheets 26 to 28 inc.;
- (3) Sewage Pumping Sta. No. 3 and appurtenances as shown on Plan No. 401, Sheets 22 to 25 inc.;
- (4) Sewage Pumping Sta. No. 4 and appurtenances as shown on Plan No. 401, Sheets 32 and 33;
- (5) Cast Iron Pipe Siphon No. 1, consisting of one 12-in. pipe, as shown on Plan No. 401, Sheet 20;
- (6) 6,650 lf. 30-in. vit. clay pipe sanitary sewer.
- (7) 2,580 lf. 27-in. do.;
- (8) 3,160 lf. 24-in. do.;
- (9) 7,870 lf. 21-in. do.;
- (10) 4,310 lf. 18-in. do.;
- (11) 340 lf. 12-in. do.;
- (12) 3,810 lf. 10-in. do.;
- (13) 4,050 lf. 8-in. do.;
- (14) 1,100 lf. 14-in. Class 250 cast iron pipe, flexible joints, discharge line from disposal plant, inc. fittings;
- (15) 1,160 lf. 14-in. Class 150 cast iron pipe, B & S sanitary sewer, inc. fittings;

- (16) 820 lf. 12-in. Class 150 cast iron pipe, B & S sewer force main, inc. fittings;
- (17) 4,010 lf. 10-inch Class 150 cast iron pipe sanitary sewer, including fittings;
- (18) 10-in. Class 150 cast iron pipe sewer, highway crossing at Sta. 59 plus 75, sheet 10 of Plan No. 401;
- (19) 8-in. do. at Sta. 19 plus 00, sheet 8, and Sta. 74 plus 26, sheet 10 of Plan No. 401;
- (20) 200 lf. 8-in. Class 150 cast iron pipe sewer force main, including fittings, sheet 14 of Plan No. 401;
- (21) reinf. cement concrete box sanitary sewers, Sta. 165 plus 02, sheet 14, and Sta. 73 plus 29, sheet 10 of Plan No. 401;
- (22) 50 c.y. Class E cement concrete pipe envelope;
- (23) 98 brick manholes;
- (24) 1 brick flush tank, inc. ¾-inch water service connection;
- (25) 15,000 c.y. rdwy. embankment;
- (26) 91 lf. 24-in. corr. iron culvert pipe;
- (27) 40 lf. 16-in. reinf. cement concrete culvert;
- (28) 1500 lf. 2-in. galv. iron water pipe, inc. fittings;
- (29) 2,400 tons furnishing and placing crushed rock for sewer foundation;
- (30) 160 ft. type A vit. clay pipe sewer chimney;
- (31) sewage disposal plant and appurtenances thereto, complete as shown on Plan No. 401, sheets 34 to 35, inc.

**CONTRACT AWARDED**

**COCONINO CO., Ariz.**—J. A. Casson, Phoenix, at \$68,678.50 (Class F-2 surfacing), awarded contract by the Bureau of Public Roads, Phoenix, C. H. Sweeter, District Engineer, for placing bituminous treated crushed rock surfacing on 8.639 miles of Route 8, Grand Canyon National Pk., Coconino County.

**CONTRACT AWARDED**

**LOS ANGELES CO., Calif.**—J. E. Haddock, Ltd., 357 N. Chester Ave., Pasadena, at \$91,784.50, awarded contract by the State Division of Highways, C. H. Purcell, State Highway Engineer, Sacramento, for about 1.6 miles grading and surfacing with portland cement concrete in Los Angeles County, between Playa Street and Washington Blvd.

**CONTRACT AWARDED**

**IMPERIAL CO., Calif.**—G. W. Ellis, 5240 Lankershim Blvd., North Hollywood, at \$78,029.55, awarded contract by the State Division of Highways, C. H. Purcell, State Highway Engineer, Sacramento, for about 10.1 miles grading and surfacing with plant-mixed surfacing in Imperial County, between Sandia and Alamo River.

**BIDS OPENED**

**IMPERIAL COUNTY, Cal.**—R. E. Hazard & Son, P. O. Box 1438, San Diego, at \$79,968.70 submitted low bid to the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for grading and surfacing with gravel base and plant-mixed surfacing about 3.1 miles and constructing two timber bridges, between Calexico and 3.1 miles easterly, in Imperial County.

Total bids follow:  
R. E. Hazard & Son, San Diego ..... \$79,968.70  
Oswald Bros., L. A. ..... \$3,916.85  
W. R. Dennis Const. Co., San Diego ..... \$9,047.35  
Unit bids will be given shortly.

**CONTRACT AWARDED**

**COLUSA, Colusa Co., Cal.**—Harry H. Staples, 530 Webster, Colusa, at \$0.31 per lf. awarded contract by the City Council for the construction of approximately 10,000 lf. of curb and gutter along city streets.

**BIDS OPENED**

**SAN FRANCISCO**—Love & Haun, 4354 20th St., at \$279 submitted low bid to the Department of Public Works, City Hall, under Spec. No. 19,009, for the reconstruction of the sidewalk on Arguello Blvd. between Fulton St. and Washington St., involving:

- (1) 1,400 square feet 2-course concrete sidewalk;
  - (2) 10 c.y. loam.
- Complete bids follow:  
Love & Haun: (1) \$0.195; (2) \$0.60; total \$279.  
Thos. Gallagher: (1) \$0.23; (2)

\$1.50; total, \$337.

**BIDS OPENED**

**SAN FRANCISCO**—Devincenzi Bros. & Co., 150 Collins Street, at \$3,231 submitted low bid to the Department of Public Works, City Hall under Spec. No. 19,008, for the improvement of Mendell St. between Innes and Jerrold Aves., involving:

- (1) 10,300 c.y. grading and excavation;
- (2) 7,500 sq. ft. 4-inch waterbound macadam pavement.

Complete bids follow:  
Devincenzi Bros.: (1) \$0.27; (2) \$0.06; total, \$3,231.  
Piombo Bros. & Co.: (1) \$0.247; (2) \$0.045; total, \$3,911.60.  
S. F. Grading Co.: (1) \$0.478; (2) \$0.042; total, \$5,238.40.

Eaton & Smith: (1) \$0.43; (2) \$0.125; total, \$5,366.50.

Healy-Tibbitts Const. Co.: (1) \$5.00; (2) \$0.04; total, \$5,450.

L. N. Giorgi & Co.: (1) \$0.52; (2) \$0.04; total, \$5,656.

E. J. Treacy: (1) \$0.60; (2) lump sum, \$300; total, \$5,450.

Chas. L. Harney: (1) \$0.64; (2) \$0.03; total, \$6,817.

**CONTRACT AWARDED**

**OAKLAND, Alameda Co., Calif.**—G. M. Gest, 1216 24th St., Oakland, awarded contract by the Pacific Telephone & Telegraph Co. (Mr. R. Z. Young, General Plant Engineer, San Francisco), for the installation of conduit in Olive and cross streets, Oakland.

- The work will involve:
- (1) 4,581 trench ft. 9-way creosoted wood conduit;
  - (2) 1,896 trench ft. 6-way creosoted wood conduit;
  - (3) 751 trench ft. 6-way vitrified clay conduit;
  - (4) 482 trench ft. 4-way vitrified clay conduit;
  - (5) 600 ft. lateral conduit;
  - (6) Construction of 14 manholes.

Mr. Paulsen, 1545 Franklin Street, Oakland, Division Engineer.

**BIDS WANTED**

**SONOMA, Marin and Napa Cos., Cal.**—Until Feb. 1, 2 P. M., bids will be received by the State Division of Highways, Jno. H. Skeggs, District Engineer, State Bldg., San Francisco for applying diesel oil to roadside vegetation for a distance of 188.5 miles, at various locations in Sonoma, Marin and Napa Counties.

The work will require 2,500 barrels of oil.  
Plans and specifications obtainable from the above office.

**LOW BIDDERS**

**PINAL CO., Ariz.**—Tiffany Constr. Co., 535 N. 7th St., Phoenix, at \$11,420, submitted low bid to T. S. O'Connell, State Highway Engineer, Phoenix, for construction of the Mesa-Superior Highway, F.A. 7, 2nd Reop. (1937), A.E.E. 8011. The work which is to begin about 3.9 miles northwest of Florence Junction and

January 21, 1937.

**BIDS OPENED**

**SACRAMENTO, Sacramento Co., Calif.**—Pittsburgh-Des Moines Steel Co., Rialto Bldg., San Francisco, at \$24,900, submitted low bid to Major Arthur W. Parker, Constructing Quartermaster, Sacramento Air Depot, for construction of a 300,000-gallon capacity elevated steel tank at the Sacramento Air Depot, near North Sacramento.

- Bids were taken as follows:
- (1) Lump sum, work complete;
  - (2) Excavation, per c.y.;
  - (3) Concrete, per c.y.;
  - (4) Reinforcing steel, per lb.;
  - (5) 12-in. cast-iron pipe, per lf.;
  - (6) 16-in. do.;
  - (7) Cast-iron fittings;
  - (8) 12-in. flanged check valve, ea.;
  - (9) 16-in. do.;
  - (10) 6-in. gate valve, each;

(14)	575.00	510.00	450.00	340.00

Bids forwarded to Washington, D. C.

is to extend southeasterly to Florence Junction over a recently constructed new alignment, consists of furnishing and placing aggregate base course and 90-95 road oil plant mix, and is to be completed on or before May 31, 1937. The approximate quantities and principal items are:

- 27,000 tons aggregate base course (C.I.P.);
- 121 tons cutback asphalt (MC-1);
- 5,100 tons plant mix;
- 278 tons road oil (90-95);
- 3.9 miles placing plant mix;
- 629 tons screenings;
- 100 M. gal. sprinkling;
- 100 hours rolling;
- 600 tons stockpiling plant mix.

Pleasant-Hasler Construction Co., Phoenix, submitted the second bid, at \$42,562.

**BIDS WANTED**

**SAN FRANCISCO**—Until January 20, 1:45 p.m., informal bids will be received by the Department of Public Works, Room 251, City Hall, under spec. No. 19,009, for the reconstruction of the sidewalk on Arguello Blvd., between Fulton Street and Washington Street. Estimated cost, \$310.

- The work involves:
- (1) 1,400 sq. ft. 2-course concrete sidewalk;
  - (2) 10 c.y. loam.

Plans and specifications obtainable from the office of City Engineer John Casey.

**BIDS WANTED**

**ALAMEDA, Contra Costa, Santa Clara Cos., Cal.**—Until February 1, 2 P. M., bids will be received by the State Division of Highways, Jno. H. Skeggs, Dist. Engineer, State Bldg., San Francisco, for applying diesel oil to roadside vegetation for a distance of 111.5 miles at various locations in Alameda, Contra Costa and Santa Clara Counties.

The work will require 1,500 barrels of oil.  
Plans and specifications obtainable from the above office.

- (11) 8-in. gate valve, each;
- (12) 12-in. gate valve, each;
- (13) 16-in. gate valve, each;
- (14) 8-in. altitude valve, each.

- Total bids follow:
- (A) Pittsburgh-Des Moines Steel Co., San Francisco—\$24,900; begin work in 45 days and complete in 180 days.
  - (B) Chicago Bridge & Iron Works, San Francisco—\$26,550; begin in 60 days and complete in 175 days.
  - (C) W. E. Caldwell Co., Louisville, by Ralph Mills & Co., San Francisco, agents—\$28,240; begin in 10 days and complete in 130 days.
  - (D) California Steel Products Co., San Francisco—\$30,760; begin in 40 days and complete in 200 days.

Unit bids follow:

**BIDS WANTED**

**TRICOPA CO., Calif.**—Until February 2, 2 p.m., bids will be received by the Arizona State Highway Commission, Phoenix, Ariz., for the construction of the Tempe-Mesa Highway, A.P.E. 807, A-2, 2nd reopening (1937).

The work, which extends westerly 3½ miles from the west city limits of Mesa, consists of concrete pavement widening, the furnishing and placing of imported borrow, aggregate base course and cutback plant mix, and other work, and is to be completed on or before July 15, 1937.

The principal items and approximate quantities are:

- 17,000 c.y. roadway excav.;
  - 5,100 c.y. drainage excav.;
  - 750 c.y. struct. excav.;
  - 14,500 c.y. imported borrow;
  - 14,400 tons aggregate base course;
  - 950 M. gal. sprinkling;
  - 390 hours rolling;
  - 47,000 sq. yds. concrete pavement;
  - 146 c.y. Class A concrete;
  - 640 lbs. reinforcing steel;
  - 1,780 tons cutback plant mix;
  - 80 tons cutback asphalt;
  - 22,600 gal. SC-2 road oil;
  - 90 tons screening;
  - 300 tons cover coat (concr. sand);
  - 300 lf. CMP (3 sizes);
  - 23,400 lf. line fence;
  - 9,300 lf. reconstruct fence;
  - 29 each, steel gates;
  - 1,853 lf. plain concrete pipe (under roadway) (2 sizes);
  - 2,240 lf. plain concrete pipe (not under roadway) (2 sizes);
  - 728 lf. reinforced concrete pipe (2 sizes);
  - 5 each, manholes;
  - 54 lf. concrete railroad crossing.
- Specifications obtainable from the above office.

**30—RESERVOIRS & DAMS****BIDS WANTED**

**RIVERTON PROJECT, Wyo.**—Until February 4, 10 A. M., bids will be received by the U. S. Bureau of Reclamation, Riverton, Wyo., H. D. Comstock, Supt., under Spec. No. 872-D, for clearing the Bull Lake Reservoir site, Riverton Proj., about 40 miles northwest of Riverton.

The work involves about 820 acres of clearing, which is divided into two schedules.

Plans and specifications obtainable from the Bureau of Reclamation at Riverton or Denver, without charge to prospective bidders; to others, \$50 net returnable.

**BIDS WANTED**

**BONNEVILLE, Ore.**—Until Jan. 20, 3 P. M., bids will be received by the U. S. Engineer Office, Second Portland Dist., 627 Pittock Block, Portland, Ore., C. F. Williams, District Engineer, under Bid No. 694-37-225, for constructing a concrete filler lock and a timber and steel cofferdam in temporary navigation recess in Monolith No. 27 at the east end of the ship lock at Bonneville.

- The work involves:
- (1) 2,400 c.y. Class B concrete.
  - (2) 17,000 lbs. reinforcing steel.
  - (3) 14 MFBM lumber, in place.
  - (4) 1,500 lbs. anchor bolts and embedded parts, placing only.
  - (5) 2,500 lbs. anchor bolts, furnishing and placing;
  - (6) 250 lf. drilling 1½- and 1¼-in. anchor bolt holes;
  - (7) 120 lf. drilling 3-in. anchor bolt holes;
  - (8) 880 lf. copper water stops.
  - (9) 45,500 lbs. stru. steel in place;
  - (10) 1,200 lf. 4-inch fiber conduit, placing only.
  - (11) jump saws, remove timber miter gates, oils and operating equipment.
- Plans and specifications obtainable from the above office.

**NOTE** The date for receiving bids was previously set for January 12, but postponed pending wage rate predetermination.

**EXPENDITURES RECOMMENDED**

**BONNEVILLE DAM, Oregon.**—Major General E. H. Markham, chief of engineers, reports that \$6,974,000 can be profitably spent on the Bonneville Project during the fiscal year 1937-1938.

Expenditures up to June 30, 1936, equalized \$26,120,357, including \$2,167,052 in regular rivers and harbors funds and \$23,953,305 in emergency funds.

Unexpended balances at the end of the last fiscal year totaled \$16,335,154, or \$4,492,874 in emergency funds and \$7,822,280 in regular funds. From the unexpended regular funds, \$2,700,000 is being applied to powerhouse facilities, including substructure and superstructure, integral fishways, two 60,000-hp. turbines, two 43,000-kw. generators and other equipment.

The report showed the fishways construction contract called for \$1,271,000 and continuance of work on the dam and reservoir \$2,894,000, with the remainder going to navigation facilities, channel improvement and railroad relocation.

From the unexpended emergency fund balance, \$7,510,374 was applied to new work on dam and reservoir and spillway dam, and on the intermediate going to accounts payable. The report also showed the fishways construction contract called for \$1,271,000 and continuance of work on the dam and reservoir \$2,894,000, with the remainder going to navigation facilities, channel improvement and railroad relocation.

**LOW BIDDER**

**SEATTLE, Wash.**—Morrison-Knudsen Co., Inc., P. O. Box 1518, Boise, Idaho, at \$573,000 on Proposition 2, submitted low bid to the Seattle Board of Public Works for clearing of Ruby Basin.

Complete bids will be published shortly.

**COMPLETE BID LISTING**

**SEATTLE, Wash.**—Morrison-Knudsen Co., Inc., P. O. Box 1518, Boise, at \$573,000, as previously reported, submitted low bid to the Seattle Board of Public Works under Proposal No. 2, complete schedule 6, for clearing the Ruby Basin.

Bids were taken as follows:  
Proposal No. 1, comprising Schedules Nos. 1 to 5, inclusive.  
Proposal No. 2, complete Schedule No. 6.

The work will involve clearing of about 2,100 acres of land, divided into five sections varying from 140 to 500 acres.

Complete bids follow:

**Proposal 2.**  
**Morrison-Knudsen Co., Inc., Boise** \$286,500 per acre; total, \$573,000.  
**Rumsey & Co. and Halleran Bros., Seattle**—\$389 per acre; total, \$778,000.

**R. E. Moore, Seattle**—\$395 per acre; total, \$790,000.

**Schedule 5, clearing that portion of Ruby Basin on right side of Skagit River—Only bidder, Butorac & Samarzich, Seattle,** \$274 per acre: total, \$80,530.

No bids were received on Schedules 1, 2, 3 and 4.

**PROJECT APPROVED**

**TUCSON, Ariz.**—The \$750,000 Sabino Canyon Dam has been approved by the United States Army Engineers, according to an announcement by Washington. According to the report, the upper site has been selected.

**31—PIPE LINES & WELLS****PLANNED**

**ESTERO BAY, San Luis Obispo Co., Calif.**—Application has been made by the Standard Oil Company of California for a modification of

plans accompanying War Department permit dated September 13, 1935, to install an 8-inch submarine pipe line extending from the sea end of an existing 16-inch line about 1830 feet, to the Standard Oil Company wharf, in Estero Bay, California. Under the modification it is proposed to install two 8-inch submarine loading lines and one 3-inch submarine water line alongside the present 8-inch loading line to supplement existing loading facilities.

Drawing showing the location and plan of the proposed work was seen at the U. S. Engineer Office, 751 S. Figueroa St., Los Angeles, Major Theodore Wyman, Jr., District Engineer, until January 18, 11 a.m. Interested persons are invited to inspect this drawing and to submit in writing, in triplicate, on or before said date, any objections based on navigation interests that they may have to said work.

Objections based on other than navigation interests cannot be considered.

**BIDS WANTED**

**LOS ANGELES COUNTY, Calif.**—Until February 11, 10 A. M., bids will be received by the Metropolitan Water District, 306 West Third St., Los Angeles, for constructing cast-in-place concrete pipe lines and appurtenant works for the Upper Feeder of the Colorado River Aqueduct distribution system, Spec. No. 159. Copies of the specifications will not be ready until Wednesday, Jan. 20, at which time they will be available at the office of the engineer, Room 1007, 306 West Third St., Los Angeles. The cost will be \$5 per set, not returnable. The work is located in Los Angeles County and comprises the construction of approximately 1210 lf. of 9 ft. 8 in. diameter and 54 lf. of 6 in. dia. pipe line and appurtenant structures. The work is divided into schedules as follows:

Schedule 8C—Across San Gabriel Canyon just below Morris Dam, 578 ft., 9 ft. 8 in. inside diameter.

Sch. 9C—Across Monrovia Canyon in Monrovia, 632 ft., 9 ft. 8 in. inside diameter.

Sch. 12C—Across Eagle Rock Canyon north of Eagle Rock, 554 ft., 7 ft. inside diameter.

Certified or cashier's check for 10 per cent of the bid must accompany each proposal. F. E. Weymouth, general manager and chief engineer.

**32—SEWERS & SEWAGE DISPOSAL PLANTS****CONTRACT AWARDED**

**NEWPORT BEACH, Orange Co., Calif.**—Drainage Const. Co., 3696 Cedar St., Lynwood, at \$327,743 awarded contract by the Newport Beach city council for constructing a vitrified clay pipe sewerage system, sewage pumping plant and a disposal plant. R. L. Patterson, city engineer, prepared the plans. The plant is designed to serve a population of about 25,000, and consists of two concrete circular Imhoff tanks and a separate sludge digestion tank. The work is being financed partly by bond issue and partly by PWA.

**33—WATER WORKS****BIDS WANTED**

**SOUTH GATE, Los Angeles Co., Calif.**—Until January 29, 7:30 p.m., bids will be received by the South Gate city council for the installation and construction of cast-iron water pipe mains, house laterals, fittings and appurtenances for supplying or distributing a domestic water sup-

ply, and the installation and construction of hydrants, fittings and appliances for fire protection on Southern Avenue, under the 1911 Act Certified check or bid bond, 10%, must accompany bid. H. C. Peiffer, city clerk.

GOVERNMENT ISLAND.—Until January 26, 2 p.m., bids will be received by Frank Haynie, Supply Officer, Forest Service Supply Depot, Government Island, Oakland, under Bid No. 4215, for furnishing clearance lamps, highway signs, and reflectors.

Delivery f.o.b. bidder's shipping point and/or Government Island. Specifications obtainable from the above office.

GOVERNMENT ISLAND.—Until January 26, 2 p.m., bids will be received by I. M. Stevens, Acting Supply Officer, Forest Service Supply Depot, Government Island, Oakland, under Bid No. 4232, for furnishing 2,000 kettle chains.

Delivery f.o.b. bidder's shipping point and/or Government Island. Specifications obtainable from the above office.

GOVERNMENT ISLAND.—Bids will be received by Frank Haynie, Supply Officer, Forest Service Supply Depot, Government Island, Oakland, as follows:

January 25, 2 P. M.

BID NO. 4234—500 rolls friction tape, 3/4-in. width; f.o.b. bidder's shipping point and/or Government Island.

January 26, 2 P. M.

BID NO. 4243—150 ml. latex emergency wire, single conductor, and 60 ml. do., two-conductor; f.o.b. bidder's shipping point and/or various destinations.

January 27, 2 P. M.

BID NO. 4246—100 abney levels, with cases; f.o.b. Government Island.

January 29, 2 P. M.

BID NO. 4245—500 water bags, 5 gal., man-pack; f.o.b. bidder's shipping point and/or Spokane. Specifications obtainable from the above office.

## MET. WATER DISTRICT

LOS ANGELES, Cal.—Until Feb. 1, 2 P. M. new bids will be received by the Metropolitan Water District 206 West Third St. Los Angeles for furnishing an electric mine hoist for use at the Cabazon Shaft of the San Jacinto tunnel in accordance with Spec. No. 192 copies of which may be obtained at the office of the engineer, Room 1007 upon payment of \$2 per set, not returnable. Certified or cashier's check for \$1500 must accompany each proposal. F. E. Weymouth general manager and chief engineer.

Complete list of bids previously received published December 30.

LOS ANGELES, Cal.—Until Feb. 11, 2 P. M., bids will be received by the Metropolitan Water District, 206 W 3rd St., Los Angeles, for furnishing four 24-in butterfly valves, type 100, complete and ready for installation and use; Spec. No. 191. Certified or cashier's check must accompany bid.

LOS ANGELES, Cal.—Until Feb. 16, 10 A. M., bids will be received by the Metropolitan Water District, 206 W 3rd St., Los Angeles, for furnishing five 9x9-ft hydraulically-operated cast iron head gates with frames, guides and other appurtenances for installation at the upper ends of the steel delivery pipe lines from the Colorado River Aqueduct pumping plants; Spec. No. 188. Cop-

les of the specifications may be obtained at Room 1007, 306 West 4th St., Los Angeles, upon payment of \$2 per set, net returnable. Certified or cashier's check for \$20,000 must accompany each proposal. F. E. Weymouth, general manager and chief engineer.

**CANAL ZONE**

**PANAMA CANAL ZONE.**—Until January 27, 10:30 a. m., bids will be received by H. A. A. Smith, General Purchasing Officer, The Panama Canal, Washington, D. C., under Schedule No. 3218, for furnishing metal show windows, spiral stairway, mash-operating devices, steel rolling doors, sliding-door hangers and track, and vault door.

Specifications obtainable from the above office and from the Assistant Purchasing Agent, The Panama Canal, Fort Mason, San Francisco.

**OAKLAND SCHOOLS**

**OAKLAND, Cal.**—Until February 2, 4 P. M., bids will be received by the Oakland Board of Education. (John W. Edgemond, Secretary) the Oakland School District and the Oakland High School District, Rm 104, Administration Bldg., Oakland for machinery and tools, including air compressor, metal working machinery and tools, woodworking machinery, electric motors and power sewing machines under Schedule No. 45.

Specifications on file in the office of the Director of Purchasing, Rm. 115, Administration Bldg., Oakland.

**WAR DEPARTMENT**

**FORT MASON.**—Until February 3, for a. m., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. 928-37-255, for furnishing 400 yards of cotton duck.

Specifications obtainable from the above office.

**FORT MASON.**—Until January 27, 10 a. m., bids will be received by the Constructing Quartermaster, Fort Mason, under Bid No. W 6616-37-56, for the rental of one tandem gasoline road roller, 5 or 8 tons capacity, for approximately eight working days.

Delivery f.o.b. Letterman General Hospital.

Specifications obtainable from the above office.

**SAN FRANCISCO.**—Until January 29, 3 p. m., bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, under Bid No. 868-37-145, for furnishing 2,200 ft. wire rope, high-grade plow steel, uncoated.

Delivery f.o.b. Pier 3 1/2, San Francisco Waterfront.

Specifications obtainable from the above office.

**SACRAMENTO.**—Until January 26, 3 p. m., bids will be received by the U. S. Engineer Office, Lieut.-Col. L. B. Chambers, District Engineer, 203 Post Office Bldg., Sacramento, under Bid No. 1105-37-158, for furnishing 18 grinding wheels, 39 lengths round iron, 6 lengths flat iron, 1,000 carriage bolts, 24 slim taper files, 2 sets hand taps, 600 lbs. marine oak-um, 6 sticks belt dressing, and 100 lbs. cast-iron electric welding rods.

Delivery f.o.b. Rio Vista.

Specifications obtainable from the above office.

**SAN FRANCISCO.**—Until Jan. 25, 3 P. M., bids will be received by the

U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, under Bid No. 868-37-144, for furnishing steel doors as follows:

- (1) one 3x7-ft. for plotting switch-board room;
- (2) one 3x7-ft. for plotting switch-board room, opposite hand;
- (3) one 3-ft. 6-in. x 6-ft. 6-in. for pump house.

Delivery fob Fort Funston.

Specifications obtainable from the above office.

**FORT MASON, Cal.**—Until Feb. 8, 10 A. M., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. 928-37-252, for furnishing two laundry presses, one air compressor, and two truck tubs.

Specifications obtainable from the above office.

**LOS ANGELES.**—Until January 29, 3 p. m., bids will be received by the U. S. Engineer, 731 S. Figueroa St., Los Angeles, for furnishing 34,666.67 sq. ft. expanded metal mesh weighing 2.74 lbs. per sq. ft. f.o.b. railroad cars, contractor's plant. The items are:

- (1) 9,100.00 sq. ft. expanded metal mesh, 5 ft., 5-in. x 12 ft. sheets (140 sheets);
- (2) 25,566.67 sq. ft. expanded metal mesh, 5 ft., 5-in. x 8 ft. sheets (590 sheets).

Bid bond 10% must accompany bid.

Circ. Prop. No. 251.

**FORT MASON.**—Until February 2, 10 a. m., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. 928-37-251, for furnishing miscellaneous equipment and supplies, including pumps, hoists, air compressors, wrenches, hammers, hydraulic presses, etc., for delivery to various District Quartermasters, CCC.

Specifications obtainable from the above office.

**SAN FRANCISCO.**—Until January 28, 3 p. m., bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-37-144, for furnishing one 42-ft. length and twelve 60-ft. lengths 24-in. diam. steel pooton pipe.

Delivery f.o.b. Government barge, San Francisco or Oakland Waterfront.

Specifications obtainable from the above office.

**NAVY DEPARTMENT**

**PEARL HARBOR, T. H.**—Until February 17, 11 a. m., bids will be received by the Bureau of Yards & Docks, Navy Department, Washington, D. C., under Spec. ## First Central Valley Construction Contract Advertised; Bids March 1

SACRAMENTO, Jan. 25.—Bids on the first major contract of the Central Valley project will be opened here March 1, it was revealed today, following announcement in Washington by Acting Reclamation Commissioner John C. Page that a scale of prevailing wages to be paid on the Contra Costa conduit section has been determined by the Department of Labor.

First of the construction jobs will be a four-mile section of the conduit. The complete canal will be approximately 40 miles long and will cost about \$2,200,000.

Page announced Saturday after a conference with W. R. Young, construction engineer for the project, and Edward Hyatt, state engineer, that the Denver office of the Reclamation Bureau had been instructed to proceed with the call for bids as soon as possible. Today officials of the bureau in Sacramento revealed that March 1 has been set for the bid opening date, and that proposals will be received at the Sacramento office.

### Open Canal

Plans and specifications have not been received here yet, however, and consequently will not be available to contractors for several days.

The section advertised will be an open canal and will commence near Knightsen at the west end of Rock Slough and will extend westerly along the south side of Suisun Bay. Resident engineer on the job will be Oscar G. Boden of Antioch.

Details of the prevailing wage scale approved by the Department of Labor were not available today. In his announcement Page said wages will range from sixty cents an hour for common labor to \$1.50 an hour for highly skilled trades, according to press advices.

According to Page's announcement only \$11,400,000 is available for initial work on the project. A third slash in the original allotment of \$20,000,000 has reduced the amount of emergency funds available to \$4,500,000, while there is \$6,900,000 additional funds appropriated for the project by the last congress.

In a prepared press statement, Page said:

"The preliminary engineering work on all divisions of the project is about complete. The only remaining engineering problem of importance is final selection of a

dam site for the storage dam in northern Sacramento Valley. Extensive examination of several sites, including the Kennett, Table Mount and Baird sites, the latter on the Pit River and the others on the Sacramento River, are virtually complete. The bureau expects to be in a position very shortly to make a final determination of the most practical and economic site, thus completing all preliminary engineering work.

"Settlement of water right problems and acquisition of rights-of-way have occupied both the Bureau of Reclamation and the California State water authority, which is conducting negotiations in these matters for the bureau.

"Progress is being made in this regard, and I am hopeful that soon other work can be advertised."

## ARCO ANNOUNCES 6-TUBE RADIATOR

Completing its line of small tube, free standing radiators, American Radiator Company announces a new six tube, cast iron radiator, especially adaptable to modernization work, where the use of concealed convectors might mean major structural changes, and for new work when the cost will not permit completely concealed radiators and yet space and decorative requirements demand that the radiators be inconspicuous.

Available in three heights, 19-25- and 32-inches, the new radiator is 7 1/2 inches in width, with 1 1/2 inch centers. Tappings are 1 1/4 inches at the top and 1 1/2 inches at the bottom, and connection for both steam and water are 1 1/4 inch malleable nipples at top and bottom.

## BIDS INVITED ON BUILDINGS AT HOSPITAL

Stockton Group Advertised;  
Oakland Bidder Low On  
Yountville Nurses' Home

SACRAMENTO, Jan. 26.—A contract for construction of a group of buildings at Stockton State hospital was advertised today and bids were received for erection of the nurses' home at the Yountville Veterans' home by the State Division of Architecture.

Bids for the Stockton buildings will be opened February 24 at 2 P. M., in Sacramento, State Architect George B. McDougall announced. Segregated bids will be taken for general, electrical, heating and ventilating, and plumbing work.

The group will include seven buildings or units covered by a covered cloister. They will be of reinforced concrete construction, and will have steel sash and tile roofs. The group will house male patients at the institution.

### Yountville Bids

Low bidder for the Yountville nurses' home was Villadsen Bros., 2059 Webster street, Oakland with a proposal of \$65,000. Total bids on the general contract were as follows:

Villadsen Brothers	\$65,000
B. A. Howkins, San Francisco	68,888
Geo. J. Maurer, Piedmont	70,294
Empire Const. Co., S. F.	71,400
F. C. Amoroso & Sons, S. F.	72,340
DeLuca & Son, Inc., S. F.	75,772

For plumbing, J. J. McDermott, Sacramento, submitted a low bid of \$744. McDermott also was low bidder for heating, with a proposal of \$5,036. For electrical work, Allen Richards Ochs, Fresno submitted a low bid of \$2,300.

Designed by the Division of Architecture, the home will be a 2-story reinforced concrete structure containing 30 rooms. There also will be a 1-story wood frame duplex residence with a cement plaster exterior finish.

Shipments of distillate oil burners during October, 1936, totalled 95,074 units, as against 81,456 for the same month in 1935, the Bureau of Census reports.

## 21— BRIDGES

### BIDS OPENED

**KERN CO., Calif.**—Following bids received by F. F. Moran, Assistant Procurement Officer, Forest Service, Phelan Bldg., San Francisco, under Bid No. 983, for furnishing 89,358 ft. b.m. structural Douglas fir lumber for the main span, and 18,608 ft. b.m. for the approach span of the Kern River Bridge:

James L. Hall—\$3,346.95, f.o.b. Portland and Eugene; weight, 289,654 lbs.; discount, 2% 20 days, 1% 30 days.

E. K. Wood Lumber Co.—\$2,770, f.o.b. Cottage Grove; weight, 313,295 lbs.; discount, 2% 10 days, 1% 20 days.

Loop Lumber Co.—\$2,784.21, f.o.b. Toledo; weight, 299,000 lbs.; discount, 2% 30 days.

### CONTRACT AWARDED

**CONTRA COSTA CO., Calif.**—Bundesen & Lauritzen, P.O. Box 395, Pittsburg, at \$6,285.43, awarded contract by the Contra Costa County Board of Supervisors for the construction of a bridge on Livorna Avenue, Alamo.

### BIDS WANTED

**YUMA COUNTY, ARIZ.**—Until Feb. 4, 2 P. M., bids will be received by the Arizona State Highway Commission, Phoenix, for construction of the Phoenix-Yuma Highway (F. A. 55, 3rd Reop.) (1937) Sched. 2, AFE 8012.

The principal items and approximate quantities are:

- 2,630 c.y. rdwy. excav.;
  - 10,200 c.y. drainage excav.;
  - 31,700 sta. yds. overall;
  - 880 c.y. m. haul;
  - 5,650 c.y. imported borrow;
  - 2,720 c.y. select material;
  - 425 mln. gal. sprinkling;
  - 170 hours rolling;
  - 280 c.y. struc. excav.;
  - 388 c.y. Class A concrete.
- 39,000 lb. reinforcing steel:
- 845 tons cutback mix;
  - 55 tons cutback asphalt;
  - 139 tons screenings;
  - 536 tons salvaging and relaying oil cake;
  - 100 tons salvaging and stockpiling oil cake.

Specifications obtainable from the above office. T. S. O'Connell, State Highway Engineer.

### BIDS WANTED

**LOS ANGELES COUNTY, Calif.**—Until February 18, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for the construction of a reinforced concrete girder bridge across the south branch of Big Tujunga Wash, consisting of three 55-

ft. spans and two 18-ft. end cantilevers, and the widening and reconstruction of a reinforced concrete girder bridge across the north branch of Big Tujunga Wash, consisting of twelve spans, each approximately 54-ft. in length.

- The work involves
- (1) 1,740 lf. concrete railing to be removed;
  - (2) 1,300 c.y. existing concrete to be removed;
  - (3) 2,100 c.y. struc. excav.;
  - (4) 500 tons asphalt concrete;
  - (5) 635,000 lbs. bar reinf. steel;
  - (6) 200 each cinch anchors (type A) & 800 each do. (type B);
  - (7) 3,580 c.y. Class A Portland cement concrete (struc.);
  - (8) 78 c.y. Class A do. (railing);
  - (9) 42 MFBM timber (dettour);
  - (10) 16,600 lbs. cast steel (rockers and bearings);
  - (11) 1,000 c.y. riprap;
  - (12) 20 c.y. Class A Portland cement concrete (slope paving);
  - (13) 350 lf. bank protection fence;
  - (14) 1 lot lighting equipment;
  - (15) 1 lot misc. items of work.

Plans and specifications obtainable from the office of the State Highway Engineer, P. O. Box 1499, Sacramento, and on file at the office of the District Engineer in San Francisco and Los Angeles.

### BIDS WANTED

**RIVERSIDE COUNTY, Cal.**—Until February 8, 2 P. M., bids will be received by the State Division of Highways, E. Q. Sullivan, District Engineer, 247 Third St., San Bernardino, for the reconstruction of a bridge across Santa Ana River near Prado, Riverside County.

Plans and specifications obtainable from the above office.

## 22— DREDGING HARBOR WORKS, EXCAVATION

### BIDS WANTED

**LONG BEACH, Los Angeles Co., Calif.**—Until February 1, 10 a.m., bids will be received by the Long Beach City Council for the repair of Rainbow Pier Enrockment in accordance with Spec. No. R-947, copies of which may be obtained at the office of J. W. B. Blackman, City Engineer-Director of Public Service. The city intends to repair and improve the enrockment by depositing thereon broken cement concrete blocks now stored at the Sanitary Department dumping ground east of Newport Avenue, approximately 500 ft. north of Willow Street.

The estimated quantity of material to be loaded at the City Dump, trucked to Rainbow Pier and placed

or dumped on the Rainbow Pier Enrockment is 5000 tons.

Unit bids will be taken on:

- (1) Loading and hauling cement concrete blocks and dumping from trucks;
- (2) Loading and hauling cement concrete blocks and placing by crane or derrick.

Certified check or bank draft for 10% must accompany each proposal. R. M. Dorton, City Manager.

### TO PREPARE PLANS

**ALAMEDA, Alameda Co., Calif.**—The Chief of the Bureau of Yards & Docks, Navy Department, Washington, D. C., has authorized the Commandant, Twelfth Naval District, to prepare plans and specifications for making exploratory borings in order to furnish information as to the best locations for dredging material to be used as filling in constructing the land areas of the Naval Air Station, Alameda. This work will be under the Bureau of Yards & Docks' Specification No. 8409.

The work of making these borings will not be advertised until such time as it may become evident that the funds for actual construction of the Station will be appropriated by Congress during the present session. No funds have been appropriated as yet.

## 23— CANALS

### PLAN APPROVED

**LONG BEACH, Los Angeles Co., Calif.**—The county counsel has approved a proposal of the city of Long Beach to use steel sheet piling in lieu of concrete sheet piling for the Naples Canal job in Long Beach. Plans made at the time of the \$100,000 county appropriation contemplated the use of the latter material. The work is being done under the direction of J. W. B. Blackman, City Engineer-Director of Public Service, Long Beach.

### BIDS WANTED

**CONTRA COSTA CO., Calif.**—Until March 1, bids will be received by the Bureau of Reclamation, Walker R. Young, Construction Engineer, 206 Old Post Office Bldg., Sacramento, for the construction of a four-mile section of the Contra Costa Conduit of the Central Valley Water Project. The complete canal will be about 40 miles in length and is estimated to cost \$3,200,000, and will have a capacity of 275 second-feet.

The section now advertised for bids will be an open canal and will commence near Knightsen at the west end of Rock Slough and extend westerly along the south side of Suisun Bay.

Plans and specifications have not been received by the Sacramento office as yet, but are expected within a few days.

A complete description of the work will be published shortly.

Oscar G. Boden, Antioch, resident engineer.

## 24— STREET LIGHTING

### BIDS WANTED

**SAN FRANCISCO.**—Until February 5, 3 p.m., bids will be received by the Public Utilities Commission, Room 287, City Hall, under Electric Power Bureau Contract No. 23, for the construction of a street lighting system on 25th Avenue between Fulton and El Camino Del Mar.

The work will involve:

Capital City  
Title Company

JAMES E. BANCROFT

Manager

14 Seventh Street  
Sacramento • California

- (1) 6 trolley pole brackets with lummings and auto transformers;
  - (2) 47 electroliers, complete with auto transformers;
  - (3) 14,500 lf. primary cable.
- Plans and specifications obtainable at Room 605, 425 Mason St., upon deposit of \$10.

**BIDS OPENED**

**SAN FRANCISCO**—Abbott Electric Co., 126 Sears St., San Francisco, at \$3,152, submitted low bid to the Public Utilities Commission, City Hall, under Electric Power Bureau Contract No. 22, for constructing a street lighting system on San Jose Ave., from Sickles Ave. to the County Line.

Complete bids follow:

Abbott Electric Co.	\$3,152
H. C. Field & Co.	\$1,183
Electric Power Bureau	\$3,225
H. S. Tittle Co., Inc.	\$4,220
Spencer Electric Co.	\$3,820

All bidders of San Francisco.

**CONTRACT AWARDED**

**SAN FRANCISCO**—Abbott Electric Co., 126 Sears St., San Francisco, at \$3,152, awarded contract by the Public Utilities Commission, City Hall, under Electric Power Bureau Contract No. 22, for constructing a street lighting system on San Jose Ave., from Sickles Ave. to the County Line.

**CONTRACT AWARDED**

Shell Oil Co.—(1) \$5.50; (2) \$12.50; (3) \$10; (4) \$13.80; total, \$6,547; Items 1, 2 and 3 f.o.b. Bakersfield; Item 4 f.o.b. Los Angeles; delivery in 30 days.

Standard Oil Co. of California—(1) \$5.50; (2) \$12.50; (3) \$10; (4) no bid; total, \$4,615; f.o.b. Bakersfield.

Tidewater Associated Oil Co.—(1) \$5.50; (2) \$12.50; (3) \$10; (4) no bid; f.o.b. Bakersfield; delivery in 30 days.

Union Oil Co.—(1) \$5.50; (2) \$12.50; (3) \$10; (4) \$13.80 total, \$6,547 f.o.b. Malaga; Items 1, 2 and 3 Item 4 f.o.b. Wilmington; delivery in 90 days.

### BIDS OPENED

SALT RIVER PROJ., Ariz.—Following bids received by the Bureau of Reclamation, Denver, under Spec. No. 865-D, for furnishing two 72-in. diameter welded plate-steel outlet pipes for installation in the Bartlett Dam, Salt River Project:

Consolidated Steel Corp., Los Angeles: \$9,732; fob Los Angeles; net.

Chicago Bridge & Iron Co., Chicago: \$7,350; fob Birmingham; net.

Lacy Mfg. Co., Los Angeles: \$8,700; fob Los Angeles; net.

Berkeley Steel Const. Co., Inc., Berkeley: \$10,092; fob Berkeley; 1/2 % discount.

Koppers Co. (Western Gas Division), Fort Wayne, Ind.: \$11,235; fob destination; net.

Southwest Welding & Mfg. Co., Inc., Alhambra: \$8,362; fob Alhambra; discount 1/2 %.

John W. Beaman, Denver: \$7,725; fob Chicago; discount 1/2 %.

Alco Products, Inc., New York: \$7,300; fob Dunkirk; net.

Emaco Derrick & Equipment Co., Los Angeles: \$9,560; fob Los Angeles; net.

### BIDS WANTED

SEBASTOPOL, Sonoma Co., Cal.—Until February 15, 5 p.m., bids will be received by the Sebastopol City Council, F. G. McFarlane, City Clerk, for the improvement of State Highway Route 104, Section D (Healdsburg Avenue).

The work involves:

- (1) 50 1-ft. 30-in. CMP;
- (2) 51 1-ft. 18-in. CMP;
- (3) 40 1-ft. part-circle culvert;
- (4) 80 1-ft. part-circle culvert;
- (5) 6 cu. yd. Class A concrete;
- (6) 120 cu. ft. steel grilles for catch basins;
- (7) 400 1-ft. 24-in. concrete pipe, plain;
- (8) 40 1-ft. 24-in. concrete pipe, reinforced;
- (9) 70 cu. yd. Class A concrete (curbs and gutters);
- (10) 150 cu. yd. excavation (headwalls, catchbasins, curbs and gutters).

Plans and specifications obtainable from the above office upon deposit of \$5.00.

Plans prepared by City Engineer Walter F. Adams, 1303 College Ave., Santa Rosa.

**BIDS WANTED**

**TORRANCE, Los Angeles Co., Cal.**—Until February 9, 8 p.m., bids will be received by A. H. Bartlett, City Clerk, Torrance, for the improvement of Narbonne Ave. from the southerly line of Sepulveda Blvd. to the southerly line of 240th St., about 1 mile in length. The work involves:

**UNIT "A"**

- (1) Lump sum, grading (necessary grading to place a strip of 6-in. asphaltic concrete pavement 7 ft. wide along westerly side of present paved road, about 3510 sq. yds. finished grading);
- (2) 4500 ft., 2x6-in. R.O.P. headers;
- (3) 31,591 sq. ft. (1185 tons) 6-in. asphaltic concrete pavement;
- (4) 113,249 sq. ft. (850 tons) asphaltic concrete resurfacing 1 1/2 in. thick;
- (5) 60 cu. y. excav. for curb;
- (5b) 4780 lf. 15-in. standard concrete curb.

**UNIT "B"**

- (1a) 440 cu. y. excav. for sidewalk;
- (1b) 14,900 sq. ft. sidewalk;
- (1c) Remove culvert head walls at 237th St. and 240th St. and construct new head wall at 237th St.
- (1d) 55 ln. ft. 16-gauge 24-in. corrugated iron culvert pipe, in place. Cash, certified or cashier's check or bid bond 10% must accompany bid. Specifications are available from the office of the City Engineer upon deposit of \$5. returnable.

**CONTRACT AWARDED**

**SAN FRANCISCO**—Fay Improvement Co., 700 Market St., at \$3.69 per ton awarded contract by T. A. Brooks, Purchaser of Supplies, City Hall, under Bid No. 1726, for furnishing, delivering, hauling, spreading and rolling approximately 2,100 tons of asphaltic concrete binder course and wearing surface on the roadway through Golden Gate Park

**BIDS OPENED**

**SACRAMENTO Co., Calif.**—A. Telchert & Son, Inc., P.O. Box 1113, Sacramento, at \$3.43 per ton, total \$7,546, submitted low bid to the Sacramento County Board of Supervisors, T. F. Patterson, County Clerk, Court House, Sacramento, for furnishing 2,200 tons of asphaltic plant mix, f.o.b. county trucks at Walnut Grove, for use on the Walnut Grove-Locke road.

The work will be done by county forces.

Complete bids follow:  
A. Telchert & Son, Inc., Sacramento—\$3.43 per ton; total, \$7,546.

Blake Bros., San Francisco—\$3.502 per ton; total, \$7,704.40.

Basalt Rock Co., Inc., Napa—\$3.605 per ton; total, \$7,931.

E. A. Fairbairn, County Engineer.

**CONTRACT AWARDED**

**SAN FRANCISCO**—Devincenzi Bros. & Co., 150 Collins St., at \$3.231 awarded contract by the Department of Public Works, City Hall, under Spec. No. 19,008, for the improvement of Mendell St. between Innes and Jerrold Avenues.

**30—RESERVOIRS & DAMS**

**BIDS OPENED**

**BONNEVILLE, Oregon**—Parker-Schram Co., Couch Bldg., Portland, at \$34,432 submitted low bid to the U. S. Engineer Office, Second Portland District, 627 Pittcock Block, Portland, Lieut.-Col. C. F. Williams, District Engineer, under Bid No. 694-37-72 for constructing concrete filler block and a timber and steel cofferdam in temporary navigation recess in Monolith No. 27 at the east end of the ship dock at Bonneville.

The work involves:  
(1) 2,400 cu. y. Class B concrete;

- (2) 17,000 lbs. reinforcing steel;
- (3) 14 MFBM lumber, in place;
- (4) 1,500 lbs. anchor bolts and embedded parts, placing only;
- (5) 2,500 lbs. anchor bolts, furnishing and placing;
- (6) 250 lf. drilling 1 1/2- and 1 3/4-in. anchor bolt holes;
- (7) 120 lf. drilling 3-in. anchor bolt holes;
- (8) 850 lf. copper water stops;
- (9) 48,500 lbs. struc. steel in place;
- (10) 1,200 lf. 4-in. fiber conduit, placing only;
- (11) Lump sum, remove timber miter gates, sills and operating equip.

General-Shea Co., Portland, at \$40,473 submitted the only other bid.

**TO ASK BIDS**

**BAYFIELD, Colo.**—The U. S. Bureau of Reclamation, Denver, will call for bids early this spring for the construction of the Pine River Dam. The proposed structure will be of earth and rock fill, 4000 ft. in length, 130 ft. high and 35 ft. wide at the top, with concrete curb and parapet walls. The dam will have riprap upstream facing 3-in. thick on a 3:1 slope. The downstream slope will vary from 2:1 to 10:1 slope. Outlet tunnel will contain two 88-in. D. steel pipes. The reservoir formed by the project will contain 129,000 acre feet.

**SAN MATEO CO.—Pugas Outfall Improvements—(City)**

**SAN MATEO CO., Cal.**—W. O. Tyson, Box 888, Redwood City, at \$6,742 submitted low bid to the Public Utilities Commission, City Hall, San Francisco, under S.F.W.D. Spec. No. 156, for the construction of improvements at the Pugas Outfall, the westerly terminus of Hetch Hetchy Aqueduct, about five miles west of Redwood City in San Mateo County.

The work consists of excavation and grading; paving roadways and footwalks; construction of a reinforced concrete pool, approximately 40 ft. wide and 120 ft. long; construction of a reinforced concrete pump building, approximately 10 ft. by 10 ft. in plan; construction of a reinforced concrete weir with appurtenant works; installation of an automatic pumping unit and pressure system, and installation of piping for a water system.

The work involves:

- (1) 2,500 cu. y. grading for landscaping, parking area and roads;
- (2) 125 cu. y. excavation and backfill for structures and small pipe trenches;
- (3) 110 cu. y. concrete work;
- (4) 11,000 lbs. furnishing and placing reinforcing bars;
- (5) 60,000 sq. ft. paving parking area and roads;
- (6) 3,000 sq. ft. surf. foot-walks;
- (7) Lump sum, installing wet plate and miscellaneous fittings;

**BIDS REJECTED**

**SEATTLE, Wash.**—The Seattle Board of Public Works has rejected all bids received for clearing the Ruby Basin and a new call for bids will be issued under revised specifications, which will anticipate construction of a dam 625 feet high instead of the 300-ft. dam originally planned. The 625-ft. dam will impound 3,600,000 acre feet of water and provide for a new power plant of 480,000-h.p. capacity at the dam site. J. City Lighting Superintendent J. D. Ross announces that a \$15,000,000 high dam must be built at Ruby Creek to keep abreast of demands for power. Plans for the \$4,600,000 low dam were abandoned January 25.

Morrison-Knudsen Co., Inc., Boise, at \$286.50 per acre, total, \$573,000, submitted the low bid for clearing the site under the original specifications.

**31—PIPE LINES & WELLS**

**BIDS WANTED**

**LOS ANGELES COUNTY, Cal.**—Until February 11, 10 A. M., as previously reported, bids will be received by the Metropolitan Water District, 306 West Third Street, Los Angeles, under Spec. No. 159, for constructing cast-in-place concrete

- (8) Lump sum, furnishing and installing pumping unit and water pressure system;
- (9) 1,000 lf. furnishing and installing 1 1/2-in. standard galvanized wrought steel pipe;
- (10) 350 lf. furnishing and installing 2-in. do;
- (11) 100 lf. furnishing and installing 2 1/2-in. do;
- (12) 50 lf. furnishing and installing 3-inch do;
- (13) 250 lbs. furnishing and installing stand. galv. malleable iron pipe fittings;
- (14) One 3-in. gate valves, furnishing and installing;
- (15) 6 each, furnishing and installing 2-in. gate valves and check valves;
- (16) 12 each, furnishing and installing 1-in. garden hose valves;
- (17) Lump sum, constructing reinforced concrete pump building.

Total bids follow:

- (A) W. O. Tyson, Redwood City, \$6,742.00.
- (B) M. J. Lynch, San Francisco, \$10,744.00.
- (C) A. G. Raich, San Francisco, \$12,351.00.
- (D) Fred J. Early, Jr., San Francisco \$12,991.15.
- (E) E. G. Clifford, San Francisco, \$13,036.10.

pipe lines and appurtenant works for the Upper Feeder of the Colorado River Aqueduct distribution system.

The work is located in Los Angeles County and comprises the construction of approximately 1210 lf. of 9-ft. 8-in. dia. and 554 lf. of 7-ft. diameter pipe line and appurtenant structures, and has been divided into schedules as follows:

Schedule 8C—Across San Gabriel Canyon just below Morris Dam, 578 ft. 9 ft. 8 in. inside diameter.

Sch. 9C—Across Monrovia Canyon in Monrovia, 632 ft. 9 ft. 8 in. inside diameter.

Sch. 12C — Across Eagle Rock Canyon north of Eagle Rock, 554 ft. 7 ft. inside diameter.

The work involves:

#### SCHEDULE 8C

Construction of the San Gabriel Canyon crossing of the upper feeder of the Colorado River Aqueduct distribution system between Stations 2358 plus 46 and 2363 plus 65. Inside diameter 9 ft. 8 in., length of schedule, 521 feet.

- (1) 22,000 c.y. excavation;
- (2) 9000 c.y. backfill;
- (3) 1200 c.y. concrete in structures, reinforced;
- (4) 20 c.y. do, plain;
- (5) 750 c.y. concrete in cast in place pipe;
- (6) 240,000 lbs. placing reinf. steel in structures;
- (7) 290,000 lbs. placing reinf. steel in cast in place pipe;
- (8) 30,000 lbs. installing slide gates and hoists;
- (9) 54,000 lbs. installing miscellaneous metal;
- (10) does not apply here;
- (11) 100 lf. installing concrete drain pipe;
- (12) 260 c.y. tunnel enlargement;
- (13) 15 MFBM furnishing and placing perm. timber in tunnel;
- (14) does not apply here;
- (15) 20 c.y. gunite coating of rock;
- (16) 400 lf. drilling grout holes;
- (17) 40 connections for grouting;
- (18) 30 c.y. mixing and placing grout
- (19) 1400 ton-miles hauling steel;
- (20) 2600 ton-miles hauling cement.

#### SCHEDULE 9C

Construction of the Monrovia Canyon crossing of the upper feeder of the Colorado River Aqueduct distribution system between Stations 284 plus 61 and 2690 plus 62. Inside diameter 9 ft. 8 in., length of schedule 601 ft.

- (1) 17,000 c.y. excavation;
- (2) 13,000 c.y. backfill;
- (3) 900 c.y. concrete in structures, reinforced;
- (4) 20 c.y. do, plain;
- (5) 770 c.y. concrete in cast in place pipe;
- (6) 590,000 lbs. placing reinf. steel in structures;
- (7) 310,000 lbs. placing reinf. steel in cast in place pipe;
- (8) does not apply here;
- (9) 30,000 lbs. installing miscellaneous metal;
- (10) 382 lf. installing welded steel spillway pipe.
- (11) 100 lf. installing concrete drain pipe;
- (12) and (13) do not apply here;
- (14) 2 c.y. gunite coating of rock;
- (15) 100 lf. drilling grout holes;
- (16) 10 connections for grouting;
- (17) 5 c.y. mixing and placing grout
- (18) 600 ton-miles hauling steel;
- (19) 1100 ton-miles hauling cement.

#### SCHEDULE 12C

Construction of the Eagle Rock Canyon crossing of the upper feeder of the Colorado River Aqueduct distribution system between Stations 319 plus 05 and 3324 plus 39. Inside diameter 7 ft., length of schedule, 534 feet.

- (1) 5000 c.y. excavation
- (2) 7000 c.y. backfill;
- (3) 500 c.y. concrete in structures,

reinforced;

- (4) 20 c.y. do, plain;
- (5) 330 c.y. concrete in cast in place pipe;
- (6) 75,000 lbs. placing reinf. steel in structures;
- (7) 85,000 lbs. placing reinf. steel in cast in place pipe;
- (8) 55,000 lbs. installing slide gates and hoists;
- (9) 22,000 lbs. installing miscellaneous metal;
- (10) does not apply here;
- (11) 100 lf. installing concrete drain pipe;
- (12) (13) and (14) do not apply here;
- (15) 5 c.y. gunite coating of rock;
- (16) 100 lf. drilling grout holes;
- (17) 10 connectors for grouting;
- (18) 5 c.y. mixing and placing grout
- (19) 400 ton-miles hauling steel;
- (20) 750 ton-miles hauling cement.

Plans and specifications obtainable from the office of F. E. Weymouth, general manager and chief engineer, Room 1007, 306 West Third St., Los Angeles, at a charge of \$5 per set, not returnable. 31

### 32—SEWERS & SEWAGE DISPOSAL PLANTS

#### ENGINEER RETAINED

SANTA ANA, Orange Co., Calif.—Clyde C. Kennedy, 548 Call Bldg., San Francisco, has been retained by the City of Santa Ana as a consultant, at \$75 per day and expenses, to study the proposed replacement plans for the joint outfall sewer in which about 20,000 ft. of pipe must be renewed. Controversy as to the type of material to be used was principally responsible for the employment of the outside engineer, who will act solely for Santa Ana. Emergency work on a cost plus 15% basis is being done on the line by Merritt-Chapman & Scott Corp., under the direction of J. L. McBride, City Engineer.

### 33—WATER WORKS

#### CONTRACT AWARDED

SAN MATEO CO., Calif.—W. O. Tyson, Box 885, Redwood City, at \$6,742, awarded contract by the Public Utilities Commission, City Hall, under S. P. W. D. Spec. No. 136, for the construction of improvements at the Pulguez Outfall, the westerly terminus of Hetch Hetchy Aqueduct, about five miles west of Redwood City, in San Mateo County.

#### BIDS WANTED

LA MESA, San Diego Co., Calif.—Until February 25, 10 A. M., bids will be received by the La Mesa, Lemon Grove and Spring Valley Irrigation District, 4769 Spring St., La Mesa, for the reconstruction of the El Monte Pumping plant, two miles east of Lakeside. Specifications are available from the Board of Directors of the District. Certified check or bid bond 10% must accompany the bid.

#### BIDS WANTED

SAN BERNARDINO.—Until February 2, 4 p.m., bids will be received by the San Bernardino Board of Water Commissioners, 498 D St., San Bernardino, for the sale, wrecking, and removal of the steam pumping equipment at the Antil Pumping Plant on East 6th St. San Bernardino. The equipment involved shall include all boilers, stacks, oil pumps, and the steam water pumps. Successful bidder shall maintain necessary compensation and liability insurance. Certified check or bond for 10% must accompany each proposal. J. H. Osborn, City Clerk; Bard Livingston, Water Superintendent.

#### BIDS WANTED

WHITE SALMON, Wash.—Until February 8, 1:30 p.m., bids will be received by the White Salmon Town Council, C. H. Estes, Town Clerk, for the construction of a water supply line and appurtenances.

The work will involve the furnishing and laying of approximately 41,000 ft. of 12-in. and 10-in. treated wood or steel pipe.

Plans and specifications obtainable from the above office upon deposit of \$10.

Plans prepared by Beasley & Stoehr, engineers, 431 Railway Exchange Bldg., Portland.

#### TO ASK BIDS SHORTLY

SACRAMENTO CO., Calif.—A call for bids will probably be issued this week by Major Arthur W. Parker, Contracting Quartermaster, Old E. O. Terminal Building, Sacramento, for the construction of a water supply system estimated to cost \$90,000, and a sewer system to cost approximately \$75,000, at the Army Air Corps Supply Depot, near North Sacramento.

#### BIDS WANTED

LOS ANGELES CO., Calif.—Until February 8, 2 P. M., bids will be received by the State Division of Highways, S. V. Corteyou, District Engineer, 805 State Bldg., Los Angeles, for drilling a water supply well at the Saugus Maintenance Station site.

The work involves:

- (1) Lump sum, drilling well to depth of 200 ft.;
- (2) Lump sum, developing and testing well;
- (3) Unit price per lf. to be added to or deducted from the sum total of Items 1 and 2 for all increase or decrease of 200 foot depth.

Plans and specifications obtainable from the above office.

### 34—PARKS AND PLAY-GROUNDS

#### NO BIDS RECEIVED

REDDING, Shasta Co., Calif.—No bids were received Jan. 19, by the Procurement Division, Public Bldgs. Branch, Washington, D. C., for seeding and planting the grounds of the U. S. Post Office at Redding. 34

### 35—TUNNELS

#### BIDS OPENED

ALAMEDA-CONTRA COSTA COS., Calif.—Fred K. DuPuy, 110 Sutter St., San Francisco, at \$434,666, submitted low bid to the Board of Directors of Joint Highway District No. 13, under Schedule "C," for the completion of air ducts, paving, etc., of the Broadway Low Level Tunnel, and including all work not included in Schedule "A."

Bids were taken as follows:

- (1) For completion of tunnel construction remaining to be completed after concrete arch ring tunnel lining is constructed and grouting is completed, including portions of electrical equipment;
  - (2) 459,000 lbs. reinforcing steel.
- Complete bids follow:  
Fred K. DuPuy, San Francisco—(1) \$402,536; (2) \$0.07 per lb.; total, \$434,666.

J. F. Knapp, Oakland—(1) \$444,144; (2) \$0.065; total, \$474,279.

Fred J. Early, Jr., San Francisco—(1) \$453,500; (2) \$0.075; total, \$486,848.

Bids forwarded to the State Engineer of the PWA.  
Wallace B. Boggs, Chief Engineer.

# MACHINERY & MATERIAL

Bid calls for construction machinery and materials and miscellaneous equipment and supplies purchased by Federal, State, Municipal and other public agencies.

## WAR DEPARTMENT

**SACRAMENTO**—Until February 2, 3 p. m., bids will be received by the U. S. Engineer Office, Lieut.-Col. L. B. Chambers, District Engineer, 208 Post Office Bldg., Sacramento, under Bid No. 1105-37-167, for furnishing 18,853 ft.b.m. Douglas fir lumber. Delivery f.o.b. Rio Vista. Specifications obtainable from the above office.

**FORT MASON, Cal.**—Until Feb. 4, 10 a. m., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. 928-37-256, for furnishing 900 lbs. oxalic acid, 3700 lbs. anhydrous ammonia, 14,000 lbs. granulated calcium chloride, etc. Specifications obtainable from the above office.

**SAN FRANCISCO**—Until February 1, 3 p. m., bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, under Bid No. 868-37-147, for furnishing 10,200 ft.b.m. Douglas fir lumber. Delivery f.o.b. U. S. Engineers, Pier 3½, San Francisco Waterfront. Specifications obtainable from the above office.

**SAN FRANCISCO**—Until February 1, 3 p. m., bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, under Bid No. 868-37-146, for repairing 55 boxes of miscellaneous spare electrical equipment for the U. S. Diesel Electric sewage hopper dredge, "Dan C. Kingman."

The equipment is located in the U. S. Engineer Storehouse, Presidio Reservation. Specifications obtainable from the above office.

**FORT PECK, Mont.**—Until Feb. 5, 11 a. m., bids will be received by the U. S. Engineer Office, Lieut.-Col. T. B. Larkin, District Engineer, Fort Peck, for furnishing six 85-h.p. diesel crawler-type tractors, complete with mechanical angle dozers to be used in shaping sandy slopes on unusually steep grades, spreading loose gravel on upstream face, spreading heavy field stones which weigh as much as 2000 lbs. each on top of gravel blanket, and tracking long distances between different jobs. Specifications obtainable from the above office.

**SAN FRANCISCO**—Until Feb. 5, 3 p. m., bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, under Bid No. 868-37-148, for furnishing expanded metal as follows:

- (1) 20,042 sq. ft. (370 pcs. 5-ft. 5-in. x 10-ft.)
- (2) 1,083 sq. ft. (20 pcs. do.)

Delivery job Fort Funston. Specifications obtainable from the above office.

**FORT MASON, Cal.**—Until Feb. 2, 10 a. m., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. W-6616-37-58, for furnishing 32 c.y. ready-mixed concrete for delivery during February and March. Delivery job Letterman General

Hospital, Presidio of San Francisco. Specifications obtainable from the above office.

**SAN FRANCISCO**—Until Feb. 5, 3 p. m., bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, under Bid No. 868-37-150, for furnishing 550 ft. high-grade pool steel wire rope, uncoated, fibre core.

Delivery job Pier 20, San Francisco Waterfront. Specifications obtainable from the above office.

## SOLANO COUNTY

**VALLEJO, Solano Co.**—Until February 2, 10 a. m., bids will be received by the Vallejo City Council, Alf. E. Edgembe, City Clerk, for the sale of pipe removed from Gordon Valley water supply pipe line, consisting of the following:

- (1) 2,419 ft. random lengths, 24-in. continuous welded steel pipe 3/16 in. thick;
- (2) 2,564 ft. random lengths, 22-in. continuous welded steel pipe, ¼ in. thick;
- (3) 73 ft. 22-in. pipe, 22-in. do., 3/16 in. thick;
- (4) Miscellaneous lot of pipe, totaling 96 ft.

Specifications obtainable from the office of City Engineer T. D. Killenny.

## CALIFORNIA STATE

**FRESNO, Fresno Co., Calif.**—Until January 28, 3 p. m., bids will be received by F. F. Green, Superintendent of Equipment, Shop 6, Division of Highways, 645 West Olive Ave., Fresno, for the sale of the following equipment:

CHC 3957—Truck, Coleman, 3½-ton, 4-wheel drive, Model D40NX chassis, and lot of miscellaneous new and used parts for same to value of \$324.36.

CHC 4814—Automobile, Ford Tudor sedan, Model B, 1933.  
CHC 28—Snow Plow, Baker No. 3, 10-ft. reversible (Bulldozer type) for use with 2-3-ton truck.

CHC 52—Mower, McCormick-Deering, 5-ft. Sickle bar, horse-drawn type.

CHC 85—Mower Attachment; Case BC, 5-ft. for small tractor.

CHC 86—Mower Attachment; Case BCL, 5-ft. for small tractor.

CHC 88—Mower, McCormick-Deering, 5-ft. sickle bar, horse-drawn type.

CHC 90—Mower, McCormick-Deering, 5-ft. bar, horse-drawn type.

One Only Steam Cleaning Plant, consisting of 5-hp upright boiler. One lot new and used parts Models 188 and RR6 Mereland trucks, to value of \$50.75.

All of the equipment listed may be inspected at the Division of Highways' Yards, 645 West Olive Ave., Fresno, from 8:30 a. m. to 4:30 p. m. on any working day.

**SAN FRANCISCO**—Until January 28, 3 p. m., bids will be received by J. W. Grace, Superintendent of Equipment, Shop 1, Division of Highways, State Bldg., San Francisco, for the sale of the following equipment:

CHC 5335 Automobile, Ford Tudor Sedan—Model A 1931.

CHC 253 Trailer; 8-ton La Crosse, dual-pneumatic tired 4-wheel Tu-Way, flat rack.

CHC 59 Mower; McCormick-Deering, horse-drawn type, with 6-ft. sickle bar.

One only Le Roi Model KP3, 12-hp. engine, serial No. 87,377, 2½-inch bore, complete with radiator, clutch and take-off shaft.

The above equipment may be inspected at the Division of Highways' yard at 1045 Derby Avenue, Fruitvale, Oakland, California, on any working day between the hours of 8:30 a. m. and 4:30 p. m.

## SAN FRANCISCO CITY

**SAN FRANCISCO**—Until February 5, 3 p. m., bids will be received by T. A. Brooker, Purchaser of Supplies, Room 270, City Hall, under Bid No. 1729, for metal lath and channel steel for Zoological Gardens (WPA).

Specifications and proposal blanks obtainable at the above office. 20

## EAST BAY UTILITY DIST.

**OAKLAND, Alameda Co., Calif.**—Until February 3, 5:30 p. m., bids will be received by the East Bay Municipal Utility District, John Kimball, Secretary, 512 16th St., Oakland, under Informal Proposal No. 840, for furnishing one printing and addressing machine.

Specifications obtainable from the above office.

**OAKLAND, Alameda Co., Calif.**—Until February 3, 5:30 p. m., bids will be received by the East Bay Municipal Utility District, John Kimball, Secretary, 512 16th St., Oakland, under Informal Proposal No. 839, for furnishing 10,000 lbs. ¼-in. V fleet-weld electric welding electrodes.

Specifications obtainable from the above office.

## OREGON STATE

**KLAMATH AGENCY, Ore.**—Until February 8, 10 a. m., bids will be received by C. E. Brashear, Supervising Construction Engineer, 210 Fruit Bldg., Eling, Mont., for furnishing a horizontal, centrifugal water supply pumping unit.

Delivery job Chiloquin, Ore. and/or bidder's shipping point.

Specifications obtainable from the above office.

## RECLAMATION BUREAU

**BOULDER CANYON PROJECT, Nevada**—Until February 15, 2 p. m., bids will be received by the Bureau of Reclamation, Denver, under Spec. No. 877-D, for furnishing and delivering f.o.b. cars at the shipping point and for Boulder City, metalwork, including a steel frame building, steel chutes and chute supports, steel hoppers, and steel bin gates, for the concrete-mixing plant at the Boulder Dam, Boulder Canyon Project. All equipment will be erected by the Government.

Specifications obtainable from the above office without charge to prospective bona fide bidders; to others, \$1.00 not returnable.

## Bridge Railway Substructure in Eastbay Advertised; State Opening Bids Feb. 24

Speedy contracting of railway construction across the San Francisco-Oakland Bay Bridge was predicted yesterday as the Bay span division of the State Department of Public Works called for bids for constructing the Eastbay yard substructure of the bridge rail facilities. Proposals will be opened at the bridge office in San Francisco February 24.

The project as advertised includes the substructure for the Port of Oakland overhead crossing, and the bidding schedule of 30 items is divided into two sections. Included in the bid form is the stipulation that the right to eliminate the port overhead entirely is reserved by the engineer.

Should the engineer determine thus to eliminate the overhead, the contractor will be allowed no claim for its elimination and will be granted no compensation under the last 14 items in the bidding schedule.

The first section includes a total of 257,000 feet of piles of various lengths. Eighty thousand feet of the piles are to be created, while the balance will be ntered.

### Plans Available

Substructure for the Port of Oakland overhead will require 87,000 feet of untreated timber piles of various lengths, in addition to other items.

Plans and specifications for the work are obtainable at the bridge office, 500 Sansome street, San Francisco, upon deposit of \$50, of which \$40 will be returnable.

Actual operation of the bridge rail facilities by the Key System and Southern Pacific companies is being scheduled for late next year. One of the largest single contracts will be the elaborate San Francisco terminal for the bridge rails.

### S. CHAMBER PLANS 25TH ANNUAL MEET

The twenty-fifth annual meeting of the U. S. Chamber of Commerce will be held April 26 to 29 in Washington, D. C., it is announced by Secretary D. A. Skinner. Opening session will be held Tuesday morning, April 27, Skinner said. The National Council will hold its meeting the preceding day. The meeting will celebrate the twenty-fifth anniversary of the founding of the chamber in 1912.

## S. F. BUILDING VOLUME STEADY, PERMITS SHOW

**\$1,225,000 January Total;  
Public Work to Sweel the  
Figure Next Month**

With residential construction continuing at a high level, building in San Francisco as indicated by permit figures compiled by the Central Permit Bureau amounted to \$1,225,375 last month, an increase of approximately \$196,000 over the same month last year.

The month was marked by an absence of government or harbor construction, Deputy Clerk Edward C. Johnson pointed out.

The January 1936 total was swelled by two large permits, one for a \$120,000 school building and another for a Class A structure costing \$156,464. Last month only one permit for public work was issued, for a \$52,854 project.

Gains in January over the corresponding 1936 month was outstanding in residential building, with the total for frame structures topping that for January 1935 by more than \$123,000; and in Class C buildings, three of which added \$200,000 to the permit total last month. In January last year two Class B permits were issued, for work to cost \$43,000.

### Ferry Terminal

In prospect for next month are the ferry terminal at Exposition Island, reconstruction of a pier on the Embarcadero recently destroyed by fire, the new Santa Fe bus terminal which is to be started shortly by P. J. Walker Co., and several other large projects.

Following is the classified comparison of January permits for 1937 and 1936:

Class.	Jan., 1937		Jan., 1936	
	No. of P'mts	Est. Cost	No. of P'mts	Est. Cost
A	3	\$	1	\$156,464
B	3	290,000	2	43,000
C	11	97,690	6	26,500
Frames	115	563,326	102	439,920
Alter	372	221,795	342	243,536
Public	1	52,854	1	120,000
<b>Totals</b>	<b>505</b>	<b>\$1,225,375</b>	<b>454</b>	<b>\$1,029,420</b>

### \$1,182,000 BID FOR DRY DOCK

WASHINGTON, D. C., Feb. 3.—Low bid for construction of a steel floating dry dock for Pearl Harbor, T. H., was submitted to the Navy Bureau of Yards and Docks today by Dravo Corp., Pittsburgh, Pa., whose proposal for the work was \$1,182,000. Newport News Shipbuilding Co. was second low bidder with a figure of \$1,326,500.

The drydock will have a length of 446 and a beam of 68 feet, and is to accommodate destroyers and submarines at the Pearl Harbor naval base. It will be known as the ARD 2.

## Broadway Tunnel South Bore Open; Early Finish Seen

The south bore of the Broadway low-level tunnel has been held through, officials of the highway district have announced. Chief Engineer W. B. Boggs is reported to have predicted the project, now about 89 per cent completed, will be finished in June.

Present when the final barrier was blasted Saturday afternoon were officials of the highway district and executives of Geo. Pollock & Co. and R. G. Clifford, contractors for the tunnel excavation completion.

Contracts for completion of air ducts and paving and of ventilation buildings were let earlier this week.

## DAVIS SWIMMING POOL, GYM BIDS OPENING FEB. 24

Regents Advertise Contracts  
For \$287,000 Job  
At Davis

Bids for a \$287,000 gymnasium and swimming pool at the Davis College of Agriculture have been invited by the University of California regents. They will be opened February 24 at the Controller's office on the university campus at Berkeley.

Four contracts were advertised: for general construction, heating and ventilating, plumbing, and electrical work.

The structure will be a Class A reinforced concrete and steel gymnasium and an enclosed swimming pool. Plans are by Architect William Hays of San Francisco, with T. J. Janes, University of California, as mechanical engineer, and W. L. Huber, San Francisco, as structural engineer.

Contractors desiring to figure the project may secure plans and specifications from the controller's office at either the Berkeley or Davis campus upon deposit of \$100.

## Diesel Engineering Course at Berkeley

A thoroughly revised course in Diesel Engineering is to be offered by the Extension Division of the University of California at Berkeley shortly, according to a recent announcement.

The course presents a general discussion of the elements of the diesel engine with special emphasis on new developments such as the rapid change from low to high speed type engines. Points covered in the course include: principles and theory of the Diesel engine; types of engines; two and four stroke cycle engines; supercharging, pre-combustion and auxiliary air chamber engines, and Hesselman engines.

Other items to be discussed during the course are: turbulence, fuels, various principles involved in fuel pumps and fuel injectors, timing, governors, opposed piston engines, and Diesel-electric railcars.

Further information may be obtained from the University of California Extension Division, 301 California Hall, Berkeley.

## RIVER COMMISSION NAMES ENGINEER

Jay Carpenter, professor of mining at the University of Nevada, has been appointed industrial engineer for the Colorado river commission. It is announced by Secretary A. M. Smith. He is to start in his new position immediately, and has been granted an indefinite leave of absence from the commission.

## PRICES STEADY, BUREAU REPORTS

Building material prices, as indicated by the U. S. Bureau of Labor Statistics' weekly wholesale price index, remained steady during the week ended January 23, with no change from the preceding week. The index stood at 91.2 per cent of the 1926 average.

Rising prices of lumber and hydrated lime did not affect the index for the group as a whole, the bureau reported. Wholesale prices of rosin were lower, while no changes were reported in the prices of tile, cement and structural steel.

## ASK PROPOSALS FOR REPAIRING DAMAGED WHARF

Wrecking, Cleaning Bids Feb.  
11; Preparing Plans for  
Reconstruction

Reconstruction of Pier 46 on the San Francisco Embarcadero, where fire recently caused damage estimated at \$150,000, is expected to be underway shortly. Bids for wrecking and removing, cleaning and sandblasting portions of the damaged shed and bulkhead building were called this week by the Board of State Harbor Commissioners, and plans for reconstruction of the buildings are being prepared.

Proposals for the wrecking and cleaning work will be opened by the board February 11, it was announced yesterday.

Two contracts are advertised. Contract "A" calls for wrecking and removing parts of the shed and bulkhead building. Contract "B" involves cleaning and sandblasting the interior and framework of parts of the shed and bulkhead buildings. Plans and specifications for work covered by the two contracts are available at Room 18, Ferry building, upon deposit of \$10.00.

Harbor commission engineers estimate that about 75 per cent of the bulkhead building and about 50 per cent of the shed were destroyed by the flames.

## DAM INJUNCTION SUIT DISMISSED

Suit for the Verde River Irrigation and Power District to enjoin the prosecution of work on Bartlett Dam, for which Barrett & Hilp and Macco Construction Co. hold the contract, was dismissed in Phoenix last week. The suit was dismissed by Federal Judge Dave W. Ling, upon motion of the Salt River Valley Water Users Association, defendant. Contract for the dam was let last July at a bid price of \$2,228,272.

## WILL ASK BIDS THIS MONTH ON L. A. TERMINAL

Working Drawings Are Near  
Completion; \$2,500,000  
Structure Planned

General contract bids for the \$2,500,000 Los Angeles union passenger terminal probably will be called within the next 30 days, it was revealed yesterday, following announcement by Construction Superintendent A. J. Barclay that working drawings for the structure are nearing completion.

The building is to be erected on Alameda street between Aliso and Macy streets, Los Angeles, for the Santa Fe, Union Pacific, and Southern Pacific railroads. John and Donald B. Parkinson of Los Angeles are consulting architects.

The terminal will consist of a group of buildings with a total frontage of 860 feet on Alameda street and a depth of 290 feet. The main floor area will total about 120,000 square feet.

The group will include:

### Administration Unit

An office and administration unit, two stories and basement, with reinforced concrete walls and floors, steel trusses, wood and tile roof and steel sash.

A main concourse and entrance lobby, one-story with basement garage, structural steel frame and trusses, hollow concrete walls, wood and tile roof and special ornamental work of various types.

Dining room and kitchen, one-story with basement garage, to conform to the main concourse.

Main waiting room, to be located at the rear of the entrance lobby, conforming in construction with the main concourse.

### Concrete Tower

A reinforced concrete tower, 30 feet square and 130 feet high.

Train concourse, baggage and express buildings will be located at the rear of the other buildings. They will be two and three stories in height, with reinforced concrete walls and floors, steel trusses, wood and composition roofs, and steel sash.

A large area is to be devoted to arcades with concrete walls and wood and tile roofs.

Equipment and interior finish will include one elevator, ventilating and heating equipment, tile floors, decorative tile, steel doors and fire doors.

### Excavation Completed

Excavation for the main buildings has been completed, as have foundations and parts of the superstructure for the train concourse and express and baggage buildings.

The Railway Express Agency, 85 Second street, San Francisco, has prepared plans for the interior of the express building, and bids for this work will be called later.

## ICKES WILL BE CHIEF SPEAKER AT CONVENTION

**A. G. C. Announces Program  
for San Antonio Sessions  
Feb. 15-18**

Hon. Harold L. Ickes, Secretary of the Interior and Administrator of the Federal Emergency Administration of Public Works, will be the principal speaker at the 18th annual convention of the Associated General Contractors of America, which will be held in San Antonio, Texas, February 15-18, E. J. Harding, managing director of the association has announced.

Under Mr. Ickes' guidance, the gigantic PWA construction program has built, over a period of four years, more than 25,000 projects, costing in excess of four billion dollars. Also under Mr. Ickes is the Bureau of Reclamation which this year is carrying out a thirty-nine-million-dollar construction program.

Administrator Ickes will speak at the convention banquet which will be held the evening of Wednesday, February 17.

Two other important members of the federal government, who have in their charge the conduct of vast construction programs, will address the general sessions of the convention. They are Thomas H. MacDonald, chief of the Bureau of Public Roads, under whose guidance the \$375,000,000 highway program for the coming year is now getting under way, and General Edward M. Markham, chief of the Corps of Engineers, which is supervising the great rivers and harbors and flood control programs which are authorized by the last Congress. Both speakers will discuss the programs being carried out under their charge and will present to the assembled general contractors the plans for future highway and flood control construction.

### Highway Division

Mr. MacDonald will confer informally with members of the Highway Division of the association on the many problems which are peculiar to this branch of the general contracting industry, and will discuss with them such matters as diversion of gas taxes to their purposes than building and maintenance of highways, labor problems encountered by highway contractors, and the like.

Members of the Heavy Construction and Railroad Contractors' Division, who construct the rivers and harbors projects and flood control works under the direction of the Corps of Engineers, will discuss their problems with general Markham.

The session of the annual convention will occupy four days, during which the important phases of the work of general contractors will be considered.

## Long-Range Construction Program Asked By President; Report Given To Congress

With California's Central Valley Project high in the "A" list—for immediate construction, President Roosevelt yesterday asked Congress for development of a long-range policy for public works construction as a national defense against depression, according to press dispatches.

Principal part of the plan, the President revealed, will be a group of water conservation projects to cost approximately \$2,750,000,000. His message placed before Congress the long-awaited report of the National Resources committee.

The plan, said the report, would provide a group of selected projects to be utilized in time of economic depression.

Following are excerpts from the President's message:

### Develop Resources

"Through the formulation and an annual revision of a program of all types of construction, revision and adoption of the program by Congress and appropriations under regular budgetary procedure timed in part in relation to economic needs, we can provide for the orderly development of our resources and the provision of needed facilities for our people.

"In a previous message, I have suggested a permanent planning agency under the chief executive in order that, among other things, all public works proposals may filter from the many individual departments and bureaus to a central planning place and thence to the President.

"During the depression we have substantially increased the facilities and developed the resources of our own country for the common welfare through public works and work-relief programs.

"We have been compelled to undertake actual work somewhat hurriedly in the emergency.

"Now it is time to develop a long-range plan and policy for construction—to provide the best use of our resources and to prepare in advance against any other emergency."

## WATER SYSTEM SALES CAMPAIGN LAUNCHED

A five-year promotional program for the sale of electric water systems has been launched by the Electric Water Systems Council following a recent meeting at the Hotel Sherman, Chicago. A goal of 250,000 electric water systems to be sold in 1937 was set. Sales in 1936 totaled 149,000 units as compared with 77,000 in 1934 and 50,000 in 1932.

With improving business conditions, increasing farm income and rapid extension of power lines throughout the United States, enterprising dealers in 1937 will have an unprecedented opportunity to sell and install electric water systems as well as auxiliary equipment, including complete farm bathroom and kitchen units. Harley C. Angster, secretary and chairman of the Electric Water Systems Council, declared.

## SAN JOAQUIN PLANS 6-YEAR PROJECT LIST

**\$1,000,000 Program To Include  
Hospital Unit, Levee  
Highway Work**

A six-year county construction program to cost more than \$1,000,000 has been approved by the San Joaquin county planning commission, and federal aid will be sought for its financing, it was announced this week.

Projects which the commission approved include:

A new wing at the county hospital, to duplicate one constructed several years ago and planned to relieve "overcrowded" conditions and provide for expansion.

A levee along the east side of the Stockton diverting canal, to protect neighboring lands against floods, and to cost in the neighborhood of \$400,000.

### Thornton Highway

A road along the west side of the Western Pacific tracks from Stockton to Thornton, eliminating several grade crossings and shortening the distance between the communities. Cost, \$200,000 to \$400,000.

A road across Staten Island from Terminous to the state highway, \$50,000.

Additional levee repair work on the Mormon Slough levees \$13,000.

A bridge over Mokelumne river on the Peltier road, saving many miles of roundabout travel, \$30,000.

Paving three miles of the Durham Ferry road, bringing the highway to completion, \$30,000.

Levee and stream-cleaning work in the Mokelumne river from Woodbridge to New Hope, \$35,000.

County Engineer Julius Mantel said the cost estimates were indefinite. The program will be submitted to the National Resources Committee through the State Planning Board, he said.

### INSPECTOR NAMED

Planning Engineer Clayton Stanton has been named by the Santa Cruz city council as chief inspector for the city on the new city hall building. George Miller is resident engineer and inspector for PWA.

## SPAN READY BY OPENING DATE, ENGINEER SAYS

### Schedule Allows Ample Leeway for Bad Weather Delay, Strauss Reports

Despite storm conditions which have slowed up progress on virtually all units of the Golden Gate Bridge during the past week, work is going forward at a fair pace and, according to Chief Engineer Joseph E. Strauss, there will be no change in the completion date of the entire project.

This was brought out in the engineer's weekly progress report, filed today for the board of directors of the Golden Gate Bridge and Highway District by C. E. Paine, principal assistant engineer.

The engineer's report pointed out that allowance has been made for loss of time due to storms, which may be expected at this season, and stated that May 1 will stand as the date of completion.

Should unexpected storm conditions prevail during the next two months, ample leeway is allowed as the result of the action taken by the district directors last Wednesday when they set May 21 as the official opening date for the span.

### Paving Progresses

Pouring of the concrete paving slab, commenced January 19, was progressing this week with a total of 1800 feet completed. This represents 900 feet in 20-foot panels on the east and west sides of the roadway of the main span.

Concrete is being poured at four different points in order to assure an even distribution of stresses and intervening spaces will be filled as the job progresses.

Painting on the main span, the high viaduct and the arch over Fort Winfield Scott was stopped because of the heavy rains, but riveting on the arch and main span and cable wrapping are progressing with virtually no interruption.

On the toll area site, overlooking Fort Scott, framing and concreting the roof slab of the main administrative building has been completed and the structural steel and concrete work on the power house is virtually complete.

### Connecting Highway

Work on the connecting highway section between the high and low viaducts of the east approach road through the Presidio has been slowed down by the wet weather, but was expected to be resumed this week. On the anchorage housings on either side of the Golden Gate concreting still is under way and definite progress is being made on the wing-wall of the north abutment, with the concrete sub base now entirely complete.

## '36 Business Totaled \$810,000,000, FHA Reports; Further Gains Predicted

Great business transacted by the Federal Housing Administration up to January 1, 1937, totalled \$1,350,157,149. This included mortgages selected for appraisal, commitments to insure large scale housing projects and modernization and repair notes insured.

Approximately \$810,000,000 of this was transacted during the year 1936.

These figures are contained in the annual report submitted to Congress by Stewart McDonald, Federal Housing Administrator.

On January 1, 1937 home mortgages accepted for insurance reached a total of 151,758 with a value of \$609,044,017. Of this total \$438,449,153 were accepted for insurance during 1936, representing a gain of 157 per cent over 1935.

### Large Scale Housing

Mortgages on large scale housing projects approved up to January 1 amounted to \$41,141,000.

Modernization and repair notes numbering 1,326,102 amounting to \$500,220,642 were insured up to January 1. Of this amount \$246,454,886.24. This does not include insurance claims paid to lending institutions on defaulted modernization and repair notes, which are paid from a separate insurance fund established by the National Housing Act. Up to January 1 these insurance claims, less collections and repossessed property, amounted to \$5,375,504.

The total operating cost of the Housing Administration to the national Government from its beginning up to January 1 was \$23,454,886.24. This does not include insurance claims paid to lending institutions on defaulted modernization and repair notes, which are paid from a separate insurance fund established by the National Housing Act. Up to January 1 these insurance claims, less collections and repossessed property, amounted to \$5,375,504.

Originally a fund of \$200,000,000 was made available by the Congress for losses on modernization and repair loans insured under Title I of the National Housing Act. At the suggestion of the Federal Housing Administrator this amount was reduced at the last session of Congress to \$100,000,000 and the amount of the insurance was reduced from 20 per cent to 10 per cent of loans made. It is thought that after all claims for insurance under Title I have been liquidated, at least \$75,000,000 of the amount available for such losses will not be needed.

### Emergency Section

A large part of the expenditure for operating costs has been used to carry out the modernization and repair program under Title I, the emergency part of the Act which expires on April 1, from which this Administration receives no revenue, and in laying the foundation for the successful operation of the insured mortgage system.

Revenue is now coming into the Federal Housing Administration through mortgage insurance premiums and valuation fees at the rate of around \$500,000 a month.

## LET EQUIPMENT CONTRACTS FOR BOULDER PLANT

### Westinghouse, Allis-Chalmers Awarded Powerhouse Installations

Secretary of the Interior, Harold L. Ickes, has announced award of three contracts for manufacture, delivery and installation of equipment for the Boulder Dam powerhouse on bids totalling \$232,159.31.

The Westinghouse Electric Manufacturing Company of Denver, was awarded the contract for manufacture and installation of a 3,000 ampere 23,000-volt bus structure at a net delivered cost of \$107,581.92 and for manufacture of two 600-ampere 15,000-volt oil circuit breakers at a net delivered cost of \$10,134.44.

The Allis-Chalmers Manufacturing Company of Milwaukee, Wis., was awarded the contract for two 23,000-volt 4,000-ampere vertical lift type, oil circuit breakers at a net delivered cost of \$114,422.95.

Bids were opened on this equipment by the Bureau of Reclamation at its Denver, Colo., office November 30, 1936. Five proposals were received. The successful bids were the lowest received in each case.

### Generating Units

This equipment will be used in connection with the generating units No. 5 and 6, in the Nevada wing of the powerhouse. These two 115,000-h.p. generating unit will serve the Metropolitan Water District of southern California.

Generating units Nos. 1, 2, 3 and 4 in the powerhouse, each also an 115,000-h.p. capacity, already are virtually complete. Numbers 1, 2 and 4 have been placed in steady operation on the line of the Bureau of Power and Light of the City of Los Angeles. No. 3 will be ready for continuing service shortly.

During the month of December the three operating units generated a total of 67,357,000 kilowatt hours with No. 1 going on the line only on the twenty-eighth day of December. The first of these gigantic generators went into steady operation in October.

The contracts call for delivery of the equipment to be furnished by the Westinghouse Electric Mfg. Co. of Denver on its two contracts in 200 days and of that to be furnished by the Allis-Chalmers Mfg. Co. of Milwaukee, in 250 days.

Bids held under advisement.

The FWA recently allotted a grant of \$15,700 to assist in financing the project.

#### PLANNED

**SAN BERNARDINO CO., Calif.**—State of California early this month instituted condemnation proceedings in San Bernardino county superior court to obtain a tract of land south-east of Chino as the site for the proposed state prison for first offenders. The tract contains approximately 1300 acres, most of it on property owned by the American Crystal Sugar Co. The prison will have a maximum capacity of 1000 and will cost, including equipment and \$400,000 for the site, about \$8,000,000. Plans will probably be drawn by State Architect George B. McDougall, Public Works Bldg., Sacramento.

#### 14—RESIDENCES

## 17— THEATRES

### CONTRACT AWARDED

BRAWLEY, Imperial Co., Calif.—  
Cullison-Hastings, Ltd., 1150 N. Las  
Palmas Ave., Los Angeles, awarded

general contract for the erection of  
a reinforced concrete theatre and  
store building on Main St., Brawley,  
for Principal Theatres, Inc., 1825 S.  
Vermont Ave., Los Angeles. Items  
not included in the general contract,  
and for which the owners will take  
bids, are electric wiring and fixtures,  
air conditioning, marquee and ver-  
tical signs and decorating. Archi-  
tect C. A. Balch, Los Angeles.

## 18— WHARVES & DOCKS

### BIDS WANTED

SAN FRANCISCO—Until Febru-  
ary 11, 2 p.m., bids will be received  
by the Board of State Harbor Com-  
missioners, Frank G. White, Chief  
Engineer, Ferry Bldg., for wrecking  
and removing and for cleaning and  
sandblasting portions of shed and  
bulkhead building for Pier 46, re-  
cently damaged by fire.

It will be taken under two sepa-  
rate contracts as follows:

Contract "A"—Wrecking and remov-  
ing parts of the shed and bulk-  
head building.

Contract "B"—Cleaning and sand-  
blasting the interior and frame-  
work of parts of the shed and  
bulkhead building.

Plans and specifications for the  
work covered in Contracts A and B  
may be obtained at Room 15, Ferry  
Bldg., upon deposit of \$10.

It is estimated that about 75% of  
the bulkhead building and 50% of  
the shed building were destroyed by  
the fire. Total damage was estimat-  
ed at approximately \$150,000. Bids  
for the reconstruction of the two  
buildings will be asked as soon as  
plans and specifications are com-  
pleted.

### TO ALK BIDS SHORTLY

REDWOOD CITY, San Mateo Co.,  
Cal.—A call for bids will be issued  
by the Redwood City City Council  
about February 15, to be opened  
March 1 (tentative date) for con-  
struction of certain facilities at Red-  
wood City Harbor, including water  
mains, paving area around wharf,  
constructing a railway leading to the

wharf, electric lighting, automatic  
sprinklers and sprinkler system, and  
building offices within the transit  
shed now under construction.

Contract for construction of a 450-  
foot timber wharf and transit shed  
was recently awarded to Healy-Thib-  
bits Const. Co., 64 Pine Street, San  
Francisco, at \$93,472.

Chas. L. Dimmitt, City Engineer.

## LOW BIDDERS

PORTLAND, Oregon.—Hoffman  
Const. Co., 715 S. W. Columbia, Port-  
land, at \$31,600 submitted the lowest  
basic bid received by the Portland  
City Commission of Public Docks,  
Philip H. Carroll, Executive Secre-  
tary, for reconstruction and improve-  
ment of Municipal Terminal No. 1, a  
PWA project.

Work consists of construction of  
a new warehouse (200x256 ft.); wid-  
ening of the quay dock 40 ft.; recon-  
struction of Pier A platform; con-  
structing an open dock (325x350 ft.);  
concrete retaining walls; earth fills;  
pile driving; installing railroad tracks  
electric wiring; sprinkling system;  
asphalt paving.

The three low basic bids follow:  
Hoffman Const. Co., Port-  
land.....\$31,600  
Geo. H. Buckler, Portland.....\$39,556  
Parker Schram Co., Portland, 917,000.

The city has \$769,925 available for  
construction. Deductions will be  
made for five alternates and a con-  
tract awarded February 4.

Complete bids will be published  
shortly.

L. D. Merrill, engineer of public  
docks.

## 19—MISC. CONSTRUCTION

### BIDS WANTED

SAN FRANCISCO—Until Feb. 12,  
3 P. M., bids will be received by the  
U. S. Engineer Office, Lieut.-Col. J.  
A. Dors, District Engineer, 401 Custom  
House, under Bid No. 868-37-  
19, for drydocking, painting and re-  
pairing the U. S. Seagong Hopper  
Dredge "A. Mackenzie."

Specifications obtainable from the  
above office.

Contract Awarded.  
ABBATOIR Cost, \$30,000

VALLEJO, Solano Co., Calif.

Two-story steel and reinf. concrete  
abattoir (60x145-ft.) insulation

walls for coolers, plumbing, electric  
wiring, heating, refrigeration

Owner—Solano Meat Company.

Engineer—James Smith, 251 Kearny  
St., San Francisco.

Contractor—David Paganini, 617  
Montgomery St., San Francisco.

LOS ANGELES, Calif.—A J. Bar-  
clay, construction superintendent, 726  
N. Alameda St., is completing work-  
ing drawings and will take general  
contract bids, probably within 30  
days for the new union passenger  
terminal to be built on the east side  
of Alameda St., between Aliso and  
Clare Sts., for the Santa Fe Union  
Pacific and Southern Pacific rail-  
roads. It has not yet been decided  
whether the mechanical trades will  
be included in the general contract.  
The terminal will consist of a group  
of buildings with a total frontage of  
500 feet on Alameda Street and a  
depth of 290 feet, the main floor area  
to total about 120,000 square feet.  
Included in the group will be an office  
and administration unit, two  
stories and basement, 50 x 95 feet in  
area, with reinforced concrete walls  
and floor, steel truss roof and  
tile roof and steel shaft. There will  
be a main concourse and entrance  
lobby, one-story and basement gar-  
age 51 x 205 feet in area and 68  
feet high, with structural steel frame  
and trusses, three and one-half foot

hollow concrete walls, wood and tile roof, ornamental staff work, special steel sash and doors, etc. There will also be a dining room and kitchen under the story and basement garage, 84 x 182 feet in area, to conform in construction to the main concourse. The main waiting room, to be located back of the entrance lobby, will be one story and basement garage, 84x 190 feet in area and 60 feet high, and will be of the same construction as the main concourse. A reinforced concrete tower, 30 feet square and 130 feet high, will also be built. Back of the buildings described will be the train concourse and baggage and express buildings, covering a total area of 1575x110 feet. These structures will be two and three stories in height and will have reinforced concrete walls and floors, steel trusses, wood and composition roofs, steel sash, etc. A large area will be devoted to arcades with concrete walls and wood and tile roofs. Equipment and interior finish will include one elevator, ventilating and heating equipment, tile floors, decorative tile, steel doors and fire doors, etc. Foundations and parts of the superstructures for the train concourse and baggage and express buildings have already been constructed by the owners. Excavation for the main buildings has also been completed. Plans for the interior of the express building have been prepared by the Railway Express Agency, 85 Second St., San Francisco, and bids for this part of the work will be taken by the express company later. Cost of the buildings and concourses will amount to between \$2,000,000 and \$3,000,000. John and Donald B. Parkinson, 808 Title Insurance Bldg., are consulting architects.

**Contract Awarded**  
LAUNDRY Cost, \$6,500  
SAN FRANCISCO, N McAllister St., 100 W Lyon St.

Two-story frame laundry building  
Owner—Chas. Camou, 1927 McAllister St.

Architect—Not Given  
Contractor—Richard Delucchi & Co., 3275 San Bruno Ave.

#### PLANS APPROVED

LOS ANGELES, Calif.—Swift & Co., Chicago, have had plans prepared by their engineering department in Chicago for a new \$1,000,000 packing plant to be built at the company's headquarters in Los Angeles, located at 3750 Jewel Ave. The plans have been approved by the Bureau of Animal Industry, Washington, D. C., and it is proposed to start construction early this summer. Competitive bids for the erection of the plant, which will replace the buildings now in use at First St. and Santa Fe Ave., will be taken locally. Swift & Company recently awarded a contract to Robert E. Millsap for a \$100,000 addition to their refinery at 3750 Jewel Ave.

#### CONTRACT AWARDED

EUREKA, Humboldt Co., Calif.—F. Breeden, Eureka, with an offer to pay the Government \$2,650, submitted the bid and was awarded the contract by the U. S. Engineer Office, Lieut. Col. J. A. Dorst, District Engineer, San Francisco, under Bid No. 868-37-151, for the sale of government property (buildings, supplies, tools, equipment, etc.) located at the U. S. Engineer camp sites at the inner ends of the north and south jetties of the entrance to Humboldt Bay, near Eureka.

Complete bids follow:  
F. Breeden, Eureka, to pay Government \$2,650.  
W. Bauer, San Francisco, Government to pay \$250.

M. Lafleur, San Francisco, Government to pay \$500.

#### CONTRACT AWARDED

LOS ANGELES, Cal.—Consolidated Steel Corp., Slauson and Eastern Aves., February 1 was awarded a contract by the Los Angeles Union Passenger Terminal for furnishing and erecting over 1000 tons of structural steel for the new union passenger terminal under construction on the east side of Alameda Street between Macy and Aliso Streets, for the Santa Fe, Union Pacific and Southern Pacific railroads. As previously reported, plans for the terminal buildings will probably be ready for general contract bids within 30 days.

#### BIDS WANTED

SACRAMENTO.—Until February 16, 3 p. m., bids will be received by the U. S. Engineer Office, Lieut. Col. L. B. Chambers, District Engineer, 208 Post Office Bldg., Sacramento, under Bid No. 1105-37-164, for dry-docking, painting and repairing the U. S. Engineer Department 20" pipeline dredge "San Joaquin".

Specifications obtainable from the above office.

Moore Dry Dock Co., Oakland—(1) \$31,500; (2) \$17,700; f.o.b. Oakland.  
John W. Beam, Denver—(1) \$15,000; (2) no bid; f.o.b. Postone; discount, 2%; 10 days.  
All bidders specify shipment in 70-150 days. All bids net unless otherwise noted.

## BIDS OPENED

LOS ANGELES, Calif.—Bids for furnishing miscellaneous fusion-welded steel plate pipe fittings, Spec. X-88, for trucks department's pipe yard, Slauson and Compton Avenues, were opened by D. P. Nicklin, purchasing agent, Los Angeles Water and Power Bureau, Jan. 27.

Bids were taken on items as follows:

- (a) one 36x36-in. steel tee;
- (b) one 36 $\frac{1}{2}$ " I D 6-in. wide, butt strap;
- (c) one 36x54-in. tee combined with 54x31.4-in. reducers;
- (d) one 36x20-in. reducer, 8-ft. long;
- (e) one 20x16-in. reducer, 9-ft. long;
- (f) one 32 $\frac{1}{2}$ "-in. ID, 12-in. wide, butt strap;
- (g) one 20 $\frac{1}{2}$ "-in. ID x 16-in. I D 45-degree tee;
- (h) one 16-in. ID x 12-in. ID combined reducer and 45-deg. bend
- (i) one 12-in. ID flanged connection 2-ft. long;
- (j) one 20 $\frac{1}{2}$ "-in. ID x 16-in. reducer, 5-ft. long;
- (k) 2 lengths 20 $\frac{1}{2}$ "-in. ID steel pipe, each 5-ft. 4-in. long;
- (l) 2 15 $\frac{1}{2}$ "-in. opening plates;
- (m) 2 12 $\frac{1}{2}$ "-in. opening plates;
- (n) one 24-in. ID sleeves R-in.—12-in.—2 ft. 5-in. long;
- (o) one 24-in. ID sleeve "R"—15-in.—2 ft. 5-in. long;
- (p) 2 24 $\frac{1}{2}$ "-in. ID 6-in. wide, butt straps;
- (q) 2 24-in. ID sleeves, 2-ft. long;
- (r) 2 30 $\frac{1}{2}$ "-in. ID x 24-in. ID reducers, 4 ft. long;
- (s) one 40-in. ID x 30-in. ID reducers, 6 ft. long;
- (t) 2 30-in. ID opening plates;
- (u) one 30 $\frac{1}{2}$ "-in. ID 6-in. wide, butt straps;
- (v) one 30-in. ID sleeve, 2ft. long;
- (w) one 30-in. ID tee stem, 3 ft. 3 in. long.

The bidders were:  
(A) Southwest Welding & Mfg. Co.—Delivery, 60 days; discount  $\frac{1}{2}$  of 1%; shipping weight, 24,860 pounds; total, \$2598.30.

(B) Western Pipe & Steel Co.—Terms net; weight, 25,000 lbs.; total \$2341.

(C) Emco Derrick & Equipment Co.—Terms net; weight, 23,000 lbs.; total, \$1821.65.

(D) Consolidated Steel Corp., Ltd.—Terms net; weight, 24,330 pounds; total, \$2173.

Complete bids follow:  
 F. Kaus, Stockton..... \$2,512  
 Harry Brown, Modesto..... 3,478  
 Cotner, Tomnitz & King, Modesto..... 3,580  
 F. O. Bohnett, Campbell..... 3,580  
 Western Crane Service Corp., Oakland..... 3,710  
 R. G. Clifford, San Francisco..... 4,600

### BID CALL CANCELLED

LOS ANGELES COUNTY, Cal.—C. H. Purcell, State Highway Engineer, has announced the cancellation of a call for bids issued January 26, to have been opened February 18, for the construction of a reinforced concrete girder bridge across south branch of Big Tujunga Wash, and the reconstruction of a reinforced concrete girder bridge across north branch of Big Tujunga Wash, in Los Angeles County.

### LOW BIDDER

ALL-AMERICAN CANAL.—Lewis Chambers Constr. Co., 801 Baronne Bldg., New Orleans, at \$74,258, submitted low bid to the Bureau of Reclamation, Federal Bldg., Yuma, R. B. Williams, Construction Engineer, under Spec. No. 717, for the construction of highway bridges, All-American Canal, Station 1635 to 1930, All-American Canal System, Boulder Canyon Project.

### BIDS WANTED

PLACER COUNTY, Calif. — Until March 2, 10 A. M., bids will be received by the Placer County Board of Supervisors, A. S. Fleming, Clerk, Court House, Auburn, for the construction of a 70-ft. steel bridge on steel pile foundations with concrete or wood floor. The structure will have a 21-ft. roadway and 4-ft. side-walk, and will be on Douglas Street adjacent to the City of Roseville.

Plans (dated February 2, 1937) and specifications obtainable from the office of W. E. Emmett, Sharon Bldg., San Francisco, engineer, or from the County Clerk, at a charge of \$1.

## 22— DREDGING HARBOR WORKS, EXCAVATION

APPLICATION FILED  
 SAN DIEGO, San Diego Co., Cal.—

Application has been made by the City of San Diego for a modification of plans accompanying War Department permit dated August 9, 1934, to dredge and fill in the vicinity of Roseville-La Playa, for the purpose of creating a municipal yacht harbor in San Diego Bay, Calif.

Under the modification it is proposed to dredge within a slightly more restricted area and terminate the proposed channelward fill abreast of Bay Channel Beacon No. 3.

Drawing showing the location and plan of the proposed work may be seen at the U. S. Engineer Office, 751 S. Figueroa St., Los Angeles, Major Theo. Wymao, Jr., District Engineer, until February 23, 11 a. m. Interested persons are invited to inspect this drawing and to submit in writing, in duplicate, on or before said date, any objections based on navigation interests that they may have to said work.

Objections based on other than navigation interests cannot be considered.

### BIDS OPENED

LONG BEACH.—Anso Construction Co., Inc., 3608 Atlantic Avenue, Long Beach, submitted low bid to R. M. Dorton, City Manager, Long Beach, for hauling and dumping about 5,000 tons of rock for the repair of the Rainbow Pier Enrockment, Spec. R-947. The bids were taken as follows:

1. Loading and hauling cement concrete blocks and dumping from trucks.

2. Loading and hauling cement concrete blocks and placing by crane or derrick.

The bids were:  
 Anso Constr. Co., Inc.—(1) \$115, (2) \$220.  
 Martin Bros. Trucking Co.—(1) \$245, (2) \$245.  
 Sully-Miller Contr. Co.—(1) \$270, (2) \$340.

The city intends to repair and improve the enrockment by depositing thereon broken cement concrete blocks now stored at the Sanitary Department dumping ground east of Newport Avenue, approximately 500 ft. north of Willow Street.

## 23— CANALS

### BIDS WANTED

ALL-AMERICAN CANAL.—Until February 15, 10 A. M., as previously reported, bids will be received by the Bureau of Reclamation, Federal Bldg., Yuma, R. B. Williams, Construction Engineer, under Spec. No. 708, for the construction of drops and power plant sub-structures at

drops Nos. 2, 3, 4, and 5, All-American Canal System, Boulder Canyon Project. The work is located near Yuma, Ariz., and Calexico, Calif.

### SCHEDULE NO. 1

Drop and power-plant substructure at drop No. 2, All-American Canal, Station 2177 plus 90.

- (1) 27,360 c.y. excav. for struc;
- (2) 5,000 c.y. excavation for power house foundation;
- (3) 17,700 c.y. backfill about struc;
- (4) 1,300 c.y. puddling or tamping backfill about struc;
- (5) 4,500 c.y. of concrete in power house substructure;
- (6) 1,680 c.y. concrete in canal lining and in floors of spillway chutes and stilling pools of tailrace;
- (7) 4,350 c.y. concrete in structure, except power house substructure, canal lining, and floors;
- (8) 1,200,000 lbs. placing reinf. bars;
- (9) 2,690 lf. installing "L" metal joint seals;
- (10) 4,200 lf. installing type M do;
- (11) 1,000 lf. installing type N do;
- (12) 4,000 sq. ft. installing molded elastic joint filler;
- (13) 1,100 sq. yds. dry-dock paving;
- (14) 900 c.y. constructing reverse filters;
- (15) 200 lf. laying 15-in. dia. sewer pipe with uncemented joints;
- (16) 180 lf. laying 8-in. sewer pipe with uncemented joints;
- (17) 18,000 lbs. installing metal pipe and fittings;
- (18) 610,000 lbs. driving steel sheet piling;
- (19) 50 MFBM fabricating and driving timber sheet piling;
- (20) 27,000 lf. driving timber foundation piles;
- (21) 15,500 lbs. installing embedded metal walls for radial gates;
- (22) 35,000 lbs. installing radial gates;
- (23) 9,000 lbs. installing radial gate hoists and operating and control mechanisms;
- (24) 12,000 lbs. installing pipe hand-rails;
- (25) 20,000 lbs. installing misc. metal work;
- (26) 1,100 lbs. installing ground wires;
- (27) 1,000 lf. installing electrical metal conduit, 1½-in. or less in diameter;
- (28) 100 lbs. installing electrical conductors.

### SCHEDULE NO. 2

Drop and power-plant substructure at drop No. 3, All-American Canal, Station 2470 plus 315.

- (29) 27,040 c.y. excav. for struc;
- (30) 8,650 c.y. excav. for power house foundation;
- (31) 17,700 c.y. backfill about struc;
- (32) 1,300 c.y. puddling or tamping backfill about structure;
- (33) 4,500 c.y. concrete in power house substructure;
- (34) 1,680 c.y. concrete in canal lining and in floors of spillway chutes and stilling pools and of tailrace;
- (35) 4,300 c.y. concrete in structure, except power house substructure, canal lining, and floors;
- (36) 1,200,000 lbs. placing reinf. bars;
- (37) 2,400 lf. installing "L" metal joint seals;
- (38) 4,000 lf. installing type M do;
- (39) 1,200 lf. installing type N do;
- (40) 4,000 sq. ft. installing molded elastic joint filler;
- (41) 1,050 sq. yds. dry-rock paving;
- (42) 900 c.y. constructing reverse filters;
- (43) 200 lf. laying 15-in. dia. sewer pipe with uncemented joints;
- (44) 180 lf. laying 8-in. dia.;
- (45) 18,000 lbs. installing metal pipe and fittings;

 (60) 28,850 c.y. backfill about struc.;  
 (61) 1,160 c.y. puddling or tamping backfill about structures;  
 (62) 3,940 c.y. concrete in power house substructure;  
 (63) 21,150 c.y. concrete in canal lining and in floors of spillway chutes and stilling pools and of tailrace;  
 (64) 4,950 c.y. concrete in structure, except power house substructure, canal lining, and floors;  
 (65) 1,234,000 lbs. placing reinf. bars;  
 (66) 2,900 lb. installing type L metal joint seals;  
 (67) 4,775 lb. installing type M do;  
 (68) 900 lb. installing type N do;  
 (69) 5,400 sq. ft. installing molded elastic joint filler;  
 (70) 1,060 sq. yds. dry-rock paving;  
 (71) 990 cu. yds. constructing reverse filters;  
 (72) 190 lb. laying 15-in. dia. sewer pipe with uncemented joints;  
 (73) 296 lb. laying 8-in. dia. do;  
 (74) 18,000 lbs. installing metal pipe and fittings;  
 (75) 528,000 lbs. driving sheet piling;  
 (76) 44 MFEM fabricating and driving timber sheet piling;  
 (77) 30,000 lb. driving timber foundation piles;  
 (78) 15,000 lbs. installing embedded metal work for radial gates;  
 (79) 33,600 lbs. installing radial gates  
 (80) 8,400 lbs. installing radial gate hoists and operating and control mechanisms;  
 (81) 13,500 lbs. installing pipe hand-rails;  
 (82) 20,000 lbs. installing misc. metal work;  
 (83) 1,100 lbs. installing ground wires  
 (84) 1,000 lb. installing electrical metal conduit 1½-in. or less in diameter;  
 (85) 100 lbs. installing electrical conductors.

## SCHEDULE NO. 4

- Drop, power - plant substructure, and turnout of New Briar canal at drop No. 5, All-American canal, Station 2233 plus 05.75.  
 (86) unwatering foundations lump sum;  
 (87) 33,200 c.y. excav. for structures;  
 (88) 3,800 c.y. excav. for power house foundation;  
 (89) 25,400 c.y. backfill about struc.;  
 (90) 1,350 c.y. puddling or tamping backfill about structures;  
 (91) 2,800 c.y. concrete in power house sub-structures;  
 (92) 800 c.y. concrete in canal lining and in floors of spillway chutes and stilling pools and of tailrace;  
 (93) 3,450 c.y. concrete in structure, except power house sub-structure, canal lining and floors;

- (94) 2,000 lb. installing type L metal joint seals;  
 (95) 2,000 lb. installing type L do;  
 (96) 2,800 lb. installing type M do;  
 (97) 500 lb. installing type N do;  
 (98) 3,000 sq. ft. installing molded elastic joint filler;  
 (99) 850 sq. yds. dry-rock paving;  
 (100) 550 c.y. constructing reverse filters;  
 (101) 190 lb. laying 15-in. dia. sewer pipe with uncemented joints;  
 (102) 296 lb. laying 8-in. dia. do;  
 (103) 18,000 lbs. installing metal pipe and fittings;  
 (104) 400,000 lbs. driving steel sheet piling;  
 (105) 21 MFEM fabricating and driving timber sheet piling;  
 (106) 27,000 lb. driving timber foundation piles;  
 (107) 15,000 lbs. installing embedded metal work for radial gates;  
 (108) 28,000 lbs. install radial gates;  
 (109) 7,400 lbs. installing radial gate hoists and operating and control mechanisms;  
 (110) 10,000 lbs. installing pipe hand-work;  
 (111) 20,000 lbs. installing miscellaneous metal work;  
 (112) 1,100 lbs. install ground wires;  
 (113) 1,000 lb. installing electrical metal conduit 1½-in. or less in diameter;  
 (114) 80 lbs. installing electrical conductors.

The work shall be commenced within 30 calendar days and completed within 90 calendar days after date of receipt of notice to proceed.

Plans and specifications obtainable from the Bureau of Reclamation at Yuma, Denver, or Washington, D. C. without charge to prospective bidders; to others, \$3.00, not returnable.

## CONTRACT AWARDED

ALL - AMERICAN CANAL, Arizona-California.—Frank Doran, 345 Spreckels Theatre Bldg., San Diego, at \$4,091.80, awarded contract by the Bureau of Reclamation, Yuma, R. B. Williams, Construction Engineer, under Spec. No. 700, for the construction of pipe side drains, All-American Canal, Station 3552 to Sta. 3775, All-American Canal System, Boulder Canyon Project.

## BIDS WANTED

CONTRA COSTA CO., Calif.—Until March 1, 10 A. M., as previously reported, bids will be received by the Bureau of Reclamation, Walker R. Young, Construction Engineer, 206 Old Post Office Bldg., Sacramento, under Spec. No. 712, for the construction of earthwork and structures, Station 2 to Station 208 plus 50, Contra Costa Canal, Contra Costa Division, Central Valley Project.

The work is located near Oakley, and comprises construction of about four miles of open canal.

The principal items of work involved are:  
 (1) 640,000 c.y. excavation for canal  
 (2) 36,000 c.y. excavation for pipe trenches and structures;  
 (3) 5,000 sta. c.v. overhaul;  
 (4) 35,800 c.y. backfill;  
 (5) 785 c.y. gravel fill under siphons;  
 (6) 1,425 cu. concrete;  
 (7) 75 sq. yds. dry-rock paving;  
 (8) Placing 202,000 lbs. reinf. bars;  
 (9) Driving 4,360 lb. timber piles;  
 (10) Erecting 123 MFEM timber in structures;

- (11) Laying 2,370 lb. 16-in. diameter concrete pipe;  
 (12) Installing 79,000 lbs. 18- and 30-in. dia. steel pipe;  
 (13) Installing 1,600 lbs. of miscellaneous metal work.

The work shall be commenced within 30 calendar days and completed within 330 calendar days

from the date of receipt of notice to proceed.

The complete canal will be about 40 miles in length and is estimated to cost \$3,000,000 and will have a capacity of 275-second feet.

Plans and specifications obtainable from the office of the Bureau of Reclamation at Sacramento, Denver or Washington, D. C. without charge to prospective bidders; to others \$1.00, not returnable.

Oscar G. Boden, Antioch, resident engineer.

## CONTRACT AWARDED

TURLOCK, Stanislaus Co., Calif.—Lloyd Terrell, 221 Ninth Ave., Turlock, at \$5,512 awarded contract by the Turlock Irrigation District for concrete lining in the Lowe ditch, District No. 69.

R. V. Meikle, chief engineer.

## 24—STREET LIGHTING

February 1, 1937.

## BIDS OPENED

KNICK RIVER, Alaska.—Bids for furnishing materials for construction of the Knick River Bridge were received by the Consolidated Shipping & Purchasing Bureau, Federal Office Bldg., Seattle, January 18, and referred to the Alaska Railroad officials for action.

Complete bids follow:

Moore Dry Dock Co., foot of Adeline St., Oakland—554 tons at \$0.0485 per lb., f.o.b. Oakland, subject to strike settlement.

Pacific Car & Foundry Co., 821 White Bldg., Seattle—1,143,000 lbs., \$0.0615 per lb.; total, \$70,294; f.o.b. cars, Seattle.

Wisconsin Bridge & Iron Co., 5023 N. 13th, Milwaukee—1,120,000 lbs. at \$0.040 per lb.; total, \$45,912; f.o.b. Milwaukee. \* 21

## BIDS OPENED

OAKLAND, Calif.—Kenney Brothers, 128 Tenth St., Oakland, at \$7,367 submitted low bid to the Oakland City Council, W. W. Chappell, City Clerk, for the installation of an ornamental electric street lighting system in E 18th St. between Third Avenue and Park Blvd., and in Park Blvd. between East 18th St. and 21st Street.

The work will involve the installation of 27 ornamental, single lighting standards, together with foundations, lighting units, lamps, wire, conduit, cable, appurtenances, and appliances.

Complete bids follow:  
 Kenney Bros., Oakland..... \$7,367  
 Scott-Buttner Elec. Co., Oakland..... 7,767  
 R. Flatland, San Francisco..... 7,768  
 Underground Const. Co., Berkeley..... 8,398  
 Spencer Elec. Co., Oakland..... 9,189  
 Bids held under advisement.

## BOND FLECTION

FRENO, Fresno Co., Cal.—Voters of the City of Fresno will pass on a \$2,990,000 bond proposal, to finance purchase of the San Joaquin Light & Power Corp. electric system in the city, at a special election Feb. 25.

## 25—MACHINERY AND EQUIPMENT

## BIDS OPENED

SAN FRANCISCO.—Chas. L. Harvey, Call Bldg., at \$20 per hour, submitted low bid to the Procurement Office, Treasury Dept., Room 514, 49 Fourth St., San Francisco under Bid No. 3394, for the rental of one concrete paver, 1 c.v. on crawler traction with power charging skip, for use on WPA projects, f.o.b. Gold-

en Gate Park Drives, 24th Ave. and Full St., San Francisco.  
Complete bids follow:  
Chas. L. Harney—\$8.20, net.  
Edward R. Bacon Co.—\$8.50, plus \$75 transportation charge.  
Pacific States Constr. Co.—\$8.54, net.  
Contractors Machinery Exchange, Oakland—\$9.15 per hour, net.

**CONTRACT AWARDED**

LOS ANGELES, Cal.—Fairbanks, Morse & Co. were awarded the contract by Wayne R. Allen, Los Angeles county purchasing agent at \$1,314.40 for furnishing one power pump with motor, under Quot. No. 3023.

**BIDS OPENED**

FRESNO.—Edward R. Bacon Co., 17th and Folsom Sts., San Francisco, at \$91.80 per month, net, submitted bids for the Procurement Office, levee bids in the Procurement Office, Treasury Department, Room 514, 45 Fourth St., San Francisco, under Bid No. 3293, for the rental of one concrete mixer, mobile, two-sack capacity with elevator hopper, for use on WPA project, f.o.b. Fresno Municipal Airport, Fresno, Cal.

Peter J. McHugh, San Francisco, at \$18 per month, discount 10%, 20 days, submitted the only other bid.

**BIDS OPENED**

ALL-AMERICAN CANAL.—Following bids received by the Bureau of Reclamation, Denver, under Spec. No. 869-D, for furnishing equipment for installation in the Imperial Dam and desilting works, All-American Canal System, Boulder Canyon, as follows:  
Schedule 1—(a) One 7-panel main control board and auxiliary equipment;  
(b) Three mast re-control cubicles.

Schedule 2—One 2300-volt switchboard, consisting of seven cubicle-type control units.  
Complete bids follow:  
NePage McKenny Co., Seattle—(1a) \$9,658; (1b) \$2,259; f.o.b. Yuma, 1/1, \$11,917; Sch. 2, \$4,361; f.o.b. Yuma, delivery in 150 days.  
Wolfe & Mann Mfg. Co., Baltimore—(1a) \$9,883; (1b) \$2,257; (total, Sch. 1), \$12,240; (2) \$4,596; combination 1 and 2, \$16,496; f.o.b. Baltimore; delivery in 150 days; discount, 1/2%.

Westinghouse Elec. & Mfg. Co., Denver—(1a) \$10,191; (1b) \$2,257; (total, 1), \$12,778; (2) \$5,296; f.o.b. Yuma; delivery in 150 days.

General Electric Co., Schenectady—(1a) \$10,481; (1b) \$3,485; (total, 1), \$13,966; (2) \$5,328; f.o.b. Yuma, but will allow no freight deductions nor shipment on Government bills of lading; delivery in 208 days.

Graybar Electric Co., Denver—(1a) \$10,481; (1b) \$3,485; (total, 1), \$13,966; (2) \$5,328; f.o.b. Yuma, but will allow no freight deductions nor shipment on Government bills of lading; delivery in 208 days.

Roller-Smith Co., Bethlehem—(2) \$122; f.o.b. Yuma; delivery in 125 days.

Allis-Chalmers Mfg. Co., Milwaukee—(2) \$6,334; f.o.b. Yuma; delivery in 150 days.

Delta-Star Elec. Co., Chicago—(2) bids.

All bids net unless otherwise specified; f.o.b. Yuma; delivery in 150 days.

**CONTRACTS AWARDED**

BOULDER CITY, Nevada.—Contracts for furnishing equipment for installation in the Boulder Power plant, under Spec. No. 703, have been awarded by the Bureau of Reclamation, Denver, as follows:  
Estimotech Elec. & Mfg. Co., Denver—(1) \$108,450, for 3,000-amp, 23,000-volt bus structure and equipment; (2) \$10,690, for two 600-amp, 15,000-volt oil circuit

breakers and one neutral reactor. Allis-Chalmers Mfg. Co., Milwaukee; (3) \$122,673, for two 4,000-amp, 23,000-volt, oil circuit breakers.

**BIDS OPENED**

BERKELEY.—Granfield-Farrar & Carlin, 67 Hoff St., San Francisco, at \$4 per hour submitted low bid to the Procurement Office, Treasury Department, Room 514, 49 Fourth St., San Francisco, under Bid No. 3298, for the rental of one highway patrol grader for use on WPA project, f. o. b. Wildcat Canyon Road, Berkeley.

Complete bids follow:  
Granfield, Farrar & Carlin, San Francisco, \$4.  
Pacific States Constr. Co., San Francisco, \$4.50.  
Spears Wells Machinery Co., Oakland, \$4.75.

R. A. Farish, San Francisco, \$5.  
W. H. Cowan, \$7 per hour.

**BIDS OPENED**

LOS ANGELES, Calif.—Bids for furnishing an electric mine hoist for use at the Cabazon Shaft of the San Jacinto Tunnel, Spec. No. 192, were opened by the Metropolitan Water District Feb. 1. The bids were Ottumwa Iron Works, Ottumwa, Iowa; \$36,350; shipping weight 233,000 lbs.; heaviest piece, 19,600 lbs. Discount \$16 per day; (2) services of erecting engineer, \$16 per day. Fob Ottumwa.

Nordberg Mfg. Co., 846 Subway Terminal Bldg., Los Angeles, (1) \$39,400; fob Milwaukee, Wis. Use tax, \$182. Total \$46,582. Shipping weight, \$180,750 lbs.; heaviest piece, 17,000 lbs.; (2) \$15 per day. Electrical equipment with freight allowed from the nearest standard gauge railroad freight station.

**BIDS OPENED**

LOS ANGELES, Cal.—Bids for furnishing one motor driven centrifugal pump were opened by Wayne R. Allen, Los Angeles county purchasing agent Feb. 2, under Quot. No. 3093. The bids were:  
Simonds Pump Co., \$453; 1% 20 days; bid irregular; not made out in duplicate.  
Dayton-Dowd, \$661; alternate bid, 20 h. p. squirrel cage motor \$442.

Luitwieler Pump Co., \$451.  
Victrolor Pump Co., telegraphic bid; no sureties; bid not declared.

Fairbanks-Morse & Co., \$447.83.  
American Well Works, \$436; 2% 15 days.

Gardner-Denver, \$832; alternate bids, \$785.25, \$389.60.  
Milt Iron Works, \$486.60.

Victrolor Pump Co., \$995; deduct \$46.64 for base plate type controller; for squirrel cage motor, \$557.  
Pacific Pump Works, pump, \$260; motor, \$695; alternate bid, \$248.

Byron Jackson Co., \$553.18, 3 delivery; \$100.00, 60 day delivery; \$949.18, 60 day delivery.

Ingersoll-Rand Co., \$491.  
De Laval Steam Turbine Co., \$1227.

**BIDS OPENED**

UPPER SNAKE RIVER PROJECT, Idaho.—Following bids received by the Bureau of Reclamation, Denver, under Spec. No. 870-D, for furnishing (1) four radial gates and (2) four radial-gate hoists, for installation in the headworks structure and in the combination check turnout and wastewater structure of Cross Cut Canal, Upper Snake River Project, Idaho:

Pekrul Iron Works, Denver; (1) no bid; (2) \$1,761; fob Denver; discount, 1%.

John W. Beam, Denver; (1) \$1,800; fob Chelsea; discount, 1%; (2) \$1,830; fob Denver; net.

Beall Pipe & Tank Corp., Portland; (1) \$2,907; (2) \$2,100; (1) and (2) \$5,207; fob Portland; net.

Long Beach Iron Works, Long Beach; (1) no bid; (2) \$1,768; fob Long Beach; net.

Berkeley Steel Const. Co., Inc., Berkeley; (1) \$1,932; (2) no bid; fob Berkeley; net.

Lakeside Bridge & Steel Co., Milwaukee; (1) \$3,700; (2) \$3,350; (1) and (2) \$7,000; fob Chester, Ida.; net.

St. Paul Foundry Co., St. Paul; (1) \$2,180; (2) no bid; fob St. Paul; net.

Faste Bros. Gear & Mach. Corp., Chicago; (1) no bid; (2) \$4,186; fob Chicago; net.

Joshua Hendy Iron Works, San Francisco; (1) no bid; (2) \$3,120; fob Sunnyvale; net.

Commercial Iron Works, Portland; (1) \$1,860; (2) \$1,715; (1) and (2) \$3,465; fob Portland; net.

Los Angeles Valve & Fittings Co., Los Angeles; (1) no bid; (2) \$2,342.50; fob Los Angeles; net.

California Steel Products Co., San Francisco; (1) \$2,844; (2) no bid; fob San Francisco; net.

Valley Iron Works, Yakima; (1) no bid; (2) \$1,600; fob Yakima; discount, 5%.

**26—RAILROADS**

**CONTRACT AWARDED**

SAN FRANCISCO.—Cain Telephone & Singlas Co., 420 Market St., at \$9,400 awarded contract by the State Purchasing Department, Ferry Bldg., for photo-electric protective system for cable anchorages on the San Francisco-Oakland Bay Bridge. Equipment engineered and will be furnished by the Signal Electric Supply Co., 234 Ninth St. \* 25

**CONTRACT AWARDED**

LOS ANGELES.—Western Steel & Equipment Co., Portland, awarded contract at \$675,414, by the U. S. Engineer, 751 S. Figueroa St., for furnishing a complete narrow gauge railroad track system for San Diego under Circ. Prop. No. 244.

**CONTRACT AWARDED**

SACRAMENTO.—Forsythe Worden & Co., 264 Sybil Ave., San Leandro, at \$23,995 awarded contract by Major Arthur W. Parker, Constructing Quartermaster, Sacramento, under Bid No. 6870-37-10, for the construction of standard gauge railroad trackage and turnouts at the new Army Air Corps Supply Depot, near North Sacramento.

**BIDS WANTED**

ALAMEDA COUNTY, Cal.—Until February 2, 2 P. M. bids will be received by the State Department of Public Works, San Francisco-Oakland Bay Bridge Division, C. H. Purcell, Chief Engineer, Room 811, 500 Sansome St., San Francisco, for the construction of the East Bay Yard substructure of the railway facilities of the San Francisco-Oakland Bay Bridge.

The work involves:  
East Bay Yard and Southern Pacific Crossing

- (1) 16,000 cu. yd. ballast
  - (2) 20,000 lf. cross-tied timber piles 10- to 50-ft. long
  - (3) 25,000 lf. do. 50- to 79-ft. long
  - (4) 25,000 lf. do. shaft or over 82 ft.
  - (5) 20,000 lf. untreated timber piles 10- to 51-ft. long
  - (6) 70,000 lf. do. 55- to 69-ft. long
  - (7) 40,000 lf. do. 70- to 84-ft. long
  - (8) 27,000 lf. do. 55-ft. or over
  - (9) 4,740 cu. yd. concrete in footings
  - (10) 1,700 cu. concrete abutment footings
  - (11) 1,000,000 lb. roof steel
  - (12) 80,700 lb. anchor bolt material
  - (13) 60 MEFB (100 lb. units) or 60,000 lb. MEFB
  - (14) 880 MEFB (100 lb. units) or 88,000 lb. MEFB
  - (15) 62,000 lb. hardware timber
  - (16) 2,600 blks. extra Portland Cement
- Port of Oakland Overhead

- (17) 2,800 c.y. excavation;  
 (18) 8,000 lf. untreated timber piles, 55- to 69-ft. long;  
 (19) 9,000 lf. do. 70- to 84-ft. long;  
 (20) 70,000 lf. do. 85-ft. or over;  
 (21) 1,750 c.y. concrete in footings;  
 (22) 1,600 c.y. concrete above footings;  
 (23) 600,000 lbs. reinf. steel;  
 (24) 20,000 lbs. anchor bolt material;  
 (25) 1,000 c.y. rock (wall);  
 (26) 5,000 c.y. sand (fill);  
 (27) 1,600 tons imported base material;  
 (28) 800 tons crusher run base;  
 (29) 400 tons asphalt concrete;  
 (30) 400 bbls. extra portland cement.

NOTE: The engineer reserves the right to eliminate entirely from this contract the substructure of the Port of Oakland overhead crossing, covered by Items 17 to 30, inclusive. Should the engineer act under such right, the contractor shall make no claim whatsoever for the elimination of this part of the work and shall claim no compensation under Items 17 to 30.

Plans and specifications obtainable from the above office upon deposit of \$50, of which amount \$10 will be returnable.

## 29—STREETS AND HIGHWAYS

### BIDS WANTED

SAN BENITO, Monterey, San Luis Obispo, and Santa Barbara Counties, Cal.—Until Feb. 17, 2 P. M. bids will be received by the State Division of Highways, L. H. Gibson, District Engineer, 50 Higuera St., San Luis Obispo, for furnishing and applying diesel oil to roadside vegetation for a distance of 200 miles at various locations in San Benito, Monterey, San Luis Obispo, and Santa Barbara Counties.

Plans and specifications obtainable from the above office.

### BIDS OPENED

STANISLAUS, Calaveras, Amador and Tuolumne Cos., Cal.—Sheldon Oil Co., Suisun, at \$2.49 per barrel, total \$3,125.00 submitted bid to the State Division of Highways, R. E. Pierce, District Engineer, Stockton, for applying diesel oil to roadside vegetation for a distance of about 176 roadside miles in Calaveras, Stanislaus, Tuolumne and Amador Counties, at various locations, requiring 1,250 bbls. of oil.

Complete bids follow:  
 Sheldon Oil Co., Suisun: \$2.49 per bbl.; total, \$3,125.00.

Garcia Const. Co., Irvington: \$3.15 per bbl.; total, \$3,937.50.

Lee J. Imbry, Berkeley: \$3.24 per bbl.; total, \$4,050.

The bid of Pacific Truck Service, Inc., San Jose, was irregular and not declared.

### LOW BIDDER

MARICOPA COUNTY, Ariz.—Pearson & Dickerson, P. O. Box 471, Phoenix, at \$135,655 submitted low bid to the Arizona State Highway Commission, Phoenix, for the construction of the Tempe-Mesa Highway, F. A. S. 2nd reopening (1937) A. F. 8007.

The work, which extends westerly 31 miles from the west city limits of Mesa, consists of concrete pavement widening the furnishing and placing of imported borrow, aggregate base course and cutback plant mix, and other work and is to be completed on or before July 15, 1937.

The principal items and approximate quantities are:

- 17,000 cu yds. roadway excavation;  
 5,100 cu yds. drainage excavation;  
 750 cu yds. strain excavation;  
 14,900 cu yds. imported borrow;  
 14,900 cu yds. aggregate base course;

- 980 M. gals. sprinkling;  
 390 hours rolling;  
 47,000 sq. yds. concrete pavement;  
 146 cu. yds. Class A concrete;  
 6,500 lbs. reinforcing steel;  
 1,750 tons cutback plant mix;  
 80 tons cutback asphalt;  
 22,600 gal. SC-2 road oil;  
 90 tons screenings;  
 300 tons cover coat (concr. sand);  
 300 lin. ft. C. M. pipe (3 sizes);  
 23,400 lin. ft. line fence;  
 9,300 lin. ft. reconstruct fence;  
 29 each steel gates;  
 1,853 lin. ft. plain concrete pipe (under rdwy.); (2 sizes);  
 2,240 lin. ft. plain concrete pipe (not under rdwy.); (3 sizes);  
 728 lin. ft. reinf. concrete pipe (2 sizes);  
 5 each manholes;  
 54 lin. ft. concrete railroad crossing.

Tanner Constr. Co. submitted the 2nd low bid at \$140,178.

### AWARD RECOMMENDED

PLUMAS COUNTY, Calif.—Award of a contract to R. R. Carlson, Weber Ave. and E. St., Stockton, at \$56,353.60, for grading 3,259 miles of Sections C. D. and E. of Route 20, the Almanar National Forest Highway, Plumas National Forest, Plumas County, has been recommended by District Engineer C. H. Sweetser, U. S. Bureau of Public Roads, San Francisco.

### BIDS WANTED

SAN FRANCISCO—Until February 17, 2:30 P. M., bids will be received by the Department of Public Works, Room 251, City Hall, under Spec. No. 19,013, for the reconstruction of the pavement on Pennsylvania Avenue, between 18th and 19th Streets. Estimated cost \$4000.

The work involves:

- (1) 60 lin. ft. resetting curbs.  
 (2) 20 lin. ft. new granite curb, in place.  
 (3) 8000 sq. ft. 6-in. Class E concrete pavement, center strip.  
 (4) 20 tons asphaltic concrete binder, in place.  
 (5) 15,600 sq. ft. asphaltic concrete wearing surface.  
 (6) 15,000 sq. ft. remove existing pavement as directed and replace with asphaltic concrete pavement, consisting of 6-in. Class F concrete base and 2-in. asphaltic concrete wearing surface.  
 (7) 8 tons asphaltic concrete conform pavement.  
 (8) 200 sq. ft. resetting basalt blocks.  
 Plans and specifications obtainable from the office of City Engineer John J. Casey, Room 351, City Hall, upon cash deposit of \$10.

### CONTRACT AWARDED

SAN FRANCISCO Plombo Bros. & Co., 1571 Turk St., at \$497.50 awarded contract by the Department of Public Works, City Hall, under Spec. No. 15,969 for the improvement of Bemis Street between Castro and Mateo Streets.

### CONTRACT AWARDED

PINAL COUNTY, Ariz.—Tiffan Const. Co., 535 N. 7th St., Phoenix, at \$41,119.82 awarded contract by the Arizona State Highway Commission for construction of the Mesa-Superior Highway, FA 7 2nd Reopening (1937) AFE 501. The work which is to begin about 3.9 miles northwest of Florence Junction and is to extend southeasterly to Florence Junction over a recently constructed new alignment, consists of furnishing and placing aggregate base course and 90-95 road oil plant mix and is to be completed on or before May 31, 1937.

### CONTRACT AWARDED

MARICOPA COUNTY Ariz.—N. G. Hill & Co., 1145 W. Culver, Phoenix, at \$71,982.93 awarded contract by the Arizona State Highway Commission, T. S. O'Connell, State Highway Engineer, Phoenix for construction of the Ajo-Gila Bend Highway WPSB 120, AFE 616. The work, which is to begin at the Maricopa County line about 9 miles north of Ajo and is to extend northerly a distance of about 1.3 miles, consists of grading, draining and the furnishing and placing of aggregate base course and asphaltic surface treatment, and is to be completed on or before Sept. 30, 1937.

### BIDS WANTED

CLARK CO., Nev.—Until February 17, 2:30 p.m., bids will be received by the Nevada State Highway Directors, Robert A. Allen, State Highway Engineer, Heroes Memorial Bldg., Carson City, for the construction of a portion of the highway system in Clark County, from Las Vegas to a point approximately three miles southwest of Apex, Route 6, Sections D2 and D1, a length of approximately 11.6 miles.

The work involves:

- (1) 1,466 lf. remove culvert pipe;  
 (2) 96 each, remove culvert headwalls;  
 (3) 2 each, remove culverts (wood-  
 (4) 41,510 cu. yds. roadway excav.;  
 (5) 149,855 sta. yds. overhaul;  
 (6) 85,730 cu. y. channel excav.;  
 (7) 121,650 tons crushed gravel or stone subbase;  
 (8) 169,760 cu. y. imported borrow;  
 (9) 3,670 cu. y. struct. excav.;  
 (10) 11,563 cu. y. subgrade;  
 (11) 11,563 cu. y. shoulders;  
 (12) 11.6 mi. finish roadway;  
 (13) 31,100 tons plant-mix crushed gravel or stone base;  
 (14) 16,000 tons crushed gravel or stone surface;  
 (15) 5,250 M. gals. water;  
 (16) 879 tons asphaltic road material, Type 95 plus;  
 (17) 1,037 tons asphaltic road material, Type SC-2;  
 (18) 160 tons emulsified asphalt, penetration;  
 (19) 1,130 tons screenings;  
 (20) 1,670 tons plant-mix asphaltic surface;  
 (21) 732 cu. y. Class A concrete;  
 (22) 60 cu. y. Class B concrete;  
 (23) 281 cu. y. Class D concrete;  
 (24) 136,034 lbs. reinforcing steel;  
 (25) 242 MFEM Redwood lumber;  
 (26) 2,535 lf. treated piles;  
 (27) 98 each, drive treated piles;  
 (28) 275 lf. 18-in. CMP (dipped);  
 (29) 158 lf. 24-in. CMP (dipped);  
 (30) 975 cu. y. hand laid riprap (grouted);  
 (31) 2 each, move pipe culvert headwall;  
 (32) 30 lf. relay culvert pipe;  
 (33) 76 each culvert markers;  
 (34) 11.6 mi. salvage and relay surface;  
 (35) 290 hours, 75-hp. crawler type tractor;  
 (36) 260 hours, 10-ft. blade grader;  
 (37) 700 hrs., 75-hp. tractor with power scraper;  
 (38) 600 hours, motor grader;  
 (39) 2,000 hours, 1½-ton truck;  
 (40) Force Account, construct and maintain detours;  
 (41) 20 lf. concrete railing.  
 Plans and specifications obtainable from the above office upon deposit of \$5 of which amount \$2.50 will be returnable and on file at the office of the Bureau of Public Roads, Federal Office Bldg., San Francisco.

### BIDS OPENED

SANTA MARIN AND NAPAVES, Calif.—Chas. Kuppinger, Box 356 Lakewood at \$2.39 per bbl., total \$5,975, submitted low bid to the State

Division of Highways, Jno. H. Skeggs, District Engineer, San Francisco, for applying diesel oil to roadside vegetation for a distance of 188.5 miles, at various locations in Sonoma, Marin and Napa Counties, requiring 2,500 bbls. of oil.

Complete bids follow:  
Chas. Kuppinger, Lakeport—\$2.39 per bbl.; total, \$5,975.

E. A. Forde, San Anselmo—\$2.58 per bbl.; total, \$6,450.

Basalt Rock Co., Napa—\$2.75 per bbl.; total, \$6,825.

Lee J. Immel, Berkeley—\$2.77 per bbl.; total, \$6,925.

Tieslau Bros., Inc., Berkeley—\$2.92 per bbl.; total, \$7,300.

Hayward Bldg. Materials Co., Hayward—\$3.39 per bbl.; total, \$8,250.

**BIDS WANTED**

**LAS VEGAS, Nev.**—Until Feb. 8, 4 p.m., bids will be received by the Las Vegas city commission for constructing street improvements in accordance with specifications which may be obtained at the office of the engineer, C. D. Baker, 115 S. 4th St., Las Vegas, upon deposit of \$5.00. Certified or cashier's check for 5% must accompany each proposal. Viola Burns, City Clerk.

**CONTRACT AWARDED**

**LOS ANGELES**—Santo Tedesco, 1414 1/2 S. Vermont Ave., awarded contract by the Los Angeles board of public works, at \$13,245.29, for grading, paving and otherwise improving Chautauque Blvd., between Vance St. and Malibu Road, a cash contract.

**BIDS WANTED**

**STATE OF OREGON**—Until February 4, 9 a.m., bids will be received by the Oregon State Highway Commission, R. H. Baldock, State Highway Engineer, auditorium, 3rd floor, Public Service Bldg., Portland, for highway and bridge construction, as follows:

**Baker County**—Gales-Lime Section of Old Oregon Trail, 9.08 miles penetration type bituminous macadam wearing surface and 0.50 mile oil mat surface treatment; also, furnish 3,000 cu. yds. crushed rock in stock piles. Requires approximately 112,000 sq. yds. bituminous macadam wearing surface and oil surface treatment; 3,000 cu. yds. gravel or talus shoulder materials, and 4,600 cu. yds. crushed rock.

**Clatsop County**—Elsie-Nehalem River Section of Wolf Creek Highway, 116 miles grading and 9.15 mile additional clearing. Requires approximately 225,000 cu. yds. excavation.

**Curry County**—Curry County Rock Production Project on the Oregon Coast Highway, Furnish 17,400 cu. yds. crushed gravel in stockpiles.

**Douglas County**—North Roseburg Section of Pacific Highway, 0.72 mi. grading, requiring approximately 106,000 cu. yds. of excavation. (May be bid in combination with the Deer Creek Bridge Project in Douglas County.)

**Douglas County**—Construction of a concrete bridge over Deer Creek and a concrete retaining wall near Junior High School on the Pacific Highway in Roseburg. Requires approximately 819 cu. yds. excavation; 970 cu. yds. concrete; 251,000 pounds metal reinforcement; 530 lin. ft. concrete handrail and 330 lin. ft. triangle mesh fence. (May be bid in combination with North Roseburg grading project.)

**Douglas County**—Shady Point-Kelly Corner Section of Pacific Highway, 0.36 mile grading and 2.26 mi. Portland cement concrete pavement. Requires approximately 2,900 cubic yards excavation; 6,000 cu. yds. of gravel base; 2,500 cu. yds. crushed

**ALL-AMERICAN CANAL—HIGHWAY BRIDGES—GOVT**

**ALL-AMERICAN CANAL**—Lewis Chambers Const. Co., 801 Baronne Bldg., New Orleans (local office at Calexico, Calif.) at \$74,258, as previously reported, submitted low bid to the Bureau of Reclamation, Federal Highways, Yuma, R. E. Williams, Construction Engineer, under Spec. No. 717, for the construction of highway bridges, All-American Canal, Station 1635 to 1930, All-American Canal System, Boulder Canyon Project.

The work involves:

**SCHEDULE NO. 1**

- Highway bridge, All-American Canal, Station 1635-49.3
- (1) 9,400 c.y. excavation for struc.;
- (2) 850 c.y. concrete in approaches;
- (3) 440 c.y. concrete in piers;
- (4) 660 c.y. concrete in deck of steel portion of bridge;
- (5) 250,000 lbs. placing reinf. bars;
- (6) 8,300 c.y. backfill about struc.;
- (7) 3,000 c.y. puddling or tamping backfill about structure;
- (8) 200 c.y. riprap;
- (10) 6 MFEM installing timber railings, wheel guards, and paving-notch buffers.

**SCHEDULE NO. 2**

- Highway bridge, All-American Canal, Station 1930-302.2
- (11) 29,200 c.y. exca. for canal;
- (12) 3,500 c.y. do for structure;
- (13) 610 c.y. concrete in piers and abutments;
- (14) 320 c.y. concrete in deck;
- (15) 19,000 lbs. placing reinf. bars;
- (16) 2,700 c.y. backfill about struc.;
- (17) 1,000 c.y. puddling or tamping backfill about structure;
- (18) 100 c.y. riprap;
- (19) 299,000 lbs. erecting structural steel in bridge;
- (20) 6 MFEM installing timber railings, wheel guards, and paving-notch buffers.

Total bids follow:

# Eureka Mills

Sash, Door & Moulding

OFFICE AND FACTORY

1715 Mission Street, SAN FRANCISCO

rock or crushed gravel in shoulders; and 29,400 sq. yds. Portland cement concrete pavement.

**Linn County—Shedd-Halsey Section of Pacific Highway.** 7.34 miles grading and asphaltic concrete pavement. Requires approximately 85,000 cu. yds. excavation; 35,000 cu. yds. of crushed rock, and 101,000 sq. yds. asphaltic concrete pavement.

**Multnomah County—Rocky Point Section of Columbia River Highway.** 1.05 mile grading and Portland cement concrete pavement. Requires approximately 54,000 cu. yds. excavation; 650 lin. ft. cable guard fence; 110 cu. yds. concrete; 1,200 lbs. metal reinforcement; 12,700 cu. yds. of crushed rock; 2,000 cu. yds. salvaged surfacing materials; 12,500 sq. yds. Portland cement concrete pavement; 18,500 sq. yds. oil mat surface treatment; and 350 sq. yds. asphaltic concrete pavement.

**Wheeler County—Unit No. 3.** Chichester Gulch-Summit Section of Shaniko-Fossil Secondary Highway. 0.95 mile grading, requiring approximately 21,500 cu. yds. excavation, and 1,000 cu. yds. soil topping materials. Plans and specifications obtainable from the office of the State Highway Commission, Room 322, State Office Bldg., Salem, upon deposit of \$5.00 per set.

#### BIDS WANTED

**LINCOLN Co., Nev.—**Until February 17, 2 p.m., bids will be received by the Nevada State Highway Directors, Robert A. Allen, State Highway Engineer, Heroes Memorial Bldg., Carson City, for the construction of a portion of the highway system in Lincoln County from a point approximately 0.5 mi. north of Caliente to a point approximately one mile north of Panaca Junction, Route 7, Section C, a length of app. 14.32 miles.

The work involves:

- (1) 43,966 l.f. remove fence;
- (2) 456 l.f. remove culvert pipe;
- (3) 32 each, remove culvert head-walls;
- (4) 187,400 c.y. roadway excav.;
- (5) 660,600 sta. yds. overhaul;
- (6) 50,300 c.y. imported borrow;
- (7) 2,040 c.y. struct. excav.;
- (8) 1428 m. subgrade;
- (9) 1432 m. finish roadway;
- (10) 91,000 tons select base;
- (11) 74,000 tons crushed gravel on stone surface;
- (12) 6,171 M. gals water;
- (13) 563 c.y. Class A concrete;
- (14) 57 c.y. Class B concrete;
- (15) 58,500 lbs. reinforcing steel;
- (16) 1153 MFBM Redwood lumber;
- (17) 2,845 l.f. treated piles;
- (18) 93 each, drive treated piles;
- (19) 78 l.f. 15-in. CMP (dipped);
- (20) 560 l.f. 18-in. CMP (dipped);
- (21) 1,050 l.f. 24-in. CMP (dipped);
- (22) 138 l.f. 30-in. CMP (dipped);
- (23) 114 l.f. 36-in. CMP (dipped);
- (24) 218 l.f. relay culvert pipe;
- (25) 141 each, move pipe culvert head-walls;
- (26) 177 each, monuments;
- (27) 8,495 l.f. construct fence;
- (28) 41,649 l.f. reconstruct fence;
- (29) Force Account, swamp embankment;
- (30) 105 l.f. 2x2-ft. laminated culvert;
- (31) 37 l.f. 3x3-ft. laminated culvert;
- (32) 4 each, 14-ft. standard steel gates;
- (33) One each, 24-in. lateral head-gate;
- (34) 400 lbs. castings;
- (35) 128 l.f. furnishing 18-in. CMP (dipped);
- (36) 64 l.f. furnish 24-in. CMP (dipped);
- (37) 40 c.v. rock dam.

Plans and specifications obtainable from the above office upon deposit of \$5 of which amount \$2.50 will be

returnable; and on file at the office of the Bureau of Public Roads, Federal Office Bldg., San Francisco. \*

#### CONTRACT AWARDED

**LOS ANGELES—Lewis Construction Co.** 3440 W. 2nd St., awarded contract by the Metropolitan Water District, Los Angeles, at \$16,450, for furnishing, operating and maintaining road building equipment and constructing and repairing roads along the district's 230 kv. transmission line between Boulder Dam and the Gene, Iron Mt., Eagles Mt. and Hayfield pumping plants. Spec. No. E-590.

#### BIDS OPENED

**ALAMEDA, CONTRA COSTA and SANTA CLARA COS., Calif.—**Pacific Truck Service, Inc., 646 Park Ave., San Jose, at \$22 per bbl., total \$5,330, submitted low bid to the State Div. of Highways, Jno. H. Skeggs, District Engineer, San Francisco, for applying diesel oil to roadside vegetation for a distance of 111.5 mi. at various locations in Alameda, Contra Costa, and Santa Clara Counties, requiring 1,500 bbls. of oil.

Complete bids follow:

Pacific Truck Service, Inc., San Jose—\$22 per bbl.; total, \$3,330.

#### PLUMAS COUNTY—3.259 MILES GRADING—GOVT.

**PLUMAS COUNTY—R. R. Carlson, Weber Ave. and E St., Stockton,** at \$56,353.60 submitted low bid to the Bureau of Public Roads, C. H. Sweetser, District Engineer, San Francisco, for 3.259 mi. grading on Sections C, D, and E of Route 20, the Almanar National Forest Highway, Plumas National Forest, Plumas County.

The work involves:

- (1) 7 A. clearing (Section C)
- (2) 6 A. clearing (Sections D & E)
- (3) 18 A. cleanup clearing (Section C)
- (4) 26,000 c. y. unclassified excavation (Section C)
- (5) 33,000 c. y. do. (Sections D & E)
- (6) 1,000 c. y. do. for structures
- (7) 9,150 c. y. do. for borrow
- (8) 10,700 c. y. subgrade reinforcement
- (9) 130,000 sta. yds. overhaul
- (10) 18,800 c. y. m. haul
- (11) 435 l. f. 8 inch perforated C. G. M. P.
- (12) 152 l. f. 8 inch asphalt dipped C. G. M. P.
- (13) 996 l. f. 18 inch do.
- (14) 254 l. f. 24 inch do.
- (15) 232 l. f. 30 inch do.
- (16) 34 l. f. 36 inch do.
- (17) 7 each, Type A spillway inlets
- (18) 118 c. y. Class A concrete

Griffith Co.—(1) \$3.45 ton; total, \$10,350. (2) \$3.45 ton; total, \$12,075. (3) \$3.50 ton; total, \$875.  
 Sully-Miller Contracting Co., Long Beach—(1) \$3.45; \$10,440; (2) \$3.65; \$12,880; (3) \$3.95; \$975.

**32—SEWERS & SEWAGE DISPOSAL PLANTS**

**PLANNED**

**PETALUMA**, Sonoma Co., Calif.—John S. Bates, sanitary engineer, 3134 Eton, Berkeley, has presented recommendations to the Petaluma City Council for the design, construction problems, and estimated cost of a proposed sewer system and treatment plant.

Sat Gonzalez, City Engineer.

January 29, 1937.

**BIDS OPENED**

**LOS ANGELES**—Bennett & Taylor, 1041 Venice Blvd., submitted low bid to the Los Angeles board of public works, City Hall, at \$9466, for remodeling of the Fish Harbor sewage pumping plant at Terminal Island, San Pedro. PWA Project No. 5633, Unit No. 9. The work consists of construction of a concrete wall in the sewage pit, placing pumps in a trench and confining sewage gas to the wet well; removal of existing walls and floors; construction of concrete floors for the motor room and rake room; concrete wall in the pit; installation of new pumps with piping and fittings, floats and float wells, ventilation system, steel stairway and ladders, and a fence around the plant.

The other bids were:

R. H. Travers—\$10,800.  
 R. H. Liggitt—\$11,180.  
 Contracting Engineers—\$11,230.  
 Hoagland Eng. & Constr. Co.—\$12,850.

The bond accompanying the bid of Bennett & Taylor was not signed by the principals.

**ENGINEER RETAINED**

**BAKERSFIELD**, Kern Co., Calif.—Clyde C. Kennedy, consulting engineer, 543 Call Bldg., San Francisco, has been retained by the Bakersfield City Council as consultant in connection with the preparation of plans for the proposed sewage disposal plant. Mr. Kennedy is to receive \$200 per month for a period of not less than 8 months nor more than 10 months, averaging eight days actual service per month. The selection was made upon the recommendation of City Manager Fred W. Nightbert and City Engineer Joe Holfelder.

**33—WATER WORKS**

**BIDS WANTED**

**BONNEVILLE**, Ore. — Until February 16, 3 p.m., bids will be received by the U. S. Engineer Office, Second

Portland District, 627 Pittcock Block, Lieut.-Col. C. F. Williams, District Engineer, under Bid No. 694-37-261, for sandblasting and applying bituminous enamel to the waterways of the station service turbine unit in the Bonneville powerhouse at Bonneville. A total of 4,396 sq. ft. are to be sandblasted and enameled. Plans and specifications obtainable from the above office.

**ANNEXATION PLANNED**

**LOS ANGELES**—Annexation of a large area in Southeastern Ventura County to the Metropolitan Water District has been advanced in an informal application received by the district board of directors, according to a report issued by W. F. Whitsett, chairman of the board. The application, which was signed by Wayne W. Montgomery, chairman of the water committee for southeastern Ventura County, stated that a representative group of property owners in that territory was interested in securing water from the Metropolitan Water District and wished to be advised as to the steps to be taken to effect annexation of their territory to the district.

This application was made following a recent meeting of members of the Ventura County group with officials of the Metropolitan Water District. The matter has been turned over to the water problems committee of the district board of directors. This committee is composed of Directors Franklin Thomas of Pasadena, S. H. Finley of Santa Ana, J. H. Farnbo of San Marino, and John R. Richards and Victor H. Rossetti of Los Angeles.

During the past year the board of directors of the Metropolitan Water District received requests for information relative to joining the district from areas totaling approximately 400,000 acres, and extending from Ventura County to the City of San Diego.

At the present time the Metropolitan Water District is composed of the cities of Los Angeles, Anaheim, Beverly Hills, Burbank, Compton, Fullerton, Glendale, Long Beach, Pasadena, San Marino, Santa Ana, Santa Monica and Torrance.

**CONTRACT AWARDED**

**SAN FRANCISCO**—General Engineering & Drydock Co., 1100 Sansome St., at \$1,255 each, total \$10,040, awarded contract by T. A. Brooks, Purchaser of Supplies, City Hall, under Bid No. 1698, for furnishing eight valve-operating mechanisms for the San Francisco high-pressure water system.

## EUREKA ASKS FOR OUTFALL SEWER BIDS

**New Proposals To Open Feb. 25; Schedule Has Alternate Pipe Items**

New bids for construction of the Washington street sanitary outfall sewer in Eureka have been invited by the city council, and are scheduled for opening February 25.

Bids taken for the project in November were rejected because they exceeded available funds. At that time Mercer-Fraser Co. of Eureka submitted the lowest of two bids, at \$74,677. Hanrahan Co. and T. E. Connolly, San Francisco, submitted the only other proposal, with a figure of \$77,995.

The project is located in Washington street between Broadway and the government bulkhead line.

### Schedule Differs

The bidding schedule for the re-advertised contract differs in several respects from that on which bids were taken previously. Principal items which contractors will figure include 2577 feet of 36-inch pipe, either vitrified clay or standard reinforced concrete sewer pipe; 400 feet of redwood sill with continuous concrete saddle, and an outlet block unit.

Bids previously were taken only for the reinforced concrete pipe, but the current contract includes alternate proposals to allow a choice between the two types.

Plans and specifications are obtainable from City Engineer Evan D. Gardner, Eureka city hall, upon deposit of \$10.00.

## AIR CONDITIONING COSTS DISCUSSED

A booklet entitled "Consolidated Odor Absorbers in Air Conditioning", is a recent publication of Consolidated Air Conditioning Corp., 114 East Thirty-second St., New York. Cost of operating air conditioning systems, together with a complete set of tables for various air volumes, is discussed in the booklet. Copies may be obtained by writing the firm.

## Reclamation Bureau Advertises Friant Camp Buildings; Bids Open March 3-6

SACRAMENTO, Feb. 8.—The Reclamation Bureau office here today called for bids on four contracts for construction of buildings and facilities at the government camp at Friant dam site. Bids on the four contracts will be opened in Sacramento March 3, 4, 5 and 6.

Today's development added new interest to the rush of activity

surrounding the imminent start of actual construction on all projects. With bids scheduled for opening March 1 on a four-mile section of the Contra Costa conduit, and government approval of the Kennett dam site announced, letting of major construction work on all three sections of the project was at hand.

Contracts advertised for bids today, and the dates on which bids will be opened, were as follows:

### Water Tank

March 3—construction of a 100,000-gal. circular steel water tank, to be erected on a gravel foundation prepared by government forces.

March 4—construction of twenty-five duplex cottages at the camp. The cottages may be of pre-fabricated construction or may be built in place. Each cottage will be about 61 feet 6 inches by 34 feet in size and will be divided into two residences by garage-space between.

March 5—construction of an office building, two dormitories, 3 six-room residences, five five-room residences, ten four-room residences, and ten two-room residences. Buildings will be of wood frame construction. The dormitories will be two stories in height, the other structures one story. Under one corner of the office building a concrete basement will be constructed. Other buildings will have no basements.

### Testing Laboratory

March 6—construction of a concrete testing laboratory and a combined garage and fire station. The testing laboratory will be about 29 feet by 54 feet in size, and the garage and fire station will be approximately 50 by 121 feet in size. The laboratory will have a roof of mineral surfaced, asphalt prepared shingles, while the garage and fire station roof will be of galvanized corrugated metal.

## GRAND CANYON APPROACH ROAD BIDS INVITED

**Bureau Advertises North Rim Grading; Bids Open February 25**

Bids for grading and placing crushed gravel base course on about 40 miles of approaches to Grand Canyon National Park in Arizona were invited last week by the U. S. Bureau of Public Roads. They are to be opened February 25 in Phoenix.

The Bureau has programmed \$368,358 for this and other work on the route.

The contract advertised last week calls for work on a portion of Route 4, Bright Angel Spring-North Entrance, and on Sections C, D, E and F of the Jacobs Lake-North Rim Approach roads in Coconino county, a distance of 39.93 miles.

Among major items in the bidding schedule are 35 acres clearing, 124,600 cubic yards unclassified excavation, 60,000 cubic yards stripping pits, 37,550 cubic yard excavation for borrow, 62,000 cubic yards subgrade reinforcement, 24,000 tons crushed gravel base course, 1,185 tons applying asphalt road material, and others.

## PLANNING \$100,000 NEVADA COURTHOUSE

Commissioners of Churchill Co., Nev., will apply to PWA for a 45 per cent grant toward construction of a new county courthouse in Fallon. It was announced this week. Plans have not yet been prepared for the project, but its total cost is estimated at approximately \$100,000.

## END OF STRIKE BRINGS LUMBER BUSINESS RUSH

**Northwest Mills Order File  
Large; Many Plants  
To Reopen**

With the maritime strike concluded, Oregon and Washington lumber producers this week prepared for increased shipments and general business gains, and many tidewater plants closed since the strike started were scheduled to resume production.

The week ended January 30 saw the unfilled order file at 171 mills reporting to the West Coast Lumbermen's Association at 874,728-276 feet, the association revealed.

### Reopen This Week

Reports said many closed mills were to reopen this week, with a return to pre-strike levels due before the end of the month.

At the close of three months' of curtailed production and shipments a total of 171 mills reported to the association for the week ending January 30, showing principal activity in 67,483,944 feet of lumber sold to the rail market, and shipments in the same division of 65,632,553 feet. No shipments were reported in the water markets for the week.

Production continues at low levels, the 171 mills reporting a total of 74,827,892 feet of lumber made during the week. The industry produced at 47.5 per cent of its average weekly cut during 1926-1929.

## Reinforcing Steel Awarded to Bidder Farthest from Job

Secretary of the Interior Harold L. Ickes has announced the award of contract covering reinforcing steel for use in construction of Bartlett Dam of the Salt River Federal Reclamation project in Arizona to the Sheffield Steel Corporation.

Both the Sheffield Steel Company, which ships from Kansas City, Mo., and the Bethlehem Steel Corp., which would ship from Los Angeles, submitted bids in identical amount of \$28,991.84 fob destination, with a net delivered cost to the Government in each case of \$26,124.54.

Three bids were received by the Bureau of Reclamation at its Denver, Colo., office, November 30; the two bids which were identical were also lower than the third offer. The award was in line with the announced policy of letting contracts where identical bids are submitted to the bidder whose shipping point is farthest from the job site, Secretary Ickes said.

## PORTLAND DOCK CONTRACT LET

The Portland city commission of public docks has awarded the contract for reconstruction and improvement of Municipal Terminal No. 1 to Geo. H. Buckler Company at \$728,449, it was announced yesterday. The low bid of L. H. Hoffman, Portland, was declared irregular by the commission, and the contract let to the Buckler company, whose figure was second low. Contract price was reached by deduction of the first three alternates in the bidding schedule.

The project includes construction of a new warehouse, widening the quay dock, reconstruction of pier platform, constructing an open dock area, and other work.

## Start Vocational Training for 150 Paint Apprentices

Vocational training for 150 boys recently enrolled as apprentices in the painting, paperhanging and decorating trades will begin within ten days, according to C. E. Barker, director of industrial arts of the San Francisco Public Schools.

Last week the Board of Education voted to turn the Hearst School, located at Fillmore and Hermann streets, over to those responsible for the training of apprentices. The lack of proper classroom facilities had been holding up this phase of the apprentice training program. Since the Hearst School is used by the P. T. A. in the day time classes will be held at night only. The entire situation is ideal, according to Barker.

### Training Required

The recently adopted plan for training of apprentices in the painting, paperhanging and decorating trades requires that the apprentices have a minimum of 144 hours vocational training for each of the four years of the apprenticeship. Subjects to be taught during the first year will be: high lights of the painting trade; science of the trade; mathematics of the trade, and general and civic training.

Examinations will be given on priming, puttying and sandpapering woodwork; preparing and sizing of walls; removing wallpaper, calcimine and paint; making putty and technical knowledge and trade terms.

San Bernardino building permits last month totaled \$123,589, the city building inspection department reports. Eleven permits for new non-residential buildings to cost \$16,860 were issued.

## BRIDGE SAFETY AWARDS GRANTED 2 CONTRACTORS

**Healy-Tibbitts, Clinton Will  
Receive Certificates  
of Merit**

Certificates of merit, awarded for their safety records during a total of 1,906,186 man-hours of construction work on the San Francisco-Oakland Bay Bridge, are to be presented to Healy-Tibbitts Construction Co. and Clinton Construction Co., it was announced Saturday.

A total of 1,266,985 man-hours spent in construction of sub-surface concrete work in caissons, with no workers killed and only one injured, was the record of Healy-Tibbitts, according to the Industrial Accident Commission report.

Clinton Construction Co. has a record of no one killed and only a few minor injuries, according to the report.

### Signed by Officials

The certificates, to be presented as soon as they are returned from Sacramento, will bear the signatures of Timothy A. Reardon, chairman of the Industrial Accident Commission; Charles Purcell, chief engineer during construction of the San Francisco-Oakland Bay Bridge; Earl Lee Kelly, chief of the State Department of Public Works, and Dr. E. M. Parlett, chairman of the Contractors' Administration Commission.

Reardon said he plans to ask Governor Frank F. Merriam to make the formal presentation.

## COORDINATED RATE GUIDE PUBLISHED

A new convenience for shippers and receivers of goods makes its bow today—the Co-Ordinated Rate Guide, published by Consolidated Guide Corporation and printed by The Cuneo Press, both of 153 N. Michigan avenue, Chicago.

Bound in heavy boards, this guide has 1,350 pages, most of which contain 3,850 rates totaling millions of rate quotations. One thumb - index reference leads the user instantly to the comparative rail, truck, express and parcel post shipping rates from 109 key points throughout the country to thousands of destinations. Air, water and foreign parcel post rates form important sections of the guide. A special section lists thousands of cities, towns and hamlets with the serving rail, truck and navigation carriers.

January building in Lodi amounted to \$67,650, according to the city clerk's report. Residential construction accounted for \$10,750 of the total.

## PLANNING BOND ELECTIONS IN REDDING, LODI

### Funds Needed for Water System, Schools; Vallejo Bonds Proposed

Special elections at which voters will pass on bond issues aggregating \$405,000 for construction of a municipal water system, new schools and school reconstruction are planned in Redding, Lodi and Vallejo, it was learned this week.

Largest of the proposed bond issues is \$200,000, to finance construction of a municipal water system in Redding. The election is expected to be called by the city council Monday night, following passage this week of a resolution declaring the project a public necessity and convenience.

Possibility that a \$55,000 filtration plant proposed for the system by City Engineer W. K. Adams might be eliminated was seen after proponents of the plan told the council they felt \$200,000 would be sufficient to equal the existing system without aid from the Federal Public Works Administration. A grant of approximately \$150,000 will be asked in the hope of constructing the filtration plant and other features of the proposed system.

#### Lodi Election

Trustees of the Lodi grammar school district this week decided to call a special election in March, at which time a \$135,000 bond issue for school work will be submitted to the voters.

With funds the bonds would provide the district proposes to purchase additional ground at Needham school and construct a 12-room building, install a heating plant in the new building, modernize the old heating plant and the auditorium, construct a new room at Garfield school, install a new heating plant at Lincoln school, and undertake an extensive program of remodeling at Emerson school.

Vallejo school district trustees decided to call a bond election to provide funds "of sufficient amount" for construction and improvements which a recent survey found necessary. Unofficial estimates placed amount of the bonds to be issued at \$70,000, contingent upon the district receiving a grant which will be asked from PWA.

Present facilities of the Vallejo schools "fall far short of the standards and capacity of adequacy of a modern school plant," Superintendent of School Elmer Cave declared in a recent report to the board.

Sales of mechanical stokers for residential use during December, 1936, amounted to 4,897, as compared to 3078 for the same month in 1935, according to the monthly report of the Bureau of Census.

## Water Rights Guarded in Valley Project Construction, Kelly Tells Land Holders

Assurance that the Water Project Authority of the State of California will guard the interests of all owners of land and water rights in the San Joaquin Valley in the construction of the Central Valley Project were given by Director of Public Works Earl Lee Kelly to representatives of many property holders and irrigation districts affected by the project at a meeting of the Authority in Sacramento.

"The Central Valley Project," Director Kelly told those attending the meeting, "is progressing quite satisfactorily. Since the January session of the Authority three important and very gratifying developments have occurred. The Federal government has determined that the Kennett dam site is the most suitable for the project, thus verifying the investigations of our own engineers on the subject; the Contra Costa conduit unit of the project has been advertised for bids, and Mr. John C. Page has been appointed Commissioner of the U. S. Bureau of Reclamation. All of us have occasion to rejoice that these steps have been taken."

#### Fear Diversion

Some of the representatives of water users in the upper San Joaquin Valley expressed fear that if Friant Dam is completed before Kennett, dam water stored there would be diverted to points south in Tulare, Kern and King counties to the detriment of upper valley land owners.

"The Water Project Authority," Mr. Kelly declared, "never will approve of any move to divert water from one section of the State to another where such diversion would be harmful to any owner of water and land rights. The interests of all present holders of such rights will be carefully guarded. Friant Dam is only one unit of the main project. Kennett Dam is another, the Contra Costa conduit is another.

"All are component parts of the general project and the Water Project Authority in looking forward to the completion of the whole undertaking is determined to safeguard all existing water rights and to see to it that no section of the State benefits at the expense of any other section."

### ADDITIONAL FUNDS NEEDED FOR DAM

The Tucson Chamber of Commerce is considering ways and means to raise \$250,000 required as additional funds to finance the construction of the Sabino Canyon Dam. The government originally estimated the cost at \$750,000, but rising construction costs have caused the engineers to revise their estimates. The additional funds may be secured through a county bond issue. The project is under the supervision of the U. S. Army Engineering Corps. Major Theodore Wynan, Jr., District Engineer.

## BUREAU REPORTS SEASONAL DROP IN EMPLOYMENT

### Private, Public Construction Decline Registered In December

Employment declines from November to December in both public and private building construction are revealed in the monthly survey of the U. S. Bureau of Labor Statistics. The private building employment drop was held to be largely seasonal, while that in public construction was affected partially by the shrinkage of the Federal works program.

Payrolls also declined in both fields, the bureau reported. Following are excerpts from the survey report:

#### Private Building

Seasonal recessions in employment and payrolls from November to December were shown by reports received from 9,697 private building contractors employing 111,565 workers in December. Employment decreased 8.0 per cent over the month interval and payrolls declined 9.0 per cent. Comparisons of employment and payroll in December 1936 with December 1935 show increases of 31 per cent in employment and 52.6 per cent in payrolls over the year interval. The reports cover employees engaged in erecting, altering, and repairing private buildings and do not include employees engaged on projects financed by the Public Works Administration, Reconstruction Finance Corp. funds or regular appropriations of the Federal, State, and local governments.

#### Public Employment

Employment on projects of The Works Program was in excess of 2,251,000 in December, a decrease of 180,000 compared with the number employed in November. Decreases in employment occurred on projects operated by Federal agencies and on projects operated by the Works Progress Administration. More than 2,593,000 workers were engaged on projects operated by the Works Progress Administration. Total payroll disbursements were approximately \$151,102,000 and the value of orders placed for materials exceeded \$51,624,000.

## PWA Bond Sales Profitable, Finance Director Reports; Defaults Are Few

Approximately \$615,500,000, which the Public Works Administration loaned to municipalities and railroads for work creating construction, would be almost entirely recovered with interest on the basis of current surveys, it was reported to Administrator Harold L. Ickes today by B. W. Thoron, Director of PWA's Finance Division.

Latest reports show PWA has collected as interest on its loans the sum of \$18,173,000. This interest is turned over to the Federal Treasury. PWA is continuing to collect interest as it comes due.

Also a profit of \$9,706,000 has been made by PWA on its sale through RFC to the public of bonds taken as collateral for loans. This profit is the cash amount PWA sold the bonds for above the amount it paid for them. Additional profits are being made as additional municipal bonds are put up for sale from the PWA portfolio.

Meanwhile, a total of one-third of one per cent of the amount loaned by PWA to municipalities or railroads is in default, technical or otherwise, in payment on principal or interest. This default total on December 31, 1936, aggregated \$636,000 on 203 issues which amounted to 6.5 per cent of \$9,706,000, the cash profit already realized on resale of bonds.

### Many Technical

A large number of these defaults are technical because they are on bonds and coupons which borrowers are entitled to have cancelled in the final settlement of the grants due them. Others are on revenue bonds issued to construct new systems which require time to develop earning power.

It was necessary for the Public Works Administration, on its creation in June of 1933, to step into the municipal bond market, because the condition of municipal credit and of the private investment market made it impossible for even cities with good credit rating to borrow except at exorbitant rates.

Therefore, in the course of creating employment, it became a duty of PWA to lend money to municipalities and railroads at 4 per cent.

"With the revival of municipal credit and the investment market, PWA, having fulfilled this function has pursued a policy of selling its bonds to the public as opportunity for profitable disposal arises," Thoron continued.

### Private Sale

The Public Works Administration has always encouraged communities to sell their bonds to others, thus enjoying any saving they could achieve through obtaining lower interest rates. As a result, few applicants today seek PWA loans; hundreds who have had applications on file have withdrawn their requests for loans, seeking only grants and securing from other sources, loans the Government might have made.

"From the financial point of

view," Thoron's report continued, "the results of PWA's lending policy have been extremely gratifying.

"The \$615,500,000 worth of securities, purchased up to December 31, 1936, included about \$200,500,000 railroad obligations and \$415,000,000 municipal and other bonds. Of these, over \$195,000,000 of railroad securities and \$270,500,000 of municipal bonds have been sold to the Reconstruction Finance Corporation for resale to the public or to the public directly. The greater part of the proceeds of sales has been reloaned.

"Of the balance of the securities, over \$10,000,000 had either matured in the hands of the Public Works Administration and been paid or had been cancelled by agreement in settlement of grants due borrowers.

### Hold \$133,000,000

"At December 31, 1936, the Public Works Administration still owned slightly over \$133,000,000 par value of bonds all valid, binding and legally enforceable obligations of the issuers made up approximately as follows, and comprising some 1,600 issues.

"Municipal Securities:

General Obligation Bonds	\$33,000,000
Revenue Bonds	71,000,000
Other Special Obligations	4,000,000
Bonds of Limited Dividend	
Housing Corporations	10,000,000
Railroad Securities	5,000,000
Misc. Corporate Securities	10,000,000

"Of the \$471,000,000 bonds purchased by the Reconstruction Finance Corporation from the Public Works Administration for the revolving fund, all had been resold to private investors or had been paid except approximately \$119,000,000, of which \$52,000,000 were obligations of railroad and the balance municipal securities.

## SPRAY-PAINT CLASS STARTS NEXT MONTH

Industrial and master painters, automobile refinishers and all others interested in learning the technique of spray painting and the use and care of spray painting equipment may enroll in the DeVilbiss Company training school for training periods of one week each, the company announces.

Classes start on the following dates: March 1, April 5, May 3, and June 7. Due to limited facilities it is advisable to enroll as far in advance as possible. Complete information may be obtained from the DeVilbiss Company, Toledo, Ohio.

## WILL INVITE GENERAL BIDS SOON, REPORT

### 16-Story Modernistic Structure To Be Constructed for Eastern Firm

A \$3,500,000 hotel will be constructed in downtown San Francisco in the immediate future, it was revealed yesterday, when announcement was made that general bids for the big project will be called within three or four weeks.

Plans and specifications are nearing completion, according to A. F. Krenkel of New York and San Francisco, who said yesterday he had been commissioned by the New York Corporation to prepare the plans. The firm of eastern capitalists will own and operate the hotel, Mr. Krenkel said.

If carried through to completion the hotel will be the largest private building project in San Francisco in recent years.

### Sixteen Stories

It will be 16 stories in height and will contain 1000 rooms, single with baths and in suites, Mr. Krenkel said.

Mr. Krenkel said he was unable to reveal what site had been chosen for the structure, adding that definite announcement as to its location will be made shortly.

An elaborate first-class hotel, with all the most modern of facilities and attractions, is planned by the eastern backers of the project. Representatives of the corporation expect to be in San Francisco the latter part of this week to go over final details of the project, Mr. Krenkel said.

The hotel will have a corner location, and will be "modernistic" in architecture. It will be of steel frame class "A" fireproof construction, according to Mr. Krenkel.

### Roof Garden

Among attractions to be offered by the hotel will be a dining and dancing place on the roof; three dining rooms, roof garden, convention auditorium, a bachelor bar, cocktail lounge and large garage.

One of the outstanding features of the hotel will be a swimming pool, according to Mr. Krenkel.

Space for a number of smart shops will be provided on the ground floor.

Work will be let under a general contract, Mr. Krenkel said, with minor portions of the project withheld for letting under segregated contracts. Decorators and designers for details of interior finishing have not been selected.

The sales of residential mechanical stokers for the year 1936 amounted to 76,376, a substantial increase over the number sold in 1935 which was 41,126, according to the Bureau of Census.

Golden Gate Iron Works—1342, fob San Francisco, 26,500 lbs.,  $\frac{1}{2}$ % 10 days. Independent Iron Works—\$1570, fob Oakland; \$1700 fob Fresno;  $\frac{1}{2}$ % 10 days; 26,000 lbs. Minneapolis-Moline Power & Implement Co.—\$1499, fob Minneapolis 25,200 lbs. Moore Dry Dock Co.—\$1993, fob Oakland, 27,500 lbs.

## PLANNED

**ALAMEDA CO., Calif.**—The County Board of Supervisors has instructed County Auditor Horace P. Ross to prepare a financial statement showing the county's plans for financing their share of the construction cost of the new High Street Bridge, to replace the existing structure across the estuary. The statement will be forwarded to PWA officials in Washington, who have approved the project.

The cost of the structure is estimated at \$62,025, of which the county will pay \$375,113, the remaining 45% to be furnished by a PWA grant.

Burnett Hamilton, County Engineer.

## 22— DREDGING HARBOR WORKS, EXCAVATION

## BIDS WANTED

**SAN FRANCISCO**—Until Feb. 17, 3 p.m., bids will be received by the Public Utilities Commission, Room 267, City Hall, under Airport Dept. Contract No. 39, for constructing an earth and rock fill at the San Francisco Airport.

The work consists of excavating and loading earth and rock at city furnished quarry and depositing it at the airport for levee or seawall and breakerwater.

The work involves 160,000 c.y. of earth and rock fill.

The quarry is located in South San Francisco, near Hillside Drive and Linden Ave.

Specifications obtainable at Room

605, 425 Mason St., upon deposit of \$10.

## CONTRACT AWARDED

The work includes removing the necessary portion of wharf deck, joists, etc., driving twenty-four piles, securing pile heads, replacing wharf deck plank, etc.

Complete bids follow:

Chas. & F. W. Steffen, San Diego ..... \$1,968  
Lipscomb & Barclay, San Diego 1,983  
Frank Legg, San Francisco ..... 2,196

## TO ASK BIDS SHORTLY

**REDWOOD CITY, San Mateo Co., Calif.**—Bids will be asked shortly by the U. S. Engineer Office, Custom House, San Francisco, for dredging Redwood Creek and a turning basin at Redwood Harbor. The Government will match \$94,000 in city funds to finance operations.

## BIDS WANTED

**SAN DIEGO**—Until Feb. 23, 11 a. m., bids will be received by the Public Works Officer, Headquarters, 11th Naval District, foot of Broadway, San Diego, under Spec. No. 8303, for dredging about 32,000 c.y. of material in the vicinity of the piers at the Naval Fuel Depot, San Diego.

Specifications obtainable from the above office upon deposit of \$10

## 23— CANALS

## CONTRACT AWARDED

**SHOSHONE PROJECT, Wyoming**—Morrison-Knudsen Co., Inc., P.O. Box 1518, Boise, at \$182,702.50, awarded contract by the Bureau of Reclamation, Cody, Wyoming, Walter F. Kemp, Construction Engineer, under Spec. No. 716, for the construction of earthwork canal lining and structures, Station 27 to Station 349, Heart Mountain Canal, Heart Mountain Division, Shoshone Project, near Cody, Wyoming.

## BIDS WANTED

**CONTRA COSTA CO., Cal.**—Until March 1, 1934, as previously reported, bids will be received by the Bureau of Reclamation, Walker R. Young, Construction Engineer, 206 Old Post Office Bldg. Sacramento, under Spec. No. 719, for the construction of earthwork and struc-

tures, Station 2 to Station 208 plus 50, Contra Costa Canal, Contra Costa Division, Central Valley Project.

The work comprises construction of about 3.9 miles of open canal and is located near Oakley. The complete canal will be about 40 miles in length and is estimated to cost \$3,200,000 and will have a capacity of 275-second feet.

- (1) 640,000 c.y. excavation for canal
- (2) 5,000 c.y. excavation for pipe trenches and for structures, except siphons;
- (3) 21,000 c.y. excav. for siphons
- (4) 5,000 sta. c.y. overhaul;
- (5) 35,800 c.y. backfill about struc.
- (6) 900 c.y. puddling or tamping backfill about structures;
- (7) 1,425 c.y. concrete;
- (8) 202,000 lbs. placing reinf. bars;
- (9) 75 sq. yds. dry-rock paving;
- (10) 785 c.y. gravel fill under siphons;
- (11) Driving 4,369 lf. of timber piles
- (12) Erecting 123 MPBM timber in structures;
- (13) Laying 2,070 lf. 16-in. diameter concrete pipe;
- (14) Installing 79,300 lbs. steel pipe, 18- and 30-in. dia.;
- (15) Installing 1,600 lbs. misc. metal work.

The work shall be commenced within 30 calendar days and completed within 330 calendar days from the date of receipt of notice to proceed.

Plans and specifications obtainable from the office of the Bureau of Reclamation at Sacramento, Denver, or Washington, D. C., without charge to prospective bidders; to others, \$1.00, not returnable.

Oscar G. Boden, Antioch, resident engineer.

## PLANS ON FILE

**CONTRA COSTA CO., Calif.**—Plans and specifications No. 719, for construction of approximately 3.9 miles of the Contra Costa Canal, are on file at the office of the DAILY PACIFIC BUILDER, where they may be inspected by interested parties.

As previously reported, bids will be opened by the Bureau of Reclamation, Walker R. Young, Construction Engineer, 206 Old Post Office Bldg. Sacramento, March 1, 10 a.m.

Bids will be asked as soon as February 10 1937.

**BIDS OPENED**

**RIVERSIDE** CO., Calif.—Southern California Roads Co., 2145 E. 25th St., Los Angeles, at \$7,932.99 submitted low bid to the State Division of Highways, E. Q. Sullivan, District Engineer, San Bernardino for the reconstruction of a bridge across Santa Ana River near Prado Riverside County.

- The work involves:
- (1) 1 lot existing timber trestle to be removed and disposed of;
  - (2) 200 cu. roadway excav;
  - (3) 20 cu. structure excav;
  - (4) 28 cu. broken stone in place (for Pitum macadam);
  - (5) 4 tons liquid asphalt (90-95) (for bitum macadam).

(1)	\$1001.00	(E)	\$1060.00	(D)	\$2700.00	(F)	\$2900.00
(2)	2.87	(E)	1.00	(D)	5.00	(F)	1.00
(3)	2.27	(E)	1.50	(D)	5.00	(F)	3.00
(4)	5.50	(E)	1.00	(D)	10.00	(F)	8.00
(5)	41.00	(E)	40.00	(D)	70.00	(F)	35.00
(6)	102.90	(E)	110.00	(D)	110.00	(F)	110.00
(7)	86.72	(E)	135.00	(D)	120.00	(F)	115.00
(8)	41	(E)	55	(D)	50	(F)	45
(9)	12.50	(E)	20.00	(D)	30.00	(F)	21.00
(10)	223.00	(E)	460.00	(D)	1000.00	(F)	250.00

plans are approved by the State Division of Highways, Sacramento. Ida Trubetsch, City Clerk; H. N. Bishop, City Engineer.

**BIDS WANTED**

**COCONINO COUNTY.** Ariz.—Until February 25, 10 A. M., bids will be received by the Bureau of Public Roads, 247 New Post Office Bldg., Box 70, Phoenix, C. H. Swetser, District Engineer, for grading and placing a crushed gravel base course with bituminous treatment (light surface application) on a portion of Route 4, Bright Angel Spring-North Entrance, Grand Canyon National Park, and on Sections D, C, E, and F of the Jacobs Lake-North Rim Approach Road to Grand Canyon National Park, all in Coconino Co., a length of 31.93 miles.

- The principal items of work involved are:
- (1) 35 acres clearing;
  - (2) 124,600 cu. yd. unclass. excav.;
  - (3) 900 cu. yd. for structures;
  - (4) 60,000 cu. y. stripping pits;
  - (5) 37,350 cu. y. unclass. excav. for borrow;
  - (6) 75,150 sta. yds. overhaul;
  - (7) 189,700 cu. y. ml. haul (borrow and subgrade reinf.);
  - (8) 62,000 cu. y. subgrade reinf.;
  - (9) 2,900 lf. corr. metal pipe;
  - (10) 960 lf. remove, clean and relay existing CMP;
  - (11) 51,000 tons crushed gravel base course;
  - (12) 1,050 tons supplemental crushed gravel;
  - (13) 2,050 M. gals. watering;
  - (14) 1,185 tons applying liquid asphaltic road material, Type SC-2.
- Plans and specifications obtainable from the Bureau of Public Roads at Phoenix, or at the Federal Office Bldg., San Francisco, upon deposit of \$10.00.

**CONTRACT AWARDED**

**SONOMA, MARIN & NAPA COS.** Calif.—Chas. Kupplinger, Box 356 Lakeport, at \$2.39 per bbl., total \$5,975, awarded contract by the State Division of Highways, C. H. Purcell, State Highway Engineer, Sacramento, for applying diesel oil to roadside vegetation for a distance of 188.5 miles at various locations in Sonoma, Marin and Napa Counties, requiring 2,500 barrels of oil.

**CONTRACT AWARDED**

**ALAMEDA.** Contra Costa & Santa Clara Cos., Calif.—Pacific Truck Service, Inc., 646 Park Ave., San Jose at \$2.22 per barrel, total \$3330 awarded

- (6) 32.00 ft.b.m. Douglas fir timber, No. 1 grade.
  - (7) 19,000 ft.b.m Douglas fir select structural;
  - (8) 1256 lf. furnishing Douglas fir piles, incl. test piles;
  - (9) 56 each 12' long Douglas fir piles, incl. test piles;
  - (10) 1 lot miscel. items of work.
- Total bids follow:
- (A) Southern California Roads Co., Los Angeles—\$792.89
  - (B) Dimmy & Taylor—\$9872.80
  - (C) Contracting Engineers Inc., Los Angeles—\$11,818
  - (D) Gibbons & Reed, Burbank—\$11,826.20
  - (E) George Herz & Co., San Bernardino—\$11,960.60.
- Unfr bids follow:

(A)	\$792.89	(D)	\$11,826.20
(B)	9872.80	(E)	11,960.60
(C)	11,818		

ed contract by the State Division of Highways, C. H. Purcell, State Highway Engineer, for applying diesel oil to roadside vegetation for a distance of 111.5 miles at various locations in Alameda, Contra Costa, and Santa Clara Counties.

### 30—RESERVOIRS & DAMS

#### CONTRACT AWARDED

BOONVILLE, Oregon.—Parker-Schram Co., Couch Bldg., Portland, at \$34,432, awarded contract by the U. S. Engineer Office, Second Portland District, 627 Pittcock Block, Portland, Liet.-Col. C. F. Williams, District Engineer, under Bid No. 694-37-225, for constructing a concrete filler block and a timber and steel cofferdam in temporary navigation recess in Monolith No. 27 at the east end of the ship dock at Bonneville.

#### CONTRACT AWARDED

LAS VEGAS, Nev.—Bebek & Erick, 427 West 78th St., Los Angeles, at \$68,290, submitted low bid and awarded contract by the Las Vegas city council for the improvement of certain streets in Las Vegas, in accordance with plans and specifications prepared by C. D. Baker, engineer, 15 S. 4th St., Las Vegas.

The work involves:

- (1) 92,000 sq. ft. finish grading for curb and gutter;
- (2) 46,000 l.f. curb and gutter;
- (3) 12,000 c.y. furnish and place graded gravel for street surf.;
- (4) 260,000 gals. furnish and spread SC-2 oil;
- (5) 130,000 sq. yds. mix. spread, finish, roll, completed roadway.

This is PWA Project 1021-D.

The other bids were:

Pacific Constr. Co., San Francisco; \$69,760.  
J. C. Compton, McMinnville, Ore.; \$72,330.

#### CONTRACT AWARDED

STANISLAUS, Calaveras, Amador and Tuolumne Counties, Cal.—Sheldon Oil Co., Suisun, at \$24.99 per bbl., total \$3,112.50 awarded contract by the State Division of Highways, C. H. Purcell, State Highway Engineer, Sacramento, for applying diesel oil to roadside vegetation for a distance of about 176 roadside miles in Calaveras, Stanislaus, Tuolumne, and Amador Counties, at various locations.

#### BIDS WANTED

SAN DIEGO COUNTY, Cal.—Until March 4, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for about eight miles grading, paving with portland cement concrete, and placing plant-mixed surfacing on crusher run base, in San Diego County, between Las Flores underpass and one mile south of San Onofre.

The work involves:

- (1) 13,700 M. gals. water;
- (2) 383,500 c.y. roadway excav., unclassified;
- (3) 6,225 cu. struc. excav.;
- (4) 72,500 cu. imported borrow;
- (5) 11,681,500 sta. yds. overhaul;
- (6) 96,900 sq. yds. preparing sub-grade;
- (7) 925 cu. existing concrete, remove and dispose of;
- (8) 424 sta. finishing rdwy.
- (9) 11,250 tons crusher run base;
- (10) 7,950 tons min. aggregate (plant mix surface);
- (11) 365 tons liquid asphalt MC-5 or MC-extra heavy (do);
- (12) 90 tons liquid asphalt, SC-2 (prime coat);
- (13) 37 tons liquid asphalt MC-3 (stockpiled surf. and gutter seal coat);

- (14) 950 tons liquid asphalt SC-2 (road-mix surf. treatment);
- (15) 119,000 sq. yds. preparing, mixing and shaping roadbed, shoulders, gutter slopes and dikes;
- (16) 19,370 c.y. Class A portland cement concrete (pave.);
- (17) 39,250 each pave. dowels;
- (18) 291,400 pounds bar reinf. steel (pave. and struc.);
- (19) 1,650 sq. yds. mesh reinf. (ditch lining);
- (20) 195 cu. y. Class A portland cement concrete (do);
- (21) 1,690 cu. y. Class A portland cement concrete (struc.);
- (22) 0.35 MFEM redwood timber, select, dense, all-heart structural grade;
- (23) 816 lf. 8-in. CMP;
- (24) 424 lf. 18-in. CMP;
- (25) 168 lf. 24-in. CMP;
- (26) 210 lf. 36-in. CMP;
- (27) 68 lf. 42-in. CMP;
- (28) 78 lf. 48-in. CMP;
- (29) 26 each spillway assemblies;
- (30) 62 lf. existing pipe culverts, remove, clean and relay;
- (31) 2,170 lf. laminated guard railing;
- (32) 70 lf. existing guard railing removed and stockpiled;
- (33) 69 each culvert markers;
- (34) 2 each culvert markers, remove and reset;
- (35) 18 each guide posts, removed and stockpiled;
- (36) 8.2 miles new property fences;
- (37) 0.3 mile property fences, removed and disposed of;
- (38) 14 each drive gates;
- (39) 1 only cast steel frame and cover for drop inlet;
- (40) 40 each monuments complete in place.

Plans and specifications obtainable from the office of the State Highway Engineer, P. O. Box 1439, Sacramento, and on file at the office of the District Engineer in San Francisco, Los Angeles and San Diego.

#### BIDS OPENED

—Nevada Construction Co., Nevada, Mo., at \$16,400, submitted low bid to the Bureau of Reclamation, Riverton, Wyoming, H. D. Comstock, Superintendent, under Spec. No. 872-D, for clearing the Bull Lake Reservoir site, Riverton Project, about 40 mi. northwest of Riverton, involving clearing of 820 acres.

Complete bids follow:

Nevada Constr. Co., Nevada,	\$16,400
Mo.,	17,450
S. S. Groves, Riverton,	17,450
M. J. Groves & Sons Co.,	19,250
Minneapolis	19,270
Imovich & Co., Seattle	38,200
Leach Bros., Thermopolis, Wyo.	38,200

### 32—SEWERS & SEWAGE DISPOSAL PLANTS

#### PLANNED

MODESTO, Stanislaus Co., Cal.—Plans and specifications for construction of an extension to the city sewer system are being prepared by City Engineer Frank J. Ross. Cost is estimated at approximately \$30,000. Application has been filed with the WPA for labor and the city will purchase the materials.

#### CONTRACTS AWARDED

LOS ANGELES — Contracts for furnishing and installation of sludge beds and plant grounds improvements at Terminal Island sewage treatment plant (Terminal Island, San Diego Harbor), PWA Project No. 5633, Unit No. 3 (H), were awarded by the Los Angeles board of public works Feb. 5 and approved by PWA as follows:  
Peterson Bros., 239 Olive St., In-

glewood, item No. 3 (furnishing and delivering of pipe and fittings for garden and sprinkling systems) at \$997; item No. 4 (furnishing and planting of hedge, shrubs and trees, furnish and delivery only of lawn seeds) at \$709.

Waterworks Supply Co., 417 S. Hill St., item No. 8 (furnishing and delivery of sludge disintegrator) at \$522.78.

Wallace & Tiernan Sales Corp., 3923 W. 6th St., item No. 11 (furnishing and delivery of special equipment for chlorine control at Pries Ave. pumping plant) at \$175.

Items No. 1 (incinerator furnished and installed) and No. 2 (concrete work, sludge beds and scum beds, sludge piping, water pipe crossings under proposed roadway, earth excavation, screening and grading were rejected and the work will be done by the bureau of construction. Items No. 5 (air compressor), No. 6 (office furniture and equipment), No. 7 (plant tools), No. 8 (plumbing supplies and laundry tray), and No. 10 (laboratory equipment), were awarded informally by the purchasing agent.

#### TO ASK BIDS SHORTLY

WASCO, Kern Co., Calif.—A call for bids will be issued within the next few days by the Wasco Public Utility District, for construction of a sewage pumping plant estimated to cost \$28,000. Koebig & Koebig, Rowan Bldg., Los Angeles, engineers.

Contract for construction of the sewage system and outfall sewers was awarded recently to W. J. Tobin, 3701 Balfour Ave., Oakland, at \$102,666.72.

#### PLANNED

CORCORAN, Kings Co., Calif.—City Council has instructed City Engineer A. Segal to submit cost estimates for installation of sewers in the district between Letts Ave. on the east and the City Limits on the west, and between Whitley Ave. on the south and Patterson Ave. on the north.

#### BIDS WANTED

EUREKA, Humboldt Co., Calif.—Until Feb. 25, 8 p.m., new bids will be received by the Eureka City Council, A. Walter Kildade, City Clerk, City Hall, for the construction of the Washington Street sanitary outfall sewer between Broadway and the Government bulkhead line.

The work involves:

- (1) 2,577 lf. 36-in. pipe in place;
- (a) 26-in. vitrified clay pipe;
- (b) 36-in. standard reinforced concrete sewer pipe;
- (2) 400 lf. redwood sill with continuous concrete saddle;
- (3) 50 cu. y. Class C portland cement protective covering in place;
- (4) One outlet block unit, complete in place, lump sum;
- (5) 100 cu. y. gravel in place as a stabilized foundation.

Plans and specifications obtainable from the office of City Engineer Evan D. Gardner, City Hall, upon deposit of \$10.

Mercer-Fraser Co., Second & Commercial Streets, Eureka, at \$74,677, submitted the previous low bid.

### 33—WATER WORKS

#### BIDS WANTED

LOS ANGELES, Cal.—Until Feb. 18, 2 P. M., bids will be received by P. N. Nicklin, Purchasing Agent, Los Angeles Water & Power Bureau, Rm. 710, 207 South Broadway, for the construction of the Fletcher Drive Pumping Station and installation of equipment. Specifications No. X-90 PWA Docket 1929-R, Unit No. 53.

The work involves:

- (a) construction of reinf. concrete building and appurtenances;
- (b) installation of 7 motor-driven pumping units;
- (c) furnishing and installing pipe work, valves, meters, Venturi tube, hydraulic panel, pressure gauges, drain lines, etc.
- (d) furnishing and installing bench board, auxiliary switchboard, auxiliary and control apparatus outlets for space heating and air conduit for wiring and installing motors, contactors, and resistors, etc.;
- (e) painting the building, equipment, pipe work, etc.
- (f-1) excavation, extra, per cu. yd.;
- (f-2) concrete placed, extra, per cu. yd.

Plans and specifications obtainable from the above office upon deposit of \$10.

**BIDS WANTED**

LOS ANGELES.—Until Feb. 18, 2 p.m., bids will be received by D. P. Nicklin, Purchasing Agent, Los Angeles Water & Power Bureau, Room 740, 207 S. Broadway, for the construction of diversion channel, pipe lines, and appurtenant works in the Sunland and Tujunga Water Supply Project, PWA Docket 1929-R, Unit No. 60, Specifications No. X-91.

- (a) 12,000 c.y. excav. diversion channel to Sta. 8 plus OO to Sta. 13 plus 00, and excav. trench for concrete infiltration pipe from Sta. 2 plus 40 to Sta. 7 plus 21.14;
- (b) lump sum excav. for pump shaft and for concrete pipe from Sta. 7 plus 21.14 to pump shaft; construct reinforced concrete pump shaft; backfill around pump shaft and over concrete pipe from Sta. 7 plus 21.14 to pump shaft (approx. 50.5 c.y. concrete);
- (c) 554 lf. 30-in. reinf. centrif. concrete pipe, for infiltration gallery;
- (d) 2520 c.y. backfill trench over 30-in. concrete pipe from Sta. 2 plus 40 to Sta. 7 plus 21.14;
- (e) 2000 c.y. construct three dykes from river run material;
- (f) 10,000 sq. ft. construct rock facing, min. thickness 1 ft.;
- (g) 550 tons delivery of 24-in. steel pipe and bends from enameling plant to trench side and all gate valves from Ducommun St. yard to trench side;
- (h) 225 tons delivery 12-in. cast-iron pipe and bends from Van Nuys Pipe Yard to trench side;
- (i-a) 10,600 lf. excav. of pipe trench for 24-in. steel pipe;
- (i-b) 4650 lf. excav. of pipe trench for 12-in. cast-iron pipe;
- (j-a) 10,600 lf. 24-in. steel pipe placed in trench;
- (j-b) 4650 lf. 12-in. cast-iron pipe placed in trench;
- (k) 5 each, furnish all material except curb cocks and install five 2-in. outlets with 2-in. curb cocks;
- (l) 2 each, furnish all material except gate valves and gate valve standpipes and install two 12-in. outlets with gate valves and standpipes;
- (m-a) 10,600 lf. backfill trench for 24-in. steel main
- (m-b) 4650 lf. backfill trench for 12-in. cast-iron mains

Plans and specifications obtainable from the above office upon deposit of \$10.00.

**PERMITS ISSUED**

SACRAMENTO — Permits to appropriate water issued by the Department of Public Works, Division of Water Resources, during the month of January 1937.  
4872. App. 8813 (Lake County)—Issued to F. W. Scofield, Upper Lake,

Calif., Jan. 16, 1937, for 3 c.f.s. from Rice Creek, for fish culture. Estimated cost, \$1000.

1876. App. 8763 (Nevada Co.)—Issued to El Oro Mining Co., San Francisco, Calif., Jan. 25, 1937, for 12½ c.f.s. from South Fork of Steep Hollow Creek, for mining and domestic purposes. Estimated cost, \$7500.

4878. App. 8821 (San Joaquin Co.)—Issued to Lucien Bordenave, French Camp, Calif., Jan. 25, 1937, for 3 c.f.s. from Little John Creek, for irrigation and domestic purposes on 46 acres. Estimated cost, \$2400.

4881. App. 8810 (Yuba Co.)—Issued to Marilyn Mining Company, Wheatland, Calif., Jan. 29, 1937, for 3 c.f.s. from Bear River, for mining purposes. Estimated cost, \$1000.

**APPLICATIONS FILED**

SACRAMENTO—Applications for permit to appropriate water filed with the State Department of Public Works, Division of Water Resources, during January, 1937:

8867 (Solano Co.)—Estate of Henry Brinck, care H. R. Brinck, Trustee, Winters, Calif., for 0.37 c.f.s. from Pleasant or Moberg Creek tributary to Putah Creek, to be diverted for irrigation purposes on 30 acres. Est. cost, \$1100.

8868 (San Bernardino Co.)—Paulser B. Pigman, Barstow, Calif., for 109,500 gals. per day from Williams Creek tributary to Mojave Desert, to be diverted for stock watering purposes.

8870 (Sierra Co.)—Sisson Gold Mining Co., 312 Oakland Theatre Bldg., Oakland, Calif., for 10 c.f.s. from Peckee Creek tributary to Middle Fork of North Fork of North Yuba River; to be diverted for power purposes.

8871 (San Joaquin Co.)—Nelson H. Davis, Acampo, Calif., for 0.5 c.f.s. from Mokelumne River tributary to San Joaquin River; to be diverted for irrigation purposes on 55 acres. Est. cost, \$900.

8872 (Sierra Co.)—Disney Smith, Los Angeles, Calif., for 3 c.f.s. from Springs tributary to Kanaka Creek of the South Fork of North Fork of Yuba River; to be diverted for mining and domestic purposes. Estimated cost, \$100.

8874 (Nevada Co.)—J. O. Jones, Soda Springs, for 30,000 gals. per day from a spring tributary to Cascade Creek; to be diverted for domestic purposes. Est. cost, \$8000.

8875 (Trinity County)—P. Robert Hughes, San Diego, Calif., for 3 c.f.s. from Manzanita Creek tributary to Trinity River; to be diverted for mining purposes.

8877 (Siskiyou Co.)—John L. Gibson, Orelans, Calif., for 3 c.f.s. from Duncan Creek tributary to Salmon River; to be diverted for mining and domestic purposes. Est. cost, \$2000.

8878 (San Bernardino Co.)—Riverside Water Co., Riverside, Calif., for 10 c.f.s. from sewage effluent from San Bernardino Sewage Disposal Plant, which is discharged into Warm Creek tributary to Santa Ana River; to be diverted for irrigation purposes on 7589 acres.

8879 (Amador Co.)—Sierra Mountain Water Co., 2216 22nd St., Sacramento, Calif., for 270,000 acre-feet per annum from Cosumnes River tributary to Mokelumne River; to be diverted for power purposes; 13260 l.h. to be developed.

8880 (Amador Co.)—Sierra Mountain Water Co., 2216 22nd St., Sacramento, Calif., for 270,000 acre-feet per annum from Cosumnes River tributary to Mokelumne river; to be diverted for municipal purposes.

The work involves:

- (1) 1,490 lf. excav. and backfill for 4-in., 6-in. and 8-in. pipe, trench 17 in. wide by 26 in. deep;
- (2) 40 c.y. additional excav. and backfill;
- (3) 90 sq. ft. additional pavement removal and replacement;
- (4) Installing pipe:
  - (a) 590 lf. 4-in. bell and spigot cast-iron pipe;
  - (b) 625 lf. 6-in. do.;
  - (c) 275 lf. 8-in. do.;
- (5) 2,400 lbs. installing fittings, gate valves, etc.;
- (6) 200 lf. bell and spigot joints, making joints for pipe and fittings;
- (7) Repavement:
  - (a) 1,800 sq. ft. asphaltic concrete;
  - (b) 60 sq. ft. sidewalk;
- (8) 13 each, installation of ¾-in. screw taps;
- (9) 75 lf. installation of ¾-in. copper service pipe.

Plans and specifications obtainable at Room 605, 425 Mason St., upon deposit of \$5.

N. A. Eckart, chief engineer.

**CONTRACT AWARDED**

MULTNOMAH CO., Ore.—B. H. Sheldon, Gresham, at \$20,740 (hoist-type or dresser coupled cast-iron pipe), awarded contract by the Multnomah District, H. E. Reynolds, Secretary, Portland, for the construction of water system improvements consisting of approximately 15,550 ft. of 8-in. and 1400 ft. of 6-in. water mains, with necessary appurtenances.

C. E. Carter, engineer, 823 Spalding Bldg., Portland.

**PLANNED**

BAKERSFIELD, Kern Co., Calif.—The Bakersfield city council has referred to the directors of the Kern River Levee District a recommendation of City Manager Fred Nighbert

that flood gates be installed on North Chester Ave. in the northwest section of the city. The district board will consider the recommendation. Fred Gunther is president and H. I. Tupman, secretary.

#### BIDS WANTED

**FRIANT DAM SITE**, Fresno Co., Cal.—Until March 3, 19 A. M., bids will be received by the Bureau of Reclamation, Walker R. Young, Construction Engineer, 206 Post Office Bldg., 7th and K Sts., Sacramento, under Spec. No. 883-D, for the construction of a water tank at the Government Camp at Friant Dam, Central Valley Proj., about 22 miles north of Fresno.

The tank will be a circular steel tank having a capacity of 100,000 gals. and will be erected on a gravel foundation prepared by the Government.

Plans and specifications obtainable from the office of the Bureau of Reclamation at Sacramento, Denver or Washington, D. C., without charge to prospective bidders; to others, \$0.75, not returnable. Plans will be available about Feb. 15.

A. M. Torpen, division engineer in charge at Friant; T. R. Smith, division office engineer.

#### BIDS WANTED

**LOS ANGELES, Cal.**—Until Feb. 19, 2 P. M., bids will be received by D. F. Nicklin, purchasing agent, Los Angeles Water and Power Bureau, Room 740, 207 S. Broadway, Los Angeles, for construction of 20-in. cast iron water supply line under main ship channel, San Pedro, PWA Docket 1929-R; Unit No. 89-B. Spec. No. X-92.

The work involves:

- (a) 175 tons cast iron pipe and fittings to be transported from Dept.'s San Pedro yard;
- (b) 108 l.f. furnish and install 30-in. ID corr. galv. steel pipe with air vents under S. Ry. tracks; install inside this pipe 20-inch flanged end cast iron pipe;
- (c) 11 c.y. furnish all material and place concrete anchor block on 20-in. cast iron pipe;
- (d) 496 l.f. furnish and drive four-teen creased pipe (4 1/4-in., 4 3/8-in., 2 40-in., and 4 50-in.);
- (e) lump sum, construct reinforced concrete pile caps, pipe supports and reinf. concrete tie struts;
- (f) 96 l.f. install 20-in. flanged end cast iron pipe from end of anchor blocks to 90-deg. bend;
- (g) 54 l.f. furnish material and sink a 7-ft. min. dia. sheet pile caisson, excavate to required subgrade inside thereof and dispose of excavated material;
- (h) 50 l.f. install inside caisson 20-in. flanged end CI pipe, inc. 90-deg. bends at top and bottom, and 24-inch section flange and flexible joint spigot;
- (i) 10 c.y. furnish material and place concrete at subgrade inside 7-ft ID caisson;
- (j) 47 l.f. furnish and install inside caisson and outside the 20-inch CI pipe 36-in., 24-ga. steel pipe; place reinf. concrete in space between 20- and 36-in. pipe;
- (k) 1424 l.f. excavate trench for 20-in. pipe from caisson to end of contract on east shore of main ship channel;
- (l) 20 c.y. furnish and place rock blanket for approx. 16 ft. east of caisson;
- (m) 300 c.y. furnish and place crushed rock if required to fill irregularities in pipe trench across channel;
- (n) 1424 l.f. install 20-in. CI pipe across main ship channel from caisson to end of contract on east shore of channel;

- (o) 1424 l.f. backfill over 20-in. CI pipe across channel from caisson to end of contract on east shore of channel;
- (p) 100 c.y. replace rock riprap and place additional riprap if required;
- (q) discount for 40-hour work week in place of work month of not over 130 hours for each labor classification.

Plans and specifications may be obtained at the office of the Purchasing Agent upon deposit of \$10.

#### CONTRACT AWARDED

**SOUTH GATE.**—Mack C. Bryan, South Gate, was awarded contract by the South Gate city council, at \$60,605, for the installation and construction of cast-iron water mains, house laterals, fittings and appurtenances for supplying or distributing a domestic water supply, including hydrants, etc., 1911 Act and WPA. The bid was reported to have been submitted solely to comply with the law due to the requirements of the 1911 Act. The contract will be assigned to the city, as the regulations of the WPA do not permit contractual relations with individuals on construction. Materials entering into the

contract includes 2320 ft. 12-in., 2680 ft. 10-in., 4260 ft. 8-in., 7970 ft. 6-in., and 4995 ft. 4-in. cast-iron pipe, class 150, bell and spigot; 14,306 ft. 3/4-in. galv. pipe, 12,252 ft. 1-in. copper tubing, 462 ft. 6-in. steel tubing, necessary fittings, 1200 lbs. pig lead, 200 lbs. jute, 164 sacks cement, 1007 tons rock, 458 bids, No. 90 road oil. The bids were opened Jan. 29.

LOS ANGELES.—Until Feb. 18, 11 a.m., bids will be received by A. J. Holm, Los Angeles city purchasing agent, 107 City Hall, under Spec. No. 3559, for furnishing 8-ton tandem rollers, Buffalo-Springfield or equal, f.o.b. 2517 McPherson St., Los Angeles. Specifications obtainable from above office.

LOS ANGELES.—Until Feb. 18, 2 p.m., bids will be received by D. P. Nicklin, purchasing agent of the Los Angeles Water & Power Bureau, Room 740, 207 S. Broadway, for furnishing 800 only combination watt-hour meters and time switches, each composed of a 15-amp., 230-volt, 60-cycle, 2-wire watt-hour meter and a 230-volt, 60-cycle, synchronous motor time switch mounted on a standard socket base to fit standard 5-clip sockets for cars or trucks, department's warehouse, 1630 N. Main St., under Spec. No. 2196

LOS ANGELES.—Until Feb. 18, 11 a.m., bids will be received by A. J. Holm, Los Angeles city purchasing agent, 107 City Hall, for furnishing tandem drive power control motor traders, as follows:

(1) 5 Adams, Model 301, or equal; (2) 2 Adams, Model 301, or equal. Trade-in allowance to be made on used graders. Spec. No. 3590.

LOS ANGELES.—Until Feb. 23, 2 p.m., bids will be received by D. P. Nicklin, purchasing agent of the Los Angeles Water & Power Bureau, Room 740, 207 S. Broadway, for furnishing 4 only 115 kv., 300/600 to 5 ampers, oil filled, outdoor type current transformers for use on a 110 kv., 60-cycle system, f.o.b. 1520 Velesco St., Los Angeles. Spec. No. 200.

LOS ANGELES.—Until Feb. 23, 2 p.m., bids will be received by D. P. Nicklin, purchasing agent of the Los Angeles Water & Power Bureau, Room 740, 207 S. Broadway, for furnishing outdoor type 115 kv. and 2 outdoor type 138 kv. base mounted combined coupling capacitors and potential devices, f.o.b. Los Angeles. Spec. No. 201.

LOS ANGELES.—Until Feb. 19, 10 a.m., bids will be received by D. P. Nicklin, purchasing agent of the Los Angeles Water & Power Bureau, Room 740, 207 S. Broadway, for furnishing motor generator set (500 watt, 24 volt, D.C. generator, direct connect) to 240-volt, 3-phase induction motor. Bid No. 7182.

LOS ANGELES.—Until Feb. 23, 2 p.m., bids will be received by D. P. Nicklin, purchasing agent of the Los Angeles Water & Power Bureau, Room 740, 207 S. Broadway, for furnishing: (1) 12 groups, 12 kv., 600 ampere, outdoor type, disconnecting switches complete with insulators; alternate, without insulators; (2) only 132 kv., 600 ampere, 3 pole, outdoor type, disconnecting switches complete with insulators; alternate, without insulators. F.o.b. E. 24th St. and Velesco St., Los Angeles. Spec. No. 2199.

LOS ANGELES.—Until Feb. 16, 2 p.m., bids will be received by D. P. Nicklin, purchasing agent of the Los Angeles Water & Power Bureau, Room 740, 207 S. Broadway, for furnishing approximately 4000 tons 1½-in. crush-rock for 90 days delivered along sudden Canyon Transmission Line and between Lytle Creek County and top of Cajon Pass. Spec. No. 2212.

LOS ANGELES.—Until Feb. 16, 11 a.m., bids will be received by A. J. Holm, Los Angeles city purchasing agent, 107 City Hall, for furnishing 5 Hough or equal hydraulic skip loaders complete mounted on McCormick-Deering, Model 1-30 tractors or equal, f.o.b. 2517 McPherson St. Spec. No. 3588.

## MET. WATER DISTRICT

LOS ANGELES.—Until Feb. 19, 10 a.m., bids will be received by S. A. Joseph, purchasing agent of the Metropolitan Water District, room 504, 306 W. Third St., Los Angeles, for the sale of salvaged materials as follows: Liner plates, wall beams, 6-in. ribs, 6-in. splice plate ribs, wall beam splice plates, 4-in. rib foot plates, 6-in. rib foot plates and acting bolts. Gr. No. 531-14, Appraisal No. B2-1. Material may be inspected at East Coxcomb Tunnel, located 35 miles southwest of Rice, Calif., or 70 mi. northeast of Indio via Desert Center.

LOS ANGELES.—Until Feb. 19, 10 a.m., bids will be received by S. A. Joseph, purchasing agent, Metropolitan Water District, room 504, 306 W. Third St., Los Angeles, for the sale of salvaged materials as follows: Liner plates, 6-in. columns, 4-in. ribs, 4-in. splice plate ribs, 6-in. steel timber ribs, 4-in. rib foot plates, bolts. Bid No. SM-133, Appraisal No. B2-2. Material may be inspected at East Iron Mountain Tunnel, located 16 mi. northeast of Rice, Calif.

LOS ANGELES.—Until Feb. 26, 10 a.m., bids will be received by S. A. Joseph, purchasing agent, Metropolitan Water District, room 504, 306 W. Third St., Los Angeles, for the sale of salvaged materials, Bid No. SM-151, Appraisal No. O-179, as follows: One Bucyrus-Erie dragline shovel, model 50-B, Diesel No. 122, Serial 10624, Engine No. 9788, equipped with 55-ft. dragline boom and 10-ft. boom extension, one 2-cy. dragline bucket and Kohler lighting plant, powered with 4-cylinder Atlas Imperial Diesel engine, 125-hp. Equipment may be inspected at the district's Thousand Palms Camp, located 20 miles east of Garnet, Calif.

## HUMHOLDT COUNTY

EUREKA, Humholdt Co., Calif.—Until February 16, 3 p.m., bids will be received by the Eureka City Council, A. Walter Kildale, City Clerk, City Hall, for furnishing one 17-passenger city service bus body fully equipped, to be mounted on a chassis with 157-in. wheel base. Delivery f.o.b. Eureka.

Specifications obtainable from the above office. John Griffith, Superintendent of Public Works.

## LOS ANGELES COUNTY

SOUTH GATE, Los Angeles Co., Calif.—Until Feb. 19, 7:30 p.m., bids will be received by the South Gate City Council, H. C. Peiffer, City Clerk, for furnishing 23,710 ft. 4-in. to 12-in. Class 150, B & S cast-iron pipe, 14,306 ft. 7½-in. galvanized pipe, 12-in. 232 lb. 1-in. type K copper tubing, and miscellaneous fittings.

Specifications obtainable from the office of City Engineer Guy Nevill.

SOUTH GATE.—Until Feb. 19, 7:30 p.m., bids will be received by the South Gate city council for furnishing 1007 tons of rock in accordance with specifications which may be seen at the office of the city engineer, Guy Nevill, and at the office of the city clerk, H. C. Peiffer. Certified check or cashier's check for 10% must accompany each proposal.

MANHATTAN BEACH, Los Angeles Co., Calif.—Until Feb. 18, 8 p.m., bids will be received by the Manhattan Beach city council for furnishing and installing a booster pump unit consisting of one horizontal booster pump (800 g.p.m.) mounted on a base plate fitted with a flexible coupling for direct connection to one horizontal gasoline engine which must also be furnished. Spec. No. W6-1937, for gasoline-driven centrifugal booster pump, may be seen at the office of Merritt J. Crandall, city clerk. Certified check or cashier's check or bond for 10% must accompany proposal. W. E. Malcor, water superintendent.

BURBANK, Los Angeles Co., Cal.—Until Feb. 16, 7:30 P. M., bids will be received by H. F. Stites, Burbank city manager, for furnishing 35,000 volt lead covered, paper insulated cable and accessories, fob 4000 S. Olive Ave., Burbank. Spec. No. 114 maybe obtained from the Supt. of the Public Service Dept., 174 S. Magnolia Boulevard, Burbank. Certified check or draft for 10% must accompany bid.

## TREASURY DEPARTMENT

SAN FRANCISCO.—Bids will be received by the Procurement Office, Treasury Department, Room 514, 49 Fourth St., San Francisco, for furnishing miscellaneous materials for use on WPA projects, as follows:

BID No. February 15, 10 A. M.  
BID No. 3259—100 cy. ready-mixed concrete; f.o.b. Seminary Ave. & Mauritania St., Oakland.  
February 17, 10 A. M.

BID No. 3590—One lot rail fence, complete with fabric, ready to install; f.o.b. Zoological Gardens, Sunset near Skyline Blvd., San Francisco.

Specifications obtainable from the above office.

SAN FRANCISCO.—Until Feb. 15, 10 a.m., bids will be received by the Procurement Office, Treasury Dept., Room 514, 49 Fourth St., San Francisco, under Bid No. 3588, for furnishing 372 tons crusher run base rock, for use on WPA projects.

Delivery f.o.b. Lyon St. Approach to Golden Gate Bridge, Halleck St. and Marina Blvd.

Specifications obtainable from the above office.

## \$4,302,000 Sacramento Air Depot Work On Market; Supply Building Advertised

SACRAMENTO, Feb. 18.—Calls for bids on four contracts for work aggregating \$1,167,000 at the Army Air Corps Supply Depot near Sacramento, issued by Major Arthur W. Parker, today brought the total estimated cost of depot work for which bids have been called in the last three weeks to \$4,302,000.

Largest of the contracts, for which bids will be opened March 25,

is for the construction of a \$1,072,000 two-story depot supply building and head house, and one-story east and west wings of the warehouse. Construction will be reinforced concrete and steel, and buildings will conform with other air base structures. Lump sum bids will be taken with ten alternates.

Bids will be opened March 16 for two contracts, each estimated at about \$45,000. The \$45,000 water distribution system will also be a lump sum job, though contractors must submit unit prices. The only alternate calls for an addition or deduction if cast iron pipe is omitted on all water lines and asbestos cement pressure pipe as specified is substituted.

### Sanitary Sewers

The second contract calls for the construction and completion of sanitary sewers, and bids will be taken under the same conditions as those for the distribution system.

Bids for the construction of the Quartermaster gasoline and oil storage tanks, together with piping and pumps, will be opened March 18. The job is estimated to cost \$5,000.

All bids must be submitted to Major Arthur W. Parker at the new quarters at the Army Air Corps Supply Depot, but bids will be opened at the Builders' Exchange, 720 I street, Sacramento.

### Engineering Shops

Last month bids were called on two other large contracts for work at the depot. Biggest of these was for the \$1,500,000 engineering shop and repair docks. The building will be 880 by 600 feet and of reinforced concrete construction, and will be one-story, about 90 feet high, with a 50 foot clearance under the trusses. Walls and foot-

ings will be of reinforced concrete; an asbestos metal-protected roof will be erected over the docks and a built-up roof with flat deck over the engineering shop. Bids are to be opened March 25.

The second job on which bids were called last month is the construction of two-story, reinforced concrete and steel headquarters building. The headquarters structure will have a marble rotunda with terrazzo floors, a built-up roof, asphalt and tile floors elsewhere. A two-story reinforced concrete and steel fire and guardhouse will also be built at the cost of \$13,000. The cost of the former building is estimated at \$92,000. Bids will be opened today.

### Three Contracts Let

Three major contracts for the construction of the \$7,000,000 army depot for which \$4,000,000 became available last July, together with \$3,000,000 for additional work authorized by Congress, have been awarded to date. Last December Meyer Construction Company was the successful bidder, at \$88,612, for the construction of a quartermaster's warehouse, warehouse annex, maintenance building and garage. The first of these structures have been completed and are being occupied by Army officials. In January two contracts were awarded, as follows: for construction of an elevated steel tank to Pittsburgh-Des Moines Steel Company, at \$24,900; and for the construction of a standard gauge railroad track and turnouts, to Forsythe-Worron and Company, at \$23,995.

Shipments of steel lockers during December, 1936, amounted to \$127,363, more than double the total of \$206,323 recorded for shipments during December, 1935, the Bureau of Census reports.

## METROPOLITAN DISTRICT DAMS OUT FOR BIDS

Gene Wash, Copper Basin  
Structures Advertised; Bids  
Open March 18

Bids for constructing two large dams in San Bernardino county will be opened by directors of the Metropolitan Water District in Los Angeles March 18, it was announced last week.

Stipulating that award will be made to not more than one bidder and must include all items of work the district has divided the bidding list into two schedules.

Schedule 1 calls for construction of a concrete arch dam at Gene Wash with a maximum height of about 156 feet and a crest length of 430 feet; an ogee concrete spillway with non-overflow gravity extensions having a maximum height of about 34 feet and a total length of 460 feet; and two reinforced concrete dikes having a maximum height of 25 feet and a total length of 1300 feet.

### Copper Basin

Schedule 2 calls for constructing a concrete arch dam across the outlet of Copper Basin, with a maximum height of about 210 feet and a crest length of 220 feet; an ogee concrete spillway dam having a maximum height of 18 feet and a length of 18 feet, for Copper Basin reservoir; and a reservoir outlet structure at the entrance to the Whipple Mountain tunnel.

The project is located about 13 to 20 miles by road northeast of Earp.

Plans and specifications will not be available until February 18, the district announced. Blueprints and lists of quantities involved are available now, and a complete set of drawings and lists will be furnished free to those making payment for specifications at the advertised price of \$5.

The combined bidding schedules include a total of 73 items. Bids must be accompanied by certified checks in the amount of \$85,000, district officials said.

## Huge Construction Program Needed, Page Tells A.G.C.; Lauds Committee's Report

Placing his full support behind the proposed six-year water program of the National Resources Committee recently transmitted to Congress, Commissioner John C. Page of the U. S. Bureau of Reclamation yesterday told contractors assembled in the annual A.G.C. convention at San Antonio that a volume of construction so tremendous it "almost staggers the imagination" will be necessary to overcome the present water problems of the United States.

"Dams and protective works are needed, wells and pipelines are required, sewers and sewage treatment plants are necessary, locks and channel improvements must be constructed, reservoirs and canals must be built," the commissioner said.

Referring to the committee report recommending for immediate or deferred construction and for investigation, projects costing over \$500,000,000, Mr. Page declared:

### Pattern for Future

"The report was . . . an excursion into the field of water planning, and, I believe, a notable one; one which can be followed as a pattern in the future and changed and altered from year to year to meet developing needs. If adhered to and used as a basis for future planning, this report will go a long way toward eliminating the chaos and uncertainty that has attached to our efforts in the past to deal with the control of our rivers and streams.

"To one interested in reclamation, as I am, the fact that we now have turned our hand to planning for future water conservation and control appears to be of great moment. To those who have been interested in other water problems, be they flood control, pollution abatement, development of city water supplies or navigation, this report also should be encouraging."

Mr. Page illustrated his address with numerous instances of value derived through construction of water conservation projects. Boulder and the All-American Canal, Grand Coulee, and others of the great Western projects were used to demonstrate his point.

### Resources Wasted

Vividly describing the nationwide havoc wreaked by uncontrolled rivers and streams, Mr. Page said:

"The terrible droughts of 1934 and 1936 in the Great Plains area, and the floods of unprecedented destructiveness in the East in 1936 and in the Ohio Valley this year, have brought a realization that our carefree days are over. We have come of age 130,000,000 strong. Suddenly we are asking for an accounting of our patrimony, which until yesterday we took for granted, and are amazed to find how much of our national resources has been wasted, and how serious the consequences are going to be.

"Awake and aroused, however, there is every reason to believe that even these problems, which

now seem so appalling, can be solved.

"It is as though young America had been speeding down a broad highway finding on either side new frontiers, easily conquered and rich beyond expectation, for so long a time that the assumption grew that the road would never have an ending.

"Suddenly, however, in full view is the end of the road, well marked with a sign, 'Stop, look out, caution.'

### Drought Warning

"The brakes have been squealing ever since the drought of 1934 sent dust storms sifting eastward from the Great Plains. A mantle of fine, blowing soil darkened the skies of half the nation. The problems of the Great Plains quickly became the problems of millions of housewives more than a thousand miles away. This was a warning which could be written with a finger on any polished table top.

"The floods which followed in the spring of 1936, last summer's drought, and the floods of 1937 have caused us to cut our speed to a cautious pace.

"While we were slowing down, there was a great deal of shouting; a lot of speculation about how these disasters could have been prevented and a large amount of bitter name-calling among those who contend that certain groups are responsible for the situation in which we find ourselves.

"It is well to realize, however, that no plan can be made retroactive; that even the fixing of responsibility, except in so far as it is necessary to discover the causes of these disasters, will not help to correct past errors; and that our major concern must be with the future. Sound plans of action made effective at this time will prevent recurrence of the mistakes we now so clearly recognize. They will not correct previous mistakes but they can and must combat their costly consequences."

### IN NEW QUARTERS

Pacific Gas Heating Co. announces its removal from 1240 Mission street to 245 Van Ness avenue south, between Thirteenth and Fourteenth streets, San Francisco. The telephone number is MArket 1352.

Production of malleable iron castings in short tons for the month of December, 1936, amounted to 81,674, a substantial increase over the production total of 45,598 for the same month in 1935, according to the Bureau of Census.

## SCHOOL BUDGET HERE AWAITING WORD FROM PWA

### Wilder Says Applications Are Being Received to Form List of Worthy Projects

San Francisco school authorities have taken steps during the past week to discover what the probable result of their application to the PWA for a 45 per cent grant on a \$1,501,365 school program will be, it was learned from a reliable source yesterday.

On the success or failure of this application the amount of money to be allocated in the 1937-38 tentative budget for school construction depends. The budget is now in the hands of Controller Levy. Last week Superintendent Jos. P. Nourse submitted his tentative budget which called for an outlay of \$10,686,000, to the Board of Education for approval. While it is believed that the amount set aside for construction will not equal last year's \$675,000, no actual sum was written into the budget. The exact amount will, in all probability, remain indefinite until Washington indicates what action will be taken on the PWA application.

### Allocation Awaited

State Administrator A. D. Wilder of the PWA, when questioned regarding the fate of applications now in Washington, stated that he had received no word as to what future action will be taken by President Roosevelt on applications now on hand. No money has yet been allocated for the continuation of the PWA program.

"Our office will continue to take applications for grants to worthy projects," Mr. Wilder said. "While we do not know what action will be taken, we have been instructed to accept applications, thereby accumulating a back-log of worthy projects which may be started should funds be made available."

## Three New Members Announced by S. F. Builders' Exchange

Three firms have been elected to membership in the San Francisco Builders' Exchange, and two others have renewed their membership, it is announced.

New members are James Patt, plastering contractor, 147 Tenth street, San Francisco; Albert B. Mann, acoustical engineer, 633 Bryant street, San Francisco, and Mid-State Construction Co., general contractors, 245 Clinton ave., Fresno.

Firms who have renewed their membership are United Materials & Richmond Brick Co., and V. Filippis.

## PLAN ADDITION TO WAREHOUSE AT SACRAMENTO

California Packing Corporation  
To Erect \$120,000  
Structure

Expansion of the California Packing Corporation's facilities at Sacramento will be underway shortly, it was revealed yesterday, following announcement that plans are being prepared for a \$120,000 addition to the Sacramento cannery.

The addition will be a one-story warehouse building to cover two city blocks, and will be situated on the north side of the "B" St. levee, adjoining the present plant which is located south of the levee.

The warehouse, for which plans are being prepared by the Cal-Pack engineering department, will have brick walls, a frame roof and concrete floors, company officials said.

### To Ask Bids

General bids for the structure probably will be asked within the next six weeks.

Meanwhile hearing on another project, incidental to the cannery addition, is to be held before the Sacramento city council March 16.

The firm has applied for permission to build a subway through the levee, over which the Southern Pacific tracks pass, to join the present plant with the addition.

The present plant, reported to be one of the largest fruit and vegetable canneries in the world, is located at Sixteenth and "C" streets.

## Engineers Planning Convention in March

All civil and structural engineers in California have been asked to attend an emergency convention in Sacramento, March 19 and 20, called by President A. V. Saph, Jr., of the Structural Engineers' Association of Northern California.

A number of prominent speakers, including Dr. Paul F. Cadman of the University of California, will attend the session which will be devoted in part to proposed legislation effecting engineers to be acted upon at the next meeting of the legislature.

Dr. Cadman's topic, according to William H. Popert, chairman of the publicity committee, will be "The Place of the Civil Engineer in the Future Growth of California."

Those wishing additional information on the convention are asked to get in touch with S. S. Gorman, chairman of the committee on arrangements.

## PRICES ADVANCE, BUREAU REPORTS

The index for building material prices advanced one per cent during the week ended February 6, bringing the current index to 92.1 per cent of the 1926 average, the U. S. Bureau of Labor Statistics reported yesterday. The increase was due to sharply increasing prices for lumber with smaller increases in brick, paint materials and plate glass prices, the bureau's wholesale price survey said.

Plumbing and heating fixture prices remained steady during the week, a drop in the price of tin cans being responsible for the decline of metals and metal products prices to 90.4 per cent of the 1926 level.

## ANNOUNCE STEEL CONGRESS PLANS FOR THIS YEAR

Delegates from Many Nations  
To Attend Sessions  
In New York

With delegates from all steel producing countries in attendance, the Sixth International Congress for Steel Development will convene in New York City June 28, the American Institute of Steel Construction announces. The institute will act as host.

Purpose of the conference, which will last through July 3, is the exchange of information regarding improved methods of applying steel to construction and other uses, with the ultimate object of making the material better adapted to all the uses for which it is intended.

Five similar conferences have been held during the previous five years, all meeting in Europe. The last was in Berlin in 1936.

### Many Participate

Participating in the conference, in addition to the American Institute of Steel Construction, will be the British Steelwork Association and organizations in Belgium, France, Germany, Italy, The Netherlands, Poland, Roumania, Switzerland and Czechoslovakia.

For the constant interchange of information between the steel producers the Conference maintains an international documentation office at The Hague, Netherlands, under the direction of Mr. E. A. van Genderen Stort.

The various sessions of the 6th International Conference to be held in New York this summer will be open to the public. In addition various social functions are being scheduled by the American industry which will be interspersed with sight-seeing trips for the visitors.

## U. S. BUILDING GAINS DESPITE FLOOD, STORMS

Permits 24.4% Above Jan.,  
1936, Dun & Bradstreet  
Report; Under December

Volume of building in the United States last month as indicated by building permit values showed a decline from December that was more than seasonal but continued substantially above the corresponding month of 1936 despite floods and unseasonably weather, according to the monthly report of Dun & Bradstreet, Inc.

Total estimated cost of January permits for 215 cities reporting to the firm amounted to \$68,341,235. This was a drop of 18.2 per cent from the \$83,557,063 recorded in December. The usual decline for the period is about 12 per cent. There was a gain, however, of 24.4 per cent shown over January a year ago when permits aggregated \$54,957,904.

### New York Lower

New York City permits, amounting to \$12,639,272, showed a loss of 22.8 per cent from December, and were also 10.4 per cent below January, 1936. Permit values for the 214 cities outside of the metropolis totaled \$55,701,963 in January, representing a decrease of 17 per cent from the preceding month, but a rise of 36.3 per cent from the January, 1936, total.

The group totals of building permit values for the 215 cities for January, this year and last, are shown in the following table:

Groups:	1937	1936
New England	\$10,182,551	\$2,278,432
Mid. Atlantic	18,490,172	17,413,193
South Atlantic	7,324,987	5,754,412
East Central	10,763,071	10,654,228
South Central	7,715,675	7,575,689
West Central	1,834,287	1,667,229
Mountain	941,526	1,071,408
Pacific	11,278,966	8,543,313

Total U. S.	\$68,341,235	\$54,957,904
New York City	\$12,639,272	\$14,105,246
Outside N. Y. C.	\$55,701,963	\$40,852,658

Compared with January a year ago, gains were registered for all groups except one, the Mountain States, while contrast with December revealed lower building permit totals in all groups, except New England. The total for the latter group was considerably swelled by the particularly large permit figure reported for Boston in January.

New orders for steel office furniture received during December, 1936, amounted to \$2,226,663, as compared with orders totalling \$1,520,338 taken during the same month of the previous year, according to the monthly report of the Bureau of Census.

Sales of windmills during 1936 amounted to 70,125 units, a substantial increase over the total of 51,513 sold during 1935, the Bureau of Census reports.

## CLARENCE EATON APPOINTED TO LICENSE BOARD

Named By Merriam to Complete Unfinished Term of Bechtel

Governor Frank F. Merriam yesterday announced appointment to the Contractors' State License Board of Clarence B. Eaton of the firm of Eaton & Smith, general engineering contractors, 715 Ocean avenue, San Francisco, and the reappointment of S. G. Johnson, general building contractor of Oakland, and of William Niles, plumbing contractor of Los Angeles, according to Earl S. Anderson, Executive Secretary of the Board and State Registrar of Contractors.

Eaton was appointed for the balance of a two-year term allotted to general engineering contractors, which was left vacant by the resignation of Warren G. Bechtel due to the pressure of business. Johnson and Niles succeed themselves and will serve for four years.

### Civil Engineer

Registered as a civil engineer as well as a contractor, Mr. Eaton a graduate of Stanford University, has been a member of Eaton and Smith since 1914. The firm is now completing the half million dollar Niles Underpass, performed a million and a half dollar contract on the Golden Gate Bridge project and has successfully completed many major engineering contracts in California. He is a member of the Board of Directors of Industrial Underwriters, Inc., and of the Northern California Chapter of Associated General Contractors.

Johnson, commencing his second term upon the Board, has been identified for many years with the activities of Oakland and East Bay construction organizations, and is one of the best known general building contractors of that area.

Niles also commences a second term upon the Board and is President of the State Association of Master Plumbers, an organization with chapters in twenty-one important cities of the State.

## Grant Certificates To Two Architects

The State Board of Architectural Examiners has granted provisional certificates to practice architecture in California to two Bay region architects, according to Secretary Henry J. Devine of the Northern district. The action was taken at a recent board meeting.

The two are Charles S. Pope, 1932 Cabrillo street, San Francisco and Alfred C. Williams, 5921 Monzal avenue, Oakland, Mr. Devine said.

## Two Redwood City Harbor Contracts Out for Proposals

Bids on two contracts for work at the Redwood City Harbor will be opened next month, it was revealed yesterday, following announcement that the city will receive proposals March 1 for construction of facilities to cost \$27,000.

Bids for dredging about 2,006,320 cubic yards of material from Redwood Creek are to be opened at the U. S. Engineer office in San Francisco March 12. The dredging work is expected to cost about \$188,000, and extends from deep water in San Francisco Bay to a point about 2500 feet upstream from the junction of Redwood Creek with West Point Slough.

Facilities for which the city council will open bids March 1 include an office building in the north end of the transit shed; plumbing and sewers; electric light, heat and power system; automatic sprinkler system; water supply mains; and paving roadways and parking area.

A 450-foot timber wharf and transit shed will be erected by Healy-Tibbitts Construction Company, San Francisco, under a recently awarded \$93,472 contract.

## Anglim Says FHA Permanent Agency

With the spring home building program already under way, this year promises to eclipse the six-year record for residential construction established in 1936, Clifford C. Anglim, district director of the Federal Housing Administration, declared yesterday.

"With the launching of this extensive program, it is well to again call attention to the fact that the National Housing Act does not expire next April or next July, as some seem to think," Anglim declared. "The Act is permanent legislation, and the Federal Housing Administration is a permanent governmental agency."

"Both the House and Senate committees have acted favorably for extension of Treasury guarantees of Housing Administration insurance fund debentures from July 1, 1937. The insurance of home mortgages will continue, pending final Congressional action, with a fund which now totals \$15,000,000. This fund is increasing at the rate of \$500,000 each month."

Anglim explained that government insured mortgages for the building, buying and refinancing of residential property will be available at all times through lending institutions authorized by the Federal Housing Administration to make such loans. He stated that the modernization credit plan, known as Title I of the Housing Act, expires April 1, 1937, unless extended by Congress.

## REIMERS NAMED SUCCESSOR TO ROTH ON BOARD

Takes Office With Architectural Examiners for 4-Year Term

Frederick H. Reimers has been sworn in as a member of the State Board of Architectural Examiners, Northern Division, succeeding C. F. B. Roth whose term expired in January.

Mr. Reimers will serve until January, 1940. He has practiced architecture in San Francisco since 1915. In 1917 he joined the A.E.F. and saw service overseas. Following the war he studied architecture in Europe and in the East.

### Oakland Resident

He returned to take up his work in San Francisco and has remained here since that time, specializing in residential designing. Recent structures designed by Mr. Reimers include the Vallejo Junior High School, Grass Valley Elementary School and the Friden Calculating Machine factory in San Leandro. He resides in Oakland.

Other members of the Board are: Fred H. Meyer, president; Harry J. Devine, secretary-treasurer; Warren C. Perry, and C. J. Ryland.

Coincident with the appointment of Reimers to the Northern Board, Louis J. Gill was reappointed a member of the State Board of Architectural Examiners, Southern Division. Gill practices architecture in San Diego.

## Sacramento to See FHA Homes Exhibit

The Federal Housing Administration's "touring exhibit" of a model town, illustrating possibilities offered to prospective home owners and builders through FHA loans, will be shown at the John Breuner Co. store in Sacramento for a week, starting February 23, it is announced.

The exhibit consists of fifteen homes, one - eighth actual size. Each home is landscaped and arranged for inspection. The exhibit was first shown at the San Diego exposition, where it attracted 6,000,000 persons. It was voted the most popular attraction at the fair.

Since then it has been shown in Washington and Oregon where it attracted thousands of persons interested in building their own homes.

Shipments of malleable iron castings, in short tons, for the 12 months of 1936 amounted to 571,696, as against 466,395 for the year of 1935, the Bureau of Census reports.

## FIRST QUARTER LUMBER OUTLOOK BRIGHT, REPORT

Commerce Dept. Committee  
Sees Gains Following  
End of Strike

With estimated lumber consumption in 1936 more than 10 billion feet greater than in the preceding year, outlook for the current quarter is for further increases, according to a report to the Department of Commerce from its special lumber survey committee.

Deferred shipments released by the end of the maritime strike and an anticipated gain in farm building indicate gains in consumption, the committee said.

Following is the text of a Department of Commerce bulletin on the quarterly report:

The Department of Commerce has received a report from the Special Lumber Survey Committee on Lumber Consumption, Lumber Stocks and on Anticipated Consumption during the first quarter of 1937. This is the 23rd quarterly report of the Committee.

### Consumption Gains

The Committee finds that national lumber stocks on January 1, 1937, for approximately 7.4 billion feet were two per cent in excess of stocks on January 1, 1936. Estimated lumber consumption in 1936 was approximately 23 billion feet, more than 10 billion greater than in 1932. The end of the Pacific Coast strike is releasing a heavy volume of deferred shipments. With the restoration of flooded areas there will be some revival of lumber production, replacement of lost and damaged stocks and a substantial demand for rehabilitation building materials.

Regional relationships of stocks, the Committee reports, have been disrupted by the maritime strike. Considered in the light of heavy unfilled order files, stocks are inadequate in many regions. The Committee finds that the available reserve producing capacity of the lumber manufacturing industry is ample to meet all present and prospective demands for lumber. The nation-wide restoration of larger volume consumption of lumber may be expected only at moderate price levels commensurate with prices of competitive materials and with public purchasing power. The Committee recommends that the lumber industry discourage "lumber famine" propaganda and resist artificial pricing of its products.

The Lumber Survey Committee appointed on July 9, 1931, consists of Thomas S. Holden, vice-president, H. W. Dodge Corporation, New York; M. W. Stark, Economist, Columbus, O.; Calvin Fentress, chairman of the board, Baker, Frenness & Co., Chicago; Phillips A. Hayward, Chief, Forest Products Division, Department of Commerce, and Wilson Compton, Secretary and Manager

## Indirect Labor Ratio 2.6 to 1 on Post Offices, Bureau Investigation Reveals

Continuing a two-year investigation into the ratio between direct and indirect labor created by Public Works Administration projects, the Bureau of Labor Statistics has reported to Administrator Harold L. Ickes that the ratio on 92 post offices, financed by Federal PWA allotments, was 2.6 to 1.

This establishes that 26 hours of labor were created for men in the factories, mines, and forests, supplying raw or fabricated materials to every ten hours of labor created for men at the site of construction.

By this new report the mystery concerning one of the vital unknowns of employment resulting from the PWA program was further dispelled. For years the ratio of indirect to direct labor in construction has been a matter of widely varying estimates and conjecture on which reliable information was not available anywhere. Realizing that specific factual information on the subject must be ascertained if the employment generated by PWA was to be accurately gauged, PWA requested the Bureau of Labor Statistics to undertake the task. The result of this statistical research in which millions of contracts, payrolls, time sheets, specifications, etc., were studied, is now becoming available.

### First Report

This is the first report on the direct and indirect ratio of labor for Federal projects under the PWA program. It was recently established as part of the same study, that five man-hours of labor were created in mines, forests, and factories to every two man-hour created at the site of construction on all non-Federal PWA projects—a ratio slightly lower than that prevailing in post office construction.

The Bureau reports that more than 5,500,000 man-hours of labor were created in the construction of the 92 projects. These conclusions were based upon cost accounting reports from 35 general contractors and 835 sub-contractors who willingly opened their books to the statisticians, directed by Herman B. Byer.

There has been created a total of 532,238,000 man-hours of labor at the site of construction on the basis of Byer's 2.5 to 1 ratio on the PWA non-Federal Program. An additional 1,330,595,000 man-hours of indirect labor were created, making a total of 1,862,833,000 man-hours. This, of course, does not include the Federal program, nor does it take into consideration 1,064,476,000 man-hours of employment which PWA statisticians estimate is created in those industries engaged in furnishing consumer's goods. All in all, the non-Federal program created an estimated 2,395,071,000 man-hours of labor. Should further investigation by the Bureau of Labor Statistics discover that the 2.5 indirect to 1 direct ratio is applicable to the entire PWA

construction program, then the organization over the three and one-half years since its conception may be said to have created in excess of eight billionman-hours of work.

### Material Purchases

On the basis of studies made of the 92 post offices, the Bureau said 1,535,000 man-hours of labor were created at the sites of construction. The purchase of construction materials and overhead disbursements created nearly 4,000,000 man-hours of labor in factories, mines, and forests, often thousands of miles from the scene of construction.

The 92 post offices represent approximately 30 per cent of the total number of that type of building financed from PWA funds, which were completed in 1934, 1935 and 1936. Large post office buildings, which would tend to distort the sample, were not included. The 92 post offices ranged in cost from \$51,034 for one of the buildings constructed in Indiana, to \$178,206 for a post office in Alabama. The combined cost of the 92 buildings was \$4,362,435.

Out of each dollar spent for the construction of the 92 post offices from Public Works Administration funds, 30c went to labor at the site, 54c for material (including wages represented in the cost of such materials) and 16c for overhead and profit. Payroll disbursements at the site of construction totalled \$1,309,512; construction materials \$2,333,896, and overhead and profit \$719,027.

The percentage of the contract price expended for payrolls at the construction site ranges from 25.7 in the West South Central States to 32.1 in the Middle Atlantic. Less than 50 per cent of the contract price was spent for materials in the Middle Atlantic States and 58.4 per cent in the East South Central. The percentage for overhead expenses and profit ranges from 10.9 in the Mountain States to 19.6 in the South Atlantic.

## "MODERNIZE" WINDOW DISPLAYS AVAILABLE

Attractive new "Clean Up, Paint Up, Fix Up, Modernize" window displays are now available, the National Clean Up and Paint Up Campaign Bureau announces. They are to be sold on a cooperative price basis, not for profit, the bureau says. Further information concerning the displays, Window Display No. 40, may be obtained by writing the bureau at 2201 New York avenue, N. W., Washington, D. C.

#### BIDS WANTED

TEHAMA Co., Calif.—Until March 2, 1937, 2 p.m., bids will be received by the Bureau of Public Roads, Federal Office Bldg., San Francisco, for placing bituminous treated crushed rock surfacing on 4,675 miles of Section D of the Southwest Approach to Lassen Volcanic National Park, Lassen National Forest, Tehama County.

The principal items of work involved are:

- (1) 20 cu y. unclass. excav. for struts;
- (2) 8,775 tons bituminous treated crushed rock;
- (3) 150 tons supplemental crushed rock;
- (4) 2,800 tons crushed rock for shoulders and base course;
- (5) 540 tons crushed rock for screenings;
- (6) 14 cu y. concrete;
- (7) 200 M. gals. watering;
- (8) 537 tons liquid asphalt materials, Types MC-4 or 5, RC-2, and SC-2.

Plans and specifications obtainable from the above office.

The project should be inspected prior to November 15, as the roads may be closed by snow after that date.

#### BIDS OPENED

PHOENIX, Ariz.—W. E. Hall Co., Title & Trust Bldg., Phoenix, at \$43,779, submitted low bid to the Phoenix City Commission for paving portions of Dayton St., Monte Vista Road, Coronada Road, Almira Road, and Mitchell St.

The other bids were: Arizona Sand & Rock Co.—\$43,816. Tanner Constr. Co.—\$44,194.

#### NOTICE TO BIDDERS

SAN DIEGO CO., Calif.—C. H. Purcell, State Highway Engineer, has announced the cost of blue line prints for the State highway work now advertised.

A blue line print of the title sheet of the plans showing the general location of the work will be furnished free with the special provisions. Blue prints of the layout and the bridge detail sheet will be furnished at cost and become the property of the purchaser.

The following table shows the cost of such blue line prints for the work now advertised, bids to be opened in Los Angeles on March 4, 1937:

XI-S.D.-2-D—Bet. Las Flores Underpass and one mile south of San Onofre. PLANS (No. of Sheets), 40; cost, \$4.00; CROSS-SECTIONS (No. of Sheets), 152; cost, \$15.20; total, \$19.20.

Checks for the above should be made payable to the Department of Public Works, Division of Highways, and should accompany the requests for the above plans, specifications and proposals, from the office of the State Highway Engineer, P. O. Box 1499, Sacramento.

A representative of the District Office will accompany prospective bidders over the above project, and will meet prospective bidders at the San Onofre service station, near north end of the project on Tuesday, February 23, and on Monday, March 1, at 2 p.m.

Prospective bidders are urged to cooperate with the District Office and arrange to make their field inspection on the above dates.

#### BIDS WANTED

LOS ANGELES—Until March 10, 10 a.m., bids will be received by the Los Angeles Board of Public Works, City Hall, for grading, paving, and otherwise improving Washington Blvd. between Harriett St. and Santa Fe Ave.

#### BIDS WANTED

FORT FUNSTON, Cal.—Until Feb. 23 3 P. M., bids will be received by the U. S. Engineer Office, Lieutenant J. A. Dorst, District Engineer, Customs House, San Francisco, under Bid No. 865-37-169, for surfacing approximately 56,000 sq. ft. of road at Fort Funston.

The new roadway under construction at the south end of the reservation consists of a crushed rock base, 10-ft. wide spread and rolled in two courses of 7-inches each, and is approximately 2,800 ft. in length.

Plans and specifications obtainable from the above office.

### 30—RESERVOIRS & DAMS

#### BOND ELECTION PLANNED

EU'REKA, Humboldt Co., Calif.—The City Council plans to call an election in the near future to vote on a proposal to issue an additional \$625,000 in bonds to finance completion of construction of the Mad River Water Project. The Council has announced that one of five alternate plans submitted by Consulting Engineer Clyde C. Kennedy, 74 New Montgomery St., San Francisco, known as Plan "B," calling for construction of a dam to the crest elevation of 290, about 50 ft. above the river bed, and

includes construction of approximately 25 miles of supply pipe line.

#### BIDS WANTED

**SHOSHONE PROJECT, Wyo.**—Until Feb. 25, 10 a. m., bids will be received by the Bureau of Reclamation, Cody, Wyo., Walter F. Kemp, Construction Engineer, under Spec. No. 884-D, for preparation of concrete aggregates, Heart Mountain Division, Shoshone Project.

The gravel deposit is located about 3 miles southwest of Cody, and the principal items of work involved are:

- (1) 25,000 c.y. stripping gravel deposit;
  - (2) Preparing and stockpiling 40,000 c.y. of sand and gravel.
- Specifications obtainable from the office of the Bureau of Reclamation, Cody, or Denver, without charge to prospective bidders; to others, \$0.50, not returnable.

#### BIDS WANTED

**SAN BERNARDINO CO., Calif.**—Until March 18, 10 A. M., bids will be received by Metropolitan Water District, 306 West Third St., Los Angeles, under Spec. No. 190, for constructing the Gene Wash and Copper Basin Dams and appurtenant features of the Gene Wash and Copper Basin Reservoirs.

The work is located in San Bernardino County, 13 to 20 miles by road northeast of Earp, Calif., and is comprised in two schedules as follows: Award will not be made to more than one bidder nor for less than all the items of the work.

**Schedule 1:** Includes the construction of a concrete arch dam at Generation and concrete arm dam at Gene Wash with a maximum height of about 156 feet and a crest length of 430 ft.; an ogee concrete spillway dam with non-overflow gravity extensions having a maximum height of about 34 ft. and a total length of 460 feet; and two reinforced concrete faced dykes with a maximum height of 25 ft. and a total length of 1300 ft.

**Schedule 2:** Includes the construction of a concrete arch dam across the outlet of Copper Basin, with a maximum height of about 210 ft. and a crest length of 220 ft.; an ogee concrete spillway dam with non-overflow gravity extensions for Copper Basin Reservoir, having a maximum height of about 18 ft. and a length of 290 ft.; and a reservoir outlet structure at the entrance to the Whipple Mountain tunnel.

Approximate quantities, subject to revision and re-arrangement for bidding purposes, are:

#### SCHEDULE 1—GENE WASH DAM

- (1) 6,500 c.y. excav., unclass., for foundation of dam;
- (2) 11,000 c.y. do for foundation and approach to spillway;
- (3) 4,000 c.y. do for earth fill dike;
- (4) 600 c.y. do for cut-off wall—earth fill dike;
- (5) 10,500 c.y. earth fill in reservoir dike;
- (6) 1,500 c.y. backfill;
- (7) 50 c.y. compacted backfill;
- (8) 5,000 lf. drilling grout and anchor holes; footage not more than 25 feet deep;
- (9) 1,000 lf. drilling grout holes; footage more than 25 and not more than 50 feet deep;
- (10) 375 lf. drilling grout holes; footage more than 50 and not more than 100 feet deep;
- (11) 13,000 lbs. installing grout pipes and fittings for dam and spillway foundations;
- (12) 4,000 lbs. do for contraction joints;
- (13) 21,000 lbs. installing metal tubing, pipe, and fittings for concrete cooling system;
- (14) Lump sum, furnishing, installing and operating concrete cooling

- ing plant;
  - (15) 6,500 cu. ft. pressure grouting foundations;
  - (16) 225 c.ft. pressure grouting; contraction joints & cooling pipes;
  - (17) 13,000 c.y. concrete in dam;
  - (18) 3,200 c.y. concrete in spillway;
  - (19) 500 c.y. concrete paving on dike
  - (20) 700 c.y. concrete in cut-off wall of dike;
  - (21) 20 c.y. concrete in trash rack structure for dam;
  - (22) 160 c.y. concrete in valve house structure for dam;
  - (23) 110 c.y. concrete in parapet and railing overhang;
  - (24) 75 c.y. gunite or equivalent coating of lock;
  - (25) 537,000 lbs. fabricating and placing reinf. steel and anchor bars;
  - (26) 35,000 lbs. installing metal scaling strips in construction and contraction joints of dam and spillway;
  - (27) 20,000 lbs. installing cast iron sluiceway pipe;
  - (28) 30,000 lbs. installing trash rack metal work in sluiceway;
  - (29) 25,000 lbs. installing sluiceway slide gate and operating mechanism;
  - (30) 25,000 lbs. installing discharge valve and operating mechanism for dam;
  - (31) 15,000 lbs. installing miscellaneous metal work;
  - (32) 1,000 lbs. installing pipe hand-railings;
  - (33) 7,500 ton-miles hauling steel;
  - (34) 92,000 ton-miles hauling cement
  - (35) Overhaul of concrete aggregates fixed at 7c per ton-mile;
  - (36) Clear reservoir site, lump sum.
- #### SCHEDULE 2—COPPER BASIN DAM
- (37) 5,500 c.y. excav., unclass. for foundation of dam;
  - (38) 4,500 c.y. do for foundation and approach to spillway;
  - (39) 1,500 c.y. do in reservoir outlet works;
  - (40) 4,500 c.y. backfill;
  - (41) 1,500 c.y. compacted backfill;
  - (42) 4,500 lf. drill, grout and anchor holes; footage not more than 25 feet deep;
  - (43) 1,300 lin. ft. drill grout holes; footage more than 25 and not more than 50 feet deep;
  - (44) 375 lin. ft. drilling grout holes; footage more than 50 and not more than 100 feet deep;
  - (45) 12,000 lbs. installing grout pipes and fittings for dam and outlet foundation;
  - (46) 4,500 lbs. installing grout pipes and fittings for contraction joints;
  - (47) 20,000 lbs. installing metal tubing, pipe and fittings for concrete cooling system;
  - (48) Furnishing, installing and operating concrete cooling plant;
  - (49) 6,100 cu. ft. pressure grouting foundations;
  - (50) 210 cu. ft. pressure grouting, contraction joints and cooling pipes;
  - (51) 14,000 c.y. concrete in dam;
  - (52) 450 c.y. concrete in spillway;
  - (53) 2,215 c.y. concrete in reservoir outlet struc., exclusive of superstructure;
  - (54) 25 c.y. concrete in trash rack structure for dam;
  - (55) 160 c.y. concrete in valve house structure for dam;
  - (56) 90 c.y. concrete in parapet and railing overhang;
  - (57) Constructing gate house superstructure above elevation 1042 for outlet works;
  - (58) 75 c.y. gunite or equivalent coating of lock;
  - (59) 500,000 lbs. fabricating and placing reinf. steel and anchor bars; sluiceway pipe;
  - (60) 25,000 lbs. installing metal scaling strips in contraction joints of dam;
  - (61) 40,000 lbs. installing cast iron sluiceway pipe;

- (62) 50,000 lbs. installing trash rack metal work in outlet works;
  - (63) 45,000 lbs. installing trash rack slide gate and operating mechanism;
  - (64) 40,000 lbs. installing sluiceway slide gate and operating mechanism;
  - (65) 150,000 lbs. installing slide gates and operating mechanism for outlet works;
  - (66) 30,000 lbs. installing discharge valve and operating mechanism for dam;
  - (67) 50,000 lbs. installing miscellaneous metal work;
  - (68) 6,000 lbs. installing pipe hand-railings;
  - (69) 1,800 lbs. installing elec. metal conduit and boxes;
  - (70) 6,000 ton-miles hauling steel;
  - (71) 60,000 ton-miles hauling cement
  - (72) Overhaul of concrete aggregate, fixed at 7c per ton-mile;
  - (73) Clear reservoir site, lump sum.
- Copies of the specifications and plans will not be available until the afternoon of Feb. 18. Full size blueprints of the original tracings of the 39 specification drawings, however, together with lists of the principal construction quantities involved are available at Room 1007, 396 W. Third St., and a complete set of drawings and lists will be furnished by a certified or cashier's check for \$55,000.

F. E. Weymouth, General Manager and Chief Engineer. — 30

#### PLANNED

**PACIFIC NORTHWEST.**—Public Works projects for Pacific Northwest as outlined in the 6-year plan of the President, will total \$106,000,000. A list, showing the most important items, follows:

- Grand Coulee high dam, \$40,000,000.
- Roza project, \$11,500,000.
- Bonneville, \$5,650,000.
- Diversion canal at Emmett, Idaho, \$2,500,000.
- Storage on Teton River (irrigation), \$1,050,000.
- Spokane sewer projects, including sewage treatment plant, \$90,000.
- Snake river basin grazing area (water development), \$37,000.
- Fish screens and ladders on existing projects throughout Columbia basin, \$345,000.
- Spokane waterworks projects, \$330,000.
- Squirrel Meadows storage reservoir, Ashton, Ida., \$290,000.
- Developing reservoirs, springs and wells on public range in Idaho, Oregon and Washington, \$222,000.
- Indian reservation, irrigation, Ft. Hall, Ida., \$150,000.
- Indian Valley reservoir, Ida., \$128,000.
- Twin Falls, Ida., water supply, \$144,000.
- Latah Creek drainage, Ida., \$81,000.
- Coeur d'Alene, Ida., sewer system, \$69,000.
- Challis irrigation canal, Custer Co., Ida., \$44,000.
- Diversion dam on Big Lost river, Arpa, Ida., \$55,000.
- Grangeville, Ida., sewage treatment plant, \$13,000.
- McCall, Ida. sewer system, \$32,000.
- Drainage system near Tuppenish, Wash., \$87,000.
- Raise Wheeler dam, \$21,000.
- Complete diversion of Neepalem river from irrigation storage in Coe lake, \$21,000.
- Diversion dam for storage in Twin Lakes of Inchelium, \$35,000.
- Construction of Irrigation, 1942-46, Columbia Basin, \$50,000.

#### PLANNED

HELENA, Montana, The Montana Resources Board has indicated that it will approve a \$120,000 flow-

# MACHINERY & MATERIAL

Bid calls for construction machinery and materials and miscellaneous equipment and supplies purchased by Federal, State, Municipal and other public agencies.

## CANAL ZONE

**PANAMA CANAL ZONE.**—Until Feb. 26, 10:30 a. m., bids will be received by H. A. A. Smith, General Purchasing Officer, The Panama Canal, Washington, D. C., under Sch. No. 3224, for furnishing miscellaneous supplies and equipment, including:

Air Compressor, Electric Motors, Watthour Meters, Potential Transformers, Distribution-type Transformers, Electric Lighting Fixtures, Ceiling Rosters, Light Sockets, Receptacles, Fuses, Copper Connectors, Shade Holders, Rigid Steel Conduit, Conduit Elbows and Bushings, Electrical Cable, Insulated Wire, Bare Copper Wire, Magnet Wire, Vacuum-cleaning Cord, Brass Screws, Steel Cap Screws, Electric Wall Cocks, Vacuum Jug Sets, Oil Stones, Phenolic Insulation, Insulating Fiber, Asbestos-board Insulation, Cane Webbing, Transfer Cases, T-pins, and Copper Wire Cloth.

Specifications obtainable from the above office and from the Assistant Purchasing Agent, The Panama Canal, Fort Mason, San Francisco.

**PANAMA CANAL ZONE**—Until Feb. 25, 10:30 a. m., bids will be received by H. A. A. Smith, Purchasing Officer, The Panama Canal, Washington, D. C., under Sch. No. 3226, for furnishing 900,000 gals. gasoline; approximately 550,000 gals. to be delivered at Balboa and 350,000 gals. at Cristobal, C. Z.

Specifications obtainable from the above office and from the Assistant Purchasing Agent, The Panama Canal, Fort Mason, San Francisco.

## SAN LUIS OBISPO COUNTY

**EL PASO DE ROBLES, San Luis Obispo Co., Cal.**—Until March 1, 5 P. M., bids will be received by the El Paso de Robles City Council, S. S. Tucker, City Clerk, for furnishing the following materials:

25,824 b. f. of 2x8x15 O. P.;  
2,592 b. f. of 2x8x20 O. P.;  
29,278 b. f. of 2x10x15 O. P.;  
628 b. f. of 2x10x20 O. P.;  
1,700 ft. 1x8-in. steel plates weighing 10.21 lbs. per foot;  
1,500 ft. 1 1/4-in. iron rods weighing 4.172 lbs. per foot;  
6,500 ft. 8x11 1/2-in. bolts with nuts and flat washers to fit;  
5,000 ft. 2x8-in. do;  
400 1x6-in. do;  
12,000 lf. 1/2-in. reinf. steel weighing .55 lbs. per foot;  
575 sacks cement;  
115 yards crushed rock;  
70 cu. yds. nails;  
50 yards sand.  
Delivery: Feb. Paso Robles, Calif.  
Separate bids must be submitted for each item.

## WAR DEPARTMENT

**FORT MASON, CALIF.**—Until Feb. 26, 10:30 a. m., bids will be received by the Quartermaster Supply Officer, Fort Mason, under Bid No. 928-37-294, for furnishing asphalt roofing, steel pipe, pipe fittings, etc.

Delivery: Fort Mason, Cal. No. 1. Fort Mason, Cal.  
Specifications obtainable from the above office.

**FORT MASON, CALIF.**—Until Feb. 23, 10 a. m., bids will be received by the

Constructing Quartermaster, Fort Mason, under Bid No. W 6616-37-62, for furnishing 19 manhole frames and covers, 18-inch.

Delivery: Fort Mason, Cal. No. 1. Fort Mason, Cal.  
Specifications obtainable from the above office.

**FORT MASON.**—Until Feb. 23, 11 a. m., bids will be received by the Constructing Quartermaster, Ft. Mason, under Bid No. W 6616-37-64, for furnishing one 14-circuit panel board, conduit, and electrical supplies.  
Delivery: Fort Mason, Cal. No. 59, Letterman General Hospital, Presidio of San Francisco.

Specifications obtainable from the above office.

**FORT MASON.**—Until March 3, 2 p. m., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. 928-37-295, for furnishing 10,000 ft. m. Douglas Fir lumber, No. 2 common.

Specifications obtainable from the above office.

**FORT MASON.**—Until Feb. 25, 10 a. m., bids will be received by the Constructing Quartermaster, Ft. Mason, under Bid No. W 6616-37-65, for furnishing one gasoline road roller, 3-wheel, and one standard scarifier.

Alternate bids will be accepted on both pieces of equipment for 6-ton, 7-ton, or 8-ton capacity.

Delivery: Fort Mason, San Francisco National Cemetery, Presidio of San Francisco.

Specifications obtainable from the above office.

**FORT MASON.**—Until March 1, 2 p. m., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. 928-37-291, for furnishing smithing coal, step treads, helical springs, hark fabrics, hardwood lumber, Douglas fir and redwood lumber, wrought-iron pipe, pipe fittings, etc.

Specifications obtainable from the above office.

**FORT MASON.**—Until Feb. 27, 10 a. m., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. 928-37-290, for furnishing 17 gate valves and 1060 ft. wrought-iron pipe.

Specifications obtainable from the above office.

## NAVY DEPARTMENT

**WASHINGTON, D. C.**—Bids will be received by the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., for furnishing miscellaneous supplies and equipment, as follows:

OAK, 20,000 ft. m. white oak; Mare Island, Sch. 1043; Feb. 19.

MILLING machine, motor-driven, 6 sets carbon brushes and 1 circular milling attachment; San Diego, Sch. 9974; Feb. 23.

BURRS, rivets and washers; East & West Yards, Sch. 9990; Feb. 23.

MILLING machine, motor-driven, 6 sets carbon brushes and 1 circular milling attachment; San Diego, Sch. 9975; Feb. 23.

CLEANING outfits and brushes,

boiler tube; East & West Yards, Sch. 9991; Feb. 23.

LOCKS, latches and keys; East & West Yards, Sch. 9980; Feb. 23.

TRACTOR, gasoline engine driven; San Diego, Sch. 14; Feb. 23.

GENERATORS, 6 hand-driven testing; Mare Island, Sch. 9981; Feb. 26.

STEEL, 13,900 lbs. chrome-nickel bar; Mare Island, Sch. 9995; Feb. 26.

TUBING, 7,950 lbs. copper-nickel alloy; Mare Island, Sch. 9997; Feb. 26.

VALVES, 150 high-pressure steel; Mare Island, Sch. 9996; Feb. 26.

TUBING, 30,000 ft. seamless steel; Mare Island, Sch. 9998; Feb. 26.

STEEL, 4,000 lbs. corrosion and heat-resisting; Mare Island, Sch. 9994; Feb. 26.

MILLING machine, motor-driven; San Pedro, Sch. 9977; Feb. 26.

BLOCKS, 450 sq. ft. insulating, and 3,340 sq. ft. asbestos felt; Mare Island, Sch. 9999; Feb. 26.

HOSE, flexible, for FBY-1 airplanes; East & West Yards, Sch. 900-537; Feb. 26.

LUMBER, 2,620 ft. m. and 3 logs of Alameda lumber, and 2,620 ft. m. and 3 logs of Guayaban lumber; Mare Island, Sch. 9985; March 2.

PUMPS, 24 motor-driven diesel oil supply pumps and spares; Mare Island and Puget Sound, Sch. 1011; March 2.

TUMBLERS, 2 drying tumblers, 1 collar press, and 1 flat work ironer; Mare Island, Sch. 1010; Yards, Sch. 1009; March 2.

PLUMBING fixtures and accessories; March 2.

BLADES, turbine; East & West East & West Yards, Sch. 1020; March 2.

ALLOW, copper-nickel; Mare Island, Sch. 1025; March 2.

SHAFTS, steel; Mare Island, Sch. 1023; March 2.

PUMP, motor-driven flushing, and spares; Mare Island, Sch. 1026; March 2.

INDICATORS, CO<sub>2</sub>, and spares; East & West Yards, Sch. 1027; Mar. 2.

ZINC, slab (spelter); Mare Island, Sch. 1015; March 2.

DRILLS, high speed twist; Puget Sound, Sch. 1032; March 2.

Information obtainable from the above office and from headquarters, 12th Naval District, Federal Office Bldg., San Francisco.

**FORT MASON.**—Until Feb. 26, 10 a. m., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. 928-37-286, for furnishing 96 gals. ready-mixed aluminum paint.

Specifications obtainable from the above office.

**FORT MASON.**—Until Feb. 25, 2 p. m., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. 928-37-287, for furnishing a hydrometer, storage battery charger and tester, chain hoist, hydraulic press, socket wrenches, blow torches, soldering coppers, valve refacing machine, valve seat grinder, air compressor, etc.

The items are for delivery to the District Quartermaster, CCC, Medford, Oregon.

Specifications obtainable from the above office.

**TREASURY DEPARTMENT**

SAN FRANCISCO.—Bids will be received by the Procurement Office, Treasury Department, Room 514, 49 Fourth St., San Francisco, for furnishing miscellaneous materials for use on WPA projects, as follows:

BID NO. 3409—5,000 gals. asphaltic emulsion; f.o.b. Oakland Municipal Airport, Bay Farm Island.

BID NO. 3408—10,000 gals. asphaltic emulsion; f.o.b. Brisbane.

February 23, 10 A. M.  
BID NO. 3406—31 gate valves; f.o.b. East Bay Municipal Utility District Corp. Yard, 22nd and Adeline Sts., Oakland.

February 26, 10 A. M.  
BID NO. 3407—1,200 lf. welded steel pipe, cement lined; f.o.b. East Bay Municipal Utility District Yard, 6th and Harrison Streets, Berkeley.

Specifications obtained from the above office.

SAN FRANCISCO.—A public auction will be held at Garage, Bldg. No. 7, U. S. Marine Hospital, 14th Ave. and Lake St., San Francisco, February 25, 10 a. m., for the sale of one 4½-ton truck.

Further information obtainable at Room 113, Main Bldg., U. S. Marine Hospital.

SAN FRANCISCO.—Until Feb. 23, 10 a. m., bids will be received by the Procurement Office, Treasury Dept., Room 514, 49 Fourth St., San Francisco, under Bid No. 3312, for furnishing 62,486 ft. b. m. No. 1 common lumber, for use on WPA project.

Delivery f.o.b. Winters and/or bidder's mill.

Specifications obtainable from the above office.

**SAN FRANCISCO CITY**

SAN FRANCISCO.—Until Feb. 26, 3 P. M., bids will be received by T. A. Brooks, Purchaser of Supplies, Room 270, City Hall, under Bid No. 1738, for furnishing approximately 1650 c. y. red rock and 40 c. y. red rock screenings for Vicente Square (WPA).

Specifications obtainable from the above office.

SAN FRANCISCO.—Until Feb. 26, 3 p. m., bids will be received by T. A. Brooks, Purchaser of Supplies, Room 270, City Hall, under Bid No. 1739, for furnishing and delivering 24-in. and 33-in. extra heavy concrete sewer pipe for the WPA.

Specifications obtainable from the above office.

SAN FRANCISCO.—Until March 8, 3 p. m., bids will be received by T. A. Brooks, Purchaser of Supplies, Room 270, City Hall, under Bid No. 1735, for furnishing and delivering structural steel, castings, and accessories for Ferry Slips on Yerba Buena Shoals.

Plans and specifications obtainable from the above office upon deposit of \$10.

**U. S. FOREST SERVICE**

SAN FRANCISCO.—Until Feb. 25, 2 p. m., bids will be received by G. D. Huestis, Assistant Procurement Officer, Forest Service, 1022 Phelan Bldg., San Francisco, under Bid No. 996, for furnishing one electric motor driven air compressor, for garage service.

Delivery f.o.b. bidder's shipping point and/or Government Island.

Specifications obtainable from the above office.

GOVERNMENT ISLAND.—Bids will be received by Frank Haynie, Supply Officer, Forest Service Supply Depot, Government Island, Oakland, as follows:

February 23, 2 P. M.

BID NO. 4325—Birch lumber and panels; f.o.b. bidder's shipping point and/or Government Island.

BID NO. 4321—Pine and Douglas fir lumber; f.o.b. bidder's shipping point and/or Government Island.

February 24, 2 P. M.

BID NO. 4339—560 electric head-lights; f.o.b. bidder's shipping point and/or Government Island.

Specifications obtainable from the above office.

GOVERNMENT ISLAND.—Bids will be received by Frank Haynie, Supply Officer, Forest Service Supply Depot, Government Island, Oakland, as follows:

February 23, 2 P. M.

BID NO. 4333—300 2-cell focusing type flashlights; f.o.b. bidder's shipping point and/or Government Island.

BID NO. 4326—Six redwood water tanks, 5,000 gals. capacity, with plain conical cover; f.o.b. bidder's shipping point and/or Santa Barbara.

Specifications obtainable from the above office.

SAN FRANCISCO.—Until Feb. 26, 2 p. m., bids will be received by P. C. Brown, Procurement Officer, Forest Service, 1022 Phelan Bldg., San Francisco, under Bid No. 995, for furnishing one upright drill press, complete with electric motor and controls.

Delivery f.o.b. bidder's shipping point and/or Government Island, Paestee, Oakland.

Specifications obtainable from the above office.

**RECLAMATION SERVICE**

COLORADO RIVER PROJECT.  
DENVER.—Until March 3, 2 P. M., bids will be received by the Bureau of Reclamation, Denver, under Spec. No. 885-D, for furnishing and delivering f.o.b. cars at the shipping point and/or Austin, Texas, one liquid-gas storage and gasifying plant; gas distribution piping system; twenty-one gas-fired, non-insulated, storage water heaters; one gas-fired, jacketed and insulated storage water heater; twenty-two gas meters; and furnishing and delivering to the storage tank of the liquid-gas plant, liquid gas in such quantities and at such times as directed by the construction engineer; to serve the residences and buildings in the Government camp at the Marshall Ford Dam, Colorado River Project, Texas.

All materials will be installed by the Government.

Specifications obtainable from the above office without charge to prospective bona fide bidders, to others, \$125, not returnable.

**EAST BAY UTILITY DIST.**

OAKLAND, Alameda Co., Calif.—Until Feb. 24, 5:30 p. m., bids will be received by the East Bay Municipal Utility District, John H. Kimball, Secretary, 512 16th St., Oakland, under Proposal No. L.S. 159, for furnishing 3,820 cast-iron bell and spigot water pipe fittings, sizes 4-in. to 12-in. diam.

Specifications obtainable from the above office.

**OAKLAND CITY**

OAKLAND, Cal.—Until Feb. 23, 1 P. M., bids will be received by the Oakland City Council, W. W. Chappell, City Clerk, City Hall, for furnishing 34 standard steel gratings complete with frames, bolts and nuts and 54 curb angle bars for catch-basins, 48-inch.

Specifications obtainable from the above office.

OAKLAND.—Until March 9, 1 p. m., bids will be received by the Oakland City Council, W. W. Chappell, City Clerk, City Hall, for furnishing one gasolene-engine driven generator set, complete, for the Fire Department.

Specifications obtainable from the above office.

**LOS ANGELES CITY**

LOS ANGELES, Cal.—Until Feb. 23, 2 P. M., bids will be received by D. P. Nekha, purchasing agent of the Los Angeles Water and Power Bureau, Room 740, 207 S. Broadway, for furnishing galvanized structural steel towers, Spec. No. 2217, as follows:

- (1) 2 towers, type CF-90 deg., 65-ft.; (a) fob cars or trucks bidder's shipping point;
- (2) 1 tower, type BF, 65-ft.; (a) and (b) as above;
- (b) fob trucks department's receiving sta. "F", 1520 Velasco Street.

Blue prints and specifications may be obtained at room 740, 207 South Broadway, upon deposit of \$10.00. Certified check or bond for 10% must accompany each proposal.

**COLORADO STATE**

DENVER, Colo.—Until March 2, 10 a. m., bids will be received by the board of water commissioners at the office of the Moffat tunnel extension project, Room 110, City and County Bldg., Denver, for furnishing 5000 bbls. portland cement for use on Ralston Creek conduit in accordance with specifications, bidding forms, etc., which may be obtained at the above address. Certified or cashier's check on a Denver bank or surety bond for 10% must accompany each proposal. PWA project. Richard Wensiev, president.

## MacDonald & Kahn's \$1,589,851 Basic Bid Low for Air Depot Repair Shops

SACRAMENTO, Feb. 25.—MacDonald & Kahn Co., Ltd., 200 Financial Center building, San Francisco, today submitted the low basic bid to Major Arthur W. Parker, Constructing Quartermaster, for construction of the engineering shops and repair dock at the Sacramento army air depot. The firm's total proposal amounted to \$1,589,851.

Bidding for the big contract was close, and final figures may be altered considerably by choice of alternate proposals included in the bids.

Eaton & Smith, San Francisco, was second low bidder for the work at \$1,595,000.

MacDonald and Kahn reported they could start work in five days and complete the contract in 500 days. Eaton and Smith declared they were prepared to start work in 30 days and complete the job in 600 days.

### Nine Proposals

Nine bids in all were received by Major Parker. In marked contrast to bidding for the Bay Bridge railway substructure in the East-bay yards, for which proposals covering a range of more than \$375,000 were opened by the state yesterday, today's opening found the low and high bids differing by approximately \$154,000.

Total bids were as follows:

MacDonald & Kahn	\$1,589,851
Eaton & Smith	1,595,000
Clinton Const. Co., S. F.	1,607,000
R. E. McKee, Los Angeles	1,617,000
N. P. Severin, Chicago	1,623,000
George Wagner and K. E. Parker, San Francisco	1,652,000
Barrett & Hilp, S. F. and A. Teichert & Son, Sacramento	1,674,900
Guy F. Atkinson, S. F.	1,687,857
J. H. Pomeroy & Co., S. F.	1,744,000

The bid of Severin from Chicago originally was \$2,000,000, but was reduced by a telegraphic deduction of \$377,000.

### IN NEW QUARTERS

Architect Oscar R. Thayer, formerly in the Monadnock building, announces he now has offices with Architect Wm. Mosser, 244 Kearny street, San Francisco. Telephone number is KEarny 1482.

Deep well water systems totaling 3,077 were sold in December, 1936, nearly twice as many as the December, 1935, figure of 1,673, the Bureau of Census reports.

## PLACER PAVING CONTRACT OUT FOR PROPOSALS

State Advertises Three-Mile Project; Bids Open March 17

SACRAMENTO, Feb. 23.—Bids to be opened March 17 for grading and paving with Portland cement concrete about 2 1/2 miles in Placer County between Rocklin and Loomis, were called today by State Engineer C. H. Purcell of the Division of Highways.

Principal items include: 43,000 cubic yards roadway excavation; 1,350 cubic yards excavation for structures; 34,200 square yards preparing subgrade; 2,805 tons untreated crushed gravel; 91 tons of liquid asphalt; 6,900 cubic yards Class A Portland cement concrete; 35,500 pounds reinforcing steel bars; 1,872 lineal feet CMP of various sizes, and 372,000 sta. yds. overhaul.

### Others Advertised

Three other bid openings have been scheduled for March by the Division of Highways, the first on March 4, when bids will be opened for approximately eight miles grading and paving with Portland cement concrete and placing plant-mixed surfacing on crusher run base in San Diego County between Las Flores underpass and San Onofre.

Bids on two jobs will be opened March 10. The first contract calls for the construction of four reinforced concrete slab bridges on concrete pile bents and grading and surfacing approaches in Glenn County between points about four and six miles east of Butte City. The second requires grading and applying road-mix surface treatment on 4 1/2 miles of roadway in San Joaquin and Stanislaus Counties, between Vernalis and Gates Road.

New orders for steel office furniture taken during the first ten months of 1936 totalled \$15,829,677, compared with a total of \$12,776,531 in orders taken during the same period in 1935, the Bureau of Census reports.

## CAMPBELL LOW FOR ADDITION TO HOSPITAL

Submits \$331,762 Figure on General Contract for Buildings

SACRAMENTO, February 24.—Campbell Construction Co., 800 R street, Sacramento, today submitted a low bid of \$331,762 to State Architect George B. McDougall on the general contract for construction of a group of seven buildings at Stockton State hospital.

M. R. Carpenter, Sacramento, was low bidder at \$30,959 for plumbing, and at \$33,581 for heating and ventilating. Spencer Elec. Co., San Francisco, submitted a low bid of \$12,808 for electrical work.

Total bids for the general contract were as follows:

Campbell Const. Co.	\$331,762
K. E. Parker Co., S. F.	349,450
H. Mayson, Los Angeles	359,542
Fred J. Early, Jr., S. F.	369,696
Barrett & Hilp, S. F.	387,171

The work includes construction of a group of seven buildings or units inter-connected by a covered cloister. Buildings will be of reinforced concrete construction, and will have steel sash and tile roofs. The group is to house male patients at the hospital.

Apportionment of motor vehicles to Alameda county last year was \$223,324, according to the state controller's report. In 1935 they were \$204,755.

## BERKELEY ASKS BIDS ON SCHOOL RECONSTRUCTION

**Award of High School Swimming Pool Rehabilitation Recommended**

Three Berkeley school projects had moved ahead today, following announcement that the Berkeley Unified School District has recommended to PWA the award of one contract, advertised a second project for bids and appointed an architect to prepare plans for a third.

Award of a contract to Central California Construction Co., 115 Burrows street, San Francisco, for rehabilitation of swimming pools in the boys' and girls' gymnasiums at Berkeley High School was recommended to PWA engineers by the District. The firm, which holds one nearly finished contract for Berkeley school work, was the only bidder at \$23,450 last week when the district received bids for the swimming pool contract. Work includes taking out brick walls and replacing with gunite or concrete, and strengthening roof and frames of the building.

### Willard Auditorium

Bids were invited for structural rehabilitation of the auditorium at Willard Junior High School, estimated to cost about \$18,000. They will be opened March 18.

Work will include strengthening roof trusses, installing system to resist lateral forces, acoustical revision and additional fire protection system. Plans are by Structural Engineer Thomas F. Chace and Architect Wm. C. Ambrose.

John B. Anthony, Berkeley, was selected by the board to prepare plans for a portable steel frame classroom to the Thousand Oaks school. The work will cost about \$3,200. Mr. Anthony will supervise construction.

## First PWA Housing Project Occupied

Techwood Homes, Atlanta, the first of the PWA housing projects to be completed is already 90 per cent occupied, according to the report of Director Howard A. Gray of the Housing Division to PWA Administrator Harold L. Miles.

Buildings included in the project comprise three-story apartment and two-story group houses of fireproof construction, planned so that each unit has the maximum amount of exposure, and containing living units varying from 3-room apartments to six-room row houses, all with cross ventilation. Techwood Homes is the first project to be completed, though 30 slum sites in 21 cities have been cleared, and in many instances projects are in the course of construction.

## MATERIAL PRICE GAIN REPORTED

The building material price index advanced one-hundredth of one per cent during the week ending February 13, bringing it to 92.2 per cent of the 1926 level, the U. S. Bureau of Labor Statistics reports. Higher prices for yellow pine lumber and for prepared roofing accounted for the rise, according to the bureau.

Prices for paint and paint materials declined slightly as a result of lower prices for putty and rosin, the bureau report says. Brick and tile, cement and structural steel prices remained steady.

## Jury Announced For Steel Span Design Contest

A jury of nationally known engineers and architects has been named to select the prize winning designs in the ninth students' bridge design competition which is held by the American Institute of Steel Construction annually. The jury consists of Dr. D. B. Steinman, consulting engineer; Jay Downer, consulting engineer; Kenneth M. Murchison, architect; Alfred Feltheimer, architect, and F. E. Schmitt, journalist.

The competition is open to all students of engineering or architecture registered in technical schools, colleges and universities of the United States. From the designs submitted three will be selected to receive prizes of \$150, \$100, and \$50. The jury will meet on April 20 next to make these selections.

The problem is to design a highway bridge to carry a roadway in a straight line over a stream 300 feet wide, bank to bank, connecting a parkway on the high land to the south with a boulevard on the plateau to the north. The proposed bridge would have four lanes forty feet between curbs, with one 5-foot sidewalk.

Competitors must submit their designs on or before April 12 next.

## \$104,000 BUILDING PERMITS IN WEEK

Building permits for work to cost \$104,295 were issued in Sacramento last week, bringing the volume of construction since Jan. 1 to more than \$800,000. Largest permit of the week went to Boyd & Coffing for construction of a \$20,000 automobile sales and storage building to be erected at 3100 Granada Way. Several new residences also were on the list.

## BIDS MARCH 10 ON TWO NEVADA HIGHWAY JOBS

**Elko, Esmeralda Contracts Are  
Advertised by State  
Road Directors**

Bids on two highway projects, for which more than \$500,000 has been programmed, were invited last week by the Nevada State Highway Directors. Bids will be opened in Carson City March 10 on both contracts.

The largest is for realigning, widening and surfacing about 17 miles between Elko and a point one and six-tenths miles east of Vivian. The highway department programmed \$450,000 for work on 18.6 miles between Vivian and Reno.

Bidding items, of which there are fifty, include 404,400 cu. yds. roadway excavation; 584,480 sta. yds. overhaul; 41,830 mile-yards overhaul; 136,000 tons of crushed gravel or stone subbase; 44,200 tons plant-mix gravel or stone base; 29,540 tons plant-mix asphalt surface; 11,600 tons gravel or stone surface; 153,000 feet fence, and numerous others.

The second contract for which bids will be opened March 10 calls for grading, gravel surfacing and installing structures on 10.68 miles between a point approximately 10 miles south of Blair Junction and Silver Peak. Bidding items include 90,300 cubic yards roadway excavation; 78,146 station yards overhaul; 10,68 miles s. bgr. r.; 36,300 tons crushed gravel or stone surface, and others. The department included \$85,000 for this project in its 1937 construction program.

## INDUSTRY ACCEPTS BOILER STANDARD

The proposed Simplified Practice Recommendation for steel horizontal firebox heating boilers has been accorded the required degree of acceptance by the industry and is to become effective at once, according to an announcement by the Division of Simplified Practice, National Bureau of Standards, Washington, D. C. The recommendation will be identified as Simplified Practice Recommendation R-157-37.

The recommendation was approved at a general conference held in Cleveland, on June 5, 1934, and subsequently modified to meet the needs of various interested groups. As finally accepted for promulgation, the recommendation lists 19 sizes of boilers ranging from 2880 to 56,000 square feet of water-radiation for hand firing.

Shipments of electrical industrial trucks and tractors for 1934 amounted to 1,253 units, compared with 920 trucks and tractors for 1935, according to the monthly report of the Bureau of Census.

## NELSON SUBMITS LOWEST BASIC GYMNASIUM BID

**Regents to Act Next Month on  
Bids for Building  
At Davis**

A. Nelson, Inc., San Francisco, yesterday submitted the low basic bid to the University of California regents for construction of a gymnasium and swimming pool at the Davis College of Agriculture. The firm's basic bid on the general contract was \$213,735.

Ten proposals were received for the general contract. They were:  
A. Nelson, Inc., \$213,735  
Campbell Const. Co., 217,509  
Dinwiddie Const. Co., 218,500  
K. E. Parker Co., 220,325  
C. L. Wolf, 224,431  
Holdener Const. Co., 225,484  
Monson Brothers, 225,825  
Lindgren & Swinerton, Inc., 232,855  
Azvedo Const. Co., 234,916  
Barrett & Hilp, 249,200

### Plumbing, Heating

Luppen & Hawley, Sacramento, submitted the low basic bid for plumbing at \$30,900; M. R. Carpenter was low bidder at \$40,923 for heating and ventilating; and Anderson & Rowe submitted a low basic bid of \$74,756 on the combined plumbing and heating and ventilating contract.

For electrical work the low basic bid was \$12,833, submitted by Luppen & Hawley.

Only one bid was received on the proposed contract combining plumbing, heating and ventilating and electrical work; from Alta Electric & Mechanical Co., San Francisco, at \$96,000.

### Under Advisement

Bids were taken under advisement, and probably will be acted upon by the regents at a meeting to be held next month.

The structure will be a Class A reinforced concrete and steel gymnasium and an enclosed swimming pool. Plans are by Architect Wm. Hays of San Francisco, with T. J. Jones, University of California, as mechanical engineer, and W. L. Huber, San Francisco, as structural engineer.

## REGISTER COMPANY ELECTS DIRECTORS

At the annual meeting of stockholders of the Ohmer Fare Register Company, held on February 8, at the company's New York City branch office, three new directors were added to the Board, as follows:

W. B. Turner, Dayton attorney and general counsel of the company; Philip Farnham, a partner in the law firm of John Van Voorhis' Sons, of Rochester, N. Y., and J. B. Mills, factory manager, who has served in that capacity with the company in Dayton for the past seventeen years.

These directors replace R. M. Ohmer, who died suddenly in New York City on January 20, F. J. Lisman, and H. W. Baker.

## Bates & Rogers Bid \$684,802 on First S. F.-Oakland Bay Bridge Railway Job

Bates & Rogers Construction Co., 532 Russ building, San Francisco yesterday was low bidder at \$684,802 for construction of the East Bay yard substructure for railway facilities of the San Francisco-Oakland Bay Bridge.

Proposals were received from six contractors, and represented a bidding range of more than \$375,000.

Should the bridge engineers decide to eliminate the Port of Oakland overhead, included in the bidding schedule, contract figures may be much lower.

### Total Bids

Total bids for the contract were as follows:  
Bates & Rogers, \$ 684,802  
J. F. Knapp, Oakland, 696,050  
Easich Bros., Torrance, 774,158  
Guy F. Atkinson Co., S. F., 893,290  
Macco Const. Corp., Clearwater, 924,297  
Clinton Const. Co., S. F., 1,061,970

Bids were submitted in unit prices, and it was not until late in the afternoon that official extensions of the bid prices were announced.

### Two Sections

The bidding schedule of thirty items was divided into two sections. Included in the bid form was the stipulation that the right to eliminate the port overhead entirely is reserved by the engineer.

Should the engineer determine thus to eliminate the overhead, the contractor will be allowed no claim for its elimination and will be granted no compensation under the last 14 items in the bidding schedule.

The first section includes a total of 257,000 feet of piles of various lengths. Eighty thousand feet of the piles are to be creosoted, while the balance will be untreated.

Sub-structure for the Port of Oakland overhead will require 87,000 feet of untreated timber piles of various lengths, in addition to other items.

## Eastbay Disposal Study Is Proposed

City Engineer Walter N. Frickestad of Oakland this week recommended to the city council an appropriation of \$20,000 for a six-months' study of the sewage situation in the city.

"The nature of the project, involving the whole question of sewage disposal, points to the need of seeking the advice of consulting engineers who have specialized in sewage disposal problems," he declared.

"To supplement their work we should also organize a unit in my office to devote its exclusive attention to this problem. I estimate the survey will cost approximately \$30,000 and will cover a period of

## SARVER & ZOSS LOWEST BIDDER FOR BARRACKS

**Bids On L. A. Bldgs. Opened;  
Addition to Kitchen  
Readvertised**

WASHINGTON, D. C., Feb. 23. —Sarver & Zoss, 1015 W. Fourth street, Los Angeles, at \$421,000 today submitted the low bid to the Veterans' Administration here for construction of additional buildings and utilities at the Veterans' Facility in Los Angeles.

Second and third low bidders, respectively, for the general contract, were Robert E. McKeo, Los Angeles, \$424,300 and Baruch Corporation, Los Angeles, \$443,500.

For plumbing, heating and electrical work H. H. Walker, Los Angeles, was low bidder at \$31,000.

Otis Elevator Co. submitted the low bid for installation of electric elevators, figuring this portion of the work at \$27,711.

### Five Buildings

Work includes construction of four male domiciliary barracks buildings, one female domiciliary barracks building, roads and walk's distribution systems and outside service connections.

Interest in bidding was intense as a wide range of western contractors figured the various portions of the project.

The Veterans Administration announced this week that bids will be opened here April 6 for constructing addition to the kitchen building at the Los Angeles Facility.

When bids originally were taken last November for the kitchen addition, Contracting Engineers, Inc. of Los Angeles submitted a low proposal of \$124,000 for general work; B. G. Keith-Elvator Ltd. was low at \$27,400 for elevators; and K. J. Berger Engineering Corp., Fullerton, at \$15,840 submitted the low proposal for refrigeration and ice-making plant.

These bids were rejected, and the contract was readvertised this week. As before, a bid will be taken for general work, elevators, and refrigerating and ice-making plant.

At the end of 1926 Mr. Frickestad submitted a report making tentative suggestions for improvements to cost in the neighborhood of \$3,000,000.

tled-controlled electric freight elevator in Building 64, U. S. Penitentiary, Alcatraz.

#### NOTICE TO BIDDERS

**SACRAMENTO**—Major Arthur W. Parker, Constructing Quartermaster, Army Air Corps Supply Depot, North Sacramento, has announced the removal of offices from the Old Post Office Terminal Bldg., Sacramento, to the air base site near North Sacramento.

Bids for construction of the Headquarters Building, Fire and Guard House, to be opened February 19 and for the Engineering Shops and Repair Dock, to be opened February 25, will be opened at the office of the Builders' Exchange, 720 I St., Sacramento.

Plans Being Figured — Bids Close March 25, 2 P. M.

**SUPPLY DEPOT** Cost, \$1,072,000  
**SACRAMENTO CO., Calif.** Army Air Corps Supply Depot, near North Sacramento.

Two-story depot supply building and heating plant, and one-story west and east wings of warehouse; reinforced concrete and steel construction, conforming in general with the other buildings at the air base.

Owner—U. S. Government (Major Arthur W. Parker, Constructing Quartermaster).

Plans prepared by the office of the Quartermaster General, Construction Division, Washington, D. C. Bids will be taken as follows:

(I) Lump sum, construct and complete depot supply building, consisting of head house and west and east wings of warehouse, Sections 1 to 8, inclusive, including the utilities therefor;

(II) If one or more additional interior sections are constructed and completed in east wing of warehouse, add to the amount of Item (I);

(III) If APM roofing and ventilators, aluminum flashings, and all the exterior aluminum work is omitted, and 2-inch wood plank roof deck with 3-ply asbestos built-up roof, flashings and all other exterior metal work and ventilators of copper are substituted therefor, add or deduct from the amount of Item (I);

(III-ALT.) If Item (II) is accepted, add to or deduct from Item (II);

(IV) If one or more canopies are added to each section on the east and west sides of the east and west wings of the warehouse, add to the amount of Item (I) for each canopy added;

(V) If 12-inch throat APM ridge ventilators without dampers of 28,800 c.f.m. capacity are omitted, and 12-inch throat APM ridge ventilators with dampers of 14,000 c.f.m. capacity are substituted therefor, add to or deduct from the amount of Item (I);

(V-ALT.) If Item (II) is accepted, add to or deduct from the amount of Item (II) for each additional section;

(VI) If 12-inch throat copper ridge ventilators without dampers of 28,800 c.f.m. capacity are omitted, and 12-inch throat copper ridge ventilators with dampers of 14,000 c.f.m. capacity are substituted therefor, add to or deduct from the amount of Item (I);

(VI-ALT.) If Item (II) is accepted, add to or deduct from the amount of Item (II-ALT) for each additional section;

(VII) If the ribbed wire glass in 6-ft. 8-in. by 16-ft. 0-in. skylights is omitted and skylights reduced to 6-ft. 8-in. by 12-ft. 0-in. and glazed with diffusing wire glass are substituted therefor, add to or deduct from the amount of Item (I);

(VII-ALT.) If Item (II) is accepted, add to or deduct from the amount of Item (II) for each additional section;

(VIII) If the steel horizontal sliding doors are omitted and upward rolling steel doors or curtains are substituted therefor, add to or deduct from the amount of Item (I);

(VIII-ALT.) If Item (II) is accepted, add to or deduct from Item (II) for each additional section;

(IX) If quarry tile floors are omitted, and terra forms are omitted, and platform floors and base, stair treads, and platforms are substituted therefor, add to or deduct from the amt. of Item (I);

(X) If steel stud, metal lath, and plaster partitions, and metal partitions are omitted, and steel stud and asbestos board partitions are substituted therefor, add to or deduct from the amt. of Item (I);

(XI) Unit prices. The bidder shall submit unit prices in the following schedule for all items listed below. These will be used in making deductions from or additions to the contract amount provided any deviation from the drawings decreases or increases the work indicated or required. Unit prices shall include the furnishing of all labor and material complete in place unless otherwise noted.

(A) Earth excavation, per cu. y.  
(B) Rock excavation, per cu. y.

- (C) Wet excavation, per cu. y.;
- (D) Type A concrete, including forms, per cu. y.;
- (E) Type B concrete, including forms, per cu. y.;
- (F) Structural steel, per ton;
- (G) Reinforcing steel, per ton;
- (H) 8-in. vitrified clay pipe, per lf.;
- (I) Wall switch outlet with SP tumbler switch, each;
- (J) Receptacle outlet with duplex receptacle, each;
- (K) Fan outlet, each;
- (L) Light outlet less fixture, each;

NOTE: Each of the above to be installed complete in every respect and to include the necessary wire and conduit extension not in excess of 25 ft.

- (M) 3 cond. No. 6 V.C. LK 7500-volt cable in 2½-in. conduit, per ft.;
- (N) 2 No. 12 RC wires in ½-in. conduit or tubing, per ft.;
- (O) 2 No. 12 RC wires in ¾-in. conduit or tubing, per ft.;
- (P) Underfloor duct, per ft.

Plans and specifications obtainable from the office of Major Arthur W. Parker upon deposit of certified check, payable to the Treasurer of the United States, in the amount of \$50.00.

Bids will be opened in the office of the Builders' Exchange, 720 I St., Sacramento.

## 18— WHARVES & DOCKS

**CONTRACTS AWARDED**  
SAN FRANCISCO.—John O'Leary,  
149 Hancock St., at \$3,967 on Con-  
tract A, for wrecking and remov-  
ing parts of the shed and bulkhead  
building; and Edwin Anderson, 988  
Gilman Ave., at \$6,250 on Contract  
B, for cleaning and sandblasting the  
interior and framework of parts of  
the shed and bulkhead building,  
awarded contracts by the Board of  
State Harbor Commissioners, Frank  
G. White, Chief Engineer, Ferry  
Bldg., for work on Pier 46, recently  
damaged by fire.  
Complete bids published Feb. 12.

**BIDS WANTED**  
SAN FRANCISCO.—Until March 4  
2 P. M., informal bids will be re-  
ceived by the Board of State Har-  
bor Commissioners, Room 19, Ferry  
Bldg., Frank G. White, Chief Engi-  
neer, for the construction of a scale  
pit at the Islais Grain Terminal on  
the waterfront.

The work includes the construction  
of the scale pit only. Work of  
installing the scale mechanism and  
the platform will be done by others  
after the scale pit is constructed.  
The materials to be used shall con-  
sist of Douglas fir piles, portland ce-  
ment, concrete aggregate and steel  
reinforcement. Piles shall be 75 ft.  
in length, not less than 8-in. at the  
top and 15-in. at the butt.  
Plans and specifications obtainable  
at Room 18, Ferry Bldg., upon de-  
posit of \$5.00.

## 19—MISC. CONSTRUCTION

**PREPARING PLANS**  
CULVER CITY, Los Angeles Co.,  
Cal.—Metro-Goldwyn-Mayer Studios,  
16292 Washington Blvd., Culver City,  
are having plans prepared by their  
architectural department for five  
large sound stages to be built on  
the studio site in Culver City. They  
will be steel frame structures and  
will cost about \$550,000. Consolidated  
Steel Corp. will furnish and erect  
the steel. 7

**CONTRACT AWARDED**  
SANTA MARIA, Santa Barbara  
Co., Calif.—The Fluor Corp., Ltd., 909  
E. 59th St., Los Angeles, awarded  
contract by the Union Oil Co. for  
constructing heaters at two pumping  
plants in connection with the own-  
er's oil transport line between the  
Santa Maria field and its pipe line  
between Orcutt and Avila. The in-  
stallation will be at the pumping  
plant to be constructed at the Santa  
Maria field and the other at Sum-  
mit, near Berros. In addition to the  
heating equipment, the Union Oil Co.  
will construct the pumping plants,  
two 55,000-gal. storage tanks and  
the 8-in. pipe line mentioned above.  
Pipe has been distributed along the  
route and work will start shortly.  
Lafe Todd is General Manager for  
the Orcutt-Santa Maria district

**Award Recommended**  
**ALTERATIONS** Cost, \$20,000  
BERKELEY, Alameda Co., Cal. Ber-  
keley Senior High School.  
Rehabilitating two existing swim-  
ming pools in boys' and girls'

## 21— BRIDGES

### BIDS WANTED

**MATANUSKA RIVER, Alaska.**—Until March 8, 11 a. m., bids will be received by the Consolidated Purchasing & Shipping Unit, 411 Federal Office Bldg., Seattle, under Bid No. 01317, for furnishing materials for the Matanuska River Bridge. Specifications obtainable from the above office.

### FUNDS ALLOTTED

**SEATTLE, Wash.**—The PWA has allotted a grant of \$1,522,000 to the City of Seattle to aid in construction of the Mercer Island Bridge, estimated to cost \$3,500,000. Preliminary plans prepared by Puget Sound Bridge & Dredging Co., 2929 16th St., Seattle, call for a steel bridge, 3,387 feet long, reaching from Seward Peninsula to Baker St. on Mercer Island. There will be three spans 350 ft. long, two spans 457 ft. long, and a trestle on east end giving clearance of 175 ft. The bridge is 40 ft. clear of water for the entire length. It will be 35 ft. wide with one 5-ft. sidewalk. Four piers will go down to a depth of 140 ft. There will be a concrete roadway and ornamental lighting system. E. French Chase, City Engineer and member of King County Planning Board.

### BIDS WANTED

**KERN COUNTY, Cal.**—Until Feb. 25, 2 P. M., bids will be received by F. C. Brown, Procurement Office, Forest Service, 1022 Phelan Bldg., San Francisco, under Bid No. 1062, for furnishing one 30-ft. structural steel beam span for the Brush Creek Bridge.

Delivery job bidder's shipping point and/or Bakersfield.

Specifications obtainable from the above office.

### BIDS WANTED

**MATANUSKA RIVER BRIDGE, Alaska.**—Until March 8, 11 A. M., as previously reported, bids will be received by the Alaska Railroad, Consolidated Purchasing & Shipping Bureau, 411 Federal Office Bldg., Seattle, under Bid No. 01317, for furnishing complete steel for the following:

- (1) 2 spans of 80 ft. through steel plate girders, each girder having one upper corner square and other top corner rounded;
  - (2) 3 spans of 80 ft. through steel plate girders, each girder having all corners square.
- Each span consists of two girders with shoes, roller nests, bracing, etc. Delivery job contractor's works, above office.

## 22— DREDGING HARBOR WORKS, EXCAVATION

### BIDS WANTED

**SAN FRANCISCO.** Until Feb. 23, 3 p. m., bids will be received by the U. S. Engineer Office, Lieut. Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-37-181, for removing all lumber, capping and bracing from trestle, and piling same as on U. S. Engineer Wharf, and pulling 115 wood piles and rafting same; and driving six wood piles. The location of the trestle to be removed is at the northern end of Yerba Buena Shoals fill, and is part of the trestle which extends about 650 ft. north of the U. S. Dredge Sacramento's pipeline. Specifications obtainable from the above office.

### CONTRACT AWARDED

**SAN FRANCISCO.**—Healy - Tibbitts Constr. Co., 64 Pine St., at \$991, submitted low bid and awarded contract by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-37-181, for removing all lumber, capping and bracing from trestle, and piling same as on U. S. Engineer Wharf, and pulling 115 wood piles and rafting same; and driving six wood piles. The location of the trestle to be removed is at the northern end of Yerba Buena Shoals fill, and is part of the trestle which extends about 650 feet north of the U. S. Dredge Sacramento's pipeline.

The other bids were:  
M. B. McGowan, Inc., S. F. .... \$2,314  
Ben C. Gerwick, S. F. .... 2,400

### PERMIT ASKED

**SAN DIEGO.**—Application has been made by the Superintendent, 18th Lighthouse District, for War Dept. permit to lay a 220-volt submarine power cable from the quarantine station boat landing to the proposed new location of La Playa light and fog signal, which will be mounted on a dolphin located northerly of the outer end of the quarantine station wharf, the outer end of which is to be removed in the near future; and to relay the present 220-volt submarine power cable, now installed between La Playa light and San Diego entrance channel front range light, from the quarantine station boat landing to the range light, in San Diego Harbor. Drawing showing the location and plan of the proposed work may be seen at the office of the U. S. Engineer, 751 S. Figueroa St. Los Angeles, until 11 a. m., March

1. Theodore Wyman, Jr., Major, Corps of Engineers, District Engineer.

## 23— CANALS

### BIDS WANTED

**BOISE PROJECT, Idaho.**—Until March 12, 10 a. m., bids will be received by the Bureau of Reclamation, R. J. Newell, Construction Engineer, Boise, under Spec. No. 721, for the construction of earthwork, canal lining, and structures, Black Canyon Canal, Station 782 plus 80 to Station 1250 plus 00, Payette Division, Boise Project.

The work is located near Emmett, Idaho, and the principal items of work involved are:

- (1) 1,865,000 c. y. of all classes of excavation for canal;
  - (2) 75,500 c. y. of excav. for core banks;
  - (3) 10,400 c. y. of excav. for drainage channels and dikes;
  - (4) 100,000 sta. c. y. of overhaul;
  - (5) 13,470 c. y. of excav. for structures;
  - (6) 4,300 c. y. of backfill;
  - (7) 7,000 c. y. of compacting canal embankments;
  - (8) 16,500 sq. yds. of trimming canal section for concrete lining;
  - (9) 59,500 c. y. of earth lining of canal;
  - (10) 1,250 c. y. of gravel blanket on slopes of canal;
  - (11) 1,155 c. y. of concrete in structs.;
  - (12) 2,185 c. y. of concrete in canal lining;
  - (13) 945 sq. yds. of drydock paving,
  - (14) 1,470 cu. yds. of reinforcement material;
  - (15) Erecting 111,000 lbs. of structural steel in bridges;
  - (16) Erecting 38 M. ft.b.m. of timber in bridges;
  - (17) Laying 704 ft. of 15-in. and 18-in. diam. concrete pipe; and
  - (18) Installing 4,100 lbs. of gates.
- Work shall be commenced within 30 calendar days and completed within 350 calendar days from date of receipt of notice to proceed.

Plans and specifications obtainable from the office of the Bureau of Reclamation at Boise, Idaho; Denver, Colorado; or Washington, D. C., without charge to prospective bidders; to others, \$1.50, not returnable.

### BIDS WANTED

**MODESTO, Stanislaus Co., Cal.**—Until March 1, 2 P. M., bids will be received by the Board of Directors of the Modesto Irrigation District, C. S. Abbott, Secretary, Modesto, for construction work in Improvement District No. 10, as follows:

- SCHEDULE No. 1-A:** Consisting of approximately 40,809 sq. ft. of 2-in. thick concrete canal lining.
- SCHEDULE No. 2:** Consisting of approximately ..... feet of ..... concrete pipe line.
- SCHEDULE No. 2-A:** Consisting of approximately five (5) concrete structures, a total of 8.0 c. y. of concrete.
- SCHEDULE No. 3-A:** Consisting of approximately 40 concrete structures, a total of 34.80 c. y. of concrete; K. T. valves and 14 ft. of 36-in. reinf. concrete pipe and 4-ft. of 30-in. concrete pipe.

(Note: The work in the preceding schedule is to be paid for in cash by property owners desiring same.)

PLAN B (Alternate)

- SCHEDULE No. 1-B:** Consisting of approximately 14,605 sq. ft. of 2-in. thick concrete canal lining;
- SCHEDULE No. 2-B:** Consisting

## Capital City Title Company

JAMES E. BANCROFT

Manager

801 J Street

Sacramento : California

of approximately 2,746 ft. of 36-in. concrete pipe line.

**SCHEDULE No. 3-B:** Consisting of approximately five (5) concrete structures, a total of 12.5 cu. yds. of concrete and 6 ft. of 36-in. concrete pipe.

**SCHEDULE No. 4-B:** Consisting of approximately 38 concrete structures, a total of 21.0 c.y. of concrete, three 24-in., five 16-inch K. T. valves and six 14-in., three 12-in. K. T. valves, and following concrete pipe: 4-ft. of 30-in., 39 ft. of 24-in.; 9 ft. of 20-in.; 34 ft. of 16-in.; 30 ft. of 14-in.; and 15 ft. of 12-in.

(Note: The work in the preceding schedule is to be paid for in cash by property owners desiring same.)

**SCHEDULE No. 5:** Consisting of approximately 1 ft. of 4-in. dia. concrete pipe.

**SCHEDULE No. 5-B:** Consisting of approximately two (2) 36-inch Calco Screw Gates.

Plans and specifications obtainable from the above office.

**BIDS ON FILE**

**ALL-AMERICAN CANAL.** — A complete tabulation of bids received by the Bureau of Reclamation, R. B. Williams, Construction Engineer, Yuma, under Spec. No. 708, for the construction of drops and powerplant sub structures at Drops Nos. 2, 3, 4 and 5, All-American Canal System, near Yuma and Calexico, is on file at the office of the DAILY PACIFIC BUILDER.

Pleasant-Hasler Constr. Co., 324 Luhrs Bldg., Phoenix, at \$410,896.50, on Schedules 1 and 2, and Kerman & Klug, North Portland, Oregon, at \$398,834.30 on Schedules 3 and 4, submitted the low bids.

**24-STREET LIGHTING**

**BIDS OPENED**

**LOS ANGELES.**—H. O. Bauerle, 8852 Billie Ave., Culver City, at \$52,486, submitted low bid to the Los Angeles Board of public works for installation of an ornamental lighting system in Van Nuya Blvd., bet. Van Owen St. and Besemer St., involving 78 Marbelite standars. The other bids were:  
E. C. Nickel—\$32,850.  
Fritz Ziebarth—\$32,959.  
H. H. Walker, Inc.—\$54,678.  
Newbery Electric Corp.—\$54,741.  
Chandler Electric Co. (bond not signed by principal)—\$54,758.  
Bennett & Taylor—\$56,442.

**25—MACHINERY AND EQUIPMENT**

**CONTRACT AWARDED**

**ALL-AMERICAN CANAL.**—Ne. Page, McKenny Co. Seattle, at \$11,818.39 on Sch. 1, and at \$4,289.71 on Sch. 2, awarded contract by the Bureau of Reclamation, Denver, under Spec. No. 869-D, for furnishing (1) one panel main control board and auxiliary equipment, three main control cabinets; and (2) one 2300-volt switchboard, consisting of seven cubicle type control units.

**BIDS OPENED**

**SAN FRANCISCO.**—P. B. Hackley Equipment Co., 623 Market St., San Francisco, at \$5.31 per hour, submitted low bid to the Procurement Office, Treasury Department, Room 514, 49 Fourth St., San Francisco, under Bid No. 3418, for the rental of one 8- to 10-hp. 3-wheel, power roller, for use on WPA projects, fob Crocker, Amazon, Moscow and Geneva streets, San Francisco.  
Complete bids follow:  
P. B. Hackley Equipment Co., San Francisco, \$5.31.

A. J. Clausen, Albany, \$3.34.  
Pacific States Const. Co., S. F., \$3.44.  
Fay Improvement Co., S. R., \$3.55.  
Eaton & Smith, S. F., \$3.68.  
Lee J. Immel, Berkeley, \$3.70.  
Guerin Bros., S. F., \$4.00.  
Edward R. Bacon Co., S. F., \$4.30.  
Chas. L. Harney, S. F., \$4.75.

**BIDS OPENED**

**MARYSVILLE, Calif.**—Edward R. Bacon Co., 17th and Folsom Streets, San Francisco, at \$90 per month, submitted low bid to the Procurement Office, Treasury Department, Room 514, 49 Fourth St., San Francisco, under Bid No. 3401, for the rental of one concrete mixer, 7 cu. ft. capacity, gasoline powered, for use on WPA projects, fob Marysville Migratory Labor Camp.  
The other bids were:  
Harron, Rickard & McCone, S. F.—\$107.50 per month; to be for a two-month minimum period.  
D. C. McCabe, S. F.—\$150 per month.

**CONTRACT AWARDED**

**LOS ANGELES.**—Kelman Electric & Mfg. Co., at \$7,630, awarded contract by the Los Angeles Water & Power Commission, for furnishing oil circuit breakers under Spec. No. 2174.

**CONTRACT AWARDED**

**LOS ANGELES.**—General Electric Co., at \$4,600, awarded contract by the Los Angeles Water & Power Commission, for furnishing 4 coupling capacitors and potential devices under Spec. No. 2173.

**CONTRACT AWARDED**

**LOS ANGELES.**—Allis-Chalmers Mfg. Co., at \$6,920, awarded contract by the Los Angeles Water & Power Commission for furnishing 4 current transformers under Spec. No. 2170.

**CONTRACTS AWARDED**

**LOS ANGELES.**—Allis-Chalmers Mfg. Co., at \$21,420, awarded contract by the Los Angeles Water & Power Commission, for furnishing Items No. 1 and No. 2 and General Electric Co. the contract at \$112,92 for furnishing No. 3 under Spec. No. 2172 for current and potential transformers.

**CONTRACT AWARDED**

**ARCADIA, Los Angeles Co., Cal.**—Peerless Pump Co., at \$4,601.25, was awarded the contract by the Arcadia City Council for furnishing one deep well turbine pump. Complete bids published Feb. 5.

**BIDS OPENED**

**NEW MEXICO & WYOMING.**—Following bids received by the Bureau of Reclamation, Denver, under Spec. No. 878-D, for furnishing (1) three 45-ft. x 21-ft. automatic radial gates for installation in the spillway of the Alamogordo Dam, Carlsbad Project, New Mexico; and (2) three 28-ft. x 11-ft. automatic radial gates for installation in the spillway of Bull Lake Dam, Riverton Project, Wyoming:  
John W. Beam, Denver—(1) \$19,975; (2) \$9,170; (1 & 2) \$27,300; fob. Peatone—1.7% discount.  
Consolidated Steel Corp., Los Angeles—(1) \$26,500; (2) \$10,995; fob. Los Angeles; net.  
Berkeley Steel Constr. Co., Inc., Berkeley—(1) \$27,500; (2) \$12,800; fob. Berkeley—1.5% discount.  
Lakewood Bridge & Steel Co., Milwaukee—(1) \$29,892; (2) \$14,995; (1 & 2) \$44,887; fob. Fort Sumner, N. M.; net.

**CONTRACT AWARDED**

**LOS ANGELES.**—Gardner-Denver Co., 545 E. First St., at \$393.60, awarded contract by the Los Angeles Co. Purchasing Agent, for furnishing one

motor-driven centrifugal pump under Quot. No. 3099. Complete bids published February 4.

**BIDS OPENED**

**SAN FRANCISCO.**—Sam Bates Co., 1925 Dennison, Oakland, at \$3.38 per hour, submitted low bid to the Procurement Office, Treasury Department, Room 514, 49 Fourth St., San Francisco, under Bid No. 3418, for the rental of one 10-ton, 3-wheel power roller, without center power leveler, for use on WPA projects, fob. Havelock and Edna Streets, San Francisco.  
Complete bids follow:  
Sam Bates Co., Oakland.....\$3.38  
P. B. Hackley Equip. Co., S. F.....3.47

Lee J. Immel, Berkeley.....3.64  
Fay Improvement Co., S. F.....3.70  
Guerin Bros., S. F.....3.75  
Eaton & Smith, S. F.....3.90  
Pacific States Constr. Co., S. F.....4.35  
Chas. L. Harney, S. F.....4.73

**BIDS OPENED**

**SAN FRANCISCO.**—Chas. H. Nilsson, 362 1/2 Moultrie, San Francisco, at \$80 per month, submitted low bid to the Procurement Office, Treasury Department, Room 514, 49 Fourth St., San Francisco, under Bid No. 3422, for the rental of one No. 148 concrete mixer, 1 1/2-cy. wet capacity, for use on WPA projects, fob Golden Gate Ave. and Masonic Ave., San Francisco.  
The other bids were:  
M. B. McGowan, Inc., San Francisco, \$150 per month.  
Edward R. Bacon Co., San Francisco, \$175 per month.  
All bids net.

**CONTRACTS AWARDED**

**BOULDER CANYON, Nevada.**—Following contracts awarded by the Bureau of Reclamation, Denver, under Spec. No. 867-D, for furnishing equipment for the Boulder Power Plant:  
Westinghouse Electric Mfg. Co., Denver—\$26,174.37 (Item 1) four 1-667-kva, 16,500/41,500-volt transformers; \$2,126.17 (4) for one outdoor metering and relay cabinet.  
Johnson Electric Co., Atlanta, Ga.—\$267.87 (Item 3) One 31500-volt, 300-amp, 3-pole air break switch.

**CONTRACT AWARDED**

**NEW MEXICO AND ARIZONA.**—Joshua Hendy Iron Works, 209 Sanson St., San Francisco, at \$29,077.22, awarded contract for two 54-inch needle valves, and at \$27,596.33 for two 66-in. needle valves, awarded contract by the Bureau of Reclamation, Denver, under Spec. No. 714, for furnishing valves for installation in the outlet works at the Alamogordo Dam, Carlsbad Project, New Mexico, and in the outlet works at the Bartlett Dam, Salt River Project, Arizona.

**29—STREETS AND HIGHWAYS**

**CONTRACT AWARDED**

**CLARK CO., Nev.**—Olef Nelson, Locust, Utah, at \$37,723.25, awarded contract by the Nevada State Highway Directors, Robert A. Allen, State Highway Engineer, Carson City, for the construction of a portion of the highway system in Clark County, from Los Vegas to point approximately 3 miles southwest of Apex, Route 6, Sections D2 and D1, a length of approximately 11.0 miles.

**PLANS AWAITING STATE APPROVAL**

**STINNEYVALE, Santa Clara Co., Calif.**—Plans and specifications for the resurfacing of South Merrill St., between Evelyn and Washburn Sts., including new curbs and gutters, are

awaiting approval by the State Division of Highways, Sacramento. Estimated cost, \$4,000.

John Trubchenck, City Clerk; H. N. Bishop, City Engineer.

#### BIDS WANTED

**MARSHALL FORD DAM, Texas.**—Until March 12, 10 a. m., bids will be received by the Bureau of Reclamation, H. P. Bunker, Construction Engineer, Austin, under Spec. No. 888-D, for the construction of street, driveway, and sidewalk grading and surfacing, and sewer and water systems for the Government camp at the Marshall Ford Dam, Colorado River Project, Texas.

The dam is located on the Colorado River about 18 miles northwest of Austin, and the principal items of work involved are:

- (1) 1,350 c.y. of excav. for grading streets, driveway, and sidewalks;
- (2) 600 c.y. of compacted fill;
- (3) 2,370 lf. of excav. and backfill of sewer-pipe trenches;
- (4) 900 lf. of excav. and backfill of water-pipe trenches;
- (5) Furnishing and laying 2,320 lf. of 4-in. to 8-in. diameter sewer pipe;
- (6) Furnishing and installing four grease traps;
- (7) Constructing five sewer manholes;
- (8) Furnishing and laying 1,305 lf. of 4-in. diam. water main;
- (9) Furnishing and installing 3 4-in. gate valves;
- (10) Furnishing and installing 12 1-in. to 2 1/2-in. water-service connections;
- (11) Furnishing and laying 1,235 lf. of 3/4-in. to 2-in. diam. service pipe;
- (12) Furnishing and installing 5 3/4-in. to 2-in. diam. curb stops and service boxes;
- (13) Furnishing and installing three fire hydrants;
- (14) Furnishing and placing 4,000 lf. of timber curb boards;
- (15) Placing 600 c.y. of bottom course of crushed-rock or crushed-gravel surfacing;
- (16) Placing 550 c.y. of top course of crushed-rock or crushed-gravel surfacing;
- (17) Furnishing and applying 4,000 gals. of liquid asphaltic road material.

Work shall be commenced within 10 calendar days and completed within 100 calendar days from the date of receipt of notice to proceed.

Plans and specifications obtainable from the office of the Bureau of Reclamation at Austin, Texas, or Denver, Colorado, without charge to prospective bona fide bidders; to others, \$1 per copy, not returnable.

#### BIDS WANTED

**PRESNO & TULARE COS., Cal.**—Until March 9, 2:30 P. M., as previously reported, bids will be received by Bureau of Public Roads, Federal Office Bldg., San Francisco, for placing a bituminous treated crushed rock base course on 6.13 miles of Route 1, the Genera's Highway, General Grant-Sequoia Park Approach Rd., Sequoia National Forest, Tulare and Fresno Counties.

The principal items of work involved are:

- (1) 4,500 c.y. unclass. excav.
- (2) 330 c.y. do. for structures;
- (3) 1,000 c.y. ml. hauling unclassified excavation;
- (4) 5,600 c.y. of subgrade reinforcement;
- (5) 13,000 c.y. ml. hauling do;
- (6) 613 ml. fine grading subgrade and shoulders;
- (7) 800 M. gals. watering;
- (8) 14,000 tons of crushed rock for bottom layer of base course;
- (9) 11,200 tons crushed rock for top layer of base course;

- (10) 200 tons supplemental crushed rock;
  - (11) 850 tons screenings;
  - (12) 696 tons liquid asphaltic material, Types MC-1, 95 plus, RC-3 or 4;
  - (13) 654 lf. 8-in. perforated CMP;
  - (14) 302 lf. paving Government furnished 8-in. perforated CMP;
  - (15) 220 c.y. crushed rock or gravel for backfill;
  - (16) 250 sq. yds. mortar backfill seal.
- Plans and specifications obtainable from the above office upon deposit of \$10.00.

#### CONTRACT AWARDED

**SAN JOSE, Santa Clara Co., Calif.**—A. J. Raisch, Lincoln Avenue and San Salvador, San Jose, submitted low bid and awarded contract by the City Clerk, for the improvement of Dana Avenue, between Naglee Ave. and Emory St.

The work involves:

- (1) 12,607 sq. ft. asphaltic concrete pavement, 4-in. thick;
- (2) 1,318.25 sq. ft. portland cement concrete gutter;
- (3) 605.51 lf. portland cement concrete curb;
- (4) 1,790 sq. ft. portland cement concrete sidewalk;
- (5) One brick sewer manhole;
- (6) 35 lf. 10-in. portland cement concrete pipe storm sewer drain.

Complete bids follow:

- (A) A. J. Raisch, San Jose.  
(B) Pacific Construction Co., San Francisco.

Unit prices follow:

	(A)	(B)
(1) .....	\$0.1525	\$0.155
(2) .....	.24	.20
(3) .....	.44	.50
(4) .....	.125	.16
(5) .....	70.00	65.00
(6) .....	1.20	.70

#### BIDS WANTED

**PIMA CO., Arizona**—Until March 9, 2 p. m., bids will be received by the Arizona State Highway Commission, Phoenix, for highway construction on the Tucson-Nogales Highway, F.A. 86-A, 2nd Reop. (1937), A.F.E. 8965. The work, which begins about 3 1/2 miles south of the south city limits of Tucson and extends southerly a distance of about 9.9 mi., consists of grading, filling borrow pits, fencing, and applying asphaltic surface treatment, and is to be completed on or before Feb. 31, 1937.

The principal items are:

- 39,300 c.y. roadway excav.
- 3,700 c.y. drainage excav.
- 14,500 sta. yds. overhaul;
- 45,300 c.y. ml. haul;
- 10,400 c.y. imported borrow (CIP);
- 1,000 M. gals. sprinkling;
- 1,200 tons rolling;
- 51,500 lf. 11/2 in. fence;
- 11 steel gates;
- 3,750 gals. SC-2 road oil;
- 50 tons cover coat (conc. sand).

Plans and specifications may be obtained from the office of the state highway engineer, T. S. O'Connell, Certified or cashier's check for 5% must accompany each proposal.

#### CONTRACT AWARDED

**LINCOLN COUNTY, Nev.**—C. F. Fredericksen & Sons, Lower Lake, at \$237,968.69 awarded contract by the Nevada State Highway Director, Robert A. Allen, State Highway Engineer, Carson City, for the construction of a portion of the highway system in Lincoln County, from a point approximately 0.5 mile north of Caliente to a point approximately one mile north of Panaca Junction, on route 7, Section C, a length of approximately 14.32 miles.

#### BIDS WANTED

**PRESNO & TULARE COS., Calif.**—Until March 9, 2 p. m., as previously

reported, bids will be received by the Bureau of Public Roads, Federal Office Bldg., San Francisco, for grading 3.98 miles of Section A of the Fresno-General Grant Park Approach Road, Sequoia National Forest, Fresno and Tulare Counties.

The principal items of work involved are:

- (1) 304,000 c.y. unclass. excav.;
- (2) 2,300 c.y. do. for structures;
- (3) 11,700 c.y. do. for borrow;
- (4) 263,000 sta. yds. overhaul;
- (5) 7,000 c.y. ml. borrow haul;
- (6) 3.98 ml. finishing earth graded road;
- (7) 3,000 M. gals. watering;
- (8) 4,788 CF. CMP;
- (9) 1 CMP elbow;
- (10) 9 spillway inlets;
- (11) 45 c.y. crushed rock or gravel for backfill;
- (12) 50 sq. yds. mortar backfill seal;
- (13) 15 c.y. concrete;
- (14) 650 lbs. reinforcing steel;
- (15) 10 cast steel grates;
- (16) 25 c.y. masonry;
- (17) 763 c.y. hand laid rock embankment.

Plans and specifications obtainable from the above office upon deposit of \$10.

#### CONTRACT AWARDED

**SANTA MARIA, Santa Barbara Co., Calif.**—Harry L. Foster, 4348 Hillcrest Road, San Diego, at \$29,867.73, awarded contract by the Santa Maria City Council for improving El Camino St. and portions of other streets.

#### CONTRACTS AWARDED

**CLATSOP CO., OREGON.**—Bids for highway and bridge construction were opened by the Oregon State Highway Commission, R. H. Baldoek, State Highway Engineer, Portland, February 18, and contracts awarded as follows:

**Baker County**—Gales-Lime Section of Old Oregon Trail. 9.08 miles penetration type bituminous macadam wearing surface and 0.50 mile oil mat surface treatment; also, furnish 3,000 cu. yds. crushed rock in stock piles. Requires approximately 113,000 sq. yds. bituminous macadam wearing surface and oil mat surface treatment; 3,000 cu. yds. gravel or tals (shoulder materials, and 4,600 cu. yds. crushed rock.

**AWARDED:** Babler Bros., 2407 NW 28th, Portland—\$75,764.

**Clatsop County**—Elsie Nehalem River Section of Wolf Creek Highway. 1.16 miles grading and 0.15 mile additional clearing. Requires approximately 225,000 cu. yds. excavation.

**AWARDED:** Coes Bay Constr. Co., 7432 New Jersey, Portland—\$85,870.  
**Curry County**—Curry County Rock Production Project on the Oregon Coast Highway. Furnish 17,400 cu. yds. crushed gravel in stockpiles.

**AWARDED:** Corvallis Sand & Gravel Co., Corvallis—\$25,168.

**Douglas County**—North Roseburg Section of Pacific Highway. 0.72 mi. grading, requiring approximately 106,000 cu. yds. of excavation. (May be bid in combination with the Deer Creek Bridge Project in Douglas County.)

**AWARDED:** Anderson Constr. Co., 6026 SW Vermont, Portland—\$23,932.

**Douglas County**—Construction of a concrete bridge over Deer Creek and a concrete retaining wall near Junior High School on the Pacific Highway in Roseburg. Requires approximately 810 cu. yds. excavation; 970 cu. yds. concrete; 251,000 pounds metal reinforcement; 530 ln. ft. concrete handrail and 330 ln. ft. triangle mesh fence. (May be bid in combination with North Roseburg grading project.)

**AWARDED:** Mountain States Construction Co., Eugene—\$35,133.

**Douglas County**—Shady Point-Kelly Corner Section of Pacific Highway. 0.36 mile grading and 2.26 mi. Portland cement concrete pavement. Requires approximately 2,900 cubic yards excavation; 6,000 cu. yds. of gravel base; 2,500 cu. yds. crushed rock or crushed gravel in shoulders; and 29,600 sq. yds. Portland cement concrete pavement.

**AWARDED:** Jacobson-Jensen Co., 517 NE Stanton, Portland—\$59,882.

**Linn County**—Shedd-Haley Section of Pacific Highway. 7.34 miles grading and asphaltic concrete pavement. Requires approximately 55,000 cu. yds. excavation; 35,000 cu. yds. of crushed rock; and 10,000 sq. yds. asphaltic concrete pavement.

**LOW BIDDER:** Warren Northwest, Inc., P.O. Box 5072, Portland—\$181,301.

**Wheeler County**—Unit No. 3, Chichester-Gun Summit Section of Shaniko-Fossil Secondary Highway. 0.95 mile grading, requiring approximately 21,500 cu. yds. excavation, and 1,000 cu. yds. talus topping materials.

**AWARDED:** Fisher Bros., Oregon City—\$11,828.

#### BIDS WANTED

**FRIANT, Fresno Co., Calif.**—Until March 15, 10 a. m., bids will be received by the U. S. Bureau of Reclamation, 206 Old Post Office Bldg., Sacramento, Walker E. Young, Construction Engineer, for the construction of street, alley, parking area, and sidewalk grading and surfacing, and sewer and water systems for the Government Campsite at the Friant Dam, about 22 miles north of Fresno. The principal items of work involved are:

- (1) 8,215 c.y. of excav. for grading streets, alleys, parking areas, sidewalks, and storage tank foundations;
- (2) 1,500 cu. ft. of compacted fill;
- (3) 7,040 lf. of excav. and backfill of sewer pipe trenches;
- (4) 3,200 lf. of excav. and backfill of water pipe trenches;
- (5) Furnishing and laying 6,900 lf. of 4-in. to 10-in. sewer pipe;
- (6) Furnish and laying 140 lf. of 10-in. extra heavy cast-iron soil pipe;
- (7) Furnish and laying 50 lf. of 6-in. diam. CMP;
- (8) Furnish and installing 25 grease traps;
- (9) Constructing 11 sewer manholes;
- (10) Furnish and laying 3,950 lf. of 6-in. and 4-in. diam. water mns.;
- (11) Furnish and installing 5 6-in. and 4-in. gate valves;
- (12) Furnish and installing 34 ½-in. to 2-in. water service connections;
- (13) Furnish and laying 3,610 lf. of ½-in. to 2-in. diam. service pipe;
- (14) Furnish and installing 10 ½-in. to 2-in. diam. curb stops and service boxes;
- (15) Furnish and installing 8 fire hydrants;
- (16) Furnish and placing 12,500 lf. of timber curb boards;
- (17) Placing 1,500 c.y. of bottom course, of crushed rock or crushed gravel surfacing;
- (18) Placing 1,500 c.y. of top course, of crushed rock or crushed gravel surfacing;
- (19) Furnishing and applying 10,800 gals. of liq. asphaltic road material and constructing sand and cushion foundation for water storage tank.

Work shall be commenced within 15 days and finished within 150 days from date of receipt of notice to proceed.

Plans and specifications obtainable from the office of the Bureau of Reclamation at Sacramento, Denver, or Washington, D. C., without charge to prospective bidders; to others, \$1 per copy, not returnable.

A. M. Torpen, division engineer in charge at Friant; T. R. Smith, division office engineer.

#### BIDS WANTED

**PLACER COUNTY, Calif.**—Until March 17, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, Public Works Bldg., Sacramento, for about 2.9 miles of grading and paving with portland cement concrete in Placer County between Rocklin and Loomis.

The work involves:

- (1) 156 sta. clear and grub right of way;
- (2) 750 M. gals. water;
- (3) 1,950 c.y. remove existing concrete pavement;
- (4) 65 c.y. remove existing stone and concrete struc.;
- (5) 43,000 c.y. rdwy. excav., unclass.
- (6) 1,350 c.y. struc. excav.;
- (7) 372,000 sta. yds. overhaul;
- (8) 34,300 sq. yds. preparing subgrade;
- (9) 156 sta. finishing rdwy.;
- (10) 2,800 tons untreated crushed gravel or stone surf.
- (11) 240 c.y. salvaged surf. (borders and road approaches);
- (12) 175 tons min. aggregate (plant-mix surface);
- (13) 9 tons liquid asphalt ROMC-4 or ROMC-5 (plant-mix surf.);
- (14) 82 tons liquid asph. SC-2 (prime coat and penetration oil treatment);
- (15) 146 tons sand (prime coat and penetration oil treat.);
- (16) 70 tons liquid asph. 90-95 (seal coat);
- (17) 500 tons screenings;
- (18) 6,900 c.y. Class A Portland cement concrete (pave.);
- (19) 13,896 each pavement dowels;
- (20) 20 sections pave. crossing devices (Type A-10);
- (21) 4 sections do (Type B-10);
- (22) 55,500 lbs. bar reinf. steel;
- (23) 102 c.y. Class A Portland cement concrete (struc.);
- (24) 282 lf. 8-in. CMP;
- (25) 550 lf. 12-in. CMP;
- (26) 36 lf. 15-in. CMP;
- (27) 604 lf. 18-in. CMP;
- (28) 900 lf. 24-in. CMP;
- (29) 100 lf. 30-in. CMP;
- (30) 16 each cast steel frames and covers for drop inlets;
- (31) 112 lf. clean and relay existing pipe culverts;
- (32) 582 lf. clean and salvage do;
- (33) 10,860 lf. existing pipe line, removed and disposed of;
- (34) 7 each spillway assemblies;
- (35) 2,450 lf. temporary guard railing;
- (36) 28 each culvert markers;
- (37) 86 each guide posts;
- (38) 25 each monuments.

Plans and specifications obtainable from the office of the State Highway Engineer, P. O. Box 1199, Sacramento, and on file at the office of the District Engineer in San Francisco, Los Angeles, and Marysville.

#### BIDS OPENED

**FRUNSTON**—Lee J. Immel, 1051 Evelyn St., Berkeley, at \$90,055 per sq. ft., total, \$882, submitted low bid to the U. S. Engineer Office, Lt.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 86-37-169, for approximately 56,000 sq. ft. of road at Fort Funston.

The new roadway under construction at the south end of the reservation consists of a crushed rock base 20 feet wide, spread and rolled in two courses of 7 inches each and is approximately 2,500 feet in length.

Complete bids follow:  
J. Immel, Berkeley—(1) \$90,055 per sq. ft.; (2) total, \$882; (3) completion time, 7 days.

Fav Improvement Co., S. F.—(1) \$90,019; (2) \$1,094; (3) 8 days.

Mills Constr. Co., S. F.—(1) \$0,024; (2) \$1,341; (3) 8 days.  
E. J. Treacy, S. F.—(1) \$0,02683; (2) \$1,506; (3) 8 days.  
Eaton & Smith, S. F.—(1) \$0,0275; (2) \$1,540; (3) 8 days.  
Chas. L. Harney, S. F.—(1) \$0,0335; (2) \$1,876; (3) 8 days.  
Bids held under advisement.

#### BIDS WANTED

**MILL VALLEY, Marin Co., Calif.**—Until March 3, 3 p. m., bids will be received by the Mill Valley City Council, Will Falley, City Clerk, for the widening of a portion of the southern side of Throckmorton Ave. south of the intersection of Corte Madera Ave. with Throckmorton Avenue, consisting of the tearing out, removal of non-usable structures and materials, such as cement sidewalks, driveways, foundations to a point below subgrade, concrete curbs and gutters, and a portion of the cover of existing culvert in Corte Madera Creek under the present sidewalk, and the construction of new concrete gutters, curbs, sidewalks, a new reinforced concrete cover and wall connections on culvert to new locations and grades, etc.

The work involves:

**Tearing Out Old Structures:**

- (1) 133.5 lf. concrete curb;
- (2) 156.25 sq. ft. culvert top;
- (3) Miscellaneous walls and foundations to be removed to levels below subgrade and new construction;
- (4) Miscellaneous removal of refuse and unused material under area affected by this construction.

**New Construction:**

- (1) 2,172 sq. ft. grading, backfilling and tamping area under construction;
- (2) 137 lf. 6-in. x 12-in. concrete curb;
- (3) 3 c.y. reinforced concrete on culvert;
- (4) 2,038 lbs. ¾-in. reinforcing rods;
- (5) 1,216 sq. ft. 4-in. thick cement walks;
- (6) Resetting selected street signs;
- (7) 532 sq. ft. 6-in. concrete gutter. Plans and specifications obtainable from the City Clerk's office upon deposit of \$5.00.

Edward K. Hussey, Syndicate Bldg., Oakland, city engineer.

#### CONTRACT AWARDED

**SAN FRANCISCO**—Fay Improvement Co., 760 Market St., San Francisco, at \$3,271.80, awarded contract by the Department of Public Works, City Hall, under Spec. No. 19,013, for the reconstruction of the pavement on Pennsylvania Ave., between 18th and 19th Streets.

#### TO ASK NEW BIDS

**PHOENIX, Ariz.**—James B. Grand, City Engineer, has announced that the Phoenix city commission has rejected all bids previously submitted for the two initial units of the PWA street paving program and will combine the two projects and call for bids as soon as PWA approval of the proceedings has been received. Previous low bids were: Phoenix-Tempe Stone Co., Phoenix, at \$75,114.65, for improving 8th, Richmond and 9th Sts., and Monte Vista Rd., Project No. P-263-A, and Phoenix Electric & Phone, at \$13,779.66, for improving portions of Dayton St., Coronado Rd., Almira Rd., and Mitchell St. The combined job will involve about 46, 112 sq. yds. grading, aggregate base course, and plant-mix process pavement, 71,620 sq. ft. sidewalk, 25,959 lf. combination curb and gutter, and incidental items.

#### NOTICE TO BIDDERS

**STATE OF CALIFORNIA**—C. H. Purcell, State Highway Engineer, has announced the cost of blue line plots

for the state highway work now advertised.

A blue line print of the title sheet of the plans showing the general location of the work will be furnished free with the special provisions. Blue prints of the layout and the bridge detail sheet will be furnished at cost and become the property of the purchaser.

The following table shows the cost of such blue line prints for the work now advertised, bids to be opened in Sacramento on March 10:

111-Gle-45-C—Bet. points approximately 4 mi. and 6 mi. E. of Butte City. PLANS (No. of sheets), 10; cost, \$1.00; CROSS-SECTIONS (No. of sheets), 21; cost, \$2.10; total, \$3.10.

X-S.J.—Sta. 110-A — Bet. Vernalis and Gates Road. PLANS (No. of sheets), 13; cost, \$1.30; CROSS-SECTIONS (No. of sheets), 78; cost, \$7.80; total, \$9.10.

Checks for the above should be made payable to the Department of Public Works, Division of Highways, and should accompany the requests for the above plans, specifications and proposal form to the office of the State Highway Engineer, P.O. Box 1499, Sacramento, Calif.

#### BIDS WANTED

LONG BEACH, Los Angeles Co., Calif.—Until Feb. 27, 10 a.m., bids will be received by R. M. Denton, City Manager, room 204, City Hall, Long Beach, for improving Anaheim St., between Daisy Ave. and Orange Ave., and portions of other streets, in accordance with Spec. No. R-590. Specifications and plans may be obtained from the office of J. W. Blackman, City Engineer—Director of Public Service, room 502, City Hall. Certified check or bank draft or bond for 10% must accompany each proposal.

The estimated quantities are:

- (1) 3076 lf. portland cement concrete curb;
- (2) 17,344 sq. ft. 6-in. portland cement concrete gutter;
- (3) 4323 sq. ft. 8-in. portland cement concrete gutter;
- (4) 3430 sq. ft. portland cement concrete sidewalk;
- (5) 725 tons asphalt concrete base course;
- (6) 5132 tons asphalt concrete leveling course;
- (7) 3188 tons asphalt concrete Type A wearing surface;
- (8) 8270 sq. ft. penetration oil treatment;
- (9) 2554 lf. 12-in. std. strength cement pipe;
- (10) 581 lf. 15-in. std. strength cement pipe;
- (11) 3 each, Type "C" manholes (avg. depth, 62 ft.);
- (12) 12 each, Type "A" manholes (avg. depth, 50 ft.);
- (13) 15 each, Type A-1 catch basins;
- (14) 75 lf. Type A cover, backfill for 12-in. cement pipe;
- (15) Grading complete, including:
  - Filling 12 manholes and salvaging rims and covers;
  - Filling 17 sidewalk manholes and salvaging rims and covers;
  - Filling 1 manhole and salvaging rim and cover.
- Resurfacing to grade 21 manhole rims and covers;
- Removal of 2076 lf. curb;
- Removal of 54,500 sq. ft. pavement and gutters;
- Removal of 3470 sq. ft. sidewalk;
- Removal of cross drains and culverts;
- Preparation of 54,500 sq. ft. of subgrade

#### BIDS WANTED

ELKO COUNTY Nevada.—Until March 10, 2:30 P. M., bids will be received by the Nevada State Highway Directors Robert A. Allen, State Highway Engineer, Heroes Memorial Bldg., Carson City, for the construction

tion of a portion of the highway system in Elko County from a point 1.6 miles east of Vivian, Station L-84 plus 87 to Elko, Station 12 1473 plus 69.52, Route 1, Section A1, a length of approximately 16.98 miles.

The work involves:

- (1) 67,805 lf. remove fence;
- (2) 1,070 lf. remove culvert pipe;
- (3) 52 each remove culvert head walls;
- (4) 2 each remove concrete culverts
- (5) 401,100 c.y. rdwy. excav.;
- (6) 29,610 c.y. imported borrow;
- (7) 583,430 yd. sta. overhaul;
- (8) 1,820 yd. mile overhaul;
- (9) 2,750 c.y. struc. excav.;
- (10) 16,98 miles subgrade;
- (11) 16,98 miles shoulders;
- (12) 16,98 miles finish roadway;
- (13) 136,000 tons crushed gravel or stone subbase;
- (14) 44,200 tons plant-mix crushed gravel or stone base;
- (15) 29,510 tons plant-mix asphaltic surface;
- (16) 11,600 tons crushed gravel or stone surface;
- (17) 583,430 yd. gals. water;
- (18) 1,465 tons asphaltic road material, Type 95;
- (19) 787 tons do, Type SC-2;
- (20) 230 tons emulsified asph., penetration;
- (21) 1,650 tons screenings;
- (22) 1,150 tons sand for prime coat;
- (23) 255 c.y. Class A concrete;
- (24) 67 c.y. Class B concrete;
- (25) 37,120 lbs. reinforcing steel;
- (26) 51 MFEBM redwood;
- (27) 176 lf. 15-in. corrug. metal pipe (dipped);
- (28) 2,036 lf. 18-in. do;
- (29) 32 lf. 21-in. do;
- (30) 834 lf. 24-in. do;
- (31) 182 lf. 30-in. do;
- (32) 162 lf. 36-in. do;
- (33) 260 lf. relay culvert pipe;
- (34) 35 each move pipe culvert head-walls;
- (35) lump sum, move obstructions;
- (36) 4,530 lf. metal guard rail;
- (37) 174 each monuments;
- (38) 124 each culvert markers;
- (39) 30 each guide posts;
- (40) 153,990 lf. construct fence;
- (41) 23 each 16-foot standard steel gates;
- (42) 5,700 lbs. castings;
- (43) 16,98 miles salvage and relay surface;
- (44) 500 hours motor grader;
- (45) 150 hour 75-h.p. crawler type tractor;
- (46) 150 hours 10-ft. blade eraser;
- (47) 100 hours 75-h.p. tractor with carryall;
- (48) 600 hours 14-ton dump truck;
- (49) 800 hours pilot car;
- (50) 1,000 hours pumping water.

Plans and specifications obtainable from the above office upon deposit of \$5, of which \$2.50 will be returnable and on file at the office of the Bureau of Public Roads, Federal Office Bldg., San Francisco.

#### BIDS WANTED

EMERALDA Co., Nevada.—Until March 10, 2:00 P. M., bids will be received by the Nevada State Highway Directors, Robert A. Allen, State Highway Engineer, Heroes Memorial Bldg., Carson City, for the construction of a portion of the highway system in Emerald County, Route 47, Section B between a point approximately 10 miles south of Blair Junction and Silver Peak, a length of approximately 10.68 miles.

The work involves:

- (1) 25 each remove wooden culverts;
- (2) 90,200 c.y. rdwy. excav.;
- (3) 75,545 yd. sta. overhaul;
- (4) 4,216 c.y. select borrow;
- (5) 1,846 c.y. imported borrow;
- (6) 1,900 c.y. struc. excav.;
- (7) 10.68 miles subgrade;
- (8) 10.68 miles finish rdwy.;

- (9) 36,300 tons crushed gravel or stone surface;
- (10) 60 c.y. Class A concrete;
- (11) 84 c.y. Class B concrete;
- (12) 7,200 lbs. reinforcing steel;
- (13) 270 c.y. cement rubble masonry;
- (14) 474 lf. 18-in. corrug. metal pipe (dipped);
- (15) 1,072 lf. 24-in. do;
- (16) 152 lf. 30-in. do;
- (17) 88 lf. 36-in. do;
- (18) 34 lf. 12-in. vitrified pipe;
- (19) 152 lf. 24-in. do;
- (20) 60 each monuments;
- (21) lump sum, misc. items.

Plans and specifications obtainable from the above office upon deposit of \$5, of which \$2.50 will be returnable and on file at the office of the Bureau of Public Roads, Federal Office Bldg., San Francisco.

#### BIDS WANTED

SACRAMENTO, Calif.—Until Feb. 25, 8:25 P. M., as previously reported, bids will be received by the Sacramento City Council, H. G. Denton City Clerk, City Hall, for the improvement of Folsom Blvd. from 53rd St. to 65th St.

The work involves:

- (1) 1,970 c.y. excavation;
- (2) 12 each, gutter drains;
- (3) 340 lf. 6-in. vitrified iron drain pipe;
- (4) 13 each, manholes constructed to grade;
- (5) 350 sq. ft. remove and replace asphaltic concrete pavement;
- (6) 1,540 tons crusher run base;
- (7) 1,500 tons asphaltic conc. pavement;
- (8) 1,690 gals. bituminous binder;
- (9) 85 tons screenings.

Plans and specifications obtainable from the office of City Clerk, Room 263, City Hall.

#### BIDS OPENED

SAN BENITO, Monterey, San Luis Obispo and Santa Barbara Counties, Cal.—Bert Hale, Pismo Beach, at \$2.09 per barrel, total \$6,583.50 submitted low bid to the State Division of Highways, L. H. Gibson, District Engineer, San Luis Obispo, for furnishing and applying diesel oil to roadside vegetation for a distance of 200 miles at various locations in San Benito, Monterey, San Luis Obispo and Santa Barbara Counties, requiring 3,160 bbls. of diesel oil.

Complete bids follow:

Bert Hale, Pismo Beach, \$2.09 per barrel.

Pacific Truck Service, San Jose, \$2.45 per barrel.

Bradley Truck Co., Santa Maria, \$2.59 per barrel.

Tieslau Bros., Inc., Berkeley, \$2.67 per barrel;

L. A. Brisco, Arroyo Grande, \$2.69 per barrel.

### 30—RESERVOIRS & DAMS

#### CONTRACT AWARDED

THE RIVER PROJECT, Arizona.—Gunter & Shibley Co. and J. P. Shibley, Room 308, 206 S. Spring St., Los Angeles, at \$396,014.50, awarded contract by the Bureau of Reclamation, Phoenix, E. C. Koppner, Construction Engineer, under Spec. No. 75, for the construction of a spillway at the Mormon Flat Dam, Salt River Project, Arizona.

The low bidder, Fisher Construction Co., Phoenix, was given permission to withdraw its bid of \$37,946.10 on the grounds of error.

**31—PIPE LINES & WELLS**

**CONTRACT AWARDED**

**LOS ANGELES CO., Cal.**—Basich Bros. 20550 Normandie Ave., Torrance, at \$205,040.60 awarded contract by Metropolitan Water District Los Angeles, under Spec. No. 189, for constructing cast in place pipe lines and appurtenant works for the Upper Feeder of the Colorado River Aqueduct distribution system. The work is located in Los Angeles Co. and comprises approximately 1210 l.f. of 9-ft. 8-in. dia. and 534 ft. of 7-ft. dia. pipe lines and appurtenant structures. The bids on individual schedules were:

Schedule 8-C, across San Gabriel Canyon just below Morris Dam, 578 ft. 9-ft. 8-in. dia., at \$96,220.

Schedule 9-C across Monrovia Canyon in Monrovia, 632 ft. of 9-ft. 8-in. line at \$73,154.60.

Schedule 12-C, across Eagle Rock Canyon north of Eagle Rock, 554 ft. 7-ft. pipe line, at \$35,666.

The total estimated cost of the work, including materials to be furnished by the district, is \$30,181. F. E. Weymouth, General Manager and Chief Engineer.

**32—SEWERS & SEWAGE DISPOSAL PLANTS**

**BIDS WANTED**

**SACRAMENTO COUNTY, Calif.**—Until March 16, 2 P. M., bids will be received by Major Arthur W. Parker, Constructing Quartermaster, Army Air Corps Supply Depot, near North Sacramento, to be opened in the office of the Builders' Exchange, 720 I St., Sacramento, for construction and completion of sanitary sewers at the air base. Estimated cost, \$45,000.

Bids will be taken as follows:  
(I) Lump sum, construction and completion of the sanitary sewer lines;

(II) Unit Prices. The bidder shall submit unit prices in the following schedule for all items listed below. These will be used in making deductions or additions to the contract amount provided any deviation from the drawings and specifications decreases or increases the work indicated or required. Unit prices shall include the furnishing of all labor and material complete in place unless otherwise noted.

- (A) 15-in. vitrified clay pipe in place, per l.f.;
- (B) 12-inch do.;
- (C) 10-inch do.;
- (D) 8-inch do.;
- (E) 6-inch do.;
- (F) Wyes on 15-inch vitrified clay pipe, each.;
- (G) Wyes on 12-in. do.;
- (H) Wyes on 10-in. do.;
- (I) Wyes on 8-inch do.;
- (J) Wyes on 6-inch do.;
- (K) Standard manholes, 5-ft. deep each.;

- (L) Per ft. of standard manholes over 5-ft. deep.;
- (M) Drop manholes, Type A, 5-ft. deep, each.;
- (N) Per ft. of Type A drop manholes over 5-ft. deep.;
- (O) Drop manholes, Type E, 5-ft. deep, each.;
- (P) Per ft. of Type B drop manholes over 5-ft. deep.;
- (Q) Sheeting left in place, per M F B M.;
- (R) Rock excavation, per c.y.

Plans and specifications obtainable from the office of Maj. Arthur W. Parker upon deposit of a certified check, payable to the Treasurer of the United States, in the amount of \$10.00.

**ALAMEDA CO.—Railway Facilities Substructure—(State)**

ALAMEDA COUNTY, Cal.—Bates & Rogers Construction Co., 532 Russ Bluff, San Francisco, at \$654,802.50 submitted low bid to the State Department of Public Works, San Francisco-Oakland Bay Bridge Division, C. H. Purcell, Chief Engineer 500 Sansome Street, San Francisco, for the construction of the East Bay Yard substructure of the railway facilities of the San Francisco-Oakland Bay Bridge.

- The work involves:  
East Bay Yard and S. P. Crossing  
(1) 16,000 c.y. excavation;  
(2) 20,000 l.f. creosoted timber piles 40- to 59-ft. long.;
- (3) 25,000 l.f. do. 60- to 79-ft. long.;
  - (4) 35,000 l.f. do. 80-ft. or over.;
  - (5) 20,000 l.f. untreated timber piles 40- to 54-ft. long.;
  - (6) 30,000 l.f. do. 55- to 69-ft. long.;
  - (7) 40,000 l.f. do. 70- to 84-ft. long.;
  - (8) 87,000 l.f. do. 85-ft. or over.;
  - (9) 6,150 c.y. concrete in footings.;
  - (10) 1,700 c.y. concrete above footings.;
  - (11) 1,400,000 lbs. reinf. steel.;
  - (12) 80,700 lbs. anchor bolt material.;
  - (13) 89 MFEBM timber (untreated).;
  - (14) 880 MFEBM do. (creosoted).;
  - (15) 62,000 lbs. hardware timber.;
  - (16) 2,600 bbls. extra portland cem.;

- Port of Oakland Overhead  
(17) 2,800 c.y. excavation.;
- (18) 8,000 l.f. untreated timber piles, 55- to 69-ft. long.;
  - (19) 9,000 l.f. do. 70- to 84-ft. long.;

**MARIO BARSOTTI**

2769 Octavia Street, SAN FRANCISCO, CALIF.

**33— WATER WORKS**

**TO PREPARE PLANS**

**SANTA ANA, Orange Co., Calif.—**  
**M. N. Thompson, Orange County Flood Control Engineer, Court House, Santa Ana, has been authorized by the Orange County supervisors to prepare plans and specifications for the proposed Richfield Storm Drain to serve the Richfield-Atwood-Yorba Linda District. The cost is estimated at \$305,283. The engineer has filed an application for PWA funds in the amount of 45 per cent grant to assist in the financing of the work. The county's share, as sponsor, would be \$201,288. The drain will be divided into two sections: one along Orchard Drive, the other along Richfield Drive. The former will be 8500 lf. in length with a capacity of 180 second-feet and the latter 3000 lf. with a capacity of 500 second-ft.**

**The project will involve:**  
 4,000 lf. 54-in. cement concr. pipe;  
 7,500 lf. 48-in. concr. box section,  
 7 x 6 ft.;  
**The approximate quantities are:**  
 150,000 c.y. levee embankment;  
 60,000 c.y. struct. excav.;  
 8,000 c.y. reinf. concrete.

If the PWA application is approved, the county will advertise for bids within the next two months.

**BIDS WANTED**

**SAN FRANCISCO—**Until Feb. 24, 1:45 p.m., informal bids will be received by the Department of Public Works, Room 251, City Hall, under Spec. No. 19017, for the reconstruction of a sewer in Ulloa Street, between Woodside Ave. and Sydney Wav. Estimated cost, \$491.

The vitrified clay pipe sewer was constructed before Woodside Avenue was paved, and the grade of grade change must be lowered.

Specifications obtainable from the office of City Engineer John Casey,

Room 351, City Hall.

**PROSPECTIVE BIDDERS**

**EUREKA, Humboldt Co., Calif.—**Following contracts and prospecting plans for the construction of the Washington Street sanitary outfall sewer between Broadway and the Government bulkhead line, for which bids will be opened by the Eureka City Council, A. Walter Kittale, City Clerk, February 25, P. M.:

Hanrahan-Conolly Co., 582 Market St., San Francisco.

Fred J. Maurer & Son, Inc., Eureka.

John F. White, 3214 E 12th St., Oakland.

W. J. Tobin, 3701 Balfour Avenue, Oakland.

Fredrickson & Watson Const. Co., 873 81st Ave., Oakland.

Peter J. McHugh, 3001 16th St., San Francisco.

Mercer-Fraser Co., 2nd and Commercial Sts., Eureka.

Robert B. McNair, 3745 Rhoda Ave., Oakland.

Evan D. Gardner, City Engineer.

**BIDS OPENED**

**SAN FRANCISCO—**Fay Improvement Co., 765 Market St., San Francisco, at \$519.40, awarded contract by the Department of Public Works, City Hall, under Spec. No. 19017 for the reconstruction of a sewer in Ulloa Street, between Woodside Ave. and Sydney Wav.

The other bids were:  
 Pacific States Const. Co., S. F., \$559  
 Lowrie Paving Co., S. F., \$578

**CONTRACT AWARDED**

**SACRAMENTO, Sacramento Co., Calif—**Pittsburgh-Des Moines Steel Co., Blinto Bldg., San Francisco, at \$24,000, awarded contract by Mayor Arthur W. Parker, Constructing

**Eureka Mills Sash, Door & Moulding**

1715 Mission Street, SAN FRANCISCO

Quartermaster, Army Air Corps Supply Depot, North Sacramento, for the construction of a 200,000-gal. capacity elevated steel tank at the air base.

**BIDS WANTED**

**SACRAMENTO COUNTY, Calif.**—Until March 18, 2 P. M., bids will be received by Major Arthur W. Parker, Constructing Quartermaster, Army Air Corps Supply Depot, near North Sacramento, to be opened in the office of the Builders' Exchange, 720 I St., Sacramento, for construction and completion of the Quartermaster's gasoline and oil storage tanks, pumping, piping, etc., at the air base. Estimated cost, \$5,000.

- Bids will be taken as follows:
- (I) Lump sum, construction & completion of the QM. gasoline and oil storage tanks, pumping, piping, etc., including the utilities thereto;
  - (II) If the built-up roof is constructed of asphalt instead of tar as specified, add to or deduct from the amount of Item (I).

(III) **Unit Prices.** The bidder shall submit unit prices in the following schedule for all items listed below. These will be used in making deductions or additions to the contract amount provided any deviation from the drawings and specifications decreases or increases the work indicated or required. Unit prices shall include the furnishing of all labor and material complete in place unless otherwise noted.

- (A) Earth excavation, per c.y.;
  - (B) Rock excavation, per c.y.;
  - (C) Wet excavation, per c.y.;
  - (D) Type A concrete, including forms, per c.y.;
  - (E) Type B concrete, do;
  - (F) Reinforcing steel, per ton.
- Plans and specifications obtainable from the office of Maj. Arthur W. Parker upon deposit of a certified check, payable to the Treasurer of the United States, in the amount of \$10.00.

**BIDS WANTED**

**SACRAMENTO CO., Calif.**—Until March 16, 2:30 p.m., bids will be received by Major Arthur W. Parker, Constructing Quartermaster, Army Air Corps Supply Depot, near North Sacramento, to be opened at the office of the Builders' Exchange, 720 I St., Sacramento, for the installation and completion of the water distribution system at the air base. Estimated cost, \$45,000.

- Bids will be taken as follows:
- (I) Lump sum, construct and complete a water distribution system, including appurtenances thereto;
  - (II) If the cast-iron pipe is omitted on all water lines and asbestos cement pressure pipe as specified for alternate is substituted, add or deduct from Item (I).

(III) **Unit Prices.** The contractor shall submit unit prices in the following schedule for all items listed below. These will be used in making deductions from or additions to the contract amount, providing any deviation from the drawings and specifications decreases or increases the work indicated or required. Unit prices shall include the furnishing of all labor and material complete in place, unless otherwise noted.

- (A-1) 16-in. cast-iron pipe, per l.f.;
- (A-2) 14-in. Do.;
- (A-3) 12-in. Do.;
- (A-4) 10-in. Do.;
- (A-5) 8-in. Do.;
- (A-6) 6-in. Do.;
- (A-7) 4-in. Do.;
- (B-1) 16-in. asbestos cement pipe, per l.f.;

**LOS ANGELES CO.—AQUEDUCT PIPELINES—Met. Dist.**

**LOS ANGELES CO., Calif.**—Basch Bros., 20550 Normandie Ave., Torrance, at \$295,040.00, as previously reported, submitted low bid to the Metropolitan Water District, Los Angeles, under Spec. No. 189, for constructing cast-in-place concrete pipe lines and appurtenant works for the Upper Feeder of the Colorado River Aqueduct distribution system.

The work is located in Los Angeles County and comprises the construction of approximately 1219 l.f. of 9-ft. 8-in. dia. and 554 l.f. of 7-ft. diameter pipe line and appurtenant structures, and has been divided into schedules as follows:

Schedule 8C—Across San Gabriel Canyon just below Morris Dam, 575 ft., 9 ft. 8 in. inside diameter.

Sch. 9C—Across Monrovia Canyon in Monrovia, 532 ft., 9 ft. 8 in. inside diameter.

Sch. 12C—Across Eagle Rock Canyon north of Eagle Rock, 554 ft., 7 ft. inside diameter.

The work involves:

**SCHEDULE 8C**

Construction of the San Gabriel Canyon crossing of the upper feeder of the Colorado River Aqueduct distribution system between Stations 2358 plus 46 and 2363 plus 68. Inside diameter 9 ft. 8 in., length of schedule, 521 feet.

- (1) 22,000 c.y. excavation;
- (2) 9900 c.y. backfill;
- (3) 1200 c.y. concrete in structures, reinforced;
- (4) 20 c.y. do, plain;
- (5) 760 c.y. concrete in cast in place pipe;
- (6) 240,000 lbs. placing reinf. steel in structures;
- (7) 290,000 lbs. placing reinf. steel in cast in place pipe;
- (8) 30,000 lbs. installing slide gates and holsts;
- (9) 54,000 lbs. installing miscellaneous metal;
- (10) does not apply here;
- (11) 100 l.f. installing concrete drain pipe;
- (12) 260 c.y. tunnel enlargement;
- (13) 15 MFMB furnishing and placing perm. timbers in tunnel;
- (14) does not apply here;
- (15) 20 c.y. gunite coating of rock;
- (16) 400 l.f. drilling grout holes;
- (17) 40 connections for grouting;
- (18) 39 c.y. mixing and placing grout;
- (19) 1400 ton-miles hauling steel;
- (20) 2600 ton-miles hauling cement.

**SCHEDULE 9C**

Construction of the Monrovia Canyon crossing of the upper feeder of the Colorado River Aqueduct distribution system between Stations 254 plus 61 and 2600 plus 62. Inside diameter 9 ft. 8 in., length of schedule 601 ft.

- (1) 17,000 c.y. excavation;
- (2) 13,000 c.y. backfill;
- (3) 900 c.y. concrete in structures, reinforced;
- (4) 20 c.y. do, plain;
- (5) 770 c.y. concrete in cast in place pipe;
- (6) 150,000 lbs. placing reinf. steel in structures;
- (7) 310,000 lbs. placing reinf. steel in cast in place pipe;
- (8) does not apply here;
- (9) 30,000 lbs. installing miscellaneous metal;
- (10) 362 l.f. installing welded steel spillway pipe;
- (11) 200 l.f. installing concrete drain pipe;
- (12) and (13) do not apply here;
- (14) 2 c.y. gunite coating of rock;
- (15) 100 l.f. drilling grout holes;
- (17) 30 connections for grouting;
- (18) 5 c.y. mixing and placing grout;
- (19) 600 ton-miles hauling steel;
- (20) 1,100 ton-miles hauling cement.

**SCHEDULE 12C**

Construction of the Eagle Rock Canyon crossing of the upper feeder of the Colorado River Aqueduct distribution system between Stations 319 plus 05 and 3224 plus 39. Inside diameter 7 ft., length of schedule, 534 feet.

- (1) 5,000 c.y. excavation;
- (2) 7,000 c.y. backfill;
- (3) 500 c.y. concrete in structures, reinforced;
- (4) 20 c.y. do, plain;
- (5) 339 c.y. concrete in cast in place pipe;
- (6) 75,000 lbs. placing reinf. steel in structures;
- (7) 85,000 lbs. placing reinf. steel in cast in place pipe;
- (8) 55,000 lbs. installing slide gates and holsts;
- (9) 22,000 lbs. installing miscellaneous metal;
- (10) does not apply here;
- (11) 100 l.f. installing concrete drain pipe;
- (12) (13) and (14) do not apply here;
- (15) 5 c.y. gunite coating of rock;
- (16) 100 l.f. drilling grout holes;

UNderhill 8688

130 Hooper Street

- (17) 10 connectors for grouting;
- (18) 5 c.y. mixing and placing grout
- (19) 400 ton-miles hauling steel;
- (20) 750 ton-miles hauling cement.

The total bids, showing sub totals as figured by the bidders, together with extended grand total and stipulations, follow:

- (A) Basch Bros., Torrance—(Sch. 8C \$96,220; (Sch. 9C) \$73,544.00; (Sch. 12C) \$35,666; grand total, \$205,040.60. Stipulations: All or none.
- (B) Case Constr. Co., Inc., Alhambra—(Sch. 8C) \$94,620; (Sch. 9C) \$75,416.50; (Sch. 12C) \$48,052.50; grand total, \$218,089. Stipulations: In case Schedules 8C and 9C are awarded, deduct \$1 per c.y. from the bids for Items 3 and 5, of both schedules. In case Sch. 12C is awarded to this bidder in addition to 8C and 9C, deduct \$1 per c.y. from bid prices on Items 3 and 5 of Schedule 12C.
- (C) Elliott, Stroud Bros. & Seabrook, Pasadena—(Sch. 8C) \$106,940; (Sch. 9C) \$81,346; (Sch. 12C) \$81,346; (Sch. 12C) \$48,405; grand total, \$236,691.
- (D) United Concrete Pipe Corp., Los Angeles—(Sch. 8C) \$118,615; (Sch. 9C) \$82,416; (Sch. 12C) \$38,140; grand total, \$239,163. Stipulations: Will not accept any one or two

schedules. Only three together, and separate contract.

- (E) Morrison-Knudsen Co., Inc., Los Angeles—(Sch. 8C) \$117,820; (Sch. 9C) \$85,196; (Sch. 12C) \$45,080; grand total, \$248,096. Stipulations: All or none.
- (F) Hoagland Engr. & Constr. Co., Long Beach—(Sch. 8C) \$125,814; (Sch. 9C) \$83,798.40; (Sch. 12C) \$40,278; grand total, \$249,891.60. Stipulations: Will accept all three only; each schedule shall be a separate contract and payments shall be separate and acceptance of any schedule shall relieve contractor of liability to that extent.
- (G) Metropolitan Constr. Co., 208 W. 8th St., Los Angeles (Wood & Bevanda and Jahn & Bressl; C. W. Wood, President; N. F. Jahn, Secretary-Treasurer)—(Sch. 8C) \$124,520; (Sch. 9C) \$86,864; (Sch. 12C) \$42,645; grand total, \$254,029. Stipulations: Will accept only award of all schedules. In the event that 9-ft. 8-in. inside diam. pipe is used in lieu of 7-ft., as per specifications on 12C, deduct \$1 per c.y. from the price for Item 5 in Schs. 8C and 9C, and \$10 per c.y. from the price for Item 5, Sch. 12C.

BIDS OPENED

LOS ANGELES, Calif.—Case Construction Co., Inc., 905 Westminster St., Alhambra, submitted low bid to D. P. Nicklin, Purchasing Agent, Los Angeles Water & Power Bureau, at \$52,197.94 (discount under item "q" deducted), for construction of 20-in. cast-iron water supply line under main ship channel, San Pedro. FWA Docket 1920-R; Unit No. 89-B. Spec. No. X-92.

The work involves:

- (a) 175 tons cast iron pipe and fittings to be transported from Dept.'s San Pedro yard;
- (b) 108 l.f. furnish and install 30-in. ID corrug. galv. steel pipe with struts under S. P. Ry. tracks; to install inside this pipe 20-in. flanged end cast iron pipe;
- (c) 11 c.y. furnish all material and place concrete anchor block on 20-in. cast iron pipe;
- (d) 496 l.f. furnish and drive fourteen crosstied piles (4 24-ft., 4 30-ft., 2 40-ft., and 4 50-ft.);
- (e) lump sum, construct reinforced concrete pile caps, pipe supports and reinf. concrete tie struts;
- (f) 96 l.f. install 20-in. flanged end cast iron pipe from end of anchor blocks to 90-deg. bend;
- (g) 54 l.f. furnish material and sink a 7-ft. min. dia sheet pile caisson, excavate to required subgrade inside thereof and dispose of excavated material;
- (h) 50 l.f. install inside caisson 20-in. flanged end CI pipe, inc. 90-deg. bends at top and bottom, and 24-inch section flange and flexible joint spigot;
- (i) 10 c.y. furnish material and place concrete at subgrade inside 7-ft. ID caisson;
- (j) 47 l.f. furnish and install inside caisson and outside the 20-inch CI pipe 36-in., 24-ga. steel pipe; place reinf. concrete in space between 20- and 36-in. pipe;
- (k) 1424 l.f. excavate trench for 20-in. pipe from caisson to end or contract on east shore of main ship channel;
- (l) 20 c.y. furnish and place rock blanket for approx. 16 ft. east of caisson;
- (m) 300 c.v. furnish and place crushed rock if required to fill irregularities in pipe trench across channel;
- (n) 1424 l.f. install 20-in. CI pipe across main ship channel from caisson to end of contract on east shore of channel;
- (o) 1424 l.f. backfill over 20-in. CI pipe across channel from cais-

- son to end of contract on east shore of channel;
- (p) 100 c.y. replace rock riprap and place additional riprap it required;
- (q) discount for 40-hour work week in place of work month of not over 130 hours for each labor classification.

- The total bids were:
- (A) Case Construction Co. Inc., Alhambra—\$59,197.91 (after deducting 2% or \$1065.26 for item "q").
  - (B) Kohl-Connolly Co., Los Angeles—\$58,756.70.
  - (C) Hull-Smale-Robinson Co., Wilmington—\$59,659.15 (1 1/2% or \$908.52 for item "q").

**CONTRACT AWARDED**

**SAN FRANCISCO**—E. J. Treacy, 430 Call Bldg., San Francisco, at \$1,608.75, awarded contract by the Public Utilities Commission, City Hall, under Spec. No. W. D. 138, for laying 4-in., 6-in. and 8-in. cast-iron mains in Chester and Silver Avenues, Santa Fe, Rhine, and Greenwich Streets.

**SAN FRANCISCO**—E. J. Treacy, 430 Call Bldg., San Francisco, at \$1,608.75 submitted low bid to the Hall, under Spec. No. W. D. 138, for laying 4-in., 6-in., and 8-in. castiron mains in Chester and Silver Avenues, Santa Fe, Rhine, and Greenwich Sts.

- The work involves:
- (1) 1,490 lf. excav. and backfill for 4-in., 6-in. and 8-in. pipe, trench 17 in. wide by 36 in. deep;
  - (2) 40 c.y. additional excavat. and backfill;
  - (3) 90 sq. ft. additional pavement removal and replacement;
  - (4) Installing pipe;
    - (a) 590 lf. 4-in. bell and spigot cast-iron pipe
    - (b) 625 lf. 6-in. do.;
    - (c) 275 lf. 8-in. do.;
  - (5) 2,400 lbs. installing fittings, gate valves, etc.;
  - (6) 200 lf. bell and spigot joints, making joints for pipe and fittings;
  - (7) Re pavement:
    - (a) 1,800 sq. ft. asphaltic concrete;
    - (b) 60 sq. ft. sidewalk;
  - (8) 13 each, installation of 3/4-in.

**BIDS WANTED**

**FRIANT, Fresno Co., Calif.**—Until March 3, 10 a.m., as previously reported, bids will be received by the Bureau of Reclamation, Walker E. Young, Constructing Engineer, 206 Old Post Office Bldg., Sacramento, under Spec. No. 883-D, for the construction of a water tank at the Government Camp at Friant Dam, Central Valley Project, about 22 mi. north of Fresno.

The tank will be a circular steel tank, having a capacity of 100,000 gals., and will be erected on a gravel foundation prepared by the Government.

Bids will be taken as follows:

- (1) Lump sum, furnishing and erecting one 100,000-gal steel water tank, complete, in accordance with specifications and drawings; shipment of materials to Friant to be made on commercial bills of lading at the expense of the contractor;
- (2) Same as Item (1) except shipment to be made to Friant on Government bills of lading.

Work shall be commenced within 15 calendar days and completed within 100 calendar days from the date of receipt of notice to proceed.

Plans and specifications obtainable from the office of the Bureau of Reclamation at Sacramento, Denver or Washington, D. C., without charge to prospective bidders; to others, 75c, not returnable. Plans will be available about Feb. 15.

A. M. Torpen, division engineer in charge at Friant; T. R. Smith, division office engineer.

# MACHINERY & MATERIAL

Bid calls for construction machinery and materials and miscellaneous equipment and supplies purchased by Federal, State, Municipal and other public agencies.

## WAR DEPARTMENT

**FORT MASON.**—Until March 10, 10 a. m., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. 928-37-302 for furnishing one garment pressing machine, steam.

Specifications obtainable from the above office.

**FORT MASON.**—Until March 10, 10 a. m., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. 928-37-303, for furnishing floor-sweeping brushes, handles for brushes, mop handles, and cotton mops.

Specifications obtainable from the above office.

**SAN FRANCISCO.**—Until March 5, 3 p. m., bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 898-37-186, for furnishing 500 ft. high-grade pipe steel, uncoated, fibre core, wire rope.

Delivery f.o.b. Pier 3½, San Francisco Waterfront.

Specifications obtainable from the above office.

**SAN FRANCISCO.**—Until March 5, 3 p. m., bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 898-37-185, for furnishing 144 ft. seamless welded steel pipe.

Delivery f.o.b. Pier 27, San Francisco.

Specifications obtainable from the above office.

**FORT MASON.**—Until March 2, 10 a. m., bids will be received by the Constructing Quartermaster, Ft. Mason, under Bid No. W 6616-37-61, for furnishing 28,000 ft. b. m. Douglas fir lumber.

Delivery f.o.b. West Portal of Tunnel, Fort Baker.

Date of opening bids was extended from February 20, previously reported.

Specifications obtainable from the above office.

**SAN FRANCISCO.**—Until March 2, 3 P. M., bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, under Bid No. 868-37-177, for furnishing bolts, steel plates and nails.

Delivery fob Fort Funston.

Specifications obtainable from the above office.

**SAN FRANCISCO.**—Until March 3, 3 P. M., bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, under Bid No. 868-37-180, for furnishing two complete curb guards, each composed of eight sections of angle steel, bent to shape with necessary splice plates, etc.

Delivery fob Fort Funston.

Specifications obtainable from the above office.

**SACRAMENTO.** Cal.—Until March 3, 3 P. M., bids will be received by the U. S. Engineer Office, Lieut.-Col. L. B. Chambers, District Engineer, 208 Post Office Bldg., Sacramento, under Bid No. 1165-37-165, for fur-

nishing dies, punches, saws, pipe fittings, etc.

Delivery fob Rio Vista.

Specifications obtainable from the above office.

**FORT McDOWELL.** Calif.—Until March 5, 11 A. M., bids will be received by the Quartermaster, Fort McDowell, under Bid No. QM 536-37-25, for furnishing redwood lumber, Oregon pine lumber, wiring materials, etc.

Specifications obtainable from the above office.

**SAN FRANCISCO.**—Until March 5, 3 p. m., bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-37-183, for the lease and operation of one Diesel powered towboat, for a period of 3 months, with an extension privilege for a like period of time, to be used in towing barges between San Francisco and Rio Vista, and for dredge tending, etc. in the Bay Area.

Specifications obtainable from the above office.

**SAN FRANCISCO.**—Until March 3, 3 p. m., bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-37-178, for furnishing miscellaneous electrical, plumbing and hardware supplies.

Specifications obtainable from the above office.

**FORT MASON.** Cal.—Until March 6, 10 A. M., bids will be received by the Constructing Quartermaster, Ft. Mason, under Bid No. W 6616-37-66, for furnishing floor tile and cover base.

Delivery fob Bldg. No. 59, Letterman General Hospital, Presidio of San Francisco.

Specifications obtainable from the above office.

**FORT FUNSTON.** Cal.—Until Mar. 4, 3 P. M., bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-37-181, for furnishing lumber and millwork.

Delivery fob Fort Funston.

Specifications obtainable from the above office.

**FORT MASON.**—Until March 4, 10 a. m., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. 928-37-296, for furnishing six fender logs, for piling protection, 40 ft. long, No. 1 Douglas fir, 30 inches in diameter at the smallest end, with natural taper.

Specifications obtainable from the above office.

**SAN FRANCISCO.**—Until March 2, 3 p. m., bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-37-173, for the rental of one dragline, convertible 1½-cy. capacity, gas or diesel powered, equipped with a boom not less than 50 ft. long, without operator, for approximately 80 hours.

Delivery f.o.b. Fort Funston.

Specifications obtainable from the above office.

## U. S. FOREST SERVICE

**GOVERNMENT ISLAND.**—Bids will be received by Frank Haynie, Supply Officer, Forest Service Supply Depot, Government Island, Oakland, as follows:

March 4, 2 P. M.

BID No. 4346—9000 No. 6 telephone batteries; f.o.b. various points.

Specifications obtainable from the above office.

**SAN FRANCISCO.**—Until March 3, 2 p. m., bids will be received by G. D. Huestis, Assistant Procurement Officer, Forest Service, Phelan Bldg., San Francisco, under Bid No. 999, for furnishing motor - driven brake shoe lining machine and brake drum and brake-shoe gauge; f.o.b. bidder's shipping point and/or Government Island.

Specifications obtainable from the above office.

**SAN FRANCISCO.**—Until March 4, 2 p. m., bids will be received by G. D. Huestis, Assistant Procurement Officer, Forest Service, 1022 Phelan Bldg., San Francisco, under Bid No. 1006, for furnishing one 60-ton capacity hydraulic press; f.o.b. bidder's shipping point and/or Government Island.

Specifications obtainable from the above office.

**GOVERNMENT ISLAND.** Calif.—Bids will be received by Frank Haynie, Supply Officer, Forest Service Supply Depot, Government Island, Oakland, as follows:

MARCH 2, 2 P. M.:

BID No. 436: Finish hardware; fob bidder's shipping point and/or Arcadia Warehouse site;

BID No. 4341: 1 gas water heater, storage, 30-gal. capacity, and one do, 50-gal. capacity; fob bidder's shipping point and/or Arcadia Warehouse site.

Specifications obtainable from the above office.

**SAN FRANCISCO.**—Until March 2, 10 a. m., bids will be received by the Procurement Office, Treasury Department, Room 514, 49 Fourth St., San Francisco, under Bid No. 3463, for the rental of one 60-hp. tractor, gasoline or diesel driven, equipped with bulldozer, for use on WPA projects.

Delivery f.o.b. Outer Harbor Terminal, Oakland.

Specifications obtainable from the above office.

## MET. WATER DISTRICT

**LOS ANGELES.**—Until March 15, 2 p. m., bids will be received by the Metropolitan Water District, 306 W. 3rd St., Los Angeles, for furnishing two 66-in. and two 72-in. hand-operated, cast-iron sluice gates, complete with operating mechanisms and all appurtenances, for installation at the Colorado River aqueduct pumping plants designated as Iron Mountain and Eagle Mountain, in accordance with Spec. No. 195. Copies may be obtained upon payment of \$2 per set, not returnable. Certified or cashier's check for \$400 must accompany each proposal. F. E. Weymouth, general manager and chief engineer.

## CANAL ZONE

PANAMA CANAL ZONE.—Until March 2, 10:30 a. m., bids will be received by H. A. A. Smith, General Purchasing Officer, The Panama Canal, Washington, D. C., under Schedule No. 3227, for furnishing miscellaneous supplies and equipment, including Steel Cylinders, Reamers, Presses and vacuum Gauges, Metal-cutting Band Saws, Screw Clamps, Ship Scrapers, Steel Stamping Letters, Electrode Holders, "T" Connectors (Cable Taps), Toggle Switches, Link Fuses, Magnet Wire, Plate Mill Insulation, Glass, Hackaws, Frames, Carpenter's Hammers, Garden Hoes, Hay Forks, Wire Brushes, Fasteners (clinch-type and wood-screw type), Metallic Tapes, Oxygen Hose, Steel Wool, Liquid Metal Polish, Rawhide Belt Lacing, Cotton Lacing, Sheet-fiber Packing, Sheet-rubber Packing (cloth-insertion), Asbestos Packing, Cotton Candle-wick Facking, Untarred Rope Yute, and Anhydrous Ammonia (in Steel Cylinders).

Specifications obtainable from the above office and from the Assistant Purchasing Agent, The Panama Canal, Fort Mason, San Francisco.

## NAVY DEPARTMENT

WASHINGTON, D. C.—Bids will be received by the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., for furnishing miscellaneous supplies and equipment, as follows:

GRINDER machine, motor-driven, with exhaustor equipment; Key-port, Wash. Sch. 1029; March 2.

GRINDERS, 10, floor-type double emery; San Pedro and Puget Sound, Sch. 1045; March 5.

GRINDING machines, motor-driven universal tool and cutter; Puget Sound, Sch. 1033; March 5.

PUMPS, motor-driven oil; East and West Yards, Sch. 9950; March 5.

CLOTH, 171 rooms, aluminum-oxide abrasive; Puget Sound, Sch. 1052; March 5.

ENGINES, 6, 150-hp. marine diesel; Puget Sound, Sch. 1040; March 5th.

FLANGING and expanding machine, pipe, motor-driven; East or West Yards, Sch. 7; March 9.

REACTOR, electric power line; East or West Yard, Sch. 9; March 9.

INDICATING systems, 3, tank-level; Mare Island, Sch. 15; March 9.

TUBING, aluminum alloy; East and West Yards, Sch. 1043; March 9.

STEEL plates, 23,625 lbs.; Mare Island, Sch. 3; March 9.

PUMP motor-driven, hydraulic; Mare Island, Sch. 1049; March 12.

PUMP motor-driven, hydraulic; Mare Island, Sch. 1050; March 12.

COVERING, necessary services and material to apply rubber covering to shafts; East or West Yards, Sch. 36; March 12.

Information obtainable from the above office and from Headquarters, 12th Naval District, Federal Office Bldg., San Francisco.

## REPORT SHOWS S. F. BUILDING VOLUME STEADY

**Public Awards Absent; Permit Total Remains At the January Level**

With practically no public building awards during the month, San Francisco's building permit values during February showed a slight decline from February, 1936, remaining at approximately the same level as in January, 1937.

The monthly permit total, released by Head Clerk S. J. Rosenblum of the central permit bureau, lists the month's building at \$1,219,576.

This compares with \$1,225,375 for the preceding month and with a permit value total of \$1,299,971 in February, 1936.

Residential building, as indicated by the total for frame construction, amounted to \$716,300, an increase of about \$77,000 over the frame total for February last year.

Permits issued last month for Class A, B and C construction all showed gains over the corresponding 1936 month. Alterations were lower, and public building was more than \$280,000 less than in February last year.

No federal government or harbor work permits were issued either in February, 1937, or 1936.

Building thus far in 1937 has amounted to \$2,444,942, Rosenblum reported, as compared with \$2,329,291 in the first two months last year.

Following is a comparative classification of permits issued in February, 1936, and 1937:

Class	Feb., 1937		Feb., 1936	
	No.	Cost	No.	Cost
A .....	2	\$25,000	.....	.....
B .....	2	130,000	1	\$ 4,500
C .....	9	113,500	8	83,404
Frames .....	155	716,300	138	639,480
Alterations .....	409	219,907	394	285,482
Public .....	1	4,950	3	286,100
U. S. Govt. ....	.....	.....	.....	.....
Harbor .....	.....	.....	.....	.....
Total .....	578	1,219,567	544	1,299,971

## STEEL BOOKINGS OVER LAST YEAR

According to reports to the American Institute of Steel Construction the total volume of fabricated structural steel booked in January was seasonally down in comparison with recent months but comfortably in excess of the record of last year. The total of new business was 130,651 tons in January, approximately 55.9 per cent of the annual average for the years 1928-1931. The new business booked in January 1936 was 51.4 per cent of normal.

Shipments during January this year amounted to 92,020 tons or 39.3 per cent of normal, whereas the shipments during the same month last year were only 34.2 per cent of normal.

## New Suit Against Project Is Filed

A second injunction suit, similar to that filed in Contra Costa county last week, was entered this week in Modesto by 35 land holders in Western Stanislaus county, who seek to halt construction work on the Central Valley project.

The property owners, in their suit, allege that their land is riparian to the San Joaquin river, and that diversion of Sacramento river water to the San Joaquin will result in soil and other damages they estimated at \$1,678,000. Some 300,000 acres of land will be affected, the suit holds.

As in the Contra Costa county suit, defendants include the Water Project Authority of the State of California and a long list of officials associated in various connections with the project.

## NUMBER CHANGED

Gladding Brothers Manufacturing Co., 417 Berry St., San Francisco, reports its telephone number has been changed from MARKET 2770 to GARFIELD 2010.

## NEWARK PLANT IS STARTED BY EASTERN FIRM

**\$1,000,000 Chemical Works For N. Y. Company; Ferguson Holds Contract**

Continuing the industrial expansion which has characterized recent months in the Bay region, construction of a chemical plant for the West-Baco Chlorine Products Co. of New York has been started near Newark, Alameda county.

When the plant is completed approximately \$1,000,000 will have been expended for construction, it is estimated.

General contractor for the big job is the Ferguson Construction Co. of Cleveland, Ohio.

The plant will consist of seven steel frame buildings with galvanized iron walls and roof, officials of the company said yesterday. Also planned for early construction are several chemical tanks outside the buildings.

## Plans by Owner

Plans for the construction program were prepared by the chemical company's engineering department. E. P. Wilson is chief engineer. Superintendent of construction for the Ferguson company on the project is Mr. Deatherage.

Sub-contracts for portions of the work may be let in the near future, Mr. Deatherage said.

Construction of a long pipe line to the plant is planned, West-Baco officials indicated, but details were not available.

## ELECT WATSONVILLE EXCHANGE OFFICERS

Frank Hair was elected president of the Watsonville Builders Exchange last week at a banquet meeting of the organization. He succeeds O. A. Brugler, exchange president for the past year.

Other officers elected were Harry Bender, vice president; Ted Taylor secretary; Julius Schanbacher, treasurer; and H. W. Malbury, sergeant at arms. Taylor and Schanbacher were re-elected.

## 21— BRIDGES

## CONTRACT AWARDED

**ALL-AMERICAN CANAL**—Lewis Chambers Constr. Co., 801 Baroque Bldg., San Francisco (headquarters at Hotel DeAnza, 233 4th St., Calexico), at \$74,258, awarded contract by the Bureau of Reclamation, Federal Bldg., Yuma, R. E. Williams, Construction Engineer, under Spec. No. 717, for the construction of highway bridges, All-American Canal, Station 1635 to 1930, Boulder Canyon Project.

## BIDS OPENED

**KERN CO., Calif.**—Following bids received by P. C. Brown, Procurement Officer, Forest Service, Phelan Bldg., San Francisco, under Bid No. 1002, for furnishing one 30-ft. structural steel beam span for the Brush Creek Bridge, f.o.b. bidder's shipping point and/or Bakersfield:

Schradler Iron Works, S. F.—\$995, f.o.b. S. F., weight, 12,000 lbs.

Bethlehem Steel Co., S. F.—\$730, f.o.b. Alameda; weight, 12,500 lbs.

Minneapolis Moline Power & Implement Co., L. A.—\$586, f.o.b. Minneapolis; weight, 11,500 lbs.

Herrick Iron Works, Oakland—\$751, f.o.b. Oakland; weight, 12,200 lbs.; discount,  $\frac{1}{2}$ % 10 days.

Judson Pacific Co., S. F.—\$544, f.o.b. S. F.; weight, 12,200 lbs.

Golden Gate Iron Works, S. F.—\$577, f.o.b. S. F.; weight, 13,000 lbs.;  $\frac{1}{2}$ % 10 days.

Independent Iron Works, Oakland—\$689, f.o.b. Oakland; \$777, f.o.b. Bakersfield; weight, 13,000 lbs.; discount,  $\frac{1}{2}$ % 10 days.

## BIDS WANTED

**LOS ANGELES COUNTY, Cal.**—Until March 25, 2 P. M., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for the reconstruction and widening of a reinforced concrete girder bridge across north branch of the Big Tujunga Wash, consisting of twelve spans each approximately 54 ft. in length, and for the construction of a reinforced concrete girder bridge across the south branch of Big Tujunga Wash, consisting of three 55 ft. spans and two 18 ft. end cantilevers.

The work involves:

- (1) 1,740 l.f. concrete railing to be removed;
- (2) 1,300 c.y. existing concrete to be removed;
- (3) 2,100 c.y. struc. excav.;
- (4) 500 tons asphalt concrete;
- (5) 635,000 lbs. bar reinf. steel;
- (6) 200 each clinch anchors (type A);
- (7) 800 each do (type B);
- (8) 3,580 c.y. Class A Portland cement concrete (struc.);
- (9) 78 c.y. Class A do (railing);

(10) 42 MFBM timber (detour);

(11) 16,000 lbs. cast steel rockers and bearings;

(12) 1,000 c.y. riprap;

(13) 20 c.y. Class A Portland cement concrete (slope paving);

(14) 350 l.f. bank protection fence;

(15) 1 lot lighting equipment;

(16) 1 lot misc. items of work.

Plans and specifications obtainable from the office of the State Highway Engineer, P. O. Box 1499, Sacramento, and on file at the office of the District Engineer in San Francisco and Los Angeles.

## BIDS WANTED

**SAN LUIS OBISPO CO., Calif.**—Until March 17, 2 p.m., bids will be received by the State Division of Highways, L. H. Gibson, District Engineer, 50 Higuera St., San Luis Obispo, for widening a bridge across Santa Margarita Creek, about 13 mi. north of San Luis Obispo.

Plans and specifications obtainable from the above office.

## CONTRACT AWARDED

**PLACER CO., Calif.**—Harold A. Best, Lincoln, at \$7,450 (concrete floor), submitted low bid and awarded contract by the Placer County Board of Supervisors, A. S. Fleming, Clerk, Court House, Auburn, for the construction of a 70-ft. steel bridge on steel pile foundations with concrete or wood floor. The structure will have a 21-ft. roadway and 4-ft. sidewalk, and will be on Douglas St. adjacent to the City of Douglas.

Bids were taken as follows:

(1) Bridge complete, with concrete floor;

(2) Deduct if wood floor is constructed in lieu of concrete.

Complete bids follow:

Harold A. Best, Lincoln—(1) \$7,450; (2) \$500.

Lord & Bishop, Sacramento—(1) \$8,600; (2) \$1100.

John C. O'Leary, San Francisco—(1) \$5,670; (2) \$679.

E. W. Peterson, San Francisco—(1) \$8,800; (2) \$500.

F. O. Bennett, San Jose—(1) \$10,750; (2) \$750.

W. E. Emmett, Sharon Bldg., San Francisco, engineer.

## 22— DREDGING HARBOR WORKS, EXCAVATION

## CONTRACT AWARDED

**SAN FRANCISCO, Calif.**—Thomas O'Brien, 1354 Funston Ave., at \$9,385 per c.y., total \$61,690, awarded contract by the Public Utilities Commission, City Hall, under Airport Department Contract No. 39, for constructing an earth and rock fill levee

or seawall and breakwater at the San Francisco Airport, involving 160,000 c.y. of material.

## AWARD RECOMMENDED

**SAN DIEGO**—Newport Dredging Co., Wilmington, submitted the low bid and was recommended for award of contract by the Public Works Officer, 11th Naval District, foot of Broadway, San Diego, Feb. 23rd, at \$0.40 c.y., for dredging at the Naval Operating Base (Fuel Depot), San Diego; Spec. 8303. The work consists of the dredging of areas in the vicinity of the piers at the Naval Fuel Depot. The amount to be dredged, including allowable over-depth, is 32,000 c.y., more or less. Standard Dredging Co., Los Angeles, submitted the only other bid at \$0.4285 c.y.

## BIDS WANTED

**RICHMOND, Contra Costa Co., Cal.**—Until March 15, 8 p.m., bids will be received by the Richmond City Council, A. C. Faris, City Clerk, City Hall, for dredging a turning basin in front of Municipal Wharf No. 1, in Richmond Outer Harbor.

The work will involve dredging approximately 123,500 c.y. of material.

Plans and specifications obtainable from the office of City Engineer E. A. Hoffman, upon deposit of \$300.

## CONTRACT AWARDED

**SAN DIEGO**—Newport Dredging Co., Wilmington, at \$0.40 per c.y., awarded contract by the Public Works Officer, 11th Naval District, San Diego, under Spec. No. 8303, for dredging approximately 32,000 c.y. of materials at the Naval Operating Base (Fuel Depot), San Diego, in the vicinity of the piers.

## AWARD RECOMMENDED

**SAN DIEGO, Cal.**—Chas. and F. W. Steffen, 2015 Bay Front St., San Diego, at \$16,259 submitted low bid for the Public Works Officer, 11th Naval District, San Diego, for constructing a timber seaplane runway at the Naval Operating Base (Air Station) San Diego. Spec. 8417.

The Public Works Officer recommended that the contract be awarded to the low bidder.

The work consists in general of the provision of materials for and the construction of an inclined creosoted timber seaplane runway 40 feet wide extending outboard over and into the water, a distance of approximately 170 feet and a section of concrete bulkhead wall approximately 65 feet long. The work on the runway includes creosoted timber piles supporting creosoted timber caps, stringers, deck planking guard rails, etc., all secured together and to the timber piles with galvanized straps, bolts, spikes and miscellaneous iron work. The work on the bulkhead wall includes untreated timber piles for foundation and concrete materials for superstructure.

The other bids were:

Shannahan Bros. Inc., Los Angeles—\$17,215.

V. R. Dennis Const. Co., San Diego \$17,400.

M. H. Golden, San Diego, \$17,649.

Lipscomb & Barclay, San Diego, \$17,757.56.

B. C. Carroll, San Diego, \$17,859.

San Francisco Bridge Co., \$19,000.

Hanson, Howard & Shaffer, Inc., Los Angeles, \$29,622.

## 25—MACHINERY AND EQUIPMENT

### BIDS OPENED

**SAN FRANCISCO**—Following bids received by the Procurement Office, Treasury Dept., Room 514, 49 Fourth St., San Francisco, under Bid No. 3435, for the rental of one sectional material tower, approximately 60 ft., equipped with hoisting cage, tower bucket, receiving hopper, etc., for use on WPA projects, fob Zoological Gardens, Sunset near Skyline Blvd., San Francisco:

Edward R. Bacon Co., San Francisco, \$135 per month.  
Adam Arras, San Francisco, \$125 per month; \$75 additional for tower erection.

### BIDS RETURNED UNOPENED

**FOHT MASON, Cal.**—The office of constructing Quartermaster, Ft. Mason, has returned unopened all bids received under Bid No. W 6616-37-65, for furnishing one gasoline roller, 3-wheel, and one standard scarifier.

Alternate bids will be accepted on both pieces of equipment for 6-7 or 8-ton capacity.

Delivery fob San Francisco National Cemetery, Presidio of S. F.

Bids were to have been opened February 25. Bids will be readvertised shortly.

### BIDS OPENED

**SAN FRANCISCO**—Leitch & Co., 939 Howard St., at \$106.20 per month submitted low bid to the Procurement Office, Treasury Dept., Room 514, 49 Fourth St., San Francisco, under Bid No. 3434, for the rental of one air compressor, 105 cu. ft. actual delivery, gasoline-driven, for use on WPA projects, fob Zoological Gardens, Sunset and Skyline Blvds., San Francisco.

Complete bids follow:	
Leitch & Co., S. F.	\$106.20
Machinery & Drill Steel Co., San Francisco	120.00
Western Mch. Co., S. F.	130.00
Sam Bates, Oakland	135.00
W. H. Cowan, S. F.	146.90
Calif. Tractor & Equipmt' Co., Stockton	249.00

### BIDS OPENED

**SAN FRANCISCO**—C. F. Bulotti Machinery Co., 829 Polson St. at \$290.47, f. o. b. San Francisco, submitted low bid to P. C. Brown, Procurement Officer, Forest Service, Phelan Bldg., San Francisco, under Bid No. 993, for furnishing one upright drill press, complete with electric motor and controls.

The other bids were:

Harron, Rickard & McCone, San Francisco—\$308, f. o. b. Chicago Heights, Illinois.
Kennedy Auto Mfg. Co., San Francisco—\$348, f.o.b. Chicago Hghts, Illinois.
Moore Machinery Co., San Francisco—\$359, f.o.b. Buffalo.

### CONTRACT AWARDED

**BONNEVILLE, Ore.**—Westinghouse Electric & Mfg. Co., North Pittsburgh, at \$141.11, fob Bonneville, awarded contract by the U. S. Engineer Office, Second Portland District, Lieut.-Col. C. F. Williams, District Engineer, under Bid No. 694-4 control equipment for the operation lock at the Bonneville Dam.

### BIDS OPENED

**BONNEVILLE, Ore.**—Following bids received by the U. S. Engineer Office, Second Portland District, 827 Pittock Bldg., Portland, Lieut.-Col. C. F. Williams, District Engineer, under Bid No. 694-37-256, for furnishing ten oil circuit breakers

for installation in the Bonneville Project, as follows:

Alternate "A"—Delivery fob cars at factory shipping points for shipment under Government bills of lading to be furnished by the Government;

(1) Lump sum, 10 oil circuit breakers, 600 amps, 115 kv., 1,500,000-kv-a, TPST outdoor type, without oil but with equipment, spare parts and accessories;

Alternate "B"—Delivery fob cars at Bonneville;

(1) Same as above.  
General Electric Co., 1 River Road, Schenectady: (A) \$167,980; fob Philadelphia; (B) \$172,380.

Pacific Electric Mfg. Corp., 5815 Third St., San Francisco: (A) \$164,530, fob San Francisco; (B) \$168,830, Westinghouse Electric & Mfg. Co., East Pittsburgh: (A) \$160,000, fob East Pittsburgh; (B) \$164,200.

Allis-Chalmers Mfg. Co., Milwaukee: (A) \$162,250, fob Boston; (B) \$166,650.

### BIDS OPENED

**SACRAMENTO, Calif.**—Following bids received by the U. S. Engineer Office, Lieut.-Col. L. B. Chambers, District Engineer, Sacramento, under Bid No. 1105-37-163, for furnishing and operating one portable air compressor, for use at the North Fork Dam site, about ten miles northeast of Auburn, for 400 hours: Leitch & Co., San Francisco: \$2.08 per hour; total, \$832.

P. E. Hackley Equipment Co., San Francisco: \$195 per calendar month.  
Sam Bates Co., Oakland: \$1.84 per hour; total, \$736; delivery fob job site.

C. A. Baker, North Sacramento: \$2 per hour; total, \$800.

Machinery & Drill Steel Co., San Francisco: \$1.95 per hour; total, \$780.

Rix Co., San Francisco: \$1.64 per hour; total \$656.00; delivery in two days.

Western Machinery Co., Sacramento: (a) with operator, but without starter; (b) with operator and with electric starter, 20 hours at \$18 per month: (a) \$1.24; (b) \$1.80; 160 to 199 hours per month; (a) \$1.55; (b) \$2.25; 140 to 159 hours per month: (a) \$1.77; (b) \$2.57; 120 to 139 hours per month, (a) \$2.15; (b) \$3; 0 to 119 hours per month, (a) \$2.48 (b) \$3.

Bids held under advisement.

### BIDS OPENED

**SAN FRANCISCO**—H. F. Harlan, 225 Hyde St., San Francisco, at \$4.43 per hour submitted low bid to the Procurement Office, Treasury Dept., Room 514, 49 Fourth St., San Francisco, under Bid No. 3463, for the rental of one 60-hp. tractor, gasoline or diesel driven, equipped with bulldozer, for use on WPA projects, fob Outer Harbor Terminal Oakland.

Complete bids follow:	
H. F. Harlan, S. F.	\$4.43
C. L. Jordan, Belmont	4.74
Peter J. McHugh, S. F.	4.79
Industrial Equip. Co., Oakland	4.85
Guerin Bros., S. F.	5.25
Eaton & Smith, S. F.	5.40
J. Catucci, Oakland	5.50
Chas. L. Harney, S. F.	5.75
R. A. Farish, S. F.	6.50

All bids met.

### NO BIDS RECEIVED

**SAN FRANCISCO**—No bids were received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, Custom House, under Bid No. 698-37-173, for the rental of one convertible dragline, 1½-cy. capacity, gas or diesel powered, equipped with a boom not less than 50 feet long, for approximately 80 hours, for use at Fort Funston.

## 26—RAILROADS

### CONTRACT AWARDED

**ALAMEDA CO., Calif.**—Bates & Rogers Constr. Co., 532 Russ Bldg., San Francisco, at \$84,802.50, awarded contract by the State Division of Highways, C. H. Purcell, State Highway Engineer, Sacramento, for the construction of the East Bay Yard substructure of the railway facilities of the San Francisco-Oakland Bay Bridge.

### CONTRACT AWARDED

**SAN FRANCISCO**—General Railway & Signal Co., Peoples Gas Bldg., Chicago (E. W. Stone, 315 Park View Terrace, Oakland, local representative), at \$1,347,000, awarded contract by the State Department of Public Works, San Francisco Bay Bridge Division, C. H. Purcell, Chief Engineer, San Francisco, for constructing the railway signal and interlocking work of the San Francisco-Oakland Bay Bridge.

The work includes an interlocking plant in San Francisco, an interlocking plant located on the Key System mole in Oakland. The work also includes track circuits with their required line control and power distribution for the operation of cab signals and automatic train control. Track circuit area extends continuously from the San Francisco terminus of the bridge railway to a point on the Key System tracks approximately 2500 feet west of the Southern Pacific Company right-of-way. The track circuit area also extends eastward along the proposed bridge railway-Southern Pacific connection to a point approximately seven hundred and fifty feet west of the intersection of Twenty-sixth and Thirty-second streets in Oakland.

## 29—STREETS AND HIGHWAYS

### BIDS OPENED

**SANTA PAULA, Ventura Co., Cal.**—Fillmore Concrete Pipe Wks, Fillmore, at \$6,959.51 submitted low bid to the Santa Paula City Council for improving W Main St. between Foot-hill Road and Steckel Drive, Foot-hill Rd. from West Main St. to Harvard St., Riverside Drive from Ventura St. to Willard Bridge, and Steckel Drive from Main St. to Harvard St., at the West Main St. entrance to the city, including resurfacing and the construction of a concrete retaining wall on Steckel Drive. Plans and specifications were prepared by Gerald Bennett, City Engineer, City Hall, Santa Paula. The city engineer recommended that the contract be awarded to the low bidder and the bids were referred to the state highway department for approval.

The total bids were:

(A) Fillmore Concrete Pipe Works,	\$6,959.51
(B) Southwest Paving Co., Roscoe,	\$7,656.65
(C) Kovacevich & Price, Inc., South Gate,	\$7,932.50

### BIDS WANTED

**NAVAJO COUNTY, Ariz.**—Until March 19, 2 P. M., bids will be received by T. S. O'Connell, State Highway Engineer, Phoenix, for highway construction on the Holbrook-St. Johns Highway, F. A. 42, 1st Rep. (1937) AFE 2660. The work, most of which extends from a point about 5½ miles southeast of Holbrook southeasterly for a distance of about 10½ miles, consists of grading, fencing and oil processing (90-95 road oil plant mix) and is to be completed on or before Sept. 15, 1937.

The principal items are: 9,800 cu. roadway excav;

**TO ASK BIDS SHORTLY**

PHOENIX, Ariz.—Jas. B. Girand, city engineer, Phoenix, has issued the following statement with reference to the proposed PWA street improvement:

The City of Phoenix on Feb. 16 initiated proposals for a street paving project to be financed under the PWA. The estimated construction cost of this project is \$112,398.69. The total cost of the project will be \$135,877.30.

A 45% PWA grant has been allocated. The balance of 55% of the cost of the project will be paid by improvement act bonds issued under Chapter XII, Article 16, Arizona revised code of 1928. Following are the principal quantities involved in this work:

- 40,112 sq. yds. plant mix oil processed pavement, 3-in. thick. Spec. 363;
- 40,112 sq. yds. aggregate base, 6-in. thick;
- 40,112 sq. yds. grading under pavement;
- 1,460 sq. yds. portland cement concrete pavement, 6-in. thick. Spec. 363;
- 1,460 sq. yds. grading under concrete pavement;
- 10,065 sq. yds. parkway grading;
- 17,620 cu. ft. cement concrete sidewalk, 4-in. thick. Spec. 363;
- 25,939 l.f. comb. curb and gutter, Det. E-1;
- 441 l.f. single curb, Det. F-1;
- 10 l.f. single gutter, Det. G;
- 1,082 l.f. valley gutter, Det. Z;
- 330 l.f. 12-in. concrete pipe (plain)
- 80 l.f. 12-in. concrete pipe (en-cased), Det. D;
- 162 l.f. 30-in. reinf. conc. pipe;
- 2 each, gutter inlets, Det. Q-3;
- 15 ea. monument covers, Det. K;
- 9 ea. street signs, Det. P;
- 2 each manholes, Det. J;
- 9 ea. adjusting manhole covers
- 6 ea. conc. headwalls, Det. D.

This job is a combination of two projects which had been previously advertised for bids. Upon receiving bids it was found that the prices were too high, so the two separate jobs were combined in an effort to attract more bidders, reduce the overhead costs and secure lower prices.

The resolution of intention of this project was adopted February 16. A call for bids will be made about March 16 and bids will be opened about April 6, 1937.

It should be noted that the time allowed between the call for bids and the opening is only two weeks, so contractors who are interested in bidding should investigate the project before the call for bids. It is necessary that the contractors develop their own market for the improvement act bonds as the provisions of the contract are that the contractor shall accept the improvement act bonds in payment of the 55% portion of the contract cost.

Detailed information as to the project, both as to the construction details, plans and specifications, as well as information pertinent to the sale of the bonds, can be secured from the city engineer, City Hall, City of Phoenix.

This \$138,877.30 project is the first unit of a city-wide paving program to be financed under the PWA. The total amount of work contemplated will be approximately \$1,500,000.

**BID OPENING DATE ADVANCED**

LOS ANGELES COUNTY, Cal.—Until March 10, 10 A. M. (date advanced from March 17, previously reported) bids will be received by the Los Angeles Board of Public Works, City Hall, for grading, paving and otherwise improving Vignes Street between 130 ft. north of Baughst St. and Clara St. 9

**LINCOLN CO., NEV.—14.32 Mi. Highway Construct'n—State**

LINCOLN CO., Nev.—C. F. Frederickson & Son, Lower Lake, at \$237,968.69, as previously reported, submitted low bid and awarded contract by the Nevada State Highway Directors, Robert A. Allen, State Highway Engineer, Carson City, for the construction of a portion of the highway system in Lincoln County, from a point approximately 0.5 mi. north of Caliente to a point approximately one mile north of Panaca Junction, Route 7, Section C, a length of approximately 14.32 miles.

- The work involves:
- (1) 43,966 l.f. remove fence;
  - (2) 456 l.f. remove culvert pipe;
  - (3) 32 each, remove culvert headwalls;
  - (4) 187,400 c.y. roadway excav.;
  - (5) 660,609 sta. yds. overhaul;
  - (6) 50,300 c.y. imported borrow;
  - (7) 2,040 c.y. struct. excav.;
  - (8) 14.28 mi. subgrade;
  - (9) 14.32 mi. finish roadway;
  - (10) 91,000 tons select base;
  - (11) 74,000 tons crushed gravel or stone surface;
  - (12) 6,171 M. gals. water;
  - (13) 563 c.y. Class A concrete;
  - (14) 57 c.y. Class B concrete;
  - (15) 58,500 lbs. reinforcing steel;
  - (16) 115.3 MFBM Redwood lumber;
  - (17) 2,845 l.f. treated piles;
  - (18) 93 each, drive treated piles;

- (19) 78 l.f. 15-in. CMP (dipped);
  - (20) 560 l.f. 18-in. CMP (dipped);
  - (21) 1,050 l.f. 24-in. CMP (dipped);
  - (22) 138 l.f. 30-in. CMP (dipped);
  - (23) 114 l.f. 36-in. CMP (dipped);
  - (24) 218 l.f. relay culvert pipe;
  - (25) 31 each, move pipe culvert headwalls;
  - (26) 177 each, monuments;
  - (27) 8,495 l.f. reconstruct fence;
  - (28) 41,649 l.f. reconstruct fence;
  - (29) 105 l.f. 2x2-ft. laminated culvert;
  - (30) 37 l.f. 3x3-ft. laminated culvert;
  - (31) 4 each, 14-ft. standard steel gates;
  - (32) One each, 24-in. lateral head-gate;
  - (33) 400 lbs. castings;
  - (34) 128 l.f. furnishing 18-in. CMP (dipped);
  - (35) 64 l.f. furnish 24-in. CMP (dipped);
  - (36) 40 c.y. rock dam;
  - (37) 325 c.y. hand-laid riprap.
- Total bids follow:
- (A) C. F. Frederickson & Son, Lower Lake.....\$237,968.69  
 (B) Utah Constr. Co., Ogden 250,230.14  
 (C) Isbell Constr. Co., Reno 255,679.99  
 (D) Pacific Constr. Co., San Francisco..... 293,163.09  
 (E) Reynolds Ely Constr. Co., Springville, Utah. 307,327.36  
 (F) Engineer's Estimate..... 240,558.83

**CLARK CO., NEV.—11.6 Mi. Highway Construction—(State)**

CLARK CO., Nevada.—Olof Nelson, Logan, Utah, at \$372,723.25, as previously reported, submitted low bid and awarded contract by the Nevada State Highway Directors, Robert A. Allen, State Highway Engineer, Carson City, for the construction of a portion of the highway system in Clark County, from Las Vegas to a point approximately three miles southwest of Apex, Route 6, Sections D2 and D1, a length of approximately 11.6 miles.

- The work involves:
- (1) 1,466 l.f. remove culvert pipe;
  - (2) 96 each, remove culvert headwalls;
  - (3) 2 each, remove culverts (wooden);

- (4) 41,810 c.y. roadway excav.;
- (5) 149,685 sta. yds. overhaul;
- (6) 85,730 c.y. channel excav.;
- (7) 121,650 tons crushed gravel or stone subbase;
- (8) 169,760 c.y. imported borrow;
- (9) 3,670 c.y. struct. excav.;
- (10) 11,503 ml. subgrade;
- (11) 11,503 ml. shoulders;
- (12) 11.6 ml. finish roadway;
- (13) 31,100 tons plant-mix crushed gravel or stone base;
- (14) 16,000 tons crushed gravel or stone surface;
- (15) 5,820 M. gals. water;
- (16) 870 tons asphaltic road material, Type 95 plus;
- (17) 1,037 tons asphaltic road material, Type SC-2;

- (18) 160 tons emulsified asphalt, penetration;
- (19) 1,130 tons screenings;
- (20) 21,670 tons plant-mix asphaltic surface;
- (21) 732 c.y. Class A concrete;
- (22) 60 c.y. Class B concrete;
- (23) 281 c.y. Class D concrete;
- (24) 136,034 lbs. reinforcing steel;
- (25) 242 MFBM Redwood lumber;
- (26) 2,555 lf. treated piles;
- (27) 98 each, drive treated piles;
- (28) 278 lf. 18-in. CMP (dipped);
- (29) 158 lf. 24-in. CMP (dipped);
- (30) 975 c.y. hand laid riprap (grouted);
- (31) 2 each, move pipe culvert head-walls;
- (32) 30 lf. relay culvert pipe;
- (33) 76 each culvert markers;
- (34) 11.6 mi. salvage and relay surface;
- (35) 2000 hours, 75-hp. crawler type tractor;

- (36) 200 hours, 10-ft. blade grader;
- (37) 700 hrs., 75-hp. tractor with power scraper;
- (38) 600 hours, motor grader;
- (39) 2,000 hours, 1½-ton truck;
- (40) 30 lf. concrete railing.

- Total bids follow:
- (A) Olof Nelson, Logan, Utah ..... \$72,723.25
  - (B) Dodge Construction, Inc., Fallon ..... 376,112.30
  - (C) Isbell Constr. Co., Reno ..... 389,652.34
  - (D) Oswald Bros., Los Angeles ..... 399,050.48
  - (E) Pacific Constr. Co., San Francisco ..... 404,762.09
  - (F) A. Teichert & Son, Inc., Sacramento ..... 417,651.30
  - (G) Utah Constr. Co., Ogden ..... 421,252.14
  - (H) Engineer's Estimate ..... 343,471.93

3,259 miles of Sections C, D and E of Route 20, the Almanor National Forest Highway, Plumas National Forest, Plumas County.

**LOW BIDDERS**

COCONINO CO., Arizona.—Skousen Bros., Albuquerque, N. M., at \$239,766, submitted the lowest of seven bids received by the Bureau of Public Roads, C. H. Sweetser, District Engineer, 247 New Post Office Bldg., Phoenix, for grading and placing a crushed gravel base course with bituminous treatment (light surface application) on a portion of Route 4, Bright Angel Spring-North Entrance, Grand Canyon National Park, and on Sections D, C, E, and F of the Jacobs Lake, North Rim Approach Road to Grand Canyon National Park, all in Coconino County, a length of 31.93 miles.

The low bids follow:  
Skousen Bros., Albuquerque ..... \$239,766  
Pearson & Dickerson, Prescott ..... 246,096

Packard Contracting Co., Phoenix ..... 269,594  
Engineer's Estimate ..... 296,996  
Complete bids will be published shortly. ?

**NOTICE TO BIDDERS**

STATE OF CALIFORNIA.—C. H. Purcell, State Highway Engineer, has announced the opening of bids for prints for the state highway work now advertised.

A blue line print of the title sheet of the plans showing the general location of the work will be furnished free with the special provisions. Blue prints of the layout and the bridge detail sheet will be furnished at cost and become the property of the purchaser.

The following table shows the cost of such blue line prints for the work now advertised, bids to be opened in Sacramento on March 17:

III-Pla-17-A, between Rocklin and Loomis: PLANS (No. of Sheets) 16; (Cost) \$1.00; CROSS-SECTIONS (No. of Sheets) 55; (Cost) \$5.50; (Total) \$7.10.

Checks for the above should be made payable to the Department of Public Works, Division of Highways, and should accompany requests for the above plans, specifications and proposal form to the office of the State Highway Engineer, P. O. Box 1499, Sacramento. ?

**PLANNED**

SANTA ROSA, Sonoma Co., Calif.—City Engineer J. B. Platt is preparing plans and specifications for the widening of Fourth Street from Mendocino Ave. to A Street, and for the widening and repaving of Fourth Street from A to E Streets. Work will be financed by the city's share of State gasoline tax funds.

Bids will probably be called about April 15.  
A. P. Noyes, City Manager. ?

**BIDS OPENED**

LONG BEACH, Los Angeles Co., Calif. Sully-Miller Contracting Co., 1590 W. 7th St., Long Beach, at \$48,966.70, submitted low bid to the Long Beach City Council, R. M. Dorton, City Manager, for improving Anaheim St. between Daisy Ave. and Orange Ave. and portions of other streets, in accordance with Spec. No. R-580, prepared by City Engineer-Director of Public Service J. W. Blackman.

Griffith Co., Los Angeles, at \$56,247.98, submitted the only other bid.

**BIDS WANTED**

FRIANT, Fresno Co., Calif.—Until March 15, 10 A. M., as previously reported, bids will be received by the U. S. Bureau of Reclamation, Walker R. Young, Construction Engineer, 206 Old Post Office Bldg., Sacramento.

share of State gasoline tax funds. Work will be financed by the City's share of State gasoline tax funds. ?

Plans and specifications obtainable from the office of the City Clerk or City Engineer H. N. Bishop, 1280 First National Bank Bldg., Santa Clara Co., Calif.—Until March 22, 7:30 p.m., bids for the following concrete: (1) 250 tons asphaltic concrete; (2) 120 lf. paroled culvert; (3) 120 lf. asphaltic concrete.

The work involves: new curbs and gutters, and Washington Streets, including the widening of South Murphy St. between the existing City Clerk's Bldg. and the existing City Council Bldg. at Truckee Street, Santa Clara Co., Calif.—Until March 22, 7:30 p.m., bids for the following concrete: (1) 250 tons asphaltic concrete; (2) 120 lf. paroled culvert; (3) 120 lf. asphaltic concrete.

**BIDS WANTED**

TUCSON, Ariz.—Until March 10, 4 P. M., bids will be received by the Tucson city council for the paving of streets in the West Park district paving improvement, to be done in accordance with the provisions of Article XVI, Chap. 12, revised statutes of Arizona, 1928, and amendments thereto, and Resolution of Intention No. 140, 1928.

The work involves paving, curbs,

gutters, water connectors, survey monuments, grading, incinerator, work plans and specifications may be obtained from George W. Seely, superintendent of streets. Bond in the amount of 10% must accompany each proposal. The work is financed partly by bond and partly by FWA grant of 45%. The estimated cost is \$116,000.

**CONTRACT AWARDED**

SAN BENITO, MONTEREY, SAN LUIS OBISPO, & SANTA BARBARA COUNTIES.—Bert Hale, Pismo Beach, at \$6,533.50, awarded contract by the State Division of Highways, C. H. Purcell, State Highway Engineer, Sacramento, for furnishing and applying diesel oil to roadside vegetation for a distance of 200 miles at various locations in San Benito, Monterey, San Luis Obispo, and Santa Barbara Counties, requiring 3,150 bbls. of diesel oil.

**CONTRACT AWARDED**

PLUMAS CO., Calif.—R. R. Carlson, Weber Ave. and E St., Stockton, at \$56,353.60, awarded contract by the Bureau of Public Roads, C. H. Sweetser, District Engineer, for grading

to, under Spec. No. 887-D, for the construction of street, alley, parking area, and sidewalk grading and surfacing, and sewer and water systems for the Government campsite at the Friant Dam, about 22 miles north of Fresno.

- Bids will be taken as follows:
- (1) 8,200 c.y. excav., complete for streets, alleys, etc.;
  - (2) 15 c.y. excav., rock, for do;
  - (3) 500 sta. c.y. overhaul;
  - (4) 1,500 c.y. compacting fills;
  - (5) 15 c.y. excav., rock, in trenches;
  - (6) 5,320 lf. excav. and backfill of sewer pipe trench;
  - (7) 1,220 lf. excav., and do;
  - (8) 30 c.y. excav., common, and do;
  - (9) 2,700 lf. furnishing and laying 4-in. dia. sewer pipe, fittings and specials;
  - (10) 2,900 lf. furnishing and laying 6-in. dia. do;
  - (11) 1,300 lf. furnishing and laying 10-in. dia. do;
  - (12) 140 lf. furnishing and laying 10-in. dia. extra heavy cast iron soil pipe;
  - (13) 50 lf. furnishing and laying 18-in. dia. corrugated metal pipe;
  - (14) 25 grease traps, furnish and install;
  - (15) 11 manholes;
  - (16) 5 additional ft. price per foot; (17) sand-cushion foundation for water-storage tank (dump sum);
  - (18) 3,200 lf. excav. and backfill of waterpipe trench;
  - (19) 5 c.y. excav., common, and do;
  - (20) 2,500 lf. furnishing and laying 6-in. dia. steel pipe and fittings
  - (21) 1,450 lf. furnishing and laying 4-in. dia. do;
  - (22) 4 6-in. gate valves;
  - (23) 1 4-in. gate valve;
  - (24) 6 2-in. dia. water service connections;
  - (25) 4 1½-in. dia. do;
  - (26) 1 1½-in. dia. do;
  - (27) 14 1-in. dia. do;
  - (28) 5 ¾-in. dia. do;
  - (29) 250 lf. 12-in. dia. service pipe and fittings;
  - (30) 600 lf. 1½-in. dia. do;
  - (31) 480 lf. 1-in. dia. do;
  - (32) 2,250 ¾-in. dia. do;
  - (33) 6 units 2-in. dia. curb stops and service boxes;
  - (34) 3 units 1½-in. dia. do;
  - (35) 1 unit ¾-in. dia. do;
  - (36) 8 fire hydrants;
  - (37) 12,500 lf. furnish and place timber curb boards;
  - (38) 1,500 c.y. bottom course of crush. rock or crush. gravel surfacing;
  - (39) 1,500 c.y. top course of do;
  - (40) 10,800 gals. furnish and apply liquid asphaltic road material.

Work shall be commenced within 15 days and finished within 150 days from date of receipt of notice to proceed.

Plans and specifications obtainable from the office of Bureau of Reclamation at Sacramento, Denver, or Washington, D. C., without charge to prospective bidders; to others, \$1 per copy, not returnable.

A. M. Torpen, division engineer in charge at Friant; T. R. Smith, division office engineer.

Plans and specifications for the above work are on file at the office of DAILY PACIFIC BUILDER and may be inspected by interested parties.

#### BIDS WANTED

LOS ANGELES CO., Calif.—Until March 25, 2 p.m., bids will be received by the State Division of Highways, C. H. Purcell, State Highway Engineer, State Bldg., Los Angeles, for about 29 miles grading and paving with asphalt concrete and portland cement concrete in the City of Los Angeles between Fenwick Street and Terra Bella Street.

The work involves:

- (1) 154 sta. clear and grub right of way;

- (2) 3,100 M. gals. water;
- (3) 2,250 c.y. exist. conc., remove and dispose of;
- (4) 161,000 c.y. roadway excav., unclassified;
- (5) 1,500 c.y. ditch and channel excavation;
- (6) 1,098,000 sta. yds. overhaul;
- (7) 1,800 c.y. struc. excav.;
- (8) 33,000 sq. yds. preparing sub-grade;
- (9) 154 sta. finishing roadway;
- (10) 32 tons asphaltic cement, Grade E (membrane seal);
- (11) 38 tons liq. asphalt, SC-2 (prime coat);
- (12) 37,500 sq. yds. preparing, mixing and shaping shoulders;
- (13) 300 tons liq. asphalt, SC-2 (shoulders);
- (14) 4,100 sq. yds. asphaltic paint binder;
- (15) 1,820 tons asphalt conc.;
- (16) 25,500 lbs. bar reinf. steel;
- (17) 6,070 c.y. Class A portland cement concrete (pavement);
- (18) 38,800 sq. yds. pave. dowels;
- (19) 8 sections pavement crossing devices (Type C);
- (20) 50 c.y. Class A portland cement concrete (structures);
- (21) 700 lbs. misc. iron and steel;
- (22) 510 lf. 8-in. CMP;
- (23) 38,800 lf. 18-in. CMP;
- (24) 690 lf. 24-in. CMP;
- (25) 210 lf. 36-in. CMP;
- (26) 90 lf. 48-in. CMP;
- (27) 210 lf. exist. CMP removed, cleaned, and salvaged;
- (28) 22 each spillway assemblies;
- (29) 40 c.y. Class A portland cement concrete (curbs and gutters);
- (30) 20 each, culvert markers;
- (31) 185 each, guide posts.

Plans and specifications obtainable from the office of the State Highway Engineer, P. O. Box 1499, Sacramento, and on file at the office of the District Engineer in San Francisco and Los Angeles.

#### BIDS OPENED

TEHAMA CO., Calif.—A. Teichert & Son, Inc., P. O. Box 1113, Sacramento, at \$54,386.25, submitted low bid to the Bureau of Public Roads, Federal Office Bldg., San Francisco, C. H. Sweetser, District Engineer, for placing bituminous treated crushed rock surfacing on 4 675 miles of Section B of the Southwest Approach to Lassen Volcanic National Park, Lassen National Forest, Tehama Co.

The work involves:

- (1) 20 c.y. unclass. excav. for structures;
- (2) 8,775 tons bituminous treated crushed rock;
- (3) 150 tons supplemental crushed rock;
- (4) 2,800 tons crushed rock for shoulders and base course;
- (5) 570 tons crushed rock for screenings;
- (6) 14 c.y. Class A concrete;
- (7) 200 M gals. watering;
- (8) 425 tons liquid asphaltic material, MC-4 or MC-5;
- (9) 57 tons emulsified asphalt;
- (10) 67 tons liquid asphaltic road material, Type SC-2.

Total bids follow:

## 30—RESERVOIRS & DAMS

### BOND ELECTION

EUREKA, Humboldt Co., Calif.—The City Council has set March 30 as the date of a special election to vote on a proposal to issue an additional \$625,000 in bonds to finance completion of the Mad River Water Project, including construction of the dam to elevation 200, laying approximately 25 miles of pipe line, and acquiring necessary rights of way, etc.

### BIDS WANTED

SUN RIVER PROJECT, Mont.—Until March 25, 10 a.m., bids will be received by the Bureau of Reclamation, A. W. Walker, Superintendent, Fairfield, Montana, under Spec. No. 725, for the construction of alterations to the spillway at the Gibson Dam, Sun River Project.

The work is located about 23 miles northwest of Augusta, and the principal items of work involved are:

- (1) 1,600 c.y. of excav. for structs.;
- (2) 170 c.y. of excav. of concrete;
- (3) 380 sq. yds. of chipping and roughening surfaces of existing concrete;
- (4) 1,350 c.y. of concrete;
- (5) Placing 150,000 lbs. of reinforcement bars;
- (6) Constructing 440 lf. of 4-in. dia. sewer-pipe drains embedded in porous concrete;
- (7) Drilling 1,200 lf. of holes for anchor bars;
- (8) Installing 250 lf. of metal sealing strips;
- (9) Installing 350 sq. ft. of expansion joint filler;
- (10) Installing 170,000 lbs. of radial gates and operating mechanisms;
- (11) Installing 5,500 lbs. of pipe band-rails;
- (12) Installing 1,500 lbs. of miscellaneous metalwork;
- (13) Installing 1,100 lf. of electrical metal conduit; and
- (14) Installing 5,100 lbs. of electrical conductors and apparatus.

The work shall be commenced within 30 calendar days and completed within 270 calendar days after date of receipt of notice to proceed.

Plans and specifications obtainable from the office of the Bureau of Reclamation at Fairfield, Montana; Denver, Colorado; or Washington, D. C., without charge to prospective bidders; to others, \$2.00 per copy, not returnable.

## 31—PIPE LINES & WELLS

### BIDS WANTED

RIVERSIDE COUNTY, Cal.—Until March 19, 10 A. M., bids will be received by the Metropolitan Water District, 306 W. Third Street, Los Angeles, for constructing the Coxcomb wastewater of the Colorado River Aqueduct, in accordance with Sec. No. 197. The site of the work is on the line of the Colorado River Aqueduct, in Riverside County, about 14 miles northeast of Desert Center. The work to be contracted for comprises the construction of a reinforced concrete wasteway approximately 200 ft. in length, together with transition sections, the installation of steel radial gates, and the backfilling of adjacent modified conduit.

The work involves:

- (1) 150 c.y. excavation;
- (2) 5,500 c.y. uncompacted backfill;
- (3) 350 c.y. compacted backfill;
- (4) 380 c.y. reinforced concrete;
- (5) 37,000 lbs. placing reinf. steel;
- (6) 30,000 lbs. installing gates, holts, wall plates and misc. metal work;
- (7) 900 lbs. installing handrailings;
- (8) 1,100 ton-miles hauling steel;
- (9) 3,500 ton-miles hauling cement.

Copies of the plans and specifications may be obtained at the office of the engineer, Room 1007, 306 West Third St., Los Angeles, upon deposit of \$2 per set, not returnable. Certified check or cashier's check for \$1000 must accompany each proposal. F. E. Wymouth, general manager and chief engineer.

## 32—SEWERS & SEWAGE DISPOSAL PLANTS

### PLANNED

**ANAHEIM**, Orange Co., Calif.—The Directors of the Orange County Joint Outfall Sewer District have approved an engineer's report recommending that Section No. 2 of the line be rebuilt at once at an estimated cost of \$150,000. Application will be made for PWA funds. The section involves 5.6 miles of vitrified clay pipe. The cities of Anaheim, Santa Ana, Fullerton, La Habra and Placentia, and the sanitary districts of Garden Grove and Buena Park must approve the report.

March 4, 1937

### TO PREPARE PLANS

**LOS ANGELES**, Cal.—Alf. Jones, County Surveyor, has been authorized by the Los Angeles County Supervisors to prepare plans and engineering data for a \$7,000,000 storm drain system involving Bell, Huntington Park, Maywood, South Gate, Lynwood, Compton, and North Long Beach. Co-operation of the mayors of the various cities was promised at a recent conference. Application for WPA financing will be made at once. Engineering work will not be ready before July 1.

### BIDS OPENED

**EUREKA**, Humboldt Co., Calif.—Fred J. Maurer & Son, Inc., Eureka, at \$65,447.10 submitted low bid to the Eureka City Council for the construction of the Washington Street sanitary outfall sewer bet. Broadway and the Government bulkhead line.

The work involves:

- (1) 2,577 lf. 36-in. pipe in place;
  - (a) 36-in. vitrified clay pipe;
  - (b) 36-in. standard reinf. conc. sewer pipe;
- (2) 400 lf. redwood sill with continuous concrete saddle;
- (3) 50 c.y. Class C portland cement protective covering in place;
- (4) One outlet block unit, complete in place, lump sum;
- (5) 100 c.y. gravel in place as a stabilized foundation.

Total bids follow:

- (A) Fred J. Maurer, Eureka, \$65,447.10.  
 (B) A. & B. Const. Co., Hydes, \$65,815.25.  
 (C) John F. White, Oakland, \$66,200.00.  
 (D) Mercer-Fraser Co., Eureka, \$67,255.75.  
 (E) Hanrahan-Connolly, San Francisco, \$67,959.50.

Unit bids follow:

	(B)	(C)	(D)	(E)
(1a)	\$25.29	\$26.25	\$22.50	\$27.75
(1b)	22.30	23.25	22.20	24.75
(2)	7.70	6.00	15.25	4.00
(3)	25.00	50.00	22.00	25.00
(4)	3250.00	600.00	1200.00	225.00
(5)	4.00	4.00	6.00	4.00

Evan D. Gardner, City Engineer. Bids referred to the PWA. The bid of R. B. McNair was irregular and not declared.

### BIDS WANTED

**FT. SHAFTER**, T. H.—Until Mar. 10, bids will be received by the Constructing QM, Fort Shafter, under Proposal No. 60-50 for the construction of additional disposal plant facilities at Schofield Barracks.

Plans and specifications obtainable

from the above office upon deposit of \$10.00.

### BONDS VOTED

**TEHACHAPI**, Kern Co., Calif.—The \$31,000 bond issue to finance the city's share of the cost of a sewer system and a disposal plant carried at the special election February 23 by a vote of 22 to 21. The total cost of the project is \$56,363.50, and an application asking for a grant of \$25,363.50 has been filed with the PWA. Koebig & Koebig, 820 Rowan Bldg., Los Angeles, are the engineers.

### CONTRACT AWARDED

**SAN FRANCISCO**.—Fay Improvement Co., 760 Market St., San Francisco, at \$519.40, awarded contract by the Department of Public Works, City Hall, under Spec. No. 19017, for the construction of a sewer in Ulloa St., between Woodside Ave. and Sydney Way.

### BIDS OPENED

**WASCO**, Kern Co., Calif.—Fred J. Early, Jr., 369 Pine St., San Francisco, at \$35,270.25, submitted low bid to the Wasco Public Utility District, Wasco, for the construction of disposal plant and intake and discharge lines located at Wasco, Unit No. 2.

The complete total bids follow:

Fred J. Early, Jr., S. F.	\$35,270.25
T. A. Allen Constr. Co., Los Angeles	36,450.00
Hoagland Engrg. & Constr. Co., Long Beach	36,623.45
F. A. Greenough, Bakersfield	37,532.00
Bennett & Taylor, Los Angeles	37,554.00
W. J. Tobin, Oakland	37,562.00
Case Constr. Co., Alhambra	38,900.00

Unit bids will be published shortly.

Bids held under advisement.

### BIDS REJECTED

**WASCO**, Kern Co., Calif.—All bids received by the Wasco Public Utility District, March 1, for construction of a sewage disposal plant and intake and discharge lines, Unit No. 2, have been rejected and a new call for bids will be issued shortly.

Fred J. Early, Jr., 369 Pine Street, San Francisco, at \$35,270.25 submitted the lowest bid. Koebig & Koebig, Room 520, 458 S. Spring St., Los Angeles, engineers.

### CONTRACT AWARDED

**EUREKA**, Humboldt Co., Calif.—Fred J. Maurer & Son, Inc., Eureka, at \$65,447.10, awarded contract by the Eureka City Council for the construction of the Washington Street Sanitary outfall sewer between Broadway and the Government bulkhead line. The award is contingent upon the city's receiving an additional PWA grant of \$7,000. Complete bids published March 1. Evan D. Gardner, City Engineer.

### BIDS WANTED

**LOS ANGELES**.—Until March 17, 11 a.m., bids will be received by the Los Angeles board of public works, 135 City Hall, Los Angeles, for construction of storm drains and appurtenant work in Alameda St., between Ord and Macy Streets, Union Passenger Terminal Station, PWA Project 4361, Unit E-2. The work involves:

- (1) Lump sum, grading (200 c.y. excav.; no fill; including removal of existing improvements);
- (2) 6213 sq. ft. asphaltic concrete pavement 8-in. thick, consisting of asphaltic concrete base 6-in. thick and asphaltic concrete wearing surface 2-in. thick (including Class C resurfacing);
- (3) 1019 sq. ft. asphaltic concrete wearing surface, variable thickness, average 2-in.;

- (4) 288 sq. ft. concrete pavement, 8-in. thick (local depression);
- (5) 47 lf. heavy class unplastered curb;
- (6) 253 lf. integral curb and concr. gutter, 1 ft. wide;
- (7) 88 sq. ft. concrete gutter, 8-in. thick;
- (8) 2464 sq. ft. one course sidewalk, 3-in. thick;
- (9) 1 catch basin to be remodeled;
- (10) Sanitary sewer and appurtenances and appurtenant work complete in place, not including house connections or resurfacing;
- (11) Storm drain and appurtenances and appurtenant work complete in place, not including local depressions, resurfacing, or surfaced remodeling.

## 33—WATER WORKS

### BIDS OPENED

**LOS ANGELES**, Cal.—S. M. Milovich, 208 Cochran Bldg., Montebello, at \$33,587 awarded contract by the Los Angeles Water and Power Commission for the construction of the diversion channel, pipe lines and appurtenant work in the Sunland and Tujunga water supply project, PWA Docket 1929-R, Unit No. 80. Spec. No. X-91.

### CONTRACT AWARDED

**LOS ANGELES**, Cal.—Contracting Engineers, Inc., 23104 W. Vernon Ave., Los Angeles, at \$56,565, awarded contract by the Los Angeles Water and Power Commission for the construction of the Fletcher Drive pumping station and installation of equipment, PWA Docket 1929-R, Unit No. 52. Spec. X-90.

### BIDS OPENED

**LA MESA**, San Diego Co., Calif.—J. R. Lippincott, 435 S. Arlington Ave., Los Angeles, at \$53,090 submitted low bid to the La Mesa, Lemon Grove and Spring Valley Irrigation District, La Mesa, for the reconstruction of the El Monte pumping plant, two miles east of Lakeside. Plans and specifications for the work were prepared by C. Harritt, general manager and chief engineer, and Karl Hudson, superintendent and assistant engineer. The proposed work will involve the construction of a pump house, 108x22-ft., eight centrifugal pumps, 14 motors, one venturi meter installation, approximately 700 ft. of 24-in. and 30-in. steel pipe, and miscellaneous small pipe and fittings, all installed and ready for use. Bids were taken as follows:

- (1) pumping and electrical equipment;
  - (2) pipe, fittings and meter installation;
  - (3) frame and stucco pump house and miscellaneous concrete only.
- The complete bids were:
- J. R. Lippincott, Los Angeles: (1) \$27,373; (2) \$15,585; (3) \$10,130; total, \$53,090.

United Iron Works, Oakland: \$56,000.

T. A. Allen Const. Co., Los Angeles: (1) \$29,950; (2) \$20,700; (3) \$8,275; total, \$58,925.

Hoagland Engr & Cons. Co., Long Beach: (1) \$31,000; (2) \$19,800; (3) \$8,900; total, \$59,700.

Bennett & Taylor, Los Angeles: (1) \$27,265; (2) \$30,083; (3) \$5,209; total, \$62,557.

V. P. Dennis Const. Co., San Diego: (1) \$51,633; (2) \$32,178; (3) \$7,314; total, \$73,185.

\*Lump sum bid only—irregular; no bid bond enclosed.

The bids were taken under advisement until 7:30 P. M., March 2.

### CONTRACT AWARDED

**SAN FRANCISCO**.—M. J. Lynch, Oakland and Barneveld Avenues, at

\$5,472.27, awarded contract by the Department of Public Works, City Hall, under Spec. No. 19,001, for construction of the Sunset District extension to the auxiliary water supply system for fire protection, Section B, a PWA project.

**PLANS & SPECIFICATIONS ON FILE**

**FRIANT, Fresno Co., Calif.**—Plans and specifications for the construction of a water tank at the Government Camp at Friant Dam, Spec. No. 883-D, are on file at the office of the DAILY PACIFIC BUILDER, and may be inspected by interested parties.

Bids will be opened by the Bureau of Reclamation, Walker R. Young, Construction Engineer, 206 Old Post Office Bldg., Sacramento, March 3, 10 a.m., as previously reported.

**CONTRACT AWARDED**

**LOS ANGELES, Cal.**—Case Const. Co., 905 Westminster St., Alhambra, at \$53,007.30 awarded the contract by the Los Angeles Water and Power Commission for construction of 20-in. cast iron water supply line under main ship channel, San Pedro. PWA Docket No. 1929-R, Unit No. 89-B. Spec. X-92.

**BIDS WANTED**

**ARVIN, Kern Co., Calif.**—Until March 10, 8 p.m., bids will be received by the board of trustees of the Rockpile School District, Arvin, Calif., for the purchase of a deep well pump and a pressure system or overhead all-steel tank and pipe, of over 60 g.p.m. capacity. Bidders are to furnish detailed specifications. Further information may be obtained from Aaron Neff, clerk of the board, Box 157, Arvin, Calif. J. E. Saint and E. C. Comb, trustees.

**BIDS OPENED**

**FRIANT, Fresno Co., Calif.**—Western Pipe & Steel Co., 444 Market St., San Francisco, submitted the apparent low bid to the Bureau of Reclamation, Walker R. Young, Construction Engineer, 206 Old Post Office Bldg., Sacramento, under Spec. No. 883-D, for the construction of a circular steel water tank, 100,000-gal. capacity, to be erected on a gravel foundation prepared by the Government at the Government Camp at Friant Dam, in the Valley Project, about 22 miles north of Fresno.

Bids were taken as follows:  
 (1) Lump sum, furnishing and erecting one 100,000-gal. steel water tank, complete, in accordance with specifications and drawings; shimmers; shipping point, to Friant to be made on commercial bills of lading at the expense of the contractor;  
 (2) Same as item (1) except shipment to be made to Friant on Government bills of lading.

Complete bids follow:

Western Pipe & Steel Co., San Francisco—(1) \$3,350, shipping point, South San Francisco; (2) \$3,290.00, shipping point, South San Francisco.

California Steel Products Co., San Francisco—(1) \$3,338; shipping point, San Francisco; (2) \$3,338; shipping point, San Francisco.

Pittsburgh-Des Moines Steel Co., San Francisco—(1) (a) \$4,994; delivery, Neville Island, Pittsburgh; (b) \$5,258; delivery, Des Moines, Iowa; (2) (c) \$4,644; shipping point, Neville Island, Pittsburgh; (d) \$4,722; shipping point, Des Moines, Iowa.

Work shall be commenced within 15 calendar days and completed within 100 calendar days from the date of receipt of notice to proceed.

A. M. Torpen, division engineer in charge at Friant; T. R. Smith, division office engineer.

**CONTRA COSTA CO., Cal.**—Haas-Doughty & Jones and Marshall & Stacy, 1104 Merchants Exchange Bldg., San Francisco, at \$102,646, submitted low bid to the Bureau of Reclamation, Walker R. Young, Construction Engineer, 206 Old Post Office Bldg., Sacramento, under Spec. No. 719, for the construction of earthquake and structures, Station 2 to Station 208 plus 50, Contra Costa Canal, Contra Costa Division, Central Valley Project.

The work comprises construction of about 3.9 miles of open canal and is located near Oakley. The complete canal will be about 40 miles in length and is estimated to cost \$3,120,000, and will have a capacity of 275 second-feet.

The work involves:

- (1) 640,000 c.y. excavation for canal
- (2) 5,000 c.y. excavation for pipe trenches and for structures, except siphons;
- (3) 31,000 c.y. excav. for siphons
- (4) 5,000 sta. c.y. overhaul
- (5) 35,500 c.y. backfill about struc.;
- (6) 900 c.y. puddling or tamping backfill about structures;
- (7) 1,425 c.y. concrete;
- (8) 202,000 lbs. placing reinf. bars;
- (9) 75 sq. yds. dry-rock paving;
- (10) 753 c.y. gravel fill under siphons
- (11) Driving 4,360 lf. of timber piles
- (12) Erecting 123 MFEM timber in structures;
- (13) Laying 2,070 lf. 16-in. diameter concrete pipe;
- (14) Installing 70,300 lbs. steel pipe, 18- and 30-in. dia.;
- (15) Installing 1,600 lbs. misc. metal work.

Complete total bids follow:

- (A) Haas-Doughty & Jones and Marshall & Stacy, San Francisco .....\$102,646.00
- (B) J. P. Immel, Ventura, 108,423.00
- (C) Piombo Bros. & Co., San Francisco ..... 116,430.00

Unit bids follow:

SACRAMENTO—Engineering Shops and Repair Docks—(Govt.)

February 26, 1937.

SHOPS & REPAIR DOCK  
 Cost, \$1,500,000  
 SACRAMENTO CO., Calif.  
 Army Air Corps Supply Depot, near  
 North Sacramento.

One-story reinforced concrete and steel Engineering Shop and Repair Docks (880 x 600 ft.); the building will be about 90 feet high with 50 ft. clearance under trusses; walls and footings will be of reinforced concrete; asbestos metal-protected roof over repair docks, built-up roof with flat deck over engineering shop part; doors will be 250x40 ft. in repair dock and 122x40 ft. in engineering shop.

Owner—U. S. Government (Major Arthur W. Parker, Constructing Quartermaster, Old Post Office Terminal Bldg., Sacramento).

Plans prepared by the office of the Quartermaster General, Construction Division, Washington, D. C.  
 Low Bidder—MacDonald & Kahn Co., Ltd., 200 Financial Center Bldg., S. F.—\$1,589,851.

Bids were taken as follows:

(1)—Construction and completion of the Air Corps Engineering Shop and Repair Docks, including utilities thereto.

(2)—(Bid A) Roofing—If tar type built-up roof is omitted and asphalt type built-up roof is substituted, add or deduct from Item 1.

(3)—(Bid B) Roofing—If aluminum coping sheets, corrugated gable sheets and connecting extruded shapes are omitted and stainless steel substituted, add or deduct from Item 1.

(4)—Skylight Glass—If plain corrugated wire skylight glass in skylights over repair Docks and Operations and Maintenance hangar is omitted and actinic corrugated wire skylight glass is substituted, add or deduct from Item 1.

(5)—Glass Blocks—If fixed steel sash 12 ft. 3/4 in. by 15 ft. 10 in. and 12 ft. 3/4 in. x 32 ft. 0 in. approximate size opening in exterior concrete walls are omitted and glass blocks substituted therefor, add or deduct from Item 1.

(6)—(Bid A) Glass in exterior windows, fixed and pivoted. If fixed

and pivoted steel windows with approximately 14 in. by 20 in. rough flat wire glass lights are omitted and fixed and pivoted steel windows divided into approximately 24 in. by 4 in. flat rough wire glass lights with aluminum cover caps, bolts, clips and other necessary items are substituted therefor, add or deduct from Item 1.

(7)—(Bid B) Glass in exterior windows, fixed and pivoted—If fixed and pivoted steel windows with approximately 14 in. by 20 in. flat rough wire glass lights are omitted and fixed and pivoted windows divided into approximately 28 in. by 4 1/8 in. corrugated wire glass lights with aluminum joint and jamb cover caps, inner strips, bolts, clips and other necessary items are substituted, add or deduct from Item 1.

(8)—(Bid A) Glass in main sliding doors—If fixed steel sash inserts with approximately 14 in. by 20 in. flat rough wire glass lights are omitted and fixed steel inserts divided into approximately 24 in. by 4 1/8 in. flat rough wire glass lights with aluminum caps and fittings are substituted, add or deduct from Item 1.

(9)—(Bid B) Glass in main sliding doors—If fixed steel sash inserts with approximately 14 in. by 20 in. flat rough wire glass lights are omitted and fixed aluminum sash inserts divided into approximately 28 in. by 4 1/8 in. corrugated wire glass lights with aluminum caps, strips and fittings are substituted, add or deduct from Item 1.

(10)—(Bid C) Glass in exterior doors other than main sliding—If steel sash inserts with approximately 14 in. by 20 in. rough wire glass lights are omitted and fixed steel sash inserts divided into approximately 24 in. by 4 1/8 in. flat rough wire glass lights with aluminum caps and fittings are substituted, add or deduct from Item 1.

(11)—(Bid D) Glass in exterior doors other than main sliding—If fixed steel sash inserts with approximately 14 in. by 20 in. flat rough wire glass lights are omitted and fixed aluminum sash inserts divided into approximately 28 in. by 4 1/8 in. corrugated wire glass lights with

aluminum strips, caps and fittings are substituted, add or deduct from Item 1.

(12)—Unit Prices—The contractor shall submit unit prices in the following schedule for all items listed below, to be used in making deductions from or additions to the contract amount, unit prices shall include the furnishing of all labor and material, complete in place unless otherwise noted:

- (a) Earth excavation, per c.y.;
- (b) Rock excavation, per c.y.;
- (c) Wet excavation, per c.y.;
- (d) Type A concrete, including forms, per c.y.;
- (e) Type B concrete, including forms, per c.y.;
- (f) Structural steel, per ton;
- (g) Reinforcing steel, per ton;
- (h) Brick in walls, per M.;
- (i) Change in wire glass;
- (j) Change in wire glass;
- (k) 8-in. tile partitions, per sq. ft.;
- (l) 12-in. tile partitions, per sq. ft.

Total bids follow:

- (A) MacDonald & Kahn Co., San Francisco: \$1,589,851; begin in 5 days; finish in 500 days.
  - (B) Eaton & Smith, San Francisco: \$1,595,000; begin in 30 days; finish in 600 days.
  - (C) Clinton Const. Co., San Francisco: \$1,607,000; begin in fifteen days; finish in 500 days.
  - (D) Robert E. McKee, Los Angeles: \$1,617,000; begin in 15 days; finish in 700 days.
  - (E) N. P. Severin, Chicago: \$2,000,000, bid modified by telegraphic deduction of \$377,000, making a net total of \$1,623,000; begin in 30 days; finish in 400 days.
  - (F) George Wagner and K. E. Parker Co., San Francisco: \$1,652,000; begin in 90 days; finish in 500 days.
  - (G) Barrett & Hilp, San Francisco, and A. Teichert & Son, Inc., Sacramento: \$1,674,000; begin in 10 days; finish in 600 days.

\*Additional unit bid submitted by R. E. McKee's stripping top soil, minus \$9.20 plus \$9.30.  
 \*\*Bid modified throughout by telegram. Figures listed are those after telegraphic corrections made.  
 All bids forwarded to the office of the Quartermaster General, Washington, D. C., for award (1404) 1st report January 25, 1937.

# MACHINERY & MATERIAL

Bid calls for construction machinery and materials and miscellaneous equipment and supplies purchased by Federal, State, Municipal and other P

ery and materials and miscellaneous equipment and supplies purchased by federal agencies.

## WAR DEPARTMENT

**FORT MASON.**—Until March 11, 10 a. m., bids will be received by the Quartermaster Supply Officer, San Francisco General Depot, Fort Mason, under Bid No. 928-37-304, for furnishing wire nails, fibre boxes, tin cans, baling rope, tone wire, barrels, liners, strapping, silicate of soda, packing boxes, etc.

Specifications obtainable from the above office.

**SAN FRANCISCO.**—Until March 9, 3 p. m., bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-37-188, for furnishing paint, turpentine, thinner, white lead, enamel, pigments, etc.

Delivery f.o.b. Pier 3½, San Francisco Waterfront.

Specifications obtainable from the above office.

**FORT MASON.**—Until March 10, 10 a. m., bids will be received by the Constructing Quartermaster, Ft. Mason, under Bid No. W 6616-37-67, for furnishing 450 tons base rock, 2 in. and smaller; 450 tons rock for second course, 1½-in. and smaller; and 300 tons pre-mixed asphalt top coat.

Delivery f.o.b. Benicia Arsenal, Benicia.

Specifications obtainable from the above office.

**FORT MASON, Cal.**—Until Mar. 10, 11 A. M., bids will be received by the Constructing Quartermaster, Ft. Mason, under Bid No. W 6616-37-68, for furnishing 100 c. y. ready-mixed concrete.

Delivery fob San Francisco National Cemetery, Presidio of S. F.

Specifications obtainable from the above office.

**SAN FRANCISCO.**—Until March 9, 3 P. M., bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-37-191, for furnishing steel and brass wood screws, nails, brads, tacks, eschechon pins, gaskets, packing, etc., for the U. S. Dredge Multnomah.

Delivery fob Pier 3½, San Francisco Waterfront.

Specifications obtainable from the above office.

**SAN FRANCISCO.**—Until March 9, 3 P. M., bids will be received by the U. S. Engineer Office, Lieut.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, under Bid No. 868-37-190, for furnishing miscellaneous hardware and pipe fittings for the Dredges Multnomah and H. M. Adams.

Delivery fob Pier 3½, San Francisco Waterfront.

Specifications obtainable from the above office.

**SACRAMENTO, Cal.**—Until March 9, 3 P. M., bids will be received by the U. S. Engineer Office, Lieut.-Col. L. B. Chambers, District Engineer, 208 Post Office Bldg., Sacramento, for furnishing and delivering 15,000 tons of riprap stone at various points along the Sacramento river between the vicinity of the mouth of Cache Slough and Collinsville.

Specifications obtainable from the above office.

**SACRAMENTO, Cal.**—Until March 9, 3 P. M., bids will be received by the U. S. Engineer Office, Lieut.-Col. L. B. Chambers, District Engineer, 208 Post Office Bldg., Sacramento, under Bid No. 1105-37-169, for furnishing 3,600 FBM Douglas fir lumber.

Delivery fob Rio Vista.

Specifications obtainable from the above office.

**FORT MASON.**—Until March 17, 10 a. m., bids will be received by the Constructing Quartermaster, Ft. Mason, under Bid No. W 6616-37-71, for furnishing 100 sacks portland cement and 75 tons sand for concrete, fine aggregate.

Delivery f.o.b. Fort Baker.

Specifications obtainable from the above office.

**SACRAMENTO.**—Until April 8, 3 p. m., bids will be received by the U. S. Engineer Office, Lieut.-Col. L. B. Chambers, District Engineer, 208 Post Office Bldg., Sacramento, under Bid No. 8392/C.P., for the sale of certain materials, including fire extinguishers, forges, hose, torches, wheelbarrows, ropes, scrap brass and iron, dragline bucket, discharge pipe, etc.

The articles to be sold are at the present time at the U. S. Engineer Storehouse, grounds and wharf, at Rio Vista, where they may be inspected by interested parties.

## Eastbay Yard Rail Superstructure Bids March 31; Sierra Grading Is Advertised

SACRAMENTO, March 9.—Second contract for the Eastbay Yard facilities for the San Francisco-Oakland Bay Bridge rail service was advertised for bids today by the State Department of Public Works here. Proposals will be opened in San Francisco March 31.

The department today also called for bids on two other projects, located in Sierra and San Diego counties.

The bridge railway job advertised today involves construction of the Eastbay Yard superstructure for bridge railway facilities. Substructure is to be constructed by Bates & Rogers, recently awarded the contract for that portion of the work.

### May Eliminate Overhead

As in the substructure contract, the department reserves the right to eliminate entirely the items covering construction of the Port of Oakland overhead.

Major items include 1,310,000 pounds of structural steel in the Southern Pacific overhead and Twenty-sixth street crossings; 1,400,000 pounds structural steel in catenary bridges; and 1,700,000 pounds structural steel in the Port of Oakland overhead.

The Sierra county project, for which bids will be opened March 31 in Sacramento, involves grading, surfacing and applying oil treatment to 3.9 miles between Goodyear's Bar and Downieville.

### Southern Overpass

Bids will be opened by the State Highway Engineer in Los Angeles April 1 for construction of an overhead crossing over the Atchison, Topeka & Santa Fe tracks near Solana Beach, San Diego Co. Work includes construction of a reinforced concrete bridge and grading and surfacing about one-tenth of a mile of roadway.

### ORDERS AT PEAK

Unfilled orders for electrical goods at December 31, 1936, were the highest since December 31, 1929, Westinghouse Electric and Manufacturing Company reports in its quarterly bulletin. The unfilled order file at the end of 1936 stood at \$48,490,919, the firm reported.

## MANY BIDDERS FIGURE STATE HIGHWAY JOBS

Bridges, Grading Contracts  
Draw Long List of  
Proposals

SACRAMENTO, Mar. 10.—Bids on two contracts were opened here today by the State Division of Highways, with a total of 26 proposals submitted for the two contracts.

Longest list of bidders was attracted by a 4.6 mile-grading and surfacing project in San Joaquin and Stanislaus counties between Vernalis and Gates Road. Fifteen proposals were received for this contract, the lowest being that of Basich Bros., 20530 Normandie avenue, Torrance, at \$46,285.

Second and third low bidders, respectively, were A. Teichert and Son, Inc., Sacramento, at \$48,762; and Leo F. Piazza, San Jose, at \$49,393.

### Four Bridges

Ten contractors submitted bids for construction of four reinforced concrete bridges in Glenn county about four miles east of Butte City. Low bidder was Chas. Kuppinger, Box 356, Lakeport, with a proposal of \$48,289.

Second and third low bidders for the bridge contract were F. O. Bohnett, San Jose, at \$52,208; and Frederickson & Watson Construction Corp. and Frederickson Bros., Oakland, at \$53,458.

Bidding range on the bridge contract was nearly \$20,000, and on the grading and surfacing job about \$19,000.

With few state highway projects advertised recently, bidding on the division's work became the center of interest for many contractors, a large number of whom are expected to figure contracts which Chief Engineer C. H. Purcell authorized advertised yesterday.

New orders for oil burners taken during December, 1936, amounted to 11,135, a substantial increase over the total of 7,765 for the same month in 1935, the Bureau of Census reports.

## BELL LOWEST BIDDER FOR GRADING JOB

Figures Work at \$398,860;  
Bids Lacking For the  
Second Contract

Ralph A. Bell, Sherlock building, Portland, yesterday submitted the lowest of two bids to the U. S. Bureau of Public Roads in San Francisco for grading about four miles in Fresno and Tulare counties. Total amount of Bell's proposal was \$366,191.

Only other bidder for the big contract was D. W. Thurston of Los Angeles, who submitted a bid of \$398,860.

The project is located on Section A of the Fresno - General Grant Park Approach road, Sequoia National Forest.

### Excavation Big Item

Major bidding item was 304,000 cubic yards of unclassified road-way excavation. On this item Bell's unit price was \$1.03 per cubic yard while Thurston's bid was \$1.15.

A second contract, for which proposals were to have been opened by District Engineer C. H. Sweetser today, went begging when no bids were received. It called for placing a bituminous treated crushed rock base course on Route 1, the Generals Highway, General Grant National Park, and on Section C and a portion of Section B of the General Grant-Sequoia Park approach road in Tulare and Fresno counties. Length of the project is about 6.13 miles.

### CLASS IN GEOLOGY

A University of California Extension course, General Geology, will open in Oakland, 1730 Franklin street, Thursday, April 15.

## MAP \$1,850,000 PROJECTS FOR COMING YEAR

Bureau Lists 10 California,  
One Nevada, Seven  
Arizona Jobs

Projects in the \$1,850,000 National Forest Highway Program for California, Arizona and Nevada for the fiscal year 1937-38, beginning July 1, as approved by Secretary of Agriculture Wallace, were revealed by the Bureau of Public Roads yesterday.

The bulk of the allotment goes to California for the maintenance of about 66 miles of forest highways and ten construction projects costing from \$6,000 to \$250,000. Arizona will receive \$494,377 for seven projects.

To Nevada goes \$154,723 for the maintenance of 25 miles of forest highway, and the grading of Section B of the Owyhee River project. The Owyhee River project will cost approximately \$140,000, and will consist of grading five miles of highway northward to Section A.

California and Arizona projects, including estimated costs, follow:

### CALIFORNIA

27-B1,C1-Sieraville-Hobart, \$70,000. Base course abutting of Sections B and C, 7.95 miles.

73-C1,D1,E2-Laguna, \$30,000. Allotment to be used with 1937 funds for bituminous surface treatment (road mix) of the existing disintegrated gravel material on the three sections, 14.3 miles.

81-A2,E2-Mammoth Lakes, \$50,000. Additional selected material where needed and for bituminous surface treatment (road mix) of the existing material on Sections A and B, approximately 9 miles.

74-A7-North Fork, \$60,000. Additional liquid asphalt road material on existing surface of Section A, approximately 4.3 miles.

77-D4,E4,H2-Mount Shasta - Mount Lassen, \$115,000. Armor coat surfacing of section, approximately 23 miles.

7B-Mendocine Pass, \$40,000. To continue day labor improvement now underway. Clearing and grading about six miles of roadway.

28-D-Sonora Pass, \$120,000. Grading and construction of a bridge on Section B between Pinchurst and Strawberry, about 1.8 miles.

61-D-Angles Crest, \$185,000. To continue grading of route. Exact section and amount of work to be determined by funds available.

77-J-Mt. Shasta-Mt. Lassen, \$250,000. Grading of the remaining uncompleted section between Four Corners and Clayton, including construction of a bridge over Lake Britton "Narrows", approximately 5 miles.

87-A-Clarks Fork, \$200,000. Grading and construction of three bridges on six mile section from south terminus of route to a point near Arnot Creek, with consideration of construction to Iceberg Meadow, approximately three miles, if funds permit.

## LET ENGINEERING SHOP CONTRACT

SACRAMENTO, March. 10.  
—Contract for construction of the engineering shops and repair dock at the \$7,000,000 Sacramento Army air depot was awarded today to MacDonald & Kahn Co., Ltd., 200 Financial Center building, San Francisco. Major Arthur W. Parker, constructing quartermaster, announced. Contract price is \$1,583,251.

The firm's low basic bid for the work was \$1,589,851. Final contract price was determined by selection of alternates, deductions being made for an alternate type of roofing, and for variation in glass in exterior doors. Nine bidders submitted proposals for the work last month.

## Board Will Hold Two-Day Meeting

The Contractors' State License Board will hold its regular meeting in Sacramento next week, Registrar Earl Anderson reported yesterday. The board will meet Friday and Saturday, March 19 and 20, Anderson said.

The meeting will be the first which Clarence Eaton, new board member, will attend in his official capacity. He was appointed recently to complete the unexpired term of Warren G. Bechtel, who resigned.

### ARIZONA

3-E-Flagstaff-Clints Well, \$60,000. Section D is now under construction. Extending construction 4 miles to south end of Mormon Lake. The project will consist of grading and installing drainage structures.

7-B1-Oak Creek, \$75,000. Construction of Wilson Canyon Bridge and approaches.

11-E-Payson - Colcord Mountain, \$50,000. For construction of Tonto Creek Bridge and approaches, and grading and draining roadway as far west from Tonto Creek as funds permit.

19-B3-Clifton-Alpine, \$35,000. Section B2 under construction. Continue grading and draining additional section about three miles in length.

28-C3-D2-Fredonia-Houserock Valley, \$55,000. Light surface treatment of asphaltic road material on Sections C and D of the route about 16.5 miles in length. The proposed work is from Jacobs Lake to north forest boundary.

30-A2,B2,C1-Globe-Show Low, \$65,000. Section C under construction. Placing heavy gravel base course on Section C and previously constructed Sections A and B with the intent of bringing these sections of this important highway to a high stage of construction.

33-unit 1-Catalina Highway, \$70,000. To augment present balances on the project which will be expended in extending the present grading and draining work on the first unit.

## ACTION SOON ON AMENDMENT TO WAGE RULE

Amendment Would Require  
City To Pay Scale When  
Bidding Work

City employees will be paid the prevailing wage scale on jobs for which city departments bid against private contractors if an amendment to the contract procedure ordinance, approved by the San Francisco Board of Supervisors at first reading, Monday, is given final approval.

The ordinance reads, in part: "Appropriate City and County Departments may file sealed bids for execution of any work to be performed under a contract . . . If the bid of a City and County Department, as investigated and approved by the Controller, is the lowest, the contract shall be awarded to the department . . ."

The amendment passed at first reading by the Supervisors states: "Provided that in the execution and performance of any contract awarded to a city department under the provisions of Section 95 of the Charter, not less than the wage scale fixed by the Board of Supervisors in the Prevailing Wage Resolution in effect at the time of the award of such contract shall be paid to employees performing work under such a contract."

### Approved by Committee

The amendment was placed before the Finance Committee by Controller Levy last Friday, and approved by them. It must be approved by the Supervisors at second reading and final passage, and signed by the Mayor before becoming effective.

Coincident with the approval of the amendment, the San Francisco Civil Service Commission held a meeting to discuss changes in the wage scales now in effect for various city departments. Doubt is expressed in some quarters that it will be permissible to pay workers in the building and streets departments of the city under two different wage scales; one for city work and the other for work on jobs in which the city was the successful bidder against private contractors.

## PUBLISH HISTORY OF REFRIGERATION

"Yesterday and Today in Refrigeration," a 15-page booklet containing a brief survey of the principles and history of refrigeration, together with an explanation of the operation of a modern electric refrigerator, is a recent publication of the Temperature Research Foundation, a division of Natch-Kelvinator Corp., 420 Lexington avenue, New York City. Copies of the booklet may be obtained without charge upon application to the foundation.
